A RESOLUTION

23-152

IN THE COUNCIL OF THE DISTRICT OF COLUMBIA

July 9, 2019

To declare the existence of an emergency, due to congressional review, with respect to the need to approve measures that are necessary to support action taken on the District's Fiscal Year 2020 Budget and Financial Plan.

RESOLVED, BY THE COUNCIL OF THE DISTRICT OF COLUMBIA, That this resolution may be cited as the "Fiscal Year 2020 Budget Support Congressional Review Emergency Declaration Resolution of 2019".

Sec. 2. (a) On June 25, 2019, the Council passed the Fiscal Year 2020 Budget Support Emergency Act of 2019, effective July 22, 2019 (D.C. Act 23-91; 66 DCR 8497) ("Emergency Act"), which enacted and amended provisions of law necessary to support the Fiscal Year 2020 Budget and Financial Plan and will expire on October 20, 2019.

(b) On June 18, 2019, the Council passed the Fiscal Year 2020 Budget Support Act of 2019, enacted on July 22, 2019 (D.C. Act 23-92; 66 DCR 8621) ("Permanent Act"), which is substantially similar to the Emergency Act.

(c) The congressional review period for the Permanent Act will create a gap in authority between expiration of the Emergency Act and the effective date of the Permanent Act. This congressional review emergency act is necessary to avoid that gap in the implementation of the Fiscal Year 2020 Budget and Financial Plan.

Sec. 3. The Council of the District of Columbia determines that the circumstances enumerated in section 2 constitute emergency circumstances making it necessary that the Fiscal Year 2020 Budget Support Congressional Review Emergency Act of 2019 be adopted after a single reading.

Sec. 4. This resolution shall take effect immediately.

DEPARTMENT OF EMPLOYMENT SERVICES

NOTICE OF FINAL RULEMAKING

The Director of the Department of Employment Services, pursuant to the authority in Section 303 of Title III-A of the Sustainable DC Omnibus Amendment Act of 2014 (Act), effective December 17, 2014 (D.C. Law 20-142; D.C. Official Code § 32-153 (2012 Repl. & 2018 Supp.)) and Mayor's Order 2016-004, dated January 12, 2016, gives notice of the adoption of the following rules to add a new Chapter 33 entitled "Transit Benefit Programs" to Title 7 (Employment Benefits) of the District of Columbia Municipal Regulations (DCMR).

The new chapter establishes a transit benefit program for covered employers. The purpose of the Act is to reduce single occupancy vehicle use by encouraging employers to provide transit benefits to their employees, and to establish policies and procedures to ensure that covered employers provide commuter benefits to their employees consistent with the requirements established under the Act.

Under Section 302 of the Act, covered employers, *i.e.*, those with twenty (20) or more employees, are required to provide at least one (1) of three (3) transit benefit options to their employees. The rulemaking provides penalties, pursuant to the Department of Consumer and Regulatory Affairs Civil Infractions Act of 1985, effective October 5, 1985 (D.C. Law 6-42; D.C. Official Code §§ 2-1801.01 *et seq.* (2016 Repl. & 2018 Supp.)), for covered employers who fail to offer at least one (1) transportation benefit program. The penalties will go into effect when the rulemaking becomes effective.

The Director published a Notice of Proposed Rulemaking in the *D.C. Register* on September 15, 2017, at 64 DCR 009083. Comments were received regarding those proposed rules. In response to comments received, the Department eliminated the previously proposed Section 3305 (Collective Bargaining Agreements); incorporated references to Section 132(f) of the Internal Revenue Code for clarifying definitions; eliminated bicycle benefits inconsistent with Section 132(f)(8) of the Internal Revenue Code; and revised offense penalty amounts. A Notice of Second Proposed Rulemaking was published in the *D.C. Register* on August 17, 2018, at 65 DCR 008567. No comments were received, but DOES made technical and clarifying changes to certain provisions. Specifically: (1) the statutory citation in Subsection 3300.1 was corrected; (2) a statutory citation was added to Subsection 3301.1; (3) Subsections 3302.1 and 3302.2 were revised to clarify that a covered employer shall be subject to fines and civil penalties when the employer fails to offer at least one (1) transit benefit program to each of its covered employees and to correct, revise, and add citations; (4) Subsection 3302.3 was added to clarify how fines will be assessed against covered employers; (5) Subsection 3303.5 was revised to correct the statutory citation; and (6) Subsection 3399.1 was revised to correct a grammatical error in the definition of the term "employee" and to add the phrase "in the District of Columbia" to the definition of the term "employer".

The Director adopted these rules as final on August 2, 2019, and they shall become effective on the date of publication of this notice in the *D.C. Register*.

**CHAPTER 54 BOARD OF ETHICS AND GOVERNMENT ACCOUNTABILITY:
ADVERSARIAL HEARINGS, APPEALS, AND ADVISORY OPINIONS**

5401 ADVERSARIAL HEARING

5401.1 After determining that there is reason to believe a violation has occurred based upon the presentation of evidence by the Director pursuant to § 5301.2 or § 5302.5, the Board shall conduct an open and adversarial hearing at which the Director of Government Ethics shall present evidence of the violation. The Director may delegate the presentation of evidence to the General Counsel or other lawyer employed by the Board.

5401.2 A hearing need not be conducted if a matter is dismissed pursuant to § 5403, or is the subject of a negotiated disposition under chapter 59 of this title.

5401.3 If the Director fails to present a matter, or advises the Board that insufficient evidence exists to present a matter or that an additional period of time is needed to investigate a matter further, the Board may nonetheless order the Director to present the matter as provided in § 5401.1.

5401.4 Any hearing under this section shall be on the record and shall be held in accordance with the District of Columbia Administrative Procedure Act, approved October 21, 1968 (82 Stat. 1204; D.C. Official Code §§ 2-501 *et seq.*).

5405 ADVISORY OPINIONS

5405.1 Upon application made by an employee or public official subject to the Code of Conduct, the Board or the Director shall, within a reasonable period of time, provide an advisory opinion as to whether a specific transaction or activity inquired of would constitute a violation of a provision of the Code of Conduct over which the Board has primary jurisdiction.

5405.2 An advisory opinion shall be published in the District of Columbia Register within thirty (30) days of its issuance; provided, that the identity of a person requesting an advisory opinion shall not be disclosed in the District of Columbia Register without the person’s prior consent in writing. Such informal advice or guidance need not be published in the District of Columbia Register and does not provide the employee with protections described in § 5405.3.

5405.7 The Director of Government Ethics may issue, on his or her own initiative, an advisory opinion on any general question of law he or she considers of sufficient public importance concerning a provision of the Code of Conduct over which the Board has primary jurisdiction. Before an advisory opinion is issued under this subsection, the Director of Government Ethics shall publish a notice of the proposed advisory opinion in the District of Columbia Register and provide a public-comment period of at least 30 days, during which a person may submit information or comment on the proposed advisory opinion. An advisory opinion that does not meet the procedural requirements of this paragraph shall be void ab initio.

5405.8 If an advisory opinion is issued by the Director of Government Ethics in response to a request for an advisory opinion, the requesting employee or public official may appeal the opinion for consideration by the Board. If the Director of Government Ethics issues an advisory opinion on his or her own initiative, an employee or public official aggrieved by the opinion may appeal the opinion for consideration by the Ethics Board.

5509.3 If a respondent is without knowledge or information sufficient to form a belief as to the truth of an averment, he or she shall so state. This statement shall have the effect of a denial.

Upon receipt of such written order, the agency must provide the Director with copies of all such documents and any rebuttal evidence within five (5) business days of receipt thereof.
- 5709.7 The Director shall issue a written decision on the appeal within five (5) business days of receipt of the record and rebuttal evidence from the agency, unless the Director believes that oral argument is warranted.

DISTRICT DEPARTMENT OF TRANSPORTATION

NOTICE OF FINAL RULEMAKING

The Director of the District Department of Transportation (DDOT), pursuant to the authority in Sections 3(b), 5(a)(3)(Q) (allocating and regulating on-street parking), 6(b) and (c) (transferring certain transportation related functions to DDOT), and 7 (delegating and re delegating all transportation related authority to DDOT) of the Department of Transportation Establishment Act of 2002, effective May 21, 2002 (D.C. Law 14-137; D.C. Official Code §§ 50-921.02(b), 50-921.04(a)(3)(Q), 50-921.05(b) and (c), and 50-921.06 (2014 Repl. & 2018 Supp.)), and Section 6(a)(1), (a)(6), and (b) of the District of Columbia Traffic Act, approved March 3, 1925 (43 Stat. 1121; D.C. Official Code § 50-2201.03(a)(1), (a)(6), and (b) (2014 Repl.)), hereby gives notice of this action to adopt rules that amend Chapters 24 (Stopping, Standing, Parking, and Other Non-Moving Violations), 26 (Civil Fines For Moving And Non-Moving Infractions), and 99 (Definitions) of Title 18 (Vehicles and Traffic) of the District of Columbia Municipal Regulations (DCMR).

These regulations will: (1) revise and add definitions to related terms identified in this rulemaking; (2) clarify the criteria for the modification of residential permit parking (“RPP”) and resident-only parking restrictions on established RPP streets; (3) establish a fine for parking unlawfully in a resident-only parking area without a visitor parking permit or annual visitor parking pass; (4) remove any provisions in Chapter 24 with location-specific details; (5) update citations to violations in Chapter 26 of Title 18 DCMR; (6) repeal Section 2403, Emergency Parking Permits; (7) include parking meters as a traffic control device to indicate the times that parking, stopping, or standing applies according to Chapter 24; (8) add a no parking, stopping, or standing with no sign required reference for a shared use path; and (9) repeal references to specific visitor permits issued to residents in Performance Parking Pilot Zone.

A Notice of Proposed Rulemaking was published in the *D.C. Register* at 63 DCR 10480 (August 12, 2016); in response to comments, a Notice of Second Proposed Rulemaking was published on October 12, 2018 at 65 DCR 11504.

DDOT received public comments from three commenters and two Advisory Neighborhood Commission (ANC) resolutions.

Public Comments

Commenters submitted the following germane recommendations: (1) resident-only RPP parking should be in operation 24 hours a day/7 days a week in high-demand areas of the city; (2) DDOT should prioritize residents’ parking needs when applying criteria for resident-only parking determinations; and (3) DDOT should explicitly define “resident-only” to clarify who may park in those zones. These suggestions are addressed below.

Regarding the first recommendation, extending RPP hours overnight is currently not a feasible policy given the operational and resource strain that it would impose on enforcement agencies. Enforcement at that level would impose a significant fiscal impact.

In response to the second recommendation, DDOT believes that parking needs of residents are sufficiently addressed in the proposed regulations through the ANC petition system for resident-only parking zones.

Regarding the third recommendation, this final rulemaking clarifies the definition of “resident-only” to eliminate any confusion. A definition of “resident-only parking” has been added to 18 DCMR § 9901.

One commenter expressed support for the resident-only criteria as it pertains to “major traffic generators.”

Finally, one commenter sought clarification on the meaning of § 2414.11 as amended, which refers to annual visitor parking pass eligibility for residents in an enhanced residential permit parking (“ERPP”) area. DDOT is clarifying that the provision in § 2414.11 that refers to annual visitor parking passes should be read in conjunction with § 2414.9, a provision that this rulemaking does not amend. Thus, this rulemaking does not impact a resident’s eligibility to receive an annual visitor parking pass. The final rulemaking contains new clarifying language in § 2414.11 to highlight this connection.

ANC 2B Resolution

The resolution from ANC 2B expressed opposition to resident-only parking as general District policy. The ANC did, however, support the rulemaking’s reduction of these zones to a five (5) block minimum, as compared to the ANC-wide minimum zone proposed under the First Proposed Rulemaking. The resolution also specifically notes that the ANC is working with DDOT on a series of recommendations from a curbside management study from July 2018.

DDOT will continue to work with the ANC on addressing the recommendations made via their resolution in July, 2018. Regarding the general opposition to resident-only parking zones, the agency has determined that this policy furthers curbside management objectives. DDOT has received requests for resident-only parking zones from other ANCs.

ANC 6C Resolution

The resolution from ANC 6C expressed concern with the criteria and standards for resident-only designation of RPP zones, mechanisms for reviewing ANC applications, clarity over whether temporary visitor permits would qualify for resident-only parking, tension between residential and non-residential uses in potential resident-only RPP zones, the provision restricting parking on sidewalks, and the provision allowing vehicles with RPP stickers to park within 25 feet of an intersection. The resolution also asked DDOT to add a provision limiting vehicles to thirty (30) days’ worth of temporary visitor parking permits in any one (1) year period. These points are addressed in order below.

The resolution suggested that the language in § 2437.1(b), which requires a majority of blocks within the requesting ANC to be designated as RPP blocks before a petition can be made to DDOT for resident-only status, is ambiguous and confusing. The subsection is meant to require at least fifty-one percent (51%) of blocks within the ANC to be designated as RPP blocks for at least one (1) year before such a petition can be made. This is the intent of the program, since

blocks that are not yet designated as RPP blocks are not eligible to become resident-only blocks. DDOT requires residential streets with parking difficulties to petition for RPP status as a first attempt to alleviate the difficulties. ANC's that do not meet this standard will first need to obtain RPP status on a majority of its blocks before a resident-only request can be made.

The resolution also suggested that the introductory language in § 2437.1 contained an erroneous reference to designating "all blocks" as resident-only RPP blocks as a possible holdover from the First Notice of Proposed Rulemaking. However, the language in the introductory paragraph of the subsection does not require all blocks to be designated as resident-only blocks, and the reference to "all" blocks in § 2437.1(a) allows the ANC to petition for "all *or a portion of* blocks" to be resident-only. The subsection is drafted as intended.

The ANC was also concerned with the evaluation schedule for ANC petitions for resident-only status. The language in § 2437.7 sets a biannual review schedule and does not mandate a schedule or frequency for ANC submission. Further specificity in the schedule or frequency is unnecessary to add to the regulatory text as it will be communicated to ANC's through the normal channels of communication as well as via the DDOT website.

The ANC suggested that the rulemaking is unclear whether temporary visitor parking permits are effective in resident-only parking zones alongside RPP stickers and annual visitor parking passes. DDOT agrees that the language in § 2432.1(b) and § 2439.1 found in the proposed rule is unclear. DDOT has updated the language in § 2432.1(b) to align with § 2439.1. This clarification also aligns with DDOT's standard operating procedure of treating temporary visitor parking permits the same as annual visitor parking passes for purposes of RPP and resident-only parking privileges.

The resolution also questioned the criteria for implementation of resident-only parking zones and the treatment of non-residential uses in residential zones. Specifically, the resolution asks that the RPP eligibility determination for blockfaces adjacent to places of worship, healthcare facilities, schools, parks, or recreational facilities be restricted to the portion of the curb that directly abuts the property, rather than applying to the entire block on which the property rests. However, RPP designation is performed at the blockface level, which means that any determination affecting a portion of the block will affect the entire block (except in the case where part of the block is metered).

In addition, the resolution suggested that higher parking demand from these non-residential uses should be a factor in favor of resident-only parking zones, rather than against. However, the regulatory structure concerning the specific non-residential uses found in the rulemaking is intended to ensure that at least some parking will be available to visitors from outside of that RPP zone who wish to access that amenity or public facility. DDOT also notes that the determination only impacts the blockface on which the property rests, and so the number of spaces affected by this provision is physically very limited.

The resolution recommended the removal of the proposed § 2405.7, which would prohibit the parking of a vehicle within a sidewalk where the sidewalk intersects a legal driveway. The ANC's objection is based on potential enforcement difficulties arising from the inclusion of a

reference to zoning regulations that define a legal driveway. However, the reference to Title 11-C only serves to clarify residential parking standards—something that will not impact the operations of DPW parking enforcement officers.

The ANC recommended changes to § 2440.2, which allows vehicles with RPP stickers for the proper zone to be parked slightly closer to intersections than non-RPP vehicles. This provision was intended to provide another way to relieve a small amount of pressure on neighborhood parking stock by providing one to two additional parking spaces per blockface. However, the resolution stresses the potential dangers associated with having vehicles parked closer to crosswalks, reducing the sight lines of pedestrians, bicyclists, and approaching drivers. DDOT takes seriously the safety concerns expressed by the ANC and has therefore removed § 2440.2 and § 2440.3 from this final rulemaking. The result is that all vehicles must be parked within the area designated by signage, where applicable, and are otherwise subject to the general parking distance standards already found in 18 DCMR § 2405.2.

Finally, the resolution asks DDOT to limit the use of temporary visitor parking permits to 30 days' worth per vehicle per year. This proposal is outside of the scope of this rulemaking and was not considered for this final rulemaking.

The Director adopted these rules as final on January 29, 2019, and they shall become effective upon publication of this notice in the *D.C. Register*.

2432 RESIDENTIAL PERMIT PARKING – GENERAL

2432.1 The residential permit parking (“RPP”) program is established to restrict parking on designated blocks in the District as follows:

- (a) Parking on a block may be restricted so that only motor vehicles registered to residents who live in the applicable RPP parking zone may be parked on the block; provided that motor vehicles not registered to residents who live in the applicable RPP parking zone may be parked on the block for up to two (2) hours; and
- (b) Parking on a block may be restricted so that only motor vehicles registered to residents who live in the applicable RPP parking zone, or motor vehicles with annual visitor parking passes or temporary visitor parking permits as established in § 2414 of this title, may be parked on the block.

2433 RESIDENTIAL PERMIT PARKING – BOUNDARIES OF RESIDENTIAL PERMIT PARKING ZONES

2433.1 Each Ward of the District shall constitute a separate residential permit parking (“RPP”) zone; provided, that census tract 79.03 (starting at the corner of Nineteenth Street, N.E., and Benning Road, N.E., east along said Benning Road, N.E., to Oklahoma Avenue, N.E.; thence in a southerly direction along said Oklahoma Avenue, N.E., to C Street, N.E.; thence west along said C Street, N.E., to Nineteenth Street, N.E.; thence north along said Nineteenth Street, N.E., to the point of beginning) shall be included in the RPP parking zone for Ward 6.

2433.2 A vehicle displaying a valid residential parking permit may park on any RPP block within one (1) block of any street that serves as the boundary of a RPP zone.

2434 RESIDENTIAL PERMIT PARKING – STANDARDS AND PROCESS FOR DESIGNATING RESIDENTIAL PERMIT PARKING BLOCKS

2434.1 Notwithstanding the notice requirements in §§ 6 and 10 of the District of Columbia Administrative Procedure Act, approved October 21, 1968 (82 Stat 1204; D.C. Official Code §§ 2-505 and 2-509 (2016 Repl.)), the Director may at his or her discretion designate any residential block as a residential permit parking (“RPP”) block, if residents on that block petition the Director for such designation, provided that:

- (a) Based on at least three (3) distinct observations during any weekday between 7:00 a.m. and 6:30 p.m., DDOT determines that the motor vehicles parked on the street occupy at least seventy percent (70%) of the parking spaces of the block; and
- (b) Based on at least three (3) distinct observations during any weekday between 7:00 a.m. and 6:30 p.m., DDOT determines that at least ten

percent (10%) of the motor vehicles parked on the block are not registered in that RPP zone.

- 2434.2 When designating a block as part of the RPP program, the Director shall determine whether curb space abutting a place of worship, healthcare facility, school, park, or recreational facility on that block will be included in the RPP program. This determination shall be made based on the existing parking supply and the demand for parking for the place of worship, healthcare facility, school, park, or recreational facility, as well as the residential parking demand in adjacent blocks.
- 2434.3 For the Director to consider designating any residential block as an RPP block, the petition referred to in § 2434.1 must be signed by at least one (1) adult resident of a majority of the households on that block.
- 2434.4 The Director will accept petitions from residents on blocks that: (1) are subject to parking prohibitions, including but not limited to, weekday a.m. and p.m. hour restrictions; and (2) are surrounded by blocks which are designated as RPP blocks.
- 2434.5 A petition is not necessary, and the Director may at his or her discretion designate for residential permit parking, any block where any one of the following criteria is met:
- (a) The block to be designated has no residences fronting on it, and the block abuts the side or rear of residences already included in the RPP program;
 - (b) The block to be designated abuts a park or recreational facility, and the block is adjacent to a block that is in the RPP program;
 - (c) The block to be designated is within five (5) blocks of a commercial district or any other private or public facility that accommodates five hundred (500) or more people, such as a theater, concert hall, convention center, stadium, nightclub, university, or any other major traffic generator; or
 - (d) Less than twenty percent (20%) of curbside space in the block to be designated is available for resident parking.
- 2434.6 In cases where a petition represents less than a majority of the individual households on the block, but where circumstances suggest to the Director that a majority of the residents may support residential permit parking, the Director may, at his or her discretion, initiate a vote on whether or not the block shall be part of the RPP program.

2434.7 For the vote referred to in § 2434.6, one ballot shall be distributed to each household on the block. A majority of those ballots returned to DDOT within fifteen (15) days of their date of distribution shall be regarded as indicating the will of the residents of the block as to residential permit parking.

2435 RESIDENTIAL PERMIT PARKING – DAYS, HOURS, AND RESTRICTIONS FOR RESIDENTIAL PERMIT PARKING

2435.1 If a block is designated as a residential permit parking (“RPP”) block pursuant to § 2434 of this chapter, the times and days during which the RPP restrictions shall apply shall be from 7:00 a.m. to 8:30 p.m., Monday through Friday; unless stopping, standing, or parking is restricted during that time period pursuant to a separate provision of this chapter or by provision of law.

2435.2 During the times the RPP restrictions apply, no vehicle without a valid RPP sticker for that RPP zone may park for more than two (2) hours.

2435.3 Pursuant to § 2436, the days or hours during which RPP restrictions apply on a block designated as an RPP block may be expanded or modified.

2435.4 Pursuant to § 2437, resident-only parking restrictions may be applied to all blocks participating in the RPP program within an Advisory Neighborhood Commission; provided, that no more than one side of the street in each residential block, as determined by the Director, shall be designated with resident-only parking restrictions.

2435.5 Additional restrictions specific to parking a motor vehicle on an RPP block may be imposed within a performance parking zone. Any such restrictions shall be included in the implementation plan for the applicable performance parking zone.

2436 RESIDENTIAL PERMIT PARKING MODIFYING THE DAYS OR HOURS OF RESIDENTIAL PERMIT PARKING RESTRICTIONS

2436.1 Notwithstanding the notice requirements in §§ 6 and 10 of the District of Columbia Administrative Procedure Act, approved October 21, 1968 (82 Stat 1204; D.C. Official Code §§ 2-505 and 2-509 (2016 Repl.)), within each residential permit parking (“RPP”) zone, the Director may re-designate, at his or her discretion, the days or hours for residential permit parking on any specific block which meets all of the following criteria:

(a) A petition has been submitted to the Director, signed by at least one (1) adult resident of a majority of the households on the block, supporting the proposed change to the days or hours for RPP restrictions for their specific block;

(b) At least one (1) year has passed between the date on which the block was

designated by DDOT as an RPP block and the date on which the petition is filed;

- (c) The petition is accompanied by a resolution from the Advisory Neighborhood Commission within which the block is located, supporting the change to the days or hours; and
- (d) The block meets the following criteria:
 - (1) Based on at least one (1) distinct observation during the requested hours, DDOT determines that the motor vehicles parked on the block occupy at least seventy percent (70%) of the parking spaces on the block; and
 - (2) Based on at least one (1) distinct observation during the requested hours, DDOT determines that at least ten percent (10%) of the motor vehicles parked on the block are not registered in that RPP zone.

2436.2 Notwithstanding § 2436.1, the Director shall determine whether a block abutting a place of worship, healthcare facility, school, park, or recreational facility shall be included in the modified RPP zone. This determination shall be made based on the existing parking supply and the demand for parking for the place of worship, healthcare facility, school, park, or recreational facility, as well as the residential parking demand in adjacent blocks.

2436.3 Before taking action on the petition, DDOT shall publish a Notice of Intent on the DDOT website.

2437 RESIDENTIAL PERMIT PARKING – RESIDENT-ONLY PARKING

Official Code §§ 2-505 and 2-509 (2016 Repl.)), the Director may re-designate residential permit parking (“RPP”) blocks as resident-only parking blocks if all of the following criteria are met:

- (d) The standards set forth in § 2437.2 are satisfied.

2437.2

After receiving a petition from an ANC requesting resident-only parking, the Director may modify the RPP restrictions on any blocks participating in the RPP program within the ANC if all of the following conditions are met:

- (a) There is a major traffic generator within or abutting the ANC;
- (b) The parking needs, in excess of two (2) hours, of visitors to any place of worship, healthcare facility, school, park, or recreational facility within the ANC are considered according to the following criteria:
 - (1) More than seventy-five percent (75%) of parking demand from the place of worship, healthcare facility, school, park, or recreational facility is unmet by off-street parking; and
 - (2) The place of worship, healthcare facility, school, park, or recreational facility does not require parking for more than twenty-five percent (25%) of the requested hours and days during which RPP restrictions would apply;
- (c) Based on at least three (3) distinct observations of the five (5) or more blocks listed in the ANC petition required by § 2437.1 during any weekday between 7:00 a.m. and 8:30 p.m., the motor vehicles parked on the block occupy at least eighty-five percent (85%) of the parking spaces; and
- (d) Based on at least three (3) distinct observations during any weekday between 7:00 a.m. and 8:30 p.m., at least fifty percent (50%) of the motor vehicles parked within the five (5) or more blocks listed in the ANC petition required by § 2437.1 are not registered in that RPP zone.
- (e) The Director may, at his or her discretion, modify the observation hours described in § 2437.2(c) and (d).

2437.3

Notwithstanding § 2437.2, the Director shall determine whether a block abutting a place of worship, healthcare facility, school, park, or recreational facility shall be included in the resident-only parking zone. This determination shall be made based on the existing parking supply and the demand for parking for the place of worship, healthcare facility, school, park, or recreational facility, as well as the residential parking demand in adjacent blocks.

- 2437.4 Pursuant to § 2437.1, resident-only parking restrictions shall be applied to all blocks participating in the RPP program within an ANC; provided, that no more than one side of the street in each residential block, as determined by the Director, shall be designated with resident-only parking restrictions.
- 2437.5 Prior to taking action on the ANC petition, DDOT shall publish a Notice of Intent on the DDOT website.
- 2437.6 DDOT will evaluate petitions received by ANCs twice during a calendar year.
- 2437.7 An Advisory Neighborhood Commission may, pursuant to a resolution passed by the ANC, petition DDOT to redesignate all or a portion of the blocks participating in the resident-only program within that ANC, back to RPP blocks.

2438 ENHANCED RESIDENTIAL PERMIT PARKING PROGRAM

2438.1 The Enhanced Residential Permit Parking (“ERPP”) program as established by the Residential Parking Protection Pilot Act of 2010, effective October 26, 2010 (D.C. Law 18-240; D.C. Official Code §§ 50-2551 *et seq.* (2014 Repl.)), applies only within the boundaries of Ward 1.

2438.2 The ERPP program is established as follows:

- (a) The ERPP program includes the following elements:
- (1) One side of the street in each residential block, as determined by the Director, shall be reserved for Zone 1 resident-only parking; the opposite side of each residential block shall be designated as described in § 2432.1(a);
 - (2) A motor vehicle without a valid Zone 1 resident-only parking sticker shall not park on any portion of a street in Ward 1 that has been reserved for Zone 1 resident-only Parking pursuant to this subsection; and
 - (3) Any resident owning a vehicle registered at an address within the ERPP program area shall be eligible to apply for a Ward 1 residential permit parking zone sticker as provided by the Department of Motor Vehicles.
- (b) Each Ward 1 Advisory Neighborhood Commission (“ANC”) may, by resolution voted upon in accordance with the law governing ANCs, choose not to participate in the ERPP program. Absent such a resolution, all of the provisions of paragraph (a) of this subsection shall apply to each residential block of the Ward 1 ANC unless prohibited by paragraph (c) of this subsection.

- (c) Any blocks within a streetscape construction project impact zone in Ward 1 shall be excluded from the ERPP program until the Director declares that all major construction associated with the streetscape construction project impact zone is complete.
- (d) For purposes of this section, the phrase "streetscape construction project impact zone" means an area designated by DDOT where, due to the nature and duration of a streetscape project (that is, a roadway construction project on a commercial street), a local or small business as defined in D.C. Official Code §§ 2-218.31 and 2-218.32 (2014 Repl.) may experience demonstrated losses during the construction period.
- (e) The ERPP program shall not apply within one (1) block of a residential permit parking zone boundary. Streets within one (1) block of a residential permit parking zone boundary shall instead be designated so that motor vehicles displaying a valid residential permit for either adjacent residential permit parking zone may park on any such block that was a residential permit parking block before the institution of the ERPP program.

2439**RESIDENTIAL PERMIT PARKING – ENFORCEMENT**

2439.1

Except as provided in §§ 2406, 2414, and 2424, parking a motor vehicle on a residential permit parking block shall be restricted as follows:

- (a) A vehicle without the necessary residential permit parking zone sticker shall not park in the same zone for more than two (2) consecutive hours. This restriction applies even if the vehicle is moved from one location within the zone to another location in the same zone. A separate violation of this provision shall exist for each additional two (2) hour period the vehicle has been parked in the same zone.
- (b) If the restrictions on a residential permit parking block (or portion of such block) prohibit non-permit holders during posted times, a vehicle shall not park for any such period of time on that block (or portion of that block) without the necessary residential permit parking sticker for that specific zone. An initial violation shall exist when the non-permit holder first parks his or her vehicle on the restricted block and a separate violation shall exist for each additional two (2) hour period the vehicle has been parked in the same zone.

An expired RPP sticker shall not be left visible on a vehicle.

2441.4 A motor vehicle shall not display more than one (1) RPP sticker. Simultaneous display of current RPP stickers for more than one (1) zone shall render all the RPP stickers invalid and shall be *prima facie* evidence of misrepresentation on the RPP sticker application.

- 2441.5 An RPP sticker shall not guarantee or reserve to the holder a parking space within the designated RPP zone.
- 2441.6 No RPP sticker or permit shall be used or displayed on any vehicle other than the vehicle for which it was issued. - 2441.13 The RPP sticker shall expire on the same date that the vehicle registration expires.
- 2441.14 Notwithstanding Subsection 2441.11, a commercial vehicle registered to a business at a residential property where the business owner resides is eligible for an RPP sticker.

GOVERNMENT OF THE DISTRICT OF COLUMBIA
BOARD OF ETHICS AND GOVERNMENT ACCOUNTABILITY

Office of Government Ethics

Advisory Opinion – Redacted – 19-0077 – Safe Harbor

July 2, 2019

[Redacted]
[Redacted]
Washington, DC [Redacted]

Dear [Redacted],

This responds to your request for advice regarding whether your child’s admission to the selective high school the School Without Walls (“SWW”) for the 2019-2020 school year raises any ethical concerns. Based upon your representations and the evidence we reviewed from staff at SWW and My School DC – the program that administers the My School DC Common Lottery (“Lottery”) – we found no evidence that your child’s enrollment in the program at SWW resulted from any preferential treatment owing to your position as the [Redacted] and it appears that your child was admitted according to the school’s standard admissions process.

Background

You state that you are employed at [Redacted], following your nomination for that position by Mayor Muriel Bowser on [Redacted] and confirmation by the District of Columbia Council on [Redacted]. You also state you are the father of a child (“the Student”) who participated in the Lottery for the 2019-2020 school year and has been offered a position in SWW’s [Redacted] grade class for the upcoming school year in full accordance with both the Lottery’s policies and procedures and SWW’s Admissions Handbook. You further state that you did not request any preferential treatment for the Student in connection with either the Student’s participation in the Lottery or the Student’s application for enrollment at SWW, and that you do not believe that the Student received any preferential treatment in connection with the same.

Ethical Standards

As a District government employee, you are subject to Chapter 18 of Title 6B of the District of Columbia Municipal Regulations (also referred to as the District Personnel Manual (“DPM”)), and the Board of Ethics and Government Accountability Establishment and Comprehensive Ethics Reform Amendment Act of 2011 (“Ethics Act”), effective April 27, 2012, District Law 19-124, District Official Code § 1-1161.01 *et seq.* In assessing your assertion that you did not seek any favoritism in

the application process for your child's enrollment at SWW, I analyzed the ethical standards discussed below. Please bear in mind that the examples listed herein are listed for reference and do not represent an exhaustive list of possible restrictions of the DPM and Ethics Act.

Misuse of Position

Any allegations of favoritism would require us to determine if you misused your position in order to gain admission to SWW for your child. Under Section 1800.3(g) of the DPM, employees shall not use public office or position for private gain.

Conflicts of Interest

In addition, you may not use your title as a District government employee for personal gain, i.e., securing your child's enrollment in a school to which they otherwise is not entitled to attend or for your financial gain, in general. Section 223(a) of the Ethics Act (D.C. Official Code § 1-1162.23) also addresses the essence of your inquiry with our office. Pursuant to section 223(a) of the Ethics Act:

No employee shall use his or her official position or title, or personally and substantially participate, through decision, approval, disapproval, recommendation, the rendering of advice, investigation, or otherwise, in a judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter, or attempt to influence the outcome of a particular matter, in a manner that the employee knows is likely to have a direct and predictable effect on the employee's financial interests or the financial interests of a person closely affiliated with the employee.

Appearance Concerns

It is also important to note that you are prohibited from acting in a manner that creates the appearance of a violation of the District's ethical standards. In other words, you could possibly violate the DPM without explicitly violating a particular rule, if, after consideration of the circumstances in the aggregate, there is the appearance of a violation.¹

Discussion

Based on the evidence presented, we determined that SWW had 10 available seats in its [REDACTED] grade class for the 2019-2020 school year. We further determined that the Student satisfied SWW's minimum admissions criteria and was qualified to apply for one of those 10 available seats. The Student submitted the required application on February 1, 2019, which was SWW's application deadline for the 2019-2020 school year, and the Student took SWW's admission test on February 19, 2019, which was the same day that other out-of-state applicants took that test. Because the Student was living in [REDACTED] on that day, the Student's admission test was administered by the school they attended at that time in accordance with SWW procedure, and it consisted of two components: Math and English. Based on the evidence presented, the Student scored high enough on the test to qualify for an interview.

According to SWW's Director of Admissions, LaToya Grant, all student applicants who score at or above a certain threshold on the admission test were invited to participate in an interview with one SWW staff member and two SWW students in the second part of SWW's admission process. Based on the evidence presented, SWW staff and students interviewed 22 students and their parents; however, the parent interviews were not scored or taken into consideration by SWW in determining

¹ Pursuant to DPM § 1800.3(n), "[e]mployees shall not take actions creating the appearance that they are violating the law or the ethical standards set forth in...[chapter 18 of the DPM]. Whether particular circumstances create an appearance that the law or these standards have been violated shall be determined from the perspective of a reasonable person with knowledge of the relevant facts."

what applicants were subsequently offered enrollment at the school. The Student and your spouse participated in these interviews on March 18, 2019. You did not participate in these interviews. According to Ms. Grant, none of the interviewers knew that the Student was your child.

According to SWW’s Admissions Handbook, each applicant’s admission test score was combined with their interview score to yield the final score by which his/her application would be evaluated. The highest possible score an applicant could receive through SWW’s admission process was 76 points. The Student’s combined final score was the [REDACTED] highest score among the 22 rising [REDACTED] grade students who were invited to participate in the interview round of the application process. The top-ranked applicant’s final score was [REDACTED] points, while the applicant who ranked [REDACTED] received a total score of [REDACTED]. SWW extended admission offers to the top ten applicants and placed the remaining twelve applicants on its wait list.

Lastly, Ms. Grant stated that she only received two communications from you during the Student’s application process – one involved scheduling the Student’s interview and the other related to contact information for the Student’s school in [REDACTED]. SWW staff also stated that you did not seek any preferential treatment for the Student, and that they did not believe there was any indication the Student received any preferential treatment during the admissions process.

Conclusion

In light of the evidence presented, assuming your representations to be complete and accurate as to pertinent facts and further assuming that you abided by the restrictions outlined above, I conclude that your child’s enrollment at SWW does not violate the DPM. I encourage you to contact BEGA should you have any uncertainty about a specific action you would like to take regarding your [REDACTED] enrollment at SWW or any other DCPS-affiliated school.

**GOVERNMENT OF THE DISTRICT OF COLUMBIA
BOARD OF ZONING ADJUSTMENT**

Application No. 20049 of Clementine Thomas and Sasaun Vasfi, pursuant to 11 DCMR Subtitle X, Chapter 9, for a special exception under Subtitle D §§ 5201, 5202 and 5205 from the rear yard setback requirements of Subtitle D § 1306.1, to construct a rear addition to an existing, detached principal dwelling in the R-21 Zone at premises 5011 Garfield Street, N.W. (Square 1426, Lot 864).

HEARING DATE: Applicant waived the right to a public hearing

DECISION DATE: July 31, 2019 (Expedited Review Calendar)

SUMMARY ORDER

Relief Requested. The zoning relief requested in this case was self-certified, pursuant to 11 DCMR Subtitle Y § 300.6. (Exhibit 11 (Revised); Exhibit 3 (Original).)

Expedited Review. Pursuant to 11 DCMR Subtitle Y § 401, this application was tentatively placed on the Board of Zoning Adjustment (the "Board" or "BZA") expedited review calendar for decision as a result of the applicant's waiver of its right to a hearing. No objections to expedited review consideration were made by any person or entity entitled to do under Subtitle Y §§ 401.7 and 401.8.

Notice of the Application and Public Meeting. The Board referred the application to the appropriate agencies and provided proper and timely notice of the public meeting in accordance with Subtitle Y § 402.1.

Parties. The parties to this case were the Applicant and Advisory Neighborhood Commission ("ANC") 3D.

ANC Report. The ANC's report indicated that at a regularly scheduled, properly noticed public meeting on July 10, 2019, at which a quorum was present, the ANC voted 6-0-0 to support the application. (Exhibits 30 and 34.)

OP Report. The Office of Planning submitted a report, dated July 19, 2019, recommending approval of the application. (Exhibits 31 and 32.)

DDOT Report. The District Department of Transportation submitted a report, dated July 8, 2019, indicating that it had no objection to the application. (Exhibit 28.)

Persons in Support. The Board received three letters from neighbors in support of the application. (Exhibits 38-40.)

Special Exception Relief

The Applicant seeks relief under Subtitle X § 901.2, for a special exception under Subtitle D §§ 5201, 5202 and 5205 from the rear yard setback requirements of Subtitle D § 1306.1, to construct a rear addition to an existing, detached principal dwelling in the R-21 Zone.

Based upon the record before the Board, and having given great weight to the appropriate reports and recommendations filed in this case, the Board concludes that the Applicant has met the burden of proof that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map and that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

Pursuant to 11 DCMR Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

It is therefore **ORDERED** that this application is hereby **GRANTED AND, PURSUANT TO SUBTITLE Y § 604.10, SUBJECT TO THE APPROVED PLANS¹ AT EXHIBIT 5.**

VOTE: 5-0-0 (Frederick L. Hill, Carlton E. Hart, Lorna L. John, Lesylleé M. White, and Peter G. May to APPROVE.)

BY ORDER OF THE D.C. BOARD OF ZONING ADJUSTMENT

A majority of the Board members approved the issuance of this order.

FINAL DATE OF ORDER: August 1, 2019

PURSUANT TO 11 DCMR SUBTITLE Y § 604.11, NO ORDER OF THE BOARD SHALL TAKE EFFECT UNTIL TEN (10) DAYS AFTER IT BECOMES FINAL PURSUANT TO SUBTITLE Y § 604.7.

PURSUANT TO 11 DCMR SUBTITLE Y § 702.1, THIS ORDER SHALL NOT BE VALID FOR MORE THAN TWO YEARS AFTER IT BECOMES EFFECTIVE UNLESS, WITHIN SUCH TWO-YEAR PERIOD, THE APPLICANT FILES PLANS FOR THE PROPOSED STRUCTURE WITH THE DEPARTMENT OF CONSUMER AND REGULATORY AFFAIRS FOR THE PURPOSE OF SECURING A BUILDING PERMIT, OR THE APPLICANT FILES A REQUEST FOR A TIME EXTENSION PURSUANT TO SUBTITLE Y

¹In granting the certified relief, the Board made no finding that the relief is either necessary or sufficient. Instead, the Board expects the Zoning Administrator to undertake a thorough and independent review of the building permit and certificate of occupancy applications filed for this project and to deny any application for which additional or different zoning relief is needed.

§ 705 PRIOR TO THE EXPIRATION OF THE TWO-YEAR PERIOD AND THE REQUEST IS GRANTED. PURSUANT TO SUBTITLE Y § 703.14, NO OTHER ACTION, INCLUDING THE FILING OR GRANTING OF AN APPLICATION FOR A MODIFICATION PURSUANT TO SUBTITLE Y §§ 703 OR 704, SHALL TOLL OR EXTEND THE TIME PERIOD.

Based upon the record before the Board, and having given great weight to the appropriate reports and recommendations filed in this case, the Board concludes that the Applicant has met the burden of proof that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map and that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

Pursuant to 11 DCMR Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

Procedural Overview: Application, Parties, First-Stage PUD, Hearing, and Post-Hearing Filings

1. On December 22, 2017 the Applicant delivered a Notice of Intent to File a Zoning Application with respect to the Application. Such Notice was given to all property owners owning property within 200 feet of the Property, Advisory Neighborhood Commission (“ANC”) 6D, and to Tiber Island Cooperative Homes, Inc. and Carrollsburg Square Condominium, two parties to the first-stage PUD proceeding in Z.C. Case No. 02-38A, to which this second-stage PUD Application succeeds (the “Waterfront Station PUD”). (Exhibit [“Ex.”] 2B, 2D.)
2. The first-stage PUD and Zoning Map amendment contained in the Waterfront Station PUD were originally approved by an order dated November 28, 2003, which was amended and restated in a first-stage PUD order approved January 25, 2008. (Ex. 2G.) Because the Waterfront Station PUD was approved prior to September 6, 2016, pursuant to Subtitle A of the now effective 2016 Zoning Regulations (“ZR16”), the substantive requirements of the 1958 Zoning Regulations (“ZR58” and sometimes together with ZR16, the “Zoning Regulations”) apply to this Application. (11-A DCMR § 102.3(a).) This proceeding followed the procedural requirements of ZR16.
3. On May 15, 2018, the Applicant filed the Application for this second-stage PUD. (Ex. 1.) The Application contained a proposed eleven-story building with ground-floor retail, performing arts, educational/daytime care, and related uses along with upper-story residential uses, below-grade parking, and related streetscaping and landscaping improvements to the Property, which was consistent with the approval for the Property contained in the Waterfront Station PUD (the Property was therein sometimes referred to as the “Northeast Parcel” and the proposed building thereon the “Northeast Building”) except that the Application contained additional public benefits and amenities (“Project

- Public Benefits”) that were not required under the Waterfront Station PUD (collectively, the “Project”). (Ex. 2.)
4. On July 20, 2018, the Office of Planning (“OP”) submitted to the Commission a report (“OP Setdown Report”) recommending that the Application be set down for public hearing. (Ex. 11.)
 5. On July 30, 2018, at a regularly-scheduled public meeting, the Commission, acting on a motion by Chairman Hood, seconded by Commissioner Shapiro, voted to set down the Application for a public hearing. (*See* Transcript of the District of Columbia Zoning Commission, Regular Meeting at 66-70 (July 30, 2018) [“Tr. 1”]).
 6. On August 17, 2018, the Applicant submitted a pre-hearing statement with no proposed changes to the Project and certifying compliance with ZR16’s procedural requirements. (Ex. 13, 14.) On November 30, 2018, the Applicant submitted its Comprehensive Transportation Review (“CTR”) analyzing the Project. (Ex. 15, 15A.) On January 11, 2019, the Applicant submitted its supplemental pre-hearing statement with, among other documents, draft proffers and conditions, a Construction Management Plan (“CMP”), additional information regarding the Project Public Benefits, and revised plans of the Project. (Ex. 22.)
 7. A Notice of Public Hearing was published in the *D.C. Register* on December 14, 2018. (65 DCR 13489.) The Notice of Public Hearing was also mailed to the owners of property located within 200 feet of the Property, to the ANC, and to other District agencies. (Ex. 16-18.)
 8. On January 22, 2019, OP and the District Department of Transportation (“DDOT”) timely filed written reports recommending support of approval of the Project (respectively, the “OP Hearing Report” and “DDOT Report”).¹ (Ex. 24, 25.) On January 23, 2019, the Office of the Deputy Mayor for Planning and Economic Development (“DMPED”) filed a letter in support of the Application. (Ex. 26.) On January 31, 2019, the ANC submitted its report (“ANC Report”) in support of approval of the Application. (Ex. 32.)
 9. On January 31, 2019, the Applicant submitted a memorandum in response to the DDOT report, two updated drawings, a report regarding the Project’s potential economic impacts, and a copy of its presentation and materials. (Ex. 34-36.)

¹ Project opponents alleged that OP and DDOT failed to file their reports in a timely manner. The Commission disagrees; OP and DDOT timely filed their reports prior to the Public Hearing. OP and DDOT filed their final reports on January 22, 2019. Although agency reports are typically required 10 days in advance of the public hearing for inclusion in the public record, when the last day of a computed period for filing falls on a holiday (as was the case here), then the deadline runs to the end of the next day that is neither a weekend nor an official District holiday. (*See* 11-Z DCMR §§ 504.3, 204.3.) Because the date that was 10 days before the Public Hearing, January 21, 2019, was an official District holiday—Martin Luther King Day—the District agency’s deadline to file a report ran until the end of the day on January 22, 2019. The Commission finds that OP and DDOT timely filed their reports and even if the reports were filed late, there is no injury to the Southwest Accountability Group (“SWAG”), which had ample opportunity to review and comment on such reports.

10. The parties to the Waterfront Station PUD, Tiber Island Cooperative Homes, Inc. and Carrollsburg Square Condominium, did not seek to participate in this proceeding but were copied on the substantive filings from the Applicant in the record. Apart from the Applicant and the ANC, which were automatically parties to this proceeding, there were no other parties.
11. On January 31, 2019, the Commission held the Public Hearing on the Application. At the start of the Public Hearing, the Commission accepted John Torti as an expert in architecture, Michael Vergason as an expert in landscape architecture, and Daniel Van Pelt as an expert in transportation planning and engineering. (*See In the Matter of WFS2, LLC – Second-Stage Planned Unit Development for 1000 4th Street, S.W.*, Case No. 02-38J, Transcript of the District of Columbia Zoning Commission, Public Hearing at 7 (January 31, 2019) [“Tr. 2”].) At the conclusion of the Public Hearing, the Commission closed the record except with respect to certain information requested of the Applicant and District agencies that the Commission requested provide written reports post-hearing. (*Id.* at 165.)
12. On February 7, 2019, the Applicant submitted draft proffers and conditions, and on February 21, 2019, the Applicant submitted revised proffers and conditions. (Ex. 44, 46.)
13. On March 11, 2019, the Applicant filed its post-hearing submission (“Post-Hearing Submission”), containing a full summary of the Project Public Benefits and the Project’s contribution to the public benefits and amenities approved as part of the Waterfront Station PUD (the “Waterfront Station Public Benefits,” and together with the Project Public Benefits, the “Public Benefits”), responses to the Commission’s questions and comments, a summary of the Applicant’s post-hearing discussions with the Amidon-Bowen Parent Teacher Association (“PTA”) and additional proffered benefits to the PTA, summaries of the Applicant’s affiliates’ experience with respect to affordable housing and job training elsewhere in Ward 6, a written response to the PTA’s concerns, and a written response and related exhibits to other opposition testimony first introduced into the record on the day of the Public Hearing. (Ex. 47.) On March 11, 2019, the Applicant submitted further revised proffers and conditions, which reflected the new PTA benefit as well as additional changes made in response to feedback from the ANC. (Ex. 48.)
14. On March 14, 2019, the PTA submitted a letter stating that the PTA is in support of the Project and expressed support for the additional proffered benefits to the PTA. (Ex. 50.)
15. On March 19, 2019, OP filed a post-hearing report (the “OP Final Report”). (Ex. 51.)
16. On March 25, 2019, the Commission held further deliberations on the Application. The Commission deferred taking final action to allow the Applicant and PTA to continue discussions about a proffered public benefit involving a monetary contribution to the PTA. The Commission did so because the Commission was concerned that the uses of the monetary contribution to the PTA had not been sufficiently defined, and because the proposal included an escrow agreement as a way to circumvent a zoning regulation that limits monetary contributions as PUD proffers. The Commission requested that the

Applicant attempt to reach a revised agreement with the PTA that could comply with 11-X DCMR § 305. The Commission also requested comments from Office of the Deputy Mayor for Education (“DME”) on the proposed location of a charter school in the Project.

17. The Applicant submitted a revised proffer on April 1, 2019. (Ex. 55.)
18. The DME provided a response that states that charter schools are allowed to choose their own locations and that DME will not comment on this particular choice. (Ex. 56.)
19. On April 8, 2019, the Commission took final action to approve the Application.

Description of the Property

20. The Property is a single contiguous parcel located in the northeast corner of the overall Waterfront Station PUD and has a land area of approximately 59,044 square feet. The Property fronts on 4th Street, S.W. and is currently a vacant lot. (Ex. 2 at 4.)
21. Across 4th Street, S.W. to the west of the Property is Forest City’s Eliot on 4th, a multifamily residential building with ground-floor retail approved as a part of the Waterfront Station PUD (the “Eliot”). Immediately to the north of the Property is a tree-lined allée on property owned by the District; the allée separates the Property from the Christ United Methodist Church property at the corner of 4th Street, S.W. and I Street, S.W. Immediately to the south of the Property is the mixed-use office and retail building at 1100 4th Street, S.W. approved as part of the Waterfront Station PUD (“1100 4th Street”). The 1100 4th Street building contains various District government offices on the upper levels, ground-floor retail, including notably a full-size Safeway grocery store and a CVS Pharmacy, and below-grade parking. The upper levels of 1100 4th Street are set back from the property line adjacent to the Property by approximately 24 feet. Wesley Place, S.W. and a private alley form the eastern border of the Property. The Southwest Neighborhood Library, a branch of the District’s public library system, is opposite Wesley Place, S.W. from the Property. The existing “1001 at Waterfront Apartments” building and related parking, the subject of an approved PUD in Z.C. Case No. 12-14, are opposite the private alley from the Property. (*Id.* at 4.)
22. The Property is located within Waterfront Station, which is a transit-oriented, centrally-located town center that is nearing maturation. The Property is located less than 1,000 feet from the Waterfront-SEU Metrorail Station served by WMATA’s Green Line. The commercial corridor of 4th Street, S.W. created as part of the Waterfront Station PUD provides a spine of neighborhood-serving retail for the Southwest DC neighborhood. (*Id.* at 5.)
23. Waterfront Station is located less than a mile from the National Mall, the U.S. Capitol Building grounds, L’Enfant Plaza, the Wharf, and Nationals Park. In addition to nearby transit access, the Property has convenient access to the Southeast Freeway, Interstate 395, Maine Avenue, and South Capitol Street. (*Id.*)

24. The blocks surrounding Waterfront Station contain a mix of existing high-rise and garden-style multifamily buildings, with much of the existing building stock dating to the urban renewal era of Southwest DC. The current development in the neighborhood reflects modern and contemporary urban design trends yet is appropriately respectful of the mid-century modern aesthetic that currently exists in Southwest DC. The recent development continues the town center's prevailing medium- to high-density residential condition. Many formerly empty lots along M Street, S.W. within and in the vicinity of Waterfront Station are under construction with new multifamily housing. Nearby Arena Stage and The Wharf are regional attractions that draw visitors and workers from across the District and the greater metropolitan area. (*Id.*)
25. The Waterfront Station PUD approved the redevelopment of the 1960s-era Waterside Mall and a pair of 130-foot tall federal government-occupied towers. The Waterfront Station PUD includes eight development parcels. Five of the eight parcels are fully constructed pursuant to previous second-stage PUDs approved by the Commission. Two of the remaining parcels along M Street, S.W. are the subject of a second-stage PUD application that was recently approved in Z.C. Order No. 02-38I. The remaining eighth parcel is the Property. (*Id.* at 2.)
26. The Waterfront Station PUD was created through a public-private redevelopment partnership. At the time of the initial first-stage PUD approval, public agencies owned the land in the area subject to the first-stage PUD. A private-sector joint venture led the efforts to obtain the first-stage PUD approval for the Waterfront Station PUD. Between 2006 and 2008, the public agencies transferred all of the land within the Waterfront Station PUD—with the exception of the Property—to the private partners. The Property has remained under the control of various public agencies, and it is now owned by the District. (*Id.*) Certain obligations between the District, as owner of the Property, and the other developer parties to the Waterfront Station PUD are set forth in that certain Land Use Restriction Agreement by and between the District and Waterfront Associates, LLC, dated September 15, 2008 and recorded in the Land Records of the District of Columbia Recorder of Deeds as Instrument No. 2008099321 (the “LURA”). (*See Ex. 2H.*)
27. P.N. Hoffman & Associates, AHC Inc., Paramount Developers, and City Partners comprise the Applicant, which controls the Property and Project through a long-term ground lease arrangement with DMPED. The ground lease has been approved by the D.C. Council as of April 10, 2018. (*Ex. 2 at 3; 2M1 at 3.*) The Applicant's agreement with DMPED regarding the Project's affordable housing and other requirements is memorialized in that certain Land Disposition and Development Agreement by and between the District of Columbia and the Applicant, dated December 13, 2018 (as the same may be amended from time to time, the “LDDA”). The LDDA contains, among other things, a form of “Affordable Housing Covenant” and an “Affordable Housing Plan” that perform a similar function to analogous documents established under ZR16's inclusionary zoning regulations, which the Project is exempt from by virtue of it having vested prior to the effectiveness of such regulations.

28. At the time the Waterfront Station PUD was approved, the overall PUD site was located in the C-3-B Zone District. The amendment to the Zoning Map related to and approved as part of the Waterfront Station PUD rezoned the entire Waterfront Station PUD site, including the Property, to the C-3-C Zone District (“Map Amendment”). (Ex. 2 at 3.)
29. The Waterfront Station PUD, as modified and amended by prior applications, authorizes a total of 2,526,500 square feet of gross floor area (“GFA”) over approximately 584,655 square feet of land area (approximately 13.42 acres), including the now-reopened 4th Street, S.W. The overall floor area ratio (“FAR”) authorized under the Waterfront Station PUD is 4.33. The first-stage PUD established: the overall mix of uses for Waterfront Station, specific heights for each of the development parcels, an overall parking requirement for a minimum of 1,087 spaces, and a maximum overall lot occupancy of up to 63%. The Waterfront Station PUD also established the Waterfront Station Public Benefits, which included, among other items more particularly described below, (a) an affordable housing commitment, (b) a ground-floor retail requirement, and (c) the re-opening of 4th Street, S.W., which had been closed and occupied by the former Waterside Mall. (*Id.*)

Description of the Project and the Applicant’s Community Outreach

30. Consistent with the plans for the Northeast Building approved in the Waterfront Station PUD, the Project is an eleven-story residential building with ground-floor neighborhood-serving uses. The Project contains approximately 450 residential units, approximately 29,743 square feet of community-serving ground-floor uses and approximately 220 below-grade parking spaces. The Project’s ground floor includes space for retail, service, and eating and drinking establishments; space for an arts or cultural use; and space for an educational or daytime care use. (*Id.* at 6.)
31. The Project’s massing and uses are consistent with the proposal for the Northeast Building approved in the Waterfront Station PUD. Under the Waterfront Station PUD, the Commission approved for the Property a building with approximately 400,000 square feet of GFA and a maximum height of 114 feet. The Waterfront Station PUD imposed a site-wide maximum lot occupancy of up to 63%. Accounting for the Project, the lot occupancy of the existing and currently proposed buildings PUD-wide is approximately 55%. (*Id.*) The Project is proposed to be 400,000 square feet with a maximum height of 114 feet and will result in an overall lot occupancy for the Waterfront Station PUD as a whole of less than 63%. (Ex. 22G at 14-15.)
32. The Project’s ground-floor uses are consistent with the Waterfront Station PUD’s requirements for ground-floor retail and neighborhood-serving uses, focused along 4th Street, S.W. The Project’s ground-floor uses include approximately 11,000 square feet of neighborhood-serving space for retail, service, or eating and drinking establishments; the Applicant intends to include a three-meal-per-day restaurant (the so-called “diner”) in a portion of this space. The ground floor also contains approximately 9,000 square feet devoted to a performing arts or related use. Finally, the ground floor contains approximately 9,000 square feet devoted to an educational or daytime care use that could

- in the future be converted to retail or other neighborhood-serving uses. At the time of this Application, the Applicant is in active discussions to lease this 9,000 square foot educational or retail space to AppleTree Public Charter School (“AppleTree”) to operate as a pre-kindergarten for approximately 132 students. AppleTree currently operates a pre-kindergarten in Southwest, and the Project provides an expanded space to serve these students and future Southwest residents in a new, centrally located location. (*Id.* at 6-7; Ex. 47 at 6-9.)
33. Consistent with the Waterfront Station PUD, the Project contains approximately 450 total residential units, with a mix of studios, one-bedroom units, and two-bedroom units; some of the one-bedroom and two-bedroom units also contain dens. (Ex. 2 at 7; 47H at 2.) Practically, a den can be used as an additional bedroom or a play room for children, and “dens” are regularly marketed as “bedrooms” in both for sale and for rent market-rate units throughout the District. Ten of the Project’s two-bedroom units include a den, and five of these two-bedroom plus den units are affordable. (Ex. 47 at 9-10.)
34. Broadly, the Waterfront Station PUD required a minimum of 160,000 square feet of affordable housing, set aside for households earning 80% of median family income (“MFI”) for a period of 20 years. Of this, half was to be distributed between the so-called “East and West Residential Towers” (developed as a part of the first phase of the PUD) and half was to be provided in the Northeast Residential Building (i.e., the Property that is the subject of this PUD).² No affordable housing was required, and none was provided in the Northwest Residential Building (i.e., the Eliot on 4th). (Ex. 2H.)
35. The Project significantly exceeds the amount, level of affordability, and duration required by the Waterfront Station PUD. For the duration of the Applicant’s 99-year ground lease of the Property, the Applicant will reserve 30% of the units (or approximately 136 units, which equates to approximately 117,094 square feet of gross floor area³) as affordable housing. This is in excess of the amount and duration of affordability that is required under the Waterfront Station PUD or under the District’s current inclusionary zoning requirements. Furthermore, for the first 50 years of the Project, the Applicant agreed to set aside half of those affordable units at 30% MFI and half of those units at 50% MFI. After those fifty years and for the remainder of the ground lease, the Applicant will set aside 25% of the affordable units at 30% MFI and 75% of the units at 50% MFI. This provides a significantly deeper level of affordability than was proffered in the first-stage

² The current total amount of affordable housing is approximately 84,033 sf in the East and West Residential Towers, all at 50% AMI. (*See* Z.C. Case No. 02-38A. *See also* Affordable Housing Covenant Waterfront Station West Residential Building, dated May 1, 2014 by 1151-4th Street SW LLC recorded in the Land Records of the District of Columbia Registry of Deeds as Instrument No. 2014038849 and Affordable Housing Covenant Waterfront Station East Residential Building, dated May 1, 2014 by 1150-4th Street SW LLC recorded in the Land Records of the District of Columbia Registry of Deeds as Instrument No. 2014039291.) The amounts provided in the pending second-stage PUDs on M Street (i.e., in Z.C. Case No. 02-38I) are in addition to the above requirements.

³ The affordable housing contribution in the Project will be on the basis of 30% of the total *units* rather than as a percentage of GFA, but an approximate GFA equivalent is provided here for tabulation purposes.

- PUD. (Ex. 2 at 7.) The Project is exempt from the inclusionary zoning requirements of the Zoning Regulations (except for the requirements with respect to the Project's habitable penthouse habitable space) because it is part of a PUD approved prior to the effective date of such requirements, and this second-stage PUD Application is for the same "building" approved by the first-stage PUD. (*See* 11-C DCMR § 1008.1.⁴)
36. The Project's proposed site plan is consistent with the Waterfront Station PUD. The Project is a single "U"-shaped structure that is set back from the northern lot line, which allows the Project to provide the private drive from 4th Street, S.W. to Wesley Place, S.W. contemplated in the Waterfront Station PUD ("Private Drive"). An existing curb cut along 4th Street, S.W. serves as the western vehicular entrance to the Private Drive, and an existing curb cut on Wesley Place, S.W. serves as the eastern entrance. Adjacent to the Private Drive is a pedestrian sidewalk that includes ample space for outdoor seating and café tables at its western end and a play area ("Play Area") at its eastern end. The Play Area will serve the Project's pre-kindergarten use during school hours and young children from the greater community after school hours as well as on weekends, holidays, and during the summer. (Ex. 2 at 7-8.)
37. The Project's ground-floor retail uses are consistent with the Waterfront Station PUD. Consistent with the existing character of 4th Street, S.W., retail, service, and/or eating and drinking establishment uses line the Project's western ground-floor façade. The Project completes an important segment in the stretch of streetscape between M Street, S.W. and I Street, S.W. To help activate the pedestrian plaza immediately to the north of the Project, the Project's ground-floor commercial and neighborhood-serving uses also turn the corner from 4th Street, S.W. along the Private Drive. (*Id.* at 8.)
38. The Project's parking and loading are accessible via an existing private alley from Wesley Place, S.W. along the eastern side of the building. This locates the vehicular entrance away from pedestrian activity and places loading access adjacent to the building services and loading for 1100 4th Street. (*Id.*) All of the Project's parking and loading is fully enclosed. Vehicle parking is provided in two below-grade levels containing a total

⁴ The Applicant consents to a PUD condition requiring the affordable housing that reflects the commitments of the LDDA. Because the Applicant is adding habitable penthouse space, which was not contemplated in the first-stage PUD but which is authorized as a minor modification by 11-C DCMR § 1504.3, the inclusionary zoning exemption does not apply to penthouse habitable space. (*See* 11-C DCMR § 1008.1.) Therefore, the Applicant is required to provide the affordable housing required as a result of the provision of habitable penthouse space. The habitable penthouse space in the Project generates a set aside requirement of approximately 1,877.5 square feet of affordable housing at 50% MFI for the life of the project. (*See* 11-C DCMR § 1003.2 ("inclusionary development ... shall set aside ... eight percent (8%) of the gross floor area dedicated to residential use including penthouse habitable space as described in Subtitle C § 1001.2(d)," which references C, 1500.11; *see also* 11-C DCMR § 1500.11 ("the construction of penthouse habitable space, except penthouse habitable space devoted exclusively to communal rooftop recreation or amenity space for the primary use of residents of the residential building, is subject to the Inclusionary Zoning set-aside provisions of Subtitle C, Chapter 10 Inclusionary Zoning.")) The Applicant will be requesting an inclusionary zoning exemption from the Zoning Administrator pursuant to 11-C DCMR § 1001.6(a) for the affordable housing generated by the habitable penthouse space, but will provide more than the equivalent amount by virtue of the LDDA. The District Department of Housing and Community Development has concurred in this analysis.

of approximately 220 spaces. Bicycle parking with a total of approximately 156 long-term spaces is located in a secure facility on the upper level of the garage. The Project also provides 14 bicycle racks (i.e., 28 short-term parking spaces) on the surrounding sidewalks. Fully enclosed, at-grade, back-in loading berths and trash facilities are provided from the private alley at the rear of the Project. (Ex. 2 at 11; 22G1 at 15.)

39. The Project's orientation is a significant component of its urban design strategy and offers a unique expression while still respecting the immediate and surrounding neighborhood context. The Project responds to both the tilted axis of 4th Street, S.W. and the more regular street grid of the L'Enfant Plan. The L'Enfant 4th Street, S.W. was closed in the 1960s for the construction of the Waterside Mall and Waterfront Metrorail station. When 4th Street, S.W. was reopened as part of the Waterfront Station PUD in the later part of the last decade, it included a subtle curve deviating from the grid in order to accommodate the presence of the Metrorail station. Taking into account this existing condition, the north façade of the Project's podium is oriented orthogonally to the irregular configuration of 4th Street, S.W. and therefore establishes the street grid in a manner similar to the condition of other buildings constructed under the Waterfront Station PUD. However, the west-facing ground-level façade, the second floor and eleventh (top) floor are oriented to align with the historical L'Enfant street grid. (*Id.* at 9.)
40. The effect of reorienting the bottom and top floors is to establish an overall frame that is consistent with the prevailing orientation of high-rise buildings throughout the Southwest quadrant. The third through 10th floors of the Project are skewed slightly relative to the orthogonal L'Enfant grid and align with the oblique angle of 4th Street, S.W. Similar to the Eliot across 4th Street, S.W., and as originally approved in the Waterfront Station PUD, the Project's overall form is an inverted "U" shape. The upper levels wrap around a courtyard on the south side of the Project allowing maximum penetration of light to south-facing windows. (*Id.*; Tr. 2 at 12-13, 150-51.)
41. The Project's height is a deliberate component of the overall urban design strategy for Waterfront Station, as the Project's height helps establish the importance of the 4th Street corridor as a transit-oriented town center. The Property, like the parcels at the other corners of the Waterfront Station PUD, was approved for a maximum of 114 feet. From the north, the Project's 114-foot height creates a balanced composition with the similar height of the Eliot on the west side of 4th Street, S.W. Together, the Project and the Eliot frame the 4th Street, S.W. entrance into Waterfront Station. In the other direction, but for the intervening above-grade highway and railway overpasses, a view to the north from 4th Street, S.W. between the Project and the Eliot would terminate at John Marshall Park north of the National Mall. (Ex. 2 at 9-10.)
42. The Project provides well-designed landscaping and streetscaping along both of its public street frontages and along the proposed Private Drive. The Project's 4th Street, S.W. streetscaping continues the pedestrianized character of that corridor. The Applicant proposes to maintain the current material and furnishing palette. The standard DC concrete sidewalk will be extended where necessary to meet the building face. New

streetscape and additional street trees will be provided on the Project's eastern side, along Wesley Place, S.W. (*Id.* at 10.)

43. As the primary landscaping feature of the Project, the Private Drive and adjacent hardscaping and landscaping along the north side of the Project are central elements of the Project's placemaking strategy. The Private Drive's roadway varies in width from 12 to 19 feet and is intended to accommodate vehicle queueing for pick-up and drop-off at the pre-school, for events at the theater, and for the Project's residents. Removable bollards are located at either end of the Private Drive so that it can be intermittently closed off to vehicular traffic for festivals and similar community events. (*Id.*)
44. In addition to the ground-level streetscaping and landscaping, well-designed outdoor spaces have also been integrated into the building itself. The building is oriented around a courtyard on the second floor that is comprised of both semi-private patios and a central courtyard planted with trees and perennials. Units facing the courtyard are south-facing and therefore enjoy more direct sunlight; after the initial filing, the Project's courtyard was revised to increase the amount of open space and improve the amount of light and air to units fronting on the courtyard. For units facing north or west, many of these units enjoy a balcony. The penthouse roof provides a similar range of semi-private and public outdoor spaces, including a swimming pool and terrace for the use of all building residents. (*Id.* at 10-11.) On the whole, the building residents enjoy access to significant outdoor space: of the Project's 450 units, 150 (33%) have a balcony or terrace, and units have access to outdoor space in the courtyard as well as on the roof. (Ex. 22 at 2.)
45. The Project's architecture and materials are designed to be contextually appropriate and high quality. The Project is primarily composed of a ceramic rain screen panel system, visually compatible with those on adjacent buildings, set atop a two-story base containing storefront glass. The two-level podium presents a unified, double-height pedestrian experience at street level. The Project's form incorporates a combination of rectilinear and angular geometries that shift the fourth through 10th floors and create dynamic balconies and views on the north and west façades. Materiality changes further accentuate this dichotomy through the use of concrete on the balconies, which evokes the mid-century residential buildings that characterize Southwest DC. Several second floor and penthouse-level units include private walkout terraces. (*Id.* at 11.) The secondary façade material used for the interior courtyard is a high-quality brick; as the Project's architect noted at the public hearing, the use of differing high-quality masonry materials for the "front" and "back" of a building is a common practice that is found in historic as well as contemporary architecture throughout the District. (Ex. 47 at 9-10.)
46. The Project achieves a high level of sustainability consistent with the District's Anacostia Waterfront Initiative. The Project is designed to achieve a minimum level of Gold under the U.S. Green Building Council's rating LEED-2009 system. Significant sustainability elements are currently intended to include a VRF HVAC system, rooftop solar panels, green roofs, use of recycled materials, and a water management/harvesting system. Although the Project is exempt from the green area ratio ("GAR") requirements by virtue of the Waterfront Station PUD having been adopted prior to the effectiveness of such

requirements, the Project integrates green features that achieve the same effect. (Ex. 2 at 12.)

Consistency of the Project with the Waterfront Station PUD

47. The Project is in accordance with the use and design parameters approved for the Northeast Building in the Waterfront Station PUD. The Applicant does not seek any modifications to either the approved first-stage plans for the Northeast Building or any of the outstanding conditions of the Waterfront Station PUD. The only changes of note for the Project relative to the approved PUD are: (a) the Project includes a habitable penthouse, which was not contemplated at the time of the first-stage PUD approval, but which is allowed under the substantive provisions of ZR58 adopted after the first-stage approval, and (b) the Project includes the additional Project Public Benefits which were neither contemplated nor required as part of the Waterfront Station PUD. (*Id.* at 12.) As addressed below, the project's zoning flexibility does not constitute a modification of the first-stage PUD.
48. The Project is also in accordance with the Conditions of the Waterfront Station PUD. As set forth below, the Commission finds that the Project complies with each of the applicable Conditions of the Waterfront Station PUD⁵:
- (a) Condition 1 identifies the final approved first-stage PUD plans that govern the massing and other broad design parameters of the Project. The Project is consistent with this Condition; (Ex. 2F at 31-36; 2H; 22G1; *see also* Finding of Fact ("FF") 50.)
 - (b) Condition 3 identifies the maximum overall GFA and FAR in the Waterfront Station PUD. The Project is consistent with this Condition; (Ex. 2F at 31-36; 2H; 22G1.)
 - (c) Condition 4 identifies the maximum overall lot occupancy (63%) in the Waterfront Station PUD. The Project is consistent with this Condition; (*Id.*)
 - (d) Condition 7 establishes a maximum height of 114 feet for the Northeast Building, and the Project is consistent with this Condition; (*Id.*; 22G.)
 - (e) Condition 9 establishes a minimum number of parking spaces at Waterfront Station (at least 1,087 total parking spaces are required), and the Project is consistent with this Condition; (*Id.*)
 - (f) Condition 11 requires a minimum of 50,000 square feet of public open space and has been fully satisfied by prior approved second-stage PUDs at Waterfront Station; (*Id.*)

⁵ Conditions 2, 5, 6, 8, 10, 16, 17, 19, 20, 23, and 25-28, apply to other parcels at Waterfront Station and are not applicable here.

- (g) Condition 12 requires the reopening of 4th Street, S.W. and has been fully satisfied by prior approved second-stage PUDs at Waterfront Station. (*Id.*)
- (h) Condition 13 requires a minimum of 110,000 square feet of GFA for neighborhood-serving retail and service uses and has been fully satisfied by prior approved second-stage PUDs at Waterfront Station. (*Id.*) Notwithstanding the foregoing, the Project will continue to advance the intent of this condition with additional neighborhood-serving retail and other uses, focused on 4th Street;
- (i) Condition 14 requires use of best commercially reasonable efforts to provide opportunities for local and small businesses to occupy a total of 12,500 square feet within the Waterfront Station PUD. This Condition applies to the Project to the extent of 2,500 square feet; (*Id.*; *see also* FF 109(g).)
- (j) Condition 15 requires negotiation of a lease with a grocery store at Waterfront Station and has been fully satisfied by prior approved second-stage PUDs at Waterfront Station; (*Id.*)
- (k) Condition 18 requires a minimum of 160,000 square feet of affordable housing at Waterfront Station. The Project contributes to the satisfaction of this Condition and exceeds the requirements in amount, level of affordability, and duration of term; (*Id.*; *see also* FF 109(j).)
- (l) Condition 21 requires a CMP that is satisfied in part by the Project's provision of the superseding Project-specific CMP; (*Id.*)
- (m) Condition 22 requires a Transportation Management Plan that is satisfied in part by the Project's inclusion of such a Plan; (*Id.*; *see also* FF 109(n).)
- (n) Condition 24 requires a First Source Agreement and an agreement with the Department of Small and Local Business Development ("DSLBD"). The Applicant has satisfied this Condition; (Ex. 2J, 2K.)
- (o) Condition 29 establishes the time for filing the instant Application; it was extended by multiple orders of this Commission, including most recently Z.C. Order No. 02-38H, with which this Application complies; and
- (p) Condition 30 imposes requirements regarding D.C. Human Rights Act compliance and is also a condition of this Order.

Development Incentives: Zoning Relief, Design Flexibility, and Map Amendment

49. The PUD process specifically allows greater flexibility in planning and design than is possible under strict application of the Zoning Regulations. Under ZR16, the Commission retains discretion to grant relief from the development standards of the Zoning Regulations and to allow for project flexibility development incentives. (11-X DCMR §§ 303.1, 303.11, 303.13.) ZR16 specifically allows the Commission to approve

any such zoning relief that would otherwise require the approval of the Board of Zoning Adjustment, and generally such relief is available at the discretion of the Commission. (*Id.* § 303.13.) A Zoning Map amendment is a type of development incentive and accordingly is addressed here. (*Id.* § 303.12.)

50. This Application is subject to four sets of development incentives (collectively, the “Development Incentives”): (a) zoning relief with respect to the Project’s side and rear yards (“Zoning Relief”); (b) flexibility with respect to the Project’s ground-floor uses (“Ground-Floor Flexibility”); (c) design flexibility previously granted by the Zoning Commission and revised slightly here (“Design Flexibility”); and (d) the now-vested Map Amendment designating the Property as within the C-3-C Zone District, which is not affected or modified by this Application:

(a) Zoning Relief: The Project complies with the substantive requirements of ZR58 except for the side and rear yard requirements and except as previously modified by the Waterfront Station PUD: (Ex. 22 at 3-4.)

- The Project’s side yards—along 4th Street, S.W. and Wesley Place, S.W.—do not comply with the requirements of the C-3-C Zone District, which does not require any side yard be provided but requires that any side yard provided be at least 2 inches for each foot of building height; (*See* 11 DCMR § 775.)
- For the Project, which is 114 feet in height, any side yard would need to be at least 19 feet. The Project’s side yard along 4th Street varies in width from 12 feet to 0 feet as it tapers off with the angle of 4th Street; the Project’s side yard along Wesley Place is four feet wide; (Ex. 22 at 3-4.)
- The Project’s two side yards result from the Property’s unique configuration and context. Along 4th Street, S.W. the side yard is created by the architectural decision to align the ground floor of the building to the historical L’Enfant grid, which creates a setback from the oblique orientation of 4th Street, S.W. The side yard along Wesley Place, S.W. is created by a design decision to create a sidewalk along that frontage. Wesley Place, S.W. is itself otherwise too narrow for a sidewalk. Both of the Project’s non-conforming side yards are adjacent to public streets, which means there is ample open space on either side of the building. Thus, the typical concerns about a non-conforming side yard are inapplicable to the Project: the adjacent public streets provide ample room for light and air between the Project and any other building.⁶ The non-compliant side yards are necessary from an urban design perspective: they align the Project with the existing street wall and create the type of strong

⁶ For this reason, under ZR16, the two side yards would not require relief because each could be considered a “front” yard pursuant to Subtitle B § 313.1 and therefore would not need to comply with the side yard requirements.

urban presence encouraged by the Comprehensive Plan (as defined below) and urban design principles; and (*Id.*)

- The Project's rear yard to the north of the building also does not comply with the requirements of the C-3-C Zone District, which requires a rear yard of approximately 28 feet for the full width of the lot. All or portions of two to three balconies on the fourth through 10th floors project into the required rear yard by four feet or less. These balconies, a design decision established at the second-stage PUD phase, represent a minimal incursion into the required rear yard, add articulation, visual interest, and private outdoor space. The rear yard abuts a 45-foot-wide District-owned parcel that separates the Property from the church to the north and that provides ample open space at the rear of the Project; (*Id.*)
- (b) Ground-Floor Flexibility: The Project includes flexibility to provide a range of ground-floor uses. (Ex. 22 at 4.) All of the Project's proposed ground-floor uses are within the scope of the neighborhood-serving uses contemplated in the Waterfront Station PUD;
- (c) Design Flexibility: The Project is subject to the Commission's now-standard design flexibility. Flexibility analogous to the Design Flexibility was previously approved as part of the Waterfront Station PUD, and is modified in the Conditions of this Order to bring it in accordance with the Commission's current day practices, which are in general more stringent than what was initially approved in the Waterfront Station PUD; and (Ex. 2H at 8.)
- (d) Map Amendment: The Waterfront Station PUD included the Map Amendment, re-designating the Property from the C-3-B Zone District to the C-3-C Zone District. This Application does not propose to modify the Map Amendment or its now-vested status. The Commission previously found as part of the Waterfront Station PUD that the Map Amendment is not inconsistent with the Comprehensive Plan, which finding satisfies the requirements for granting the Map Amendment. (*See* 11-X DCMR § 500.3; Ex. 2F at 1.) The Commission confirms that the Map Amendment is vested because the Commission approved it previously in the Waterfront PUD and, as such, it is not the subject of this second-stage PUD Application. The proposed C-3-C zoning for the Project continues to be consistent with the purposes of the Zoning Regulations for the same reasons as identified in the first-stage PUD. Broadly, the C-3 Zone Districts are intended to accommodate major business and employment centers and to provide substantial amounts of employment, housing, and mixed uses. (11 DCMR §§ 740.1-740.2.) Within this framework, the C-3-C Zone Districts are intended to contain medium-high density development. (*Id.* § 740.8.) As applied to the Waterfront Station PUD, the C-3-C Zone District is appropriate for this location: a town center located above a Metrorail station within in the "Central Employment Area" as defined in the Comprehensive Plan. The C-3-C Zone District allows for a broad mix of residential, office/employment, retail and other neighborhood-serving

uses, and the C-3-C Zone District is accordingly suitable for the Project's mix of residential, retail, arts, and educational uses. Moreover, the Project's mix of uses, height, and density are consistent with the character of the C-3-C Zone District.

51. None of the Development Incentives constitutes a modification to the Waterfront Station PUD. The Zoning Relief does not materially affect the Project's massing or other elements established through the first-stage PUD process. Rather, the Zoning Relief is a result of the Project being architecturally designed and articulated, a step that does not occur until the second-stage PUD process. Accordingly, the Zoning Relief could not have been contemplated at the time of the first-stage PUD and is not a modification of the massing approved at that stage. The Ground-Floor Flexibility allows uses within the range of uses contemplated in the Waterfront Station PUD. The Design Flexibility was contemplated in the Waterfront Station PUD and is refined here only to bring the language of such flexibility into line with the Commission's current-day and more stringent conditions. The first-stage PUD expressly approved the Map Amendment.

District Agency Reports

Office of Planning

52. The OP Setdown Report recommended that the Commission set down the Application for public hearing. OP concluded the Project is not inconsistent with the Comprehensive Plan, and that the Application generally meets the requirements of ZR16's Subtitle X, Chapter 3. OP supported the Project's proposed architecture, especially its evocation of mid-century modern design and its meshing with the architecture of the surrounding neighborhood. (Ex. 11.) OP referred the Application to the District Department of Energy and Environment ("DOEE"), DHCD, DDOT, the Department of Parks and Recreation, D.C. Public Schools ("DCPS"), the Department of Public Works, the Office of Aging ("OOA"), the Department of Employment Services ("DOES"), Fire and Emergency Management Services ("FEMS"), the Metropolitan Police Department ("MPD"), the Office of Early Childhood Development, DC Water, and WMATA. In its Setdown Report, OP asked the Applicant for additional information on three topics: (a) rooftop materials, (b) affordable unit summary, and (c) proposed material on the Private Drive.
- (a) **Rooftop Materials**: OP requested a description of the "rooftop materials" surrounding the Project's open-air mechanical penthouse. The Applicant responded that such metal screening is a painted dark gray aluminum panel with perforations for air flow. The Applicant provided a materials board available at the public hearing with samples; (Ex. 22 at 2; 36.)
- (b) **Affordable Unit Summary**: The Applicant provided floor-by-floor locations of the Project's affordable housing units showing dispersion of units throughout the Project. The Project's affordable units are in proportion to the market-rate units with respect to bedroom count. (Ex. 22 at 3.) In its Post-Hearing Submission, the Applicant relocated some of the affordable units in response to comments from the Commission and others at the Public Hearing; and (Ex. 47 at 10.)

- (c) Materials for the Private Drive: OP also requested further evaluation of the relationship of the Project's Private Drive to the analogous private drive at the "Eliot" building on the west side of 4th Street, S.W. The design of the Project's Private Drive reflects the general materiality and character of the existing private drive on the west side of 4th Street, S.W. Both drives use all-weather, permeable unit pavers of a similar material and color, but the shape of the pavers differs to reflect the different function and intent of each drive. Further, the design of the Project's Private Drive reflects the form and function of the Project's active, pedestrian-focused ground-floor uses. The one-way driveway allows for ample space for café seating on the west end and a play area on the east end, and it creates a dynamic environment that connects the building uses to the outdoor public realm. The Private Drive also accommodates pick-up and drop-off services for the multiple ground floor uses in the Project that are served by the Private Drive. By contrast, the Eliot's existing private drive is a less intense, two-way drive, adjacent to ground-level walk-out residences. (Ex. 22 at 2.)
53. The OP Hearing Report recommended approval of the Application subject to two conditions: (a) inclusion of electric vehicle charging stations in the Project's garage, as proposed by DOEE; and (b) revisions to the design flexibility language requested by the Applicant. The Applicant agreed to both conditions suggested by OP and satisfied OP's concerns. (*See* Conditions A.2(d) and (l); Tr. 2 at 91.) The OP Hearing Report and Public Hearing testimony also summarized OP's outreach to other agencies, including the Historic Preservation Office ("HPO"), DHCD, and DCPL and its hosting of an interagency meeting. (Ex. 24; Tr. 2 at 91.) HPO had no comments; DHCD's and DCPL's comments are summarized below. The Commission makes additional findings with respect to the OP Setdown Report and OP Hearing Report below in the discussion of the Project's satisfaction of the PUD Evaluation Criteria (as hereinafter defined). (*See* FF 90(b).) OP did not raise new information in its Public Hearing testimony. (Tr. 2 at 90-91.)
54. The OP Final Report responded to the Commission's request that OP solicit comments from the DME concerning the relocation and expansion of the AppleTree Learning Center from Jefferson Middle School to the ground floor of the proposed building that is the subject of this application, in light of concerns expressed by the Amidon-Bowen PTA and others. OP's Final Report stated that it contacted DME to request comments but did not receive any. OP also commented that since the hearing it noted that the Amidon-Bowen PTA filed a letter in support of the application. In addition to contacting DME, OP stated in its Final Report that it also requested comments from agencies that had not responded to its earlier request for comments, and received responses from DOEE, DCPL, and FEMS.

Department of Transportation

55. The DDOT Report stated no objection to the approval of the Project subject to certain revised conditions. (Ex. 25 at 3-4.) DDOT found that the Applicant used sound methodology and assumptions in its CTR analysis. (Ex. 25 at 2.)

56. DDOT also found the elements of the Applicant's Transportation Management Plan ("TMP") acceptable, subject to revisions that the Applicant accepted prior to the Public Hearing. (Ex. 34B.) DDOT recommended either a reduction in parking or an increase in the robustness of the TMP through the provision of a 19-unit Capital Bikeshare station. (Ex. 25 at 3.) The Applicant agreed to the latter. DDOT made five recommendations: (a) upgrade the southern leg of Wesley Place, S.W. to include a curb cut; (b) provide a revised ground-floor plan showing loading berths; (c) ensure vehicles and pedestrians can freely use the Private Drive; (d) implement the TMP subject to certain revisions; and (e) implement the Transportation Demand Management ("TDM") Plan subject to certain DDOT-proposed revisions. (*Id.* at 4.) The Applicant accepted these recommendations and revisions to DDOT's satisfaction. (Ex. 34B; Tr. 2 at 95.)
57. In addition to the parking, loading and TMP/TDM comments above, DDOT also reviewed the Project's impacts on: (a) streetscaping and the public realm, (b) trees, (c) the pedestrian network, (d) the roadway network, and (e) public transit. DDOT noted no adverse impacts from the Project on any of these elements of the District's infrastructure. (Ex. 25 at 7-15.)
58. The Applicant's CTR capacity analysis suggested that adjusting signal timings and/or cycle lengths could improve intersection delay and level of service back to acceptable conditions at four intersections that trigger DDOT's "Significant Impact Policy." (Ex. 15A.) According to DDOT, these improvements would necessitate the retiming of entire corridors of traffic signals so DDOT typically does not make these changes in conjunction with a land development project. In lieu of traffic signal adjustments, DDOT recommended the Applicant instead reduce the amount of on-site vehicle parking through the enhanced TDM strategies recommended by DDOT and reduce auto mode share and encourage non-auto travel in order to offset the impacts to the roadway network. (Ex. 25 at 17.)
59. The Commission accepts DDOT's findings and agrees that no further impact mitigation of the Project is necessary beyond the Applicant's implementation of the TMP and associated TDM.

Other District Agencies

60. In addition to DMPED, OP, and DDOT, the Applicant met with or discussed the Project with representatives from DOEE, DHCD, DCPL, FEMS, MPD, OOA, as well as with utilities such as DC Water and PEPCO. Among other discussions and meetings, the Applicant participated in an intensive interagency discussion regarding the Project with many of the stakeholders listed above, so that the agencies could coordinate with each other and share comments and questions about the Project in real time with each other and the Applicant and its design team and consultants. These conversations affected and improved the final design of the Project. (*Id.* at 7.)
61. OP received email comments from DOEE after the hearing and forwarded those comments to the Commission with its Final Report. The comments stated that DOEE

- “continues to be supportive of the proposed design while reserving any technical comments for formal review as part of the permitting process” while encouraging the Applicant to pursue formal LEED certification rather than simply providing a LEED checklist, and install 3,000 feet of rooftop solar and design the roof space so as to allow maximum solar generation. (Ex. 51.)
62. OP contacted DME to request comments concerning the relocation and expansion of the AppleTree Learning Center from Thomas Jefferson Middle School to the ground floor of the Project, at the request of the Commission in response to the concern expressed at the hearing that this could potentially draw students away from Amidon-Bowen Elementary School, adversely affecting it. OP did not receive comments from DME in response. (Ex. 51.) However, in response to a request from the Commission, DME submitted a letter dated April 1, 2019. (Ex. 56.) It states that charter schools are allowed to choose their own locations and that DME will not comment on this particular choice.
63. DHCD provided written comments to OP, and OP included DHCD’s comments in the OP Hearing Report. The Applicant met with DHCD as part of the interagency meeting and followed up with separate correspondence. In summary, DHCD had no objections to the proposed development, subject to the implementation of the proposed affordable housing public benefit. (Ex. 24 at 13-14.) DHCD concurred with the amount, duration, and levels of affordable housing proposed for the Project and noted that the proposed affordable housing in the Project exceeds the amount that the inclusionary zoning regulations would require for both the building and penthouse, both in terms of amount of set-aside and level of affordability. (*Id.*; *see also* FF 35.)
64. OP also included DCPL’s written comments in the OP Hearing Report. In sum, DCPL requested the Applicant assist with wayfinding signage for the Southwest Library during and after construction and requested that DDOT and OP review the Project’s transportation and public space plans to consider the impact of the Project on the access and use of the Library. (Ex. 24 at 14.) The Applicant agreed to DCPL’s requested signage condition. (*See* Condition B.11.) DDOT agreed to address DCPL’s concerns. (Ex. 24 at 13-14.) After the Public Hearing, DCPL confirmed to OP that the Project, including its inclusion of AppleTree, would not place an undue burden on the public library system. (Ex. 51.)
65. OP also forwarded a FEMS report on the Project after the Public Hearing. FEMS’s report noted no objection to the Project subject to its compliance with the applicable provisions of the fire code. (Ex. 51.) The Applicant previously agreed to comply with such provisions. (Ex. 47 at 12.)
66. MPD did not submit written comments in this proceeding. However, the Applicant confirmed that it met with Commander Morgan Kane of MPD to discuss design and operational measures that could be incorporated into the Project to improve its overall safety and security, particularly with respect to the Private Drive and Play Area. (Ex. 22.) MPD suggested that the Applicant: (a) raise the height of the fence around the Play Area from four feet to five feet; (b) ensure that cameras are placed on the perimeter of the

building and monitored by the building management; (c) install barriers reinforcing the fence against cars/traffic along the out-side of the Play Area; (d) ensure that there is sufficient lighting at night to prevent overnight loitering; (e) monitor the Play Area and work with patrol officers to ensure that it does not become an after-school “hangout” area; and (f) set up further follow up meetings with patrol officers to get additional perspectives. (Ex. 22 at 7.) In response to comments (a) and (c), the Applicant increased the fence height and revised the design of the Play Area. In response to comments (b), (d), (e), and (f), the Applicant agreed to review the camera placement and lighting plans again with Commander Kane and her staff and to set up further meetings with patrol officers in the Police Service Area (“PSA”) later in the development process. (*Id.*)

67. Finally, the Applicant met with officials from DDOT’s Safe Routes to School program, and agreed to continue to work with the Safe Routes team to ensure student safety both during construction and after completion of the Project. (*Id.*)
68. Additional findings regarding the necessity and adequacy of reports from District agencies are included below in the Commission’s review of this Application’s satisfaction of the procedural requirements for a second-stage PUD. (*See* FF 123.)

Advisory Neighborhood Commission 6D

69. Prior to the Public Hearing, the Applicant engaged in extensive outreach with the ANC, neighbors, and community groups. The Applicant’s outreach with the ANC and community groups informed the Project’s design, mix of uses, mitigation plans, and Project Public Benefits. Beginning over three years before the Public Hearing and leading up to the Hearing, the Applicant met with the ANC, members of the communities surrounding the Project, neighbors, and neighborhood groups to discuss plans and designs for the Project and to address community concerns. In addition to the ANC, the Applicant met or had discussions with representatives from Westminster Presbyterian Church and Christ United Methodist Church, which are located to the immediate northwest and north of the Project, SWNA, Waterfront Towers, Capitol Park Towers, USAA Real Estate, Bernstein Management Company, Forest City, Carrollsburg Condominium, Tiber Island Cooperative, and Tiber Island Condominium Association, which together represent a broad cross-section of community groups, nearby residential buildings, and adjacent commercial property owners. (Ex. 22 at 6.) The Applicant also met multiple times with the Amidon-Bowen PTA on behalf of students at the public school approximately one block north of the Property. (*Id.*; Ex. 47 at 6-7.)
70. The ANC played a significant and positive role in the development of the Project. Because the Applicant has worked closely with the ANC from the outset of the RFP process by which DMPED selected the Applicant, the ANC’s preferences regarding the Project’s ground-floor uses are reflected in parts of the Project’s program and design. Similarly, the ANC’s concerns about traffic and curbside management were factors in the design of the Project’s Private Drive and parking and loading access locations. In addition, at the behest of the ANC, the Project expands substantially on the already-robust package of Waterfront Station Public Benefits to include the Project Public

Benefits, all as outlined in more detail below. The expansion of the Project Public Benefits is largely the result of the Applicant's discussion with the ANC. At the encouragement of the ANC, the Applicant undertook a comprehensive study of the Project's transportation impacts, mitigation, and safety measures and construction management to address potential impacts. (Ex. 22 at 6.)

71. The Applicant presented the Project to the ANC at the ANC's December 2018 public meeting, met subsequently with the Commissioners on multiple occasions to resolve outstanding questions and concerns, and presented to the ANC again in January 2019 for a vote on the Project. (*Id.*) The ANC voted unanimously to support the Project. (Ex. 32.)
72. The ANC Report stated that the Project is consistent with the Southwest Neighborhood Small Area Plan (defined below) and is an appropriate final puzzle piece that will complete the larger Waterfront Station development. (*Id.*) The ANC Report listed the following issues and concerns:
 - (a) Affordable Housing: The ANC stated it was pleased that the Applicant was going beyond its obligations required by the first-stage PUD by providing deeper levels of affordability and duration, but that it would appreciate if the Applicant would "give some thought" to a portion of the affordable units larger than two bedrooms;
 - (b) Architecture and Materials: The ANC stated that it was pleased with the design, particularly the balconies, but expressed that it "hopes the balcony units will be made available, in proper percentages, as part of that number that will be set aside for affordable housing";
 - (c) Parking and Loading: The ANC stated that "parking and loading is going to be tight at this site" and requested more information about the usage and design of the Private Drive, clarification regarding the hours of operation of the Play Area and the hours that it would be open to public use, and that it would "appreciate a broader discussion from the Commission and DDOT representatives to ensure what is planned will be adequate";
 - (d) Landscaping and Streetscaping: The ANC stated that it wanted more information about the design of the Private Drive so that the paving and design will provide a space and surface that will safely accommodate pick up and drop off of pre-school children;
 - (e) Bicycles: The ANC stated that it was pleased there was considerable secured bike parking in the Project. The ANC stated that it wished to be involved in discussions regarding the location of the planned Capital Bikeshare station near the Project, including information about demand levels;
 - (f) Retail: The ANC expressed support the Project's retail plans, and that a specific condition is included in this Order;

- (g) Impact on the Library: The ANC expressed concern that the planned charter school would use the library as an extension of its campus and unduly burden the library staff and resources; and
- (h) Impact of the Charter School: The ANC expressed concern about a lack of transparency and coordination between the Applicant, AppleTree, the Amidon-Bowen PTA and the ANC, potential adverse impacts of the charter on Amidon-Bowen, and encouraged the Applicant to develop a community benefits agreement with the Amidon-Bowen PTA.
73. The ANC, in its direct testimony, and cross-examination at the Public Hearing, also noted some concerns with the Project. The ANC requested: (a) that the Project include three-bedroom units; (b) that the Project's affordable units be reallocated so that more affordable units had access to balconies and other similar private outdoor spaces; (c) more information about the usage and design of the Private Drive; (d) clarification regarding the hours of operation of the Play Area and the hours that it would be open to public use; (e) information about the need for an additional Capital Bikeshare station; (f) an assessment of the Project's impacts on the Southwest Library; (g) further dialogue between the Applicant and the PTA; (h) clarification regarding the length of the Project's contracts with its performing arts tenant(s); (i) information from the Applicant the development of the Greenleaf Public Housing community in Southwest DC ("Greenleaf"); and (j) support from the Commission and the District government regarding the cumulative effects of multiple ongoing developments in Southwest DC, of which the Project is one of many.⁷ (See Ex. 40; Tr. 2 85-90, 93-94, 95-97, 98-114, 116-19, and 145-48.) The Applicant provided responses to the ANC's comments:
- (a) Three-Bedroom Units: The ANC's concerns regarding three-bedroom and larger units are addressed below in the Commission's review of the Project's consistency with the Comprehensive Plan and in the review of the Project's potential impacts; (See FF 117-122.)
- (b) Allocation of Affordable Units: The Applicant revised the allocation of the Project's affordable units in response to these comments from the ANC and related comments from the Commission and others at the Public Hearing; (Ex. 47 at 10; 47H.)
- (c) Information about the Private Drive: The ANC noted that it would "appreciate a broader discussion from the Commission and DDOT representatives to ensure that what is planned will be adequate both architecturally and operationally." At the Public Hearing, the Applicant's transportation consultant and landscape architect provided testimony regarding the Private Drive's design and operations. (Tr. 2 at 14-16, 18-20.) Commissioner Litsky thereafter confirmed these

⁷ The ANC Report also included language regarding the Applicant's proffer of a "diner"-type use. At the Public Hearing, ANC Commissioner Litsky confirmed that the language in the written report was not the final language. (Tr. 2 at 105-106.) The final language is included here as Condition B.1(a).

responses from the Applicant satisfied the ANC's concerns. (*Id.* at 110.) The ANC also raised concerns about whether the AppleTree use, and in particular the after school care hours, had been fully analyzed in the Project's CTR. The Applicant explained that "after care" programs are a common feature of both public and charter schools in the District. The Applicant provided evidence that only a fraction of the AppleTree's students participate in such after school program. That is, of the 108 students enrolled at AppleTree today, only approximately 40 participate in the school's after care program, where student pickups can range from any time from 3:15 p.m. until 6:00 p.m. The Applicant's CTR conservatively assumed that, with respect to educational uses only, 33 vehicles would exit the Project during the evening peak hour alone (i.e., between approximately 5:00 p.m. and 6:00 p.m.). (Ex. 15A at 19-20.) The CTR assumes 82 total out-bound trips (including the 33 related to educational uses) and 122 total in-bound trips (29 education related) during the evening peak hour. These are conservatively high numbers to "stress test" the Project's private drive pick-up/drop-off loading plan and garage-based contingency plan; (Ex. 47 at 8; Tr. 2 at 153-54.)

- (d) Hours of Operation of the Play Area: In its Post-Hearing Submission, the Applicant confirmed that the Play Area will be open to public use during daylight hours outside of AppleTree's typical school hours but not later than 5:00 p.m. daily. The end result of this commitment is that the playground will be open to the public all day 184 days a year (i.e., weekends, holidays, and summertime) and in use by the school during school hours only, on only 181 days per year. As is the case with most public schools and public charter schools in the District, AppleTree currently provides after school care during hours that extend until as late as 6:00 p.m. on weekdays. (Ex. 47 at 5-6.) The Play Area's hours of availability for neighborhood children is slightly superior to that of other area school playgrounds.⁸ As discussed more fully below, the Play Area satisfies the Public Benefit Criteria; (*See* FF 110(k), 111-12.)
- (e) Demand for Capital Bikeshare: In its Post-Hearing Submission, the Applicant submitted usage data from the Capital Bikeshare program for the existing Waterfront Station Bikeshare station. (Ex. 47F.) That data shows unmet demand for a second Bikeshare station at Waterfront Station;
- (f) Assessment of Impacts on DCPL: The ANC raised concerns that the inclusion of a charter school in the Project would overburden the Southwest Branch of the DC

⁸ The existing playground at Amidon-Bowen Elementary School, which also has after care hours, similarly states that its facilities are open to the public only outside of school hours, which last until 6:00 p.m. on school days. These policies are consistent with general DC Public Schools policies for school playgrounds. (*See* Track, Field, Playground Usage and Access Policy, DCPS CHANCELLOR DIRECTIVE 604.2 V 2.0 at 3 (Aug. 2016) <https://dcps.dc.gov/sites/default/files/dc/sites/dcps/publication/attachments/Track%2and%20Field%20Policy.pdf> ("School playgrounds will not be available when DCPS scheduled activities are using the facility during the times stated above. This includes extracurricular activities, or when entities or programs are granted access through a building use agreement or lease, as well as when the facilities are otherwise locked or closed to the public").)

Public Library given the proximity of the proposed school to the existing library. The Applicant reports that AppleTree does not now regularly take its students to the Public Library and has no plans to do so in the future. (Ex. 47 at 8-9.) As noted above, after the Public Hearing, DCPL provided written testimony concluding that the Project would not have any undue burden on the library; (*See* FF 64.)

- (g) Further Dialogue with the PTA: The ANC's concerns regarding the PTA are addressed below in the Commission's review of the Project's potential impacts; (*See* FF 103.)
- (h) Performing Arts Contract Length: The ANC expressed concern that the space in the Project reserved for performing arts and related uses would be limited to leases with a term of five years. The Applicant confirmed that is not the intent. Rather, the space will be reserved for a performing arts use for a period of five years after the issuance of the first certificate of occupancy for the Project. If during that five-year period no tenant is found that satisfies the use criteria, then the 9,000 square feet reserved for that use will be opened up to a broader range of uses. However, this commitment does not limit the Applicant to entering into a five-year lease for such space. The five-year commitment is entirely unrelated to the lease term; (Ex. 47 at 5.)
- (i) Greenleaf Redevelopment: The ANC's concerns about Greenleaf are not properly before the Commission in this proceeding.⁹ The future redevelopment of Greenleaf is not part of the instant proceeding and any question involving it is at best speculative at this point, since the process is in the preliminary "Request for Qualifications" stage, meaning no development partner has been selected and no development plan has been identified. (Tr. 2 at 94.) Accordingly the concerns regarding Greenleaf are not legally relevant to this proceeding, and the Commission does not give them great weight.¹⁰ To the extent the ANC's comments about affordable housing overlap with its comments about Greenleaf and are relevant to the instant proceeding, the Commission gives those concerns their statutorily determined weight.¹¹ If at some point in the future the Greenleaf redevelopment plan goes forward with the Project identified as a Build First site,

⁹ As a threshold matter, the ANC's cross-examination of the Applicant with respect to Greenleaf was improper. The Applicant did not mention the Greenleaf redevelopment in its direct testimony or any filing to the Commission, and questions on cross-examination are to be limited to the scope of direct testimony. (*See Watergate East Committee Against Hotel Conversion Co-op Apartments v. District of Columbia*, 953 A.2d 1036, 1046 (D.C. 2008) ("Matters beyond the scope of direct examination are properly left to the opposing party's case-in-chief."))

¹⁰ *See Wheeler v. D.C. Bd. of Zoning Adjustment*, 395 A.2d 85, 89 (D.C. 1978). ("Thus, we interpret "issues and concerns," as used in D.C. Code 1978 Supp., § 1-171i(d), to encompass only *legally relevant* issues and concerns.") (Emphasis added).

¹¹ Project opponents, in oral testimony provided at the Public Hearing also raised concerns about Greenleaf. (Tr. 2 at 136-38.) For the reasons given here, the Commission does not consider this testimony relevant to this proceeding.

the Commission will consider any legally relevant issues in connection with those proceedings; and

- (j) Construction Coordination: The ANC expressed concerns about the cumulative impact of construction in Southwest DC resulting from the Project and other ongoing or planned development activities. The Commission finds that the Applicant does its part to mitigate construction-period impacts including its contribution to cumulative impacts. That is, as part of the CMP, the Applicant is obliged to engage in construction coordination among the numerous parties engaged in construction in the neighborhood, a novel measure that addresses cumulative impacts and impacts resulting from the interrelation of simultaneous construction projects on separate properties. As discussed more fully below, the Commission finds that the Applicant's CMP fully mitigates any potential adverse impacts from construction of the Project. (*See* FF 105.)

Commission Comments and Questions

74. Prior to the Commission's vote to set down the Application for a public hearing, the Commission did not raise any comments or questions with respect to the Project. (Tr. 1 at 66-68.)
75. At the Public Hearing, the Commission raised questions regarding: (a) the location and total student population of AppleTree today in relation to Amidon-Bowen Elementary School; (b) the placement of solar panels over the Project's green roofs; (c) the nature of the Project's "diner" use; (d) the Project's LEED commitment; (e) the Project's "front" "rear" and "side" yard configuration; (f) the Project's building height measuring point; (g) the potential visibility of the Project's solar panels from public streets; (h) the Project's lack of three-bedroom units; (i) the design of the Project's courtyard-facing façades; (j) the placement of the Project's affordable units; (k) the Project's signage dimensions; (l) the Project's employment benefits; (m) the vacancy and absorption rates in the neighborhoods surrounding the Project; (n) the time-frame of the ground lease with DMPED; (o) whether any representatives of the Applicant reside in the neighborhood surrounding the Project; and (p) the PTA's concerns and requests. (Tr. 2 at 35-85.) The Commission also asked questions and engaged in dialogue with members of the PTA, the ANC, and those testifying in support and opposition to the Project:
- (a) AppleTree: The Applicant confirmed that AppleTree has been located in Southwest DC at a couple of different locations for nearly two decades; (Tr. 2 at 37-40; Ex. 35 at 41.)
- (b) Solar Panels over Green Roofs: In its Post-Hearing Submission the Applicant provided recent materials from DOEE confirming the feasibility and design of a green roof together with solar panels. (Ex. 47E.) Consistent with this recent guidance, the Applicant's design expert confirmed that while he had not yet installed solar panels over a green roof, he had been told that it was possible; (Tr. 2 at 40.)

- (c) “Diner” Use: The Applicant provided information about its retail search and the type of restaurant tenant that it was hoping to attract; (*Id.* at 41.)
- (d) LEED Commitment: The Applicant confirmed it was designing to achieve LEED Gold v2009; (*Id.* at 42.)
- (e) “Front,” “Rear,” and “Side” Yard Configuration: The Applicant provided testimony that the Project’s 4th Street, S.W. and Wesley Place, S.W. frontages were “side” yards because the Project’s front is on M Street, S.W. as memorialized in the Waterfront Station PUD and consistent with the practice in other second-stage PUDs under the Waterfront Station PUD; (*Id.* at 42-45; *see also* FF 116(a).)
- (f) Building Height Measuring Point: Again, the Applicant confirmed that a shared measuring point on M Street was a feature of all buildings within the Waterfront Station PUD and is consistent with the Zoning Regulations. The Applicant’s architecture expert confirmed that the use of M Street, S.W. as a measuring point (rather than 4th Street, S.W.) results in an increased maximum elevation of two to three feet; (Tr. 2 at 46.)
- (g) Solar Panel Visibility: The Commission also expressed some concern that the Project’s solar panels could result in visual clutter at the roof level of the Project. The Applicant’s provided studies of the potential locations for solar panels suggest that none would be visible from the public right-of-way given the screening and setback requirements for such panels; (Ex. 47H.)
- (h) Three-Bedroom Units: The Commission’s questions regarding three-bedroom and larger units are addressed below in the Commission’s review of the Project’s consistency with the Comprehensive Plan and in the review of the Project’s potential impacts; (*See* FF 117-22.)
- (i) Courtyard-Facing Façades: The Commission raised concerns with the overall design of the courtyard, suggesting that it relies on a “lesser” material and is not as well articulated as the three public-facing façades. The courtyard is generally not visible from 4th Street, S.W. or any other public right-of-way, However, upon further review of the materials samples provided by the Applicant and its Post-Hearing Submission, the Commission is satisfied that the courtyard brick is not a “lesser” material than the ceramic on the public-facing sides of the building. Indeed, the high-quality brick employed on the courtyard could be a façade material elsewhere. The Applicant elected a larger ceramic rain screen on the public-facing façades because that is more in character with the other modern buildings in the Waterfront Station PUD. However, the brick is entirely contextual for Southwest DC and is a high-quality exterior material. Moreover, the courtyard is not bereft of articulation. Each of the three courtyard façades is articulated through a mix of massing changes, including bays and reveals. The courtyard views also benefit from landscaping in the courtyard and the sunnier

southern exposures. These benefits balance the benefits of the north and west-facing units with balconies but also with respectively, no direct daylight or more street noise. Finally, the color of the courtyard's brick is deliberately light in tone to reflect light and to create a brighter experience for the south-facing units. In sum, the Project's courtyard façade is not as richly designed as other public facing façades, but that is acceptable in light of its interior-facing configuration. The Commission is moreover satisfied that its concerns about the disparity in level of articulation are ameliorated by the Applicant's reallocation of the Project's affordable units to be more evenly balanced between the north and south sides of the Project; (Ex. 47 at 10-11.)

- (j) Location of Affordable Units: In its Post-Hearing Statement, the Applicant reallocated the Project's affordable units. (Ex. 47 at 10; 47H.) Now only approximately 57% of such units face onto the Project's courtyard, which addresses the Commission's concerns that such units were previously distributed in such a way that a disproportionate number looked onto either the "back" of the building. (Ex. 47 at 10.) The courtyard side of the Project, though nominally the "back" is by some measures the more desirable side of the Project: (i) it is south-facing, which typically results in better daylighting than the north side of the building, (ii) it faces the Project's courtyard, which is likely to be quieter than the east and west-facing sides of the Project, both of which sides face onto public streets, and (iii) it has a "greener" view, with green roofs on all levels of the Project's courtyard and on the roof and garage roof of the adjacent office building at 1100 4th Street. (*Id.*) The Commission is fully satisfied that the Applicant's reallocation of the Project's affordable units resolves all concerns about the initial proposed allocation of such units and finds that the proposed allocation satisfies the relevant regulations governing such allocation;
- (k) Signage Dimensions: In response to the Commission's questions regarding the maximum allowed height of the Project's signage, the Applicant provided updated drawings from the Project's signage plan showing such maximum allowable height in its Post-Hearing Submission; (Ex. 47H.)
- (l) Employment Benefits: The Applicant confirmed that it had entered into employment-related agreements with DOES and that it had a long history of successful job-training and apprenticeship programs. (Tr. 2 at 59-61.) In its Post-Hearing Submission, the Applicant provided detailed information about its affiliates' job training programs confirming the Applicant's broad successes with job training; (Ex. 47C.)
- (m) Vacancy and Absorption Rates: The Applicant confirmed that the rate of absorption among apartment units in the neighborhoods around the Project is very high; (Tr. 2 at 61.)
- (n) Ground Lease: The Applicant confirmed that the ground lease had a 99-year term; (*Id.* at 61-62.)

- (o) Applicant Residency: The Applicant confirmed that its corporate headquarters were in Southwest DC and that many of its senior executives also lived in Southwest DC; and (*Id.* at 84-85.)
- (p) PTA Concerns and Requests: Further discussion regarding the PTA's concerns is below in the Commission's review of the Project's potential impacts. (FF 103.)

Testimony in Support

- 76. The Commission reviewed three letters in support of the Project from private individuals or organizations. (Ex. 29, 30, 33.) These letters applauded the Project's affordable housing, ground-floor program, and overall design as well as the Applicant's outreach and employment practices. (*Id.*) The Commission received and reviewed a letter of support of the Project from DMPED, which expressed support for the Project on behalf of the District's executive branch and its policy objectives. (Ex. 26.) DMPED's letter also described the D.C. Council's approval of the Project. (*Id.*) The Commission reviewed letters of "qualified" support, which are addressed more fully below. (FF 76-77.)
- 77. At the Public Hearing, the Commission heard from two qualified supporters, whose testimony is addressed below, and one unqualified supporter of the Project. The unqualified supporter, Mr. Paul Taylor a/k/a "Big South", testified on behalf of the Applicant's and its affiliates' job training and local employment successes. (*See* FF 76-77; Tr. 2 at 127-129, 132-135.) The Commission found Mr. Taylor to be a highly credible witness whose testimony was strongly supportive of the Applicant's ability to carry out the Public Benefits.

Qualified Support / Testimony in Opposition

- 78. The Commission reviewed written testimony in opposition to or in qualified support of the Project from individuals or organizations and additionally considered the oral testimony of six individuals or organizations. (Ex. 23, 28, 31, 37-39, 43, 45; Tr. 2 at 65-84, 136-148.)
- 79. The Waterfront Tower Condo Association ("WTCA") applauded the Project's affordable housing component, but raised concerns about the Project's drop-off zones, retail commitments, northern façade design, and landscaping, each addressed below. (Ex. 23 at 1.)
- 80. Near SE/SW Community Benefits Coordinating Council ("CBCC") was also generally in support of the Project's affordable housing, but also raised concerns with the Project's retail benefits, its potential impacts on Amidon-Bowen Elementary School, and its lack of three-bedroom units. (Ex. 39 at 2.)
- 81. Mr. Chris Williams raised concerns in his oral testimony at the Public Hearing about the Project's lack of three-bedroom units, the Applicant's failure to identify which affordable units were reserved at which level of income, Greenleaf, and anecdotes regarding lease up of affordable units at The Wharf. (Tr. 2 at 136-138.) To Mr. Williams's thoughtful

concern that the Applicant's filings did not identify which units would be reserved for households earning 30% MFI and which would be reserved for those earning 50% MFI, the Applicant's Post-Hearing Submission included this information. (Ex. 47H at 2-12.) The Applicant also provided information confirming that its affiliates have successfully leased up and operated affordable housing units nearby. (Ex. 47B.)

82. Ms. Joelle Rodney objected to the Project's alleged lack of family-sized housing units and potential displacement impacts. (Tr. 2 at 138-139.)
83. Three representatives of the PTA spoke in opposition to the Project at the Public Hearing and submitted into the record a total of four written letters, all of which together raised concerns about AppleTree's potential impacts on Amidon-Bowen Elementary School. (Tr. 2 at 65-84; Ex. 28, 31, 38, 45.)
84. Finally, a representative from SWAG provided oral testimony at the Public Hearing, and a few minutes before the close of the record before the Public Hearing, SWAG provided written testimony raising a number of allegations about the Project's lack of consistency with the Comprehensive Plan and potential impacts. (Ex. 37.) There are a number of concerns about SWAG's testimony:
 - (a) First, much of SWAG's testimony raises generalized grievances of public policy matters that would apply to any development in the District, whether via a PUD or as a matter of right. This PUD, which is part of an adjudicatory process, is not the proper proceeding for crafting the public policy responses SWAG seeks for its allegations of generalized injuries. (*See York Apartments Tenants Association v. District of Columbia Zoning Commission.*, 856 A.2d 1079, 1084 (D.C. 2004).) Rather, SWAG should pursue its concerns before the D.C. Council, the Mayor's Office or other executive agencies, or before the Commission when it is sitting in a rulemaking or other quasi-legislative posture. The DC Court of Appeals has recognized that these types of broad, general, and unsupported claims—such as those regarding “destabilization of land values,” “environmental impacts,” and broad concerns regarding overdevelopment in the community—“involve policy and political considerations beyond the scope of legal review”;¹²
 - (b) Second, these broad complaints and alleged impacts are not tied to any particular harm caused by the Project or arising out of the Application proceeding. SWAG's proposed “planning area”—the area it argues should be studied to understand the impacts of the Project—underscores the diffuse and generalized nature of the impacts it alleges as arising from the Project. SWAG, in footnote 5 of its written testimony, defines the proposed “planning area” by reference to an aerial photo included in the record of the first-stage PUD proceeding, which encompasses all four quadrants of the District and extends well beyond the Southwest

¹² *Union Market Neighbors v. District of Columbia Zoning Comm'n*, No. 17-A-0042 (D.C. December 18, 2018).

neighborhood.¹³ (Ex. 37.) It is not plausible that the Project could possibly have a material impact (or any measureable impact) on land values or housing markets or displacement or gentrification on this scale. Rather, SWAG’s identification of such a broad “planning area” underscores that its concerns are District-wide in scale and not specific to the Project;

- (c) Third, many of SWAG’s generalized grievances are conclusory statements that are not supported by any substantial evidence or concrete facts. The Commission has previously determined that “[f]or a party or witness to raise an issue for which a response is required, the party or witness must have some factual basis for the claim and draw a nexus between the claimed deficiency and the current application.” (See Z.C. Order No. 11-03J, FF 150.) Further to this point, the Court of Appeals has ruled that project opponents “must allege an injury or aggrievement which is real, perceptible, concrete, specific and immediate, rather than one that is conjectural, hypothetical or speculative”; and (*Lee v. District of Columbia Bd. of Appeals & Review*, 423 A.2d 210, 217 (D.C. 1980) (citations omitted).)
- (d) Notwithstanding these grievous deficiencies in its testimony, the Commission evaluates SWAG’s concerns one-by-one to conduct a probing examination of the merits of each.

85. Although not always expressly framed as such, testimony in opposition to the Project tended to fit into four broad categories: (a) allegations of inconsistency with the Comprehensive Plan; (b) allegations of adverse impacts; (c) alleged inadequacies of the Public Benefits; and (d) alleged inconsistency of the Project with the first-stage PUD. In an effort to create a common vocabulary for evaluating the concerns of Project opponents and the qualified supporters, the Commission considers their allegations in connection with findings evaluating the Application’s satisfaction of the criteria for review and approval of a second-stage PUD. One concern—the Project’s lack of three-bedroom units—cuts across the above four categories and the Commission’s findings on that issue are addressed separately below.

Consistency of the Project with the Purposes of the PUD Process

86. As set forth in ZR16, the purpose of the PUD process is to provide for higher quality development through flexibility in building controls, provided that the project that is the subject of the PUD: (a) results in a project superior to what would result from the matter-of-right standards; (b) offers a commendable number or quality of meaningful public benefits; (c) protects and advances the public health, safety, welfare, and convenience and does not circumvent the intent and purposes of the Zoning Regulations; (d) is not inconsistent with the Comprehensive Plan and does not result in action inconsistent therewith; and (e) undergoes a comprehensive public review by the Commission in order to evaluate the flexibility or incentives requested in proportion to the proposed public

¹³ SWAG’s planning area is bounded by 17th Street, N.W. on the west to 14th Street, N.E. on the east and C Street, N.W./N.E. to the north and Stanton Street, S.E. to the south.

benefits. (*See* 11-X DCMR §§ 300.1, 300.2, 300.5.) For the following reasons the Project advances the purposes of the PUD process:

- (a) The following aspects of the Project make it superior to the development of the Property under the matter-of-right standards:
- Housing/Affordable Housing: The Project provides substantially more housing and affordable than could be constructed on the Property without a PUD. In addition, the reservation of 30% of all units as affordable for households earning 30%-50% MFI vastly exceeds the amount and level of affordable housing that would be required in a matter-of-right development pursuant to ZR16's inclusionary zoning requirements. The Applicant provided calculations that a matter-of-right development of the Property would result in only approximately 37 affordable units at 60% MFI, whereas the Project actually results in 136 affordable units at 30% or 50% MFI. (Ex. 2 at 26.) For this reason alone, the Project is superior to a matter-of-right development of the Property;
 - Public Benefits: The Project's construction as part of the overall Waterfront Station PUD supports the significant package of Waterfront Station Public Benefits that accompanied that approval. Furthermore, the Applicant has developed and agreed to the additional Project Public Benefits, including commitments to neighborhood-serving ground-floor uses and spaces and sustainable design features, which further exceed what would be provided in a matter-of-right development; and
 - Community Engagement: Finally, the Project is undergoing a comprehensive public review process with multiple opportunities for neighbor, community group, and public agency participation. The Project has been modified and improved as a result of community and District agency input. The Applicant also agreed to the detailed and extensive TMP/TDM and CMP. Those opportunities for community input and enhanced mitigation would not exist in a matter-of-right development of the Property;
- (b) The Public Benefits are commendable in number and quality. The Public Benefits are enumerated and discussed in detail below. (*See* FF 103-110.) For the reasons set forth more fully in the Public Benefits findings, the Public Benefits are of a commendable quality. There are multiple distinct categories of Project Public Benefits in addition to the Waterfront Station Public Benefits, resulting in an absolute number of benefits that the Commission finds to be commendable. Finally, the Commission finds that the Public Benefits are meaningful. The Public Benefits address the preferences, needs and concerns of community residents, were developed following the Applicant's robust community engagement process, supported by OP, and are not inconsistent with the Comprehensive Plan; (*See* FF 108-09.)

- (c) The Project protects and advances the public health, safety, welfare, and convenience and does not circumvent the purposes of the Zoning Regulations:¹⁴
- Public Health: The Project protects and advances the public health by being designed in a high-quality manner and in compliance with all applicable construction codes. (Ex. 2 at 22.) The Project includes a number of mitigation measures, notably the TMP and CMP, which protect and affirmatively advance the public health. The Project also encourages cycling, walking and fitness, measures that advance public health. The Project does not entail any overcrowding or overpopulation, but instead rationally increases residential density near a Metrorail station and protected open space. The Project also complies with, and exceeds many, applicable environmental performance standards, all of which go to protecting public health;
 - Safety: The Project protects and advances public safety: the Project's balconies and active ground-floor uses are designed to put "eyes on the street" and promote public realm safety. In addition, the Applicant has engaged with MPD and DDOT to improve the Play Area's safety and to engage in post-hearing dialog regarding security cameras, lighting, patrols, and safe pedestrian routes to school;
 - Welfare: The Project protects and advances the public welfare by bringing much needed economic activity and by adding 136 units of affordable housing and by providing jobs training, employment, and small business-related benefits;
 - Convenience: Finally, the Project protects and advances the public convenience by adding new neighborhood-serving retail and arts uses. Such uses serve existing Southwest residents and the District's convenience more generally, given the Project's strong transit-oriented component; and
 - Morals, Order, Prosperity: The Project promotes public morals insofar as the Application was undertaken in concert with extensive community outreach. (See FF 66-70.) The Commission finds that this community dialogue exemplifies public morals as expressed through the Zoning Regulations and the PUD process. The Project also exemplifies orderly, well-planned development that is undertaken on behalf of the best interests of the residents of the District. The Project complies with all of the

¹⁴ The general intent and purposes of ZR16 are, *inter alia*, to promote the "public health, safety, morals, convenience, order, prosperity, and general welfare to (a) provide adequate light and air, (b) prevent undue concentration of population and the overcrowding of land, and (c) provide distribution of population, business, and industry, and use of land that will tend to create conditions favorable to transportation, protection of property, civic activity, and recreational, educational, and cultural opportunities; and that will tend to further economy and efficiency in the supply of public services." (11-A DCMR § 101.1 ("Zoning Purposes").)

specific development standards set forth in the Zoning Regulations, except where flexibility is hereby requested, which flexibility is minor in this instance and expressly contemplated as part of the PUD process. The Project allows for an appropriate amount of light and air by virtue of its bulk, height, orientation, setbacks, and location. The Project's conformance to the massing limitations imposed as part of the Waterfront Station PUD ensures that it will not unduly concentrate people on or overburden the Property. The Project's transit-oriented location allows for an appropriate distribution of residences, economic activity, and cultural and public education uses that create many favorable conditions and further the District's economy and supply of public services;

- (d) The Project is not inconsistent with the Comprehensive Plan and would not result in any action inconsistent with the Comprehensive Plan. Extensive findings regarding the Project's lack of inconsistency with the Comprehensive Plan are provided below; and (*See* FF 87-91.)
 - (e) The Project has undergone a comprehensive public review by this Commission, which has evaluated the Development Incentives in proportion to the Public Benefits. The Commission has reviewed the entirety of the record. The record is complete with multiple detailed, thorough, and credible briefings from the Applicant and reports from multiple District agencies and the ANC. The Commission heard presentations on the Application and had the opportunity to ask questions of the Applicant, OP, DDOT, the ANC, the PTA, SWAG, and other supporters and opponents of the Project. In every material way, the Applicant responded satisfactorily to the requests from the Commission. The Applicant has also responded thoroughly to OP, DDOT, the ANC, SWAG, and the PTA. The record in this matter is unquestionably full, and the Commission has reviewed the record in its entirety.
87. In addition to the foregoing requirements, the minimum area included within a proposed PUD must be no less than 15,000 square feet, and all such area must be contiguous. (11-X DCMR § 301.) The Property, at 59,044 square feet, satisfies the area and contiguity requirements.
88. The Commission finds that the Project is consistent with and advances the purposes of the PUD process.

Compliance of the Project with the PUD Evaluation Standards

89. In order to approve an application for a PUD, the Commission must find that such application: (a) is not inconsistent with the Comprehensive Plan or other adopted public policies and active programs (collectively, the "Plan") related to the Property; (b) does not result in unacceptable impacts on the surrounding area or on the operation of District services and facilities but instead is either favorable, capable of being mitigated, or acceptable given the quality of public benefits in the project; and (c) includes specific

public benefits and amenities, which are not inconsistent with the Plan with respect to the Property (collectively, the “PUD Evaluation Standards”). (See 11-X DCMR § 304.3.) As described more fully below, the Project satisfies the PUD Evaluation Standards.

Evaluation of the Project’s Consistency with the Comprehensive Plan

90. The Project is not inconsistent with, as a whole, the Comprehensive Plan or other adopted public policies related to the Property. The Commission rests this finding on three subsidiary findings: (a) the Applicant provided a robust analysis regarding the Project’s consistency with the Plan, an analysis that was not seriously rebutted in any material way by anything introduced into the record by any opponent of the Project; (b) OP concluded the Project is not inconsistent with the Plan, and the Commission affords OP’s analysis “great weight”; and (c) the Commission in the Waterfront Station PUD made findings regarding the Project’s consistency with the Comprehensive Plan and it sees no reason to disturb those findings now:
- (a) The Applicant’s initial filing included a matrix analyzing in significant detail the Project’s consistency with the Comprehensive Plan for the District of Columbia set forth at 10-A DCMR § 100, *et seq.* (“Comprehensive Plan”) and the 2015 Southwest Neighborhood Small Area Plan (“Small Area Plan”). There are approximately 775 specific policy objectives in the Comprehensive Plan’s District Wide Elements and the Lower Anacostia Waterfront/Near Southwest Area Element. The Applicant’s analysis reviewed the Project against the Future Land Use Map, Generalized Policy Map, and the approximately 200 policy objectives (of the 775 total) that apply in whole or in part to the Project. In addition, the Applicant’s initial planning analysis reviewed the Project against all eleven “Guiding Principles” and more than a dozen of the “Concept Actions” set forth in the Small Area Plan. Moreover, many of the Comprehensive Plan policies cited only in a cursory fashion by SWAG are thoroughly analyzed in the Applicant’s filing and which provides more compelling evidence of consistency with the Comprehensive Plan. Accordingly, the Applicant provided the Commission with as thorough and probing an assessment of the Project’s consistency with the Comprehensive Plan as is reasonable. The Commission accepts the Applicant’s analysis on the Project’s consistency with the Comprehensive Plan and Small Area Plan as thorough, credible and convincing. The Project and the Public Benefits proposed herein are unquestionably not inconsistent with, as a whole, the Comprehensive Plan and other adopted public policies applicable to the area around the Project;
 - (b) The OP Setdown Report and OP Hearing Report also provided analysis concluding that the Project is not inconsistent with the Comprehensive Plan. (Ex. 11 at 4-15; 24 at 2-5.) The Commission gives great weight to these OP findings, which the Commission hereby adopts as if restated herein;
 - (c) Finally, as part of the Waterfront Station PUD, the Commission found that the overall proposal for Waterfront Station, including the proposal for the Property

(with which the Project is hereby complies) was consistent with the Plan and other adopted policies of the District. (*See* Ex. 2F; FF 98-108 and Conclusions of Law 8 (“Approval of the [Waterfront Station PUD] is not inconsistent with the Comprehensive Plan.”).) The Commission made particularized findings with respect to the Comprehensive Plan’s Future Land Use Map, Generalized Policy Map, Framework Element, Land Use Element, and Lower Anacostia/Near Southwest Area Element, among other sections. (*Id.*) Since the approval of the Waterfront Station PUD, the Council of the District of Columbia has adopted a small area plan, the “Southwest Neighborhood Plan,” applicable to the Property. Given the findings in the record, the clear conclusions of law in the Waterfront Station PUD, and the consistency between the instant Project and the approval for the Property contained in the first-stage PUD, the Commission finds that the Project is not inconsistent with the Comprehensive Plan. The Project is also not inconsistent with other public policies applicable to the Property adopted since the approval of the Waterfront Station PUD.

91. The Commission supplements its findings above with the following particularized findings about the Project’s consistency with the Comprehensive Plan:
- (a) Future Land Use Map and Generalized Policy Map. The Property is within the mixed-use “High Density Residential” and “High Density Commercial” area on the Future Land Use Map of the Comprehensive Plan. Such areas contemplate high-rise apartment and mixed-use buildings in excess of eight stories. The Project is consistent with this designation. The Property is also within the “Land Use Change Area” on the Comprehensive Plan’s Generalized Policy Map. Such areas are intended to encourage and facilitate new development . . . to become mixed-use communities containing housing, retail shops, services, workplaces, parks and civic facilities, . . . [and] to create high quality environments that include exemplary site and architectural design and that are compatible with and do not negatively impact nearby neighborhoods.” (10-A DCMR §§ 223.11, 223.12.) The Project is consistent with the objectives of the Generalized Policy Map for the Property;
 - (b) Guiding Principles. The Applicant reviewed the Project against more than 30 of the 36 “Guiding Principles” in the Comprehensive Plan’s Framework Element. (*See* Ex. 2L.) The Commission agrees with and adopts that analysis, finding that the Project is not inconsistent with the relevant Guiding Principles of the Plan;
 - (c) District-Wide Elements. The Applicant provided an exhaustive analysis of the Project’s consistency with dozens of specific policy objectives in the Comprehensive Plan’s District-Wide Elements. (*Id.*) The Commission agrees that the Project is not inconsistent with the Comprehensive Plan as a whole; and
 - (d) Lower Anacostia Waterfront/Near Southwest Area Element. The Applicant also provided an analysis of the Project’s consistency with many specific policy objectives in the Comprehensive Plan’s Area Element applicable to the Property.

(*Id.*) The Commission agrees that the Project is not inconsistent with the Comprehensive Plan's Area Element.

92. Small Area Plan. Because the Small Area Plan had not been adopted at the time of the Waterfront Station PUD, the Commission makes these further findings with respect to the Project's consistency with such plan:

- (a) The Small Area Plan identifies numerous "Guiding Principles" of its own. Among these are objectives to: (i) foster an environment that encourages and embraces cultural and economic diversity; (ii) preserve the varied scale and green character of the neighborhood; (iii) design buildings, connections and sidewalks to improve safety, security, and pedestrian circulation; (iv) support, enhance, and expand neighborhood retail amenities; (v) enhance, connect, and better utilize parks both active and passive as open space; (vi) invest in community, arts and education uses that serve resident needs; (vii) preserve and develop a range of housing for a mix of income, age, and family size, and encourage quality design and architecture (viii) strengthen multimodal transportation and improve street connections, parking, and safety; (ix) remember the history and legacy of the Southwest neighborhood while planning for change in the future; (x) develop a strategy for height, density, and open space that enhances, acknowledges and complements the character of the neighborhood; and (xi) incorporate goals and targets from the Sustainable DC Plan to protect our environment and conserve resources to foster a vibrant, healthy neighborhood; (Ex. 2L.)
- (b) In relation to these Guiding Principles of the Small Area Plan, the Commission finds that the Project: (i) encourages cultural diversity through its inclusion of arts and educational spaces and encourages economic diversity through its provision of 136 affordable residential units; (ii) is located in an appropriate location for its proposed height and scale and contributes positively to the green character of Southwest DC; (iii) has a location and balconies and café areas, which together with the Private Drive, enclosed and reinforced Play Area and streetscaping improve safety and security and promote pedestrian circulation; (iv) introduces additional residents who will likely support and enhance existing retail offerings and also provides ground floor uses that enhance and expand existing retail amenities; (v) has public spaces and a Play Area that together connect and enhance Southwest DC's collection of parks; (vi) includes arts and education investments that serve Southwest DC residents; (vii) includes units that are affordable to very low income households (30% MFI), low income households (50% MFI), and market-rate households and includes two-bedroom units that accommodate families with children; (viii) improves the pedestrian condition along 4th Street, S.W., adds riders for the nearby Metrorail station, and contributes to Southwest's bicycle infrastructure through the provision of a new Capital Bikeshare station in a high demand area; (ix) provides architecture that recalls and promotes the best elements of the modernist character of Southwest DC; (x) has an appropriate height and density given its location near the Metrorail station and includes open spaces that reflect the urban town center character of Waterfront

Station; and (xi) is constructed with a high level of environmental sustainability and healthy living features;

- (c) The Small Area Plan also includes numerous specific policy recommendations. Many of those recommendations are not relevant to the Project given the broad aims of the Small Area Plan. However, the Commission finds that the Project advances individual aims of the Small Area Plan. In particular, the Project: (i) is an infill development project that respects and enhances the Modernist character of Southwest DC; (ii) has massing and orientation that reinforce the re-establishment of the L'Enfant Plan along 4th Street, S.W.; (iii) complies with the Design Guidelines in the Small Area Plan (that is, the Waterfront Station PUD includes a mix of building heights, and the Project provides high-quality materials and significant articulation on all three street-facing façades); (iv) has a ground floor that is pedestrian oriented with tall, appropriately transparent retail storefront spaces; (v) includes private green areas as well as a public plaza; (vi) is designed to be LEED Gold 2009; (vii) locates all of its parking below grade where it is not a detractor to the streetscape; (viii) is designed to promote pedestrian, bicycle, and transit connectivity; (ix) adds additional street trees and tree cover in the private internal courtyard; (x) is setback along Wesley Place, S.W. to help facilitate street trees along that frontage; (xi) reduces stormwater runoff with green roofs and other bioretention areas; (xii) is located entirely outside of the 100-year floodplain and includes resiliency elements such as solar panels; (xiii) contains no surface parking; (xiv) includes electric vehicle-charging stations; (xv) includes a new theater use, which adds to the range of Southwest DC neighborhood arts venues; (xvi) includes ground-floor retail, arts, and educational uses that enhance and add to the existing retail cluster along 4th Street, S.W.; (xvii) includes ground-floor uses that are all neighborhood-serving and are capable of being demised in a variety of sizes and formats and that will enliven 4th Street, S.W. and activate the pedestrian zone. These factors of the Project advance Small Area Plan “Modernist Gem” recommendations 3, 6, and 7; “Green Oasis” recommendations 8 and 11-14; “Arts and Culture” recommendation 1; and “Thriving Town Center” recommendations 2, 3, and 7; and
- (d) The Commission finds there is no evidence in the record to suggest that the Project is not consistent with the Small Area Plan.

93. In written testimony presented to the Commission, Project opponents alleged that the Project is inconsistent with the Comprehensive Plan. In general, these allegations are untimely raised in a second-stage PUD proceeding unless such allegations pertain to modifications to the first-stage PUD. The Commission is directed to make findings on regarding an application’s consistency with the Plan only during the first-stage of a PUD proceeding. (*See* 11-X DCMR 302.3(a); *see also Randolph v. District of Columbia Zoning Commission*, 83 A.3d 756, 762 (D.C. 2014) (“reject[ing] petitioners’ claim that the Commission was required to address the Historic Preservation Elements of the Comprehensive Plan in its [second-stage PUD]” where “the Commission had already addressed the character of the neighborhood and it devoted approximately ten pages of its

stage-one order to discussing the Comprehensive Plan”).) The Commission made extensive findings in the Waterfront Station PUD, and those findings were never challenged. Any challenge to those findings now is far too late especially because this Application proposes no modifications to the first-stage PUD.

94. Setting aside the timeliness problem with opponents’ Comprehensive Plan allegations, the opponents’ allegations of the Project’s inconsistency with the Plan have no merit when carefully evaluated:

(a) Amount of Affordable Units: SWAG correctly notes that “Only 30% of the total units [in the Project] are considered affordable”, but incorrectly states that “plan policies call for 51% or more of the units on former public land (especially given Ward 6’s affordable housing crisis). (See, Policy H-1.2.4: Housing Affordability on Publicly Owned Sites.”) SWAG’s assertion that “plan policies call for 51% or more of the units on former public land [to be affordable]” is readily disproved by the actual language of the Comprehensive Plan policy that SWAG then cites:

“Policy H-1.2.4: Housing Affordability on Publicly Owned Sites – Require that a *substantial percentage* of the housing units built on publicly owned sites, including sites being transferred from federal to District jurisdiction, are reserved for low and moderate income households.” 10-A DCMR § 504.11 (emphasis added).

SWAG offers no support from the Comprehensive Plan or any other adopted plan and points to no authority interpreting “a substantial percentage” as meaning a “majority.” To the contrary, the glossary to the Comprehensive Plan defines “substantial” as “Having considerable and perceptible importance, value, degree, or extent.” The Project’s reservation of 30% of its units as affordable satisfies the guidance in the Comprehensive Plan that a substantial percentage of the units on a publicly owned site be reserved for 30% and 50% MFI households. The Commission finds that the Project is not inconsistent with Policy H-1.2.4 because a substantial percentage of the Project’s residential units are reserved for low- and very-low income households. The Commission makes separate findings below on the Project’s alleged inconsistency with the Comprehensive Plan related to family-sized and three-bedroom units;

(b) Scale of the Project’s North Façade: WTCA alleges that the Project’s north façade is out of scale with the modernist architecture of Southwest DC and the Small Area Plan. (Ex. 23; Tr. 2 at 124-27.) The Applicant provided rebuttal testimony that the Project’s northern façade, at approximately 300 feet long, is in line with or shorter than that of many nearby buildings. The Applicant cited Potomac Place Tower, which has a length of 530 feet along 4th Street, S.W. one block north of the Project and Capitol Park Plaza, two blocks to the east which has a width of approximately 505 feet on its south (street-facing) elevation. (Ex. 47G4.) The Commission finds that the Project’s materials and use of balconies match Southwest DC’s modernist character. The Project is consistent with the

“Modernist Gem” recommendations of the Small Area Plan and is not inconsistent with any objectives of the Comprehensive Plan or other adopted public policies. Moreover, the Project’s massing, now complained about by WTCA, was established in the first-stage PUD and not modified here. The Commission finds no inconsistencies between the Project’s façade, on the one hand, and the Small Area Plan, Comprehensive Plan, or other adopted public policies applicable to the Property, on the other;

(c) Alleged Inconsistency with Urban Design Element Policies. SWAG insinuates that the Project is inconsistent with five urban design-related figures and related policy objectives in the Comprehensive Plan’s Urban Design Element. On closer examination none of these concerns have any merit:

- Figure 9.5 encourages “Preservation of River View Corridors.” (10-A DCMR § 905.9.) There are no river views in the vicinity of the Property. South of the Project, Fort McNair’s “Military Police” building and sentry wall block any views from the Property to Greenleaf Point, which is more than a mile away; west of the Project Waterside Towers interrupts any view that would be created to the river along K Street, S.W.; (Ex. 47G4.)
- Figure 9.8 encourages “fine-grained street and development patterns” rather than “Superblocks.” (10-A DCMR § 909.9.) The Project is not inconsistent with this approach, as the Private Drive creates porosity in Waterfront Station at roughly the same scale as exists elsewhere in Southwest DC; (Ex. 47G4.)
- Figure 9.9 identifies “desired scale transitions at downtown edges to residential areas.” (10-A DCMR § 909.11.) The Project is itself a transition from the 130-foot-tall buildings at the center of Waterfront Station. Even if it is an insufficient transition to nearby properties (and it is not), these transitions are merely “desired” and not “required.” The Commission finds that the desire for these transition wanes in instances such as the Project, where the Future Land Use Map supports greater densities and where the site is near transit. The Commission notes that the Future Land Use Map, as part of the Land Use Element, is ordinarily to be accorded greater weight than the Urban Design Element, and in this instance at least the Commission agrees with such weighting. Finally, given the benefits provided by the Project’s height—namely, its provision of affordable housing and other public benefits—and its transit-proximate location, the Project is appropriately scaled for its context and not inconsistent with this figure; and
- Figure 9.13 encourages “breaking up massing of development on lots larger than prevailing neighborhood lot size.” (*Id.* § 909.17.) The Project complies with this objective. The Project has a maximum façade length of 166 feet on a public street (and a maximum overall façade length of

approximately 303 feet). These dimensions are characteristic of Southwest DC historic modernist character and existing residential building stock. For instance, Potomac Place Tower has a length of 530 feet along 4th Street, S.W. one block north of the Project. Capitol Park Plaza two blocks to the east has a width of approximately 505 feet on its south (street-facing) elevation. The apartment building at 355 I Street, S.W. immediately north of the Property has a length of approximately 140 feet along its south (street-facing) elevation. (Ex. 47G-4.)

The Commission finds that the Project is not inconsistent with any of the Comprehensive Plan Urban Design Element figures raised by SWAG and is in accordance with the first-stage PUD with respect to the Project's height and massing;

(d) Alleged Inconsistency in Transportation Impact Analysis: With respect to the study of the Project's transportation impacts (which impacts are themselves addressed substantively below), SWAG alleges that the Project is inconsistent with specific policy objectives of the Comprehensive Plan. The Commission finds to the contrary: the Project is not inconsistent with the Comprehensive Plan policy objectives that SWAG cites on this point:

- SWAG's citation of Comprehensive Plan Policy T-1.1.1 is not applicable in this context. That policy calls for "a full environmental impact statement" for "major transportation projects, including new roadways, bridges, transit systems, road design changes, and rerouting of traffic from roads classified as principal arterials or higher onto minor arterials or neighborhood streets with lesser volumes." (10-A DCMR § 403.7.) There is no way to reasonably read that policy and believe it could apply to the Project; and
- The other Comprehensive Plan policy that SWAG cites here is more on point. SWAG cites Policy T-1.1.2, which has two directives: (i) "Assess the transportation impacts of development projects using multi-modal standards rather than traditional vehicle standards to more accurately measure and more effectively mitigate development impacts on the transportation network." (*Id.* § 403.8.) This is precisely what the CTR does. The CTR assesses the Project using multi-modal standards. (Ex. 15A at 19-20 (assessing the Project's impact on four travel modes: driving, transit, biking, and walking).) Moreover, the Project effectively mitigates any impacts of the Project on the transportation network, as DDOT concluded. (Ex. 25.) The second directive, (ii) "Environmental and climate change impacts, including that of carbon dioxide, *should be included* in the assessment to land use impacts." (10-A DCMR § 403.8. (emphasis added).) The Applicant does consider environmental impacts, so it is in part consistent with this component of this policy objective. However, the Applicant's CTR does not consider climate change or carbon dioxide

impacts. This is the type of analysis that the Commission may request for a project of a different scale or arriving in a different posture (i.e., not as a second-stage PUD). But it was not necessary or required here. The Applicant and DDOT developed a scope for what the CTR should evaluate. These sorts of environmental impacts were outside the scope of that study and for good reason. There was no mechanism to reduce the scale of the Project's massing, given that it was established as part of the Waterfront Station PUD. Notwithstanding the lack of a climate change impact assessment, the Project is nonetheless not inconsistent with Policy T-1.1.2, which merely suggests such an assessment and does not require a climate change impact analysis for the Commission to complete its review. Moreover, SWAG makes no allegation that the Project has adverse climate effects or that if it does, whether such effects injure SWAG. Without any allegation of harm arising from the Project on account of the lack of analysis of climate change impacts, SWAG's point here simply fails to rise to the level of warranting further scrutiny by the Commission;

- (e) Alleged Inconsistency with Impact Reviews Generally. SWAG alleges that the record is deficient with respect to reporting on the Project's impacts and cites the Comprehensive Plan as the authority mandating such reporting. On this point SWAG is simply incorrect. The Comprehensive Plan policies encouraging impact review are not limited to the Commission's portion of the development review process. The Commission is aware that the District's many technical agencies continue the review of a development application at the building permit stage (and sometimes beyond) following the completion of the Commission's. There is no requirement in the Comprehensive Plan or in the Zoning Regulations that the Commission's "comprehensive public review" of a PUD application include all steps of a building permit or other permit review. With respect to the specific Comprehensive Plan policies SWAG cites, either the Project is not inconsistent with such policies or SWAG misunderstands the applicability of such policies to the current context:
- Policy IM-1.5.4 "strongly encourages transparent decision-making in all land use and development matters, making information available and accessible to residents." (10-A DCMR § 2507.6.) The Project and the instant process complies with this policy. The Commission's review of this application is entirely on the record and based on the record before it. All information in the record is publicly available;
 - Policy E-3.4.2 encourages "discussions and decisions regarding environmental impacts and mitigation measures [to] occur through a transparent process in which the public is kept in-formed and given a meaningful opportunity to participate." (*Id.* § 616.4.) The Project will comply with the District's Environmental Policy Act, which is triggered at the building permit review stage. As noted above, the Commission's

review is not the end of the review of a development project. If the Project is required to undergo an environmental impact statement in accordance with applicable District law, then the provisions of this policy objective will be applicable. However, this policy is not applicable to the instant proceeding at this point;

- Policy H-1.4.6 encourages “that the construction of housing [be] accompanied by concurrent programs to improve neighborhood services, schools, job training, child care, parks, health care facilities, police and fire facilities, transportation, and emergency response capacity.” (*Id.* § 506.12.) The Project is not inconsistent with this policy. The Project includes job training benefits, a play area, and transportation improvements. This policy does not require that every new housing development provide every one of the items listed therein;
- Policy IM-1.1.6 seeks to “Ensure that zoning case approvals such as Planned Unit Developments (PUDs) utilize: (1) transportation and infrastructure studies and recommended conditions of approval to mitigate potential impacts; (2) agreements for financing any necessary improvements, including public and private responsibilities; (3) agreements to comply with “first source employment” requirements and other regulations that ensure public benefits to District residents.” (*Id.* § 2502.10.) The Project is consistent with this policy. The record in this proceeding includes transportation and infrastructure studies and recommended conditions of approval to mitigate potential impacts. The Applicant will control the Property through an agreement with the District setting forth financial terms for the improvement of the Property. Finally, the Applicant has already entered into a first source employment agreement with the District; and
- Policy IM-1.1.1 encourages “To the greatest extent feasible, use [of] the development review process to ensure that impacts on neighborhood stability, traffic, parking and environmental quality are assessed and adequately mitigated.” (*Id.* § 2502.5.) The Project complies with these objectives as well;

- (f) Alleged Inconsistency with Infrastructure-Related Policies. SWAG makes broad, non-particularized statements regarding the Project’s alleged inconsistency with Comprehensive Plan policies regarding infrastructure analysis, citing Policy IM-1.1.3 (“Ensure that development does not exceed the capacity of infrastructure. Land use decisions should balance the need to accommodate growth and development with available transportation capacity, including transit and other travel modes as well as streets and highways, and the availability of water, sewer, drainage, solid waste, and other public services;”); Policy CSF-1.2.6 (“Ensure that new development pays its “fair share” of the capital costs needed to build or expand public facilities to serve that development. Consider the use of impact fees

for schools, libraries, and public safety facilities to implement this policy;”); and Policy IN-6.1.3 (requiring “that private developers fund the necessary relocation or upgrading of existing utilities to address limitations with existing infrastructure on or adjacent to proposed development sites. For necessary upgrades to water and wastewater infrastructure, developers should contribute to the cost of extending utilities to the project site or upgrading existing utilities to the specifications necessary for their proposed project.”). (10-A DCMR §§ 2502.7, 1317.5, 1104.8.) The common thread in these policies is that new development should pay for new infrastructure. The Project is part of the Waterfront Station PUD, which did provide a significant privately-funded contribution to infrastructure in Southwest DC. (Ex. 47G.) However even if the Waterfront Station PUD had not provided such infrastructure, there is no requirement that such contribution commitments be made at the PUD stage or even at all. These policies are not binding on any particular development. Moreover, SWAG provides no credible allegation of actual infrastructure shortages or impairments and certainly none specifically related to the Project, and its assertions are unsupported by any substantial evidence. There is nothing in the record that shows, even when read in the light most favorable to SWAG, that the Project causes SWAG (or anyone else) any harm with respect to these policies. The better argument is that the Project is not inconsistent with the Comprehensive Plan with respect to the aforementioned policies; and

- (g) Generalized Comprehensive Plan References. SWAG’s written testimony includes multiple references to the Comprehensive Plan without any stated connection between such references and in the instant proceeding. (Ex. 37.) Where SWAG ties Comprehensive Plan references to something approaching a particularized concern, the Commission can evaluate the nature of such concern and does so here. However, where SWAG simply lists a string of references to the Comprehensive Plan without anything more, the Commission is unable to discern any meaning from such references and therefore declines to address SWAG’s comment. For instance, SWAG cites, without specific reference to the Project, Comprehensive Plan Policies UD-2.2.1, 2.2.4, 2.2.7, 2.2.8, and 2.2.9 but offered no explanation as to how such policies are relevant to the Project. (*Id.* at 5; n. 6.) The Applicant also cited each of those five policies and provided detailed analysis of how the Project advances those policies. (Ex. 2L.) Separately, SWAG provides a footnote with a list of approximately 30 references to Comprehensive Plan policies without any explanation of the relevance of those policies to the Project. (See Ex. 37 at 6-7; n. 7, 8.) Because the Applicant has so thoroughly addressed the Project’s consistency with the Comprehensive Plan as a whole, the Commission declines to find any inconsistency between the Project and those individual policies of the Comprehensive Plan where it cannot discern any injury caused by the Project or with any nexus to those cited policies. (Ex. 2I.)

Evaluation of the Project's Adverse Impacts and Mitigation Thereof

95. In order to approve the Application, the Commission must find that it does not result in unacceptable impacts on the surrounding area or on the operation of District services and facilities but instead is either favorable, capable of being mitigated, or acceptable given the quality of Public Benefits. For the following reasons, the Commission finds that the Project does not result in unacceptable impacts on the surrounding area or on the operation of District services and facilities but instead is either favorable, capable of being mitigated, or acceptable given the quality of Public Benefits. In general, the Commission finds the multiple impact studies from the Applicant as well as those from the various District agencies to be satisfactory of the substantial evidence standard by which it must make its findings. There is no reasonable contrary evidence in the record that tends to rebut or contradict those impact statements.
96. Zoning and Land Use Impacts. The Project has no unacceptable zoning or land use impacts, and any such impacts are either favorable, capable of being mitigated or acceptable given the quality of the Public Benefits:
- (a) The Commission approved the zoning for the Property as part of the Map Amendment included in the Waterfront Station PUD. As noted in the order for the Waterfront Station PUD, the zoning approved therein does not create adverse impacts that cannot be mitigated by the conditions of that order; (*See* Z.C. Order No. 02-38A at FF 96.)
 - (b) From a land use perspective, the Project has no unacceptable impacts. The Project's uses are all compatible with existing uses in and around the Waterfront Station PUD. The Project's ground floor uses add to and enhance the critical mass of neighborhood-serving retail and service establishment uses along 4th Street, S.W. The cultural and educational uses provide daytime and evening activity to help support other retail and service uses in the town center surrounding the Project and serve Southwest residents. The Project's housing and affordable housing contribute to the much needed supply of transit-accessible housing in the District. The Play Area is a benefit for families with children living in the neighborhood or visiting the town center. The proposed uses, height, density, and zoning are consistent with the approved Waterfront Station PUD and are appropriate in light of the Project's proximity to the Metrorail station;
 - (c) Lack of Greenery along Private Drive: WTCA is also concerned that only hardscape is proposed along the Private Drive and that there is no greenery in that area. (Ex. 23; Tr. 2 at 124-27.) The Commission finds that the context surrounding the Project significantly mitigates this concern. Immediately north of the Property is an approximately 40-foot-wide allée of trees and landscaping. The existing landscaped allée runs two blocks and connects two of Southwest's most prominent parks: the Duck Pond is at the western end of the allée and the Southwest Library with its surrounding greenery at its eastern. Therefore, although the Project does not itself feature green space in the Private Drive, it is

part of an overall urban framework with more than sufficient green space. Again, this design was established in the first-stage PUD proceeding and not modified now. Further mitigating these concerns: the Project complies with GAR even though it is not obligated to do so. On balance, the Private Drive's lack of landscaping does not have any adverse impacts on the surrounding properties in light of its urban context; and

- (d) Potential impacts from AppleTree are discussed below, but on balance AppleTree does not produce any unacceptable land use impacts. (*See* FF 100.) Any adverse effects from the proposed mix and intensity of uses are either capable of being mitigated or acceptable given the quality of the Project Public Benefits.
97. Housing Impacts. The Project's housing impacts are all favorable, capable of being mitigated, or acceptable in light of the Public Benefits:
- (a) The Project contributes 450 new units of multifamily housing in a transit-oriented location;
 - (b) Significantly, the Project adds approximately 136 new units of affordable housing reserved for households earning below 30% MFI and 50% MFI. As noted above, the Project includes a mix of unit types ranging from studios to two-bedroom units (10 with dens), which accommodate a variety of household sizes including households with children. The Project's contribution of housing supply is an impact of the Project that contributes favorably to the District's housing situation. That is, relative to what is required under the Waterfront Station PUD, the Project provides more affordable housing (approximately 111,077 square feet provided v. 75,967 square feet required), at deeper levels of affordability (30% and 50% MFI provided v. 80% MFI as required under the Waterfront Station PUD), for a longer period of time (the entirety of the 99-year term of the Project's private ground lease v. 20 years as required under the Waterfront Station PUD). Half of the affordable units are reserved at deeply affordable levels (i.e., 30% MFI), and all of the units are reserved at affordability levels below what is required under the inclusionary zoning regulations;
 - (c) Even the Project's market-rate units help to balance the demand for housing in the District and have a muting effect on any potential run-up of housing prices in the areas surrounding the Project; (*See* Ex. 34C "RCLCO Memo.")
 - (d) In addition, because the Property is currently a vacant lot, all of the Project's housing is net new housing and there is no displacement of or effect on any existing housing;
 - (e) Because the Project is located immediately proximate to a Metrorail station, it is most appropriate to develop the property with unit types that appeal to smaller households and small families, consistent with Comprehensive Plan policies that

call for density to be focused at Metrorail stations and near transit stops and consistent with prevailing demographics in nearby neighborhoods; and

- (f) SWAG and Ms. Rodney allege that the Project will have adverse impacts on the surrounding housing markets and low-income residents of Southwest DC. Namely, SWAG and Ms. Rodney raise the specter of displacement impacts. The Commission finds that the Project will not directly displace any existing residents because there are none today. The Property is an entirely vacant plot of land and no one will be displaced from the Property as a result of the Project. Given the facts that the Property's current vacant state cannot result in direct displacement of residents from the Property (because there are none to displace), then the Commission is left to assume that SWAG is concerned that the Project will set in motion a change in prevailing market conditions such that existing residents are priced out of their homes. SWAG did not introduce any credible evidence that this could happen.¹⁵
- The Applicant introduced substantial evidence that the Project on its own does not set prices in the Southwest DC residential submarket, and that such submarket prices have been fluctuating for a period of many years. (*See* Ex. 34C.) Moreover, the nature of these price fluctuations is not universally good or bad. For homeowners, price increases in Southwest DC can be a boon and can help create household wealth. For renters, price increases can be problematic and can create displacement pressure. However, there is no evidence in the record that the Project, whether on its own, or as part of a greater trend of apartment development in Southwest DC will have adverse price effects on existing residents. Instead, the opposite seems to be true: the increase in construction of new units in Southwest DC has at times created *reductions* in rents; and (RCLCO Memo at Ex. 1.)
 - The limited evidence that SWAG did introduce on this point is not compelling. First, SWAG recited statistics regarding poverty levels and unemployment disparities across racial lines in the District. Although these trends are distressing, the Commission fails to understand how they are relevant in this proceeding.¹⁶ Second, SWAG introduces testimony from a Mr. David Lee, a purported Southwest resident (or former resident – SWAG's testimony is unclear) who claims that he has been forced to

¹⁵ Despite having the opportunity to file written comments and provide oral testimony after the Applicant filed its economic impact study, SWAG elected not to introduce any meaningful evidence of its own with respect to potential economic impacts of the Project. SWAG clearly did read the Applicant's study because SWAG provided detailed negative comments on such study in its written testimony. SWAG did introduce two items of evidence worthy of brief consideration.

¹⁶ SWAG's contention that the Project "will consist of vastly single white professionals" and its purported "fact" that the Project's residents will be "largely white, likely with no families of color" are both baseless statements. There is no evidence that the Applicant has any history of racial exclusion in its residential developments and the Commission sees no reason to believe any discrimination will occur as part of the Project.

relocate to a studio in Ward 3. Setting aside the potential evidentiary irregularities in this purported testimony, Mr. Lee can hardly be considered evidence of displacement resulting from the Project if he has already relocated or even if he is about to: the Project has been a vacant site, with planned redevelopment for more than 15 years yet no construction has occurred. The Project cannot be the cause of Mr. Lee's injuries (or any other member of SWAG or the public generally who can claim to be injured as a result of displacement pressures in Southwest more generally). In addition, Mr. Lee's story underscores the *need* that the Project *fulfills*: a need for affordable studio and one-bedroom units. The Project provides 33 affordable studio units and 75 affordable one-bedroom units that Mr. Lee could seek to qualify for. Although it is not clear what housing program Mr. Lee sought (and was denied) assistance from, he would not be "too poor" to qualify for the affordable units in the Project, which are subject only to income *maximums* and not income minimums.

In sum, after weighing the evidence, the Commission finds that the Project does not result in any unacceptable impacts on the housing market.

98. Economic Impacts. The Project has no unacceptable economic impacts, and its economic impacts are generally favorable or capable of being mitigated:
- (a) The Project generates multiple sources of direct revenue for the District, including not only its ground lease rent but also property tax revenue, sales tax revenue from its commercial establishments, and income tax from its new residents. In addition, the Project also generates secondary benefits, such as sales tax revenue associated with its new residents. The Project also has positive economic impacts on nearby neighborhood-serving businesses because the Project adds many new residents who will patronize such businesses. Similarly, its cultural and educational uses will draw some visitors who will also patronize nearby businesses. The Project is unlikely to have any adverse impacts on nearby property values;
 - (b) The Project infills an existing vacant lot at a Metrorail station with high-density residential and supporting commercial uses, consistent with the Comprehensive Plan, the Small Area Plan, the Waterfront Station PUD, and the intent of the D.C. Council when it approved the disposition of the Property. By improving a vacant lot with new construction as well as new retail and other neighborhood-serving uses, the Project improves existing conditions and will likely result in an increase in surrounding property values, which benefits surrounding residential and commercial property owners;
 - (c) The Project's neighborhood-serving uses and other amenities, such as the improved streetscape and Play Area, also benefits others who work and live in the Southwest neighborhood. At the same time, the Project includes meaningful amounts of affordable housing set aside for the duration for the ground lease,

which ensures the continued provision of affordable rental housing in the immediate area even as property values otherwise rise; and

- (d) The Project does not have any unacceptable economic impacts that cannot be mitigated in light of the extraordinary public benefits provided. The Applicant has entered into First-Source and other employment-related agreements with respect to the Project. Separately, the Waterfront Station PUD commits the Applicant to target small businesses and neighborhood operators for ground floor retail space in the Project. Together, these and other commitments applicable to the Project mitigate any adverse economic impacts from the Project's non-residential uses.
99. Open Space, Urban Design, and Massing Impacts. The Project has no unacceptable impacts on surrounding open space or on the urban design and massing of Waterfront Station and the surrounding area:
- (a) The Project's new residents and ground-floor uses contribute to the creation of a neighborhood that celebrates and enhances open spaces within and immediately around Waterfront Station. The Project's urban design and massing are compatible with surrounding development and consistent with the master-planned design for the Waterfront Station PUD. From an urbanism perspective, the Project's infilling of a currently vacant lot is a favorable impact and leads to no unacceptable impacts on the surrounding area;
 - (b) Shadows to the north of the Property are one potential impact of the Project. The Project's shadows stem from its height and mass, which are appropriate given the transit-oriented location at the center of Southwest. The potential shadow impacts are mitigated by the distance between the Project and the nearest structure to the north, which is 80 feet away because of the combination of the Project's setback from its northern property line and the intervening District-owned land containing the allée of trees. This is consistent with the first-stage PUD and with the massing approach approved for the Eliot building to the west, which is similarly proximate to a lower-scale church building. The modest shadow impacts that occur in winter months are acceptable given the quality of the Project Public Benefits as well as the overall amounts of housing, affordable housing, and other beneficial uses created by the PUD;
 - (c) The Project also has favorable impacts on the surrounding area from a design and aesthetic perspective. The Project includes high-quality architecture. The Project also enhances the surrounding urban realm with streetscape areas such as bicycle racks as well as landscaping with materials and plantings that are intended to be long-lasting and sustainable. The Project's architecture is designed to fit into and enhance the rich mid-century and contemporary vocabulary of Southwest DC;
 - (d) SWAG argues that a building the size of the Project should be "found downtown, not in Southwest and next to a prevailing low- and moderate-sized architectural

open space aesthetic.” (Ex. 37.) The Commission disagrees for the following reasons:

- The Project’s height and massing was established as part of the first-stage PUD, and the Project is entirely consistent with the height and massing established for the Property in the first-stage PUD. There is simply no justification for reducing the height of the Project now, nor is the Project at all inconsistent with any relevant planning documents;
- SWAG’s statement that there are lower buildings to the north, west, and east is incomplete and misstates the Project’s dense urban context. Immediately west of the Project is an existing building with an identical height and beyond that an existing building (originally constructed in the 1960s) rises even taller (to 130 feet). Further to the west, at 6th and I Street, S.W. are the Waterside Towers, which rise to ten stories. North of the Project are Potomac Place Tower and Capitol Park Plaza, both of which are nine stories. East of the Project is a nine story building and an eleven story building, the latter of which is taller than the Project. (Ex. 47G4.) The Project is not anomalously tall, and “transitions” in height are unnecessary. Waterfront Station, and the Project were intended as a tall, dense town center near the Metrorail station;
- Buildings similar in size to the Project have existed across the Southwest neighborhood, and in the blocks immediately near the Project, for decades. SWAG has not presented any light and air related injuries to the Commission and has not identified any individuals with redressable grievances related to the Project’s size; and
- SWAG’s objection to the Project’s height is also puzzling. Reducing the Project’s height necessarily would result in a reduction of density and therefore fewer affordable units, seemingly at odds with its concerns about the production and delivery of affordable housing. Moreover, there have been no objections from residential or non-residential neighbors regarding the Project’s height. Although SWAG purports to speak for all of its members within the “planning area” identified as an exhibit to the first-stage PUD, it has not identified to the Commission the addresses of any such neighbors who live in any of the blocks north of the Project and who would at all be negatively affected by the Project’s height. SWAG similarly provides no explanation or mechanism for how the development of a vacant lot that has been planned for redevelopment for nearly two decades produces negative impacts on nearby residents who are “on fixed incomes” or who are “working-poor families”. SWAG does not even allege what those impacts might be and how they might be related to the Project’s height. The Commission finds that the Project is highly unlikely to have any adverse impacts with respect to its height or mass, and that even if it does, such impacts are acceptable in light of the Project Public

Benefits, and particularly the amount of housing and affordable housing which would not be possible without such height; and

- (e) The Project's design imposes no unacceptable impacts on the surrounding area in light of the Public Benefits.
100. Transportation Impacts. The Project has no unacceptable transportation or mobility impacts. Instead, any such impacts of the Projects are either capable of being mitigated or acceptable given the quality of the Public Benefits. The Applicant has undertaken an extensive study of the Project's potential transportation impacts, and in particular, has studied those potential impacts in the context of the new and proposed developments in the vicinity of the Project. (Ex. 15A, 34B, 47G3.) The scope and design of the Project's impact analysis was established in close coordination with DDOT. (Ex. 25.) The Commission finds these impact studies as satisfactory of the substantial evidence standard by which it must make its findings:
- (a) In large part because of the Project's proximity to the Metrorail, strong pedestrian connectivity along all nearby streets, and a growing network of bicycle lanes in Southwest DC, the Project is not expected to have any adverse transportation effects. (Ex. 15A, 25.) The Project is located close to a Metrorail station and the Applicant expects that many residents, employees, and visitors of the Project will travel via transit. The Project provides ample bicycle parking along with a new Capital Bikeshare station and is located proximate to both 4th Street, S.W. and I Street, S.W. which provide north-south and east-west connections for cyclists through and beyond Southwest;
- (b) The Applicant has elected to make residents of the Property ineligible for participation in the District's residential permit parking and visitor permit parking systems. The Project provides an appropriate amount of below-grade parking in order to avoid residents parking on nearby streets but not so much parking as to induce an inappropriate amount of vehicular traffic for a location so well-served by transit. These commitments, together with the TMP and TDM more than adequately mitigate any potential adverse impacts of the Project;
- (c) The Project's Private Drive accommodates pick-up and drop-off activities for the residential, cultural and educational uses, which avoids queuing in the alley or on the street. The Project includes physical design elements—notably the Private Drive, which has a well-designed pick-up and drop-off space outside of the public realm, as well as the below-grade garage—and operational elements that together minimize any adverse transportation effects on the surrounding road network. The Drive's uses design-based measures accomplish the necessary calming. The Private Drive's narrow width at its driveway opening and the continuation of a flush sidewalk across the Drive's entrance are a strong visual cue to drivers that the Private Drive is not a street for cut-through travel. Similarly, the Project's pavers create a "rumble-strip" effect for drivers in cars, another cue to slow travel speeds. In addition, the Private Drive has a slight change in grade at the entry and

exit points, which is a DDOT design requirement intended to slow traffic. Operable bollards at both ends of the Private Drive allow it to be closed from time to time for special events outside of school days, and the Drive's design could accommodate additional calming measures (e.g., a speed hump) if necessary in the future. DDOT, FEMS, and MPD have all reviewed the Project's Private Drive design and have given the Applicant no indication of concern with the design or safety measures of the Drive;

- (d) The Applicant has a robust plan in place to address transportation matters related to the proposed AppleTree use. The Applicant proposes a detailed signage plan and operational controls to be enforced through its lease with AppleTree to manage parking, drop-off, pick-up, and queuing activities on the Private Drive. In order to prevent school unloading and loading from disrupting traffic, AppleTree staff will escort children to and from cars that queue in the Private Drive so that caregivers do not need to get out of their cars. The Project's garage also includes dedicated space to accommodate unloading and loading for caregivers who elect to walk students into and out of the school;
- (e) In addition, the Applicant has met with representatives from DDOT's "Safe Routes to School" program both with respect to access to AppleTree's use as well as with respect to neighborhood children walking to Amidon-Bowen Elementary School and Jefferson Middle School during the period of construction on the Project. The Applicant's discussions included concepts now incorporated into the Project's construction management plan regarding neighborhood student's walking routes;
- (f) The Applicant is also obligated as a condition of this approval to implement a robust TMP and TDM to mitigate any possible transportation effects;
- (g) WTCA raised a concern that there is not a designated pick-up or drop-off zone by the 4th Street, S.W. entrance to the building where the Project's residential entrance is shown as being located. The space in front of the proposed building where WTCA would like to see a drop-off area is currently used as on-street, curbside parking. (Ex. 23; Tr. 2 at 124-27.) The Applicant explained at the hearing that DDOT and not the Applicant controls whether a drop-off zone is established in front of the Project on 4th Street, S.W. (*Id.* at 153.) The Private Drive will accommodate pick-up and drop-off activity for all uses in the Project, including the building residents, since the residential lobby is accessible via an interior connection from the Private Drive. The Commission finds that the Applicant's location of all drop-off activity on the Private Drive, rather than 4th Street, is highly unlikely to result in any adverse impacts. Instead, the Private Drive allows pick-up and drop-off activity to occur off of the street in order to minimize adverse impacts on traffic flow along 4th Street, S.W. The TMP and TDM included as Conditions to this order adequately mitigate any potential impacts from pick-up and drop-off activities along 4th Street, S.W.;

- (h) SWAG states that the Project seeks more parking than is allowed, providing more than 200 parking spaces when the underlying regulations require less than 100 spaces. To the contrary, the Commission finds that the Project provides an appropriate amount of parking, as shown in the Applicant's studies and in DDOT's report. SWAG's statement is simply not true as a matter of law. Although it is not entirely clear from its sparse writing on this point, presumably SWAG is suggesting that under ZR16, a development the size of the Project would be required to provide only approximately 187 spaces, an amount that could be reduced by half (i.e., to 94) given the Property's proximity to a Metrorail station pursuant to § 702.1 of Subtitle C of ZR16. However, SWAG is incorrect on this count for two reasons: (i) such reduction in minimum parking within a certain distance of a Metrorail station is permissive rather than required (so the 94 spaces would not be the maximum "allowed"; 94 spaces would be the minimum allowed), and (ii) the parking requirements of ZR16 do not apply to the Project given its vested status under the substantive provisions of 1958 Zoning Regulations per § 102.3 of Subtitle A of ZR16. Under the substantive parking requirements that do apply to the Project, i.e., those of the Waterfront Station PUD and ZR58, the Project provides sufficient parking. SWAG's statement is also incorrect as a matter of parking policy. The Applicant provided substantial evidence that the Project provides, relative to similar developments in Southwest DC, a relatively lesser amount of parking, when examined as a ratio of parking spaces to rental apartment units and when accounting for the Project's non-residential uses. (Ex. 47G3.) The Commission finds that the Project provides sufficient parking so as to not cause adverse impacts on neighbors who rely on on-street parking but not so much parking as to induce unnecessary vehicle trips given the Project's location in an area well-served by transit. The Commission is satisfied with the Applicant's detailed analysis with respect to its parking levels; and
- (i) SWAG further alleges that the Project's impacts "remain largely unstudied by planning agencies and the Applicant." (Ex. 37.) Again, the Commission cannot agree with SWAG. The Applicant's CTR is thorough and addresses the types of impacts cited by SWAG. (Ex. 15A, 47G3.) Moreover, DDOT conducted its own review of the Project and the Applicant's CTR and concluded that it had no objection to approval of the Project subject to conditions that the Applicant adopted. (Ex. 25.) On the point of DDOT's review of the Applicant's CTR, DDOT found that the CTR "used sound methodology and assumptions to perform the analysis." (*Id.* at 2.)

101. Environmental, Open Space, and Public Infrastructure Impacts. The Project has no unacceptable impacts on the environment or District utilities that are not capable of being mitigated. The Project will not have unacceptable adverse impacts with respect to construction, noise, or air quality:

- (a) The Project has no unacceptable noise, air quality or construction-period impacts. Noise, air quality, and construction period impacts arise from matter-of-right

development and are not unique to PUDs. Nevertheless, the proposed CMP will address construction-period impacts of the Project as a whole and therefore goes well beyond whatever incremental construction impacts, if any, are attributable to the PUD;

- (b) The Project also has no unacceptable open space impacts. This portion of Southwest enjoys a variety of well-designed, neighborhood-scale open spaces—the Southwest Duck Pond, the Southwest Library grounds, and the District-owned allée immediately to the north of the Property that connects the Duck Pond to the Library, as well as Lansburgh Park (which has dedicated play areas and a dog park), among others—that are well-served with appropriate amenities. The Waterfront Station PUD required at least 50,000 square feet of new open spaces, an amount already satisfied in previously approved second-stage PUDs and includes the plaza at the Waterfront Metrorail Station. The Project includes additional ground level public open space in addition to that amount. The Property has been contemplated as a redevelopment site for more than a decade. Rather than fence off the Property and “mothball” it, the District kept it open and green and installed a temporary paved path to allow for interim use during the pre-development period. With the development of the Project, that interim use comes to its planned end. In place of the interim vacant-lot condition, the Project provides new uses that are public benefits—new housing and affordable housing as well as a mix of diverse and vibrant retail, cultural, and neighborhood-serving ground-floor uses, which will draw people and will contribute to the diversity of the existing public and quasi-public gathering spaces in Southwest DC. Furthermore, the Project contributes its own additional publicly-accessible open space, through the 3,000 square foot Play Area that will be open to public use outside of school hours and the Private Drive that will provide an additional activated and engaging east-west connection through the Waterfront Station development. On balance, the Project makes a positive contribution to the Southwest open space network consistent with the established and planned vision for redevelopment of Waterfront Station; (Ex. 22.)
- (c) The Project contains approximately 400,000 square feet of new GFA. The average daily water demand, anticipated to be 161,000 gallons per day, for this Project can be met by the existing District water system, which includes relatively new infrastructure in 4th Street, S.W. installed as part of the Waterfront Station PUD. The proposed connection for the fire and residential water supply will be made within the existing distribution system and will be coordinated with DC Water. The Project has multiple individual water meters; (Ex. 21.)
- (d) The sanitary sewer connections for the Project are within the existing distribution system and will be coordinated with DC Water. The infrastructure for the Waterfront Station neighborhood has largely already been constructed; (*Id.*)
- (e) The Project has been designed to achieve high levels of on-site stormwater retention. The proposed planters, green roofs, and permeable pavement are

designed to exceed DOEE stormwater management retention and detention requirements. The requisite inlets and closed pipe system comply with the standards set by DOEE, DC Water, and DDOT; (*Id.*)

- (f) Solid waste and recycling materials generated by the Project are to be collected regularly by a private trash collection contractor; (*Id.*)
- (g) Electricity for the new building is provided by Pepco in accordance with its usual terms and conditions of service. All electrical systems are designed to comply with the D.C. Energy Code. Transformers will be installed on the Property in accordance with Pepco's design guidelines and the Project's solar panels provide some resiliency; (*Id.*)
- (h) The Project is designed in full compliance with Article 24 (Energy Conservation) of the Building Code. Conformance to code standards minimize the amounts of energy needed for the heat, ventilation, hot water, electrical distribution, and lighting systems contained in the building; (*Id.*)
- (i) During excavation and construction, erosion on the Property will be controlled in accordance with District law; (*Id.*)
- (j) SWAG asserts that the Project "will increase pressure and abuse on existing area infrastructure, public services, and environment, impacts thereof that largely remain unstudied." (Ex. 37.) The Commission disagrees with this statement from SWAG. For one, SWAG's assertion is a broad generalization that lacks any evidence or support. For another, SWAG's assertion lacks any evidence that the alleged impacts on infrastructure—which would occur to a large degree with any matter-of-right development of the Property—are the result of this PUD. Indeed, all evidence in the record is to the contrary and indicates that the Waterfront Station PUD, including the Project, has a net positive impact on infrastructure, public services, and the environment:
 - i. With respect to infrastructure, the Project is part of the larger Waterfront Station PUD, pursuant to which 4th Street, S.W. between I Street, S.W. and M Street, S.W. was newly reconstructed. As part of that reconstruction, new infrastructure, including new sanitary and stormwater lines were installed. (Ex. 47G2.) SWAG's statement is therefore incorrect: the Property is a District-owned property that takes advantage of infrastructure recently installed by private developers; and
 - ii. With respect to the Project's alleged unstudied environmental impacts, SWAG's statement is again incorrect. The Project's impacts on the environment *have* been studied in filings presented by the Applicant and addressed in its mitigation plans. (*See* Ex. 2I, 22E.) While DOEE did not file a formal report in this case, OP provided the comments it received from DOEE in its Final Report DOEE concluded that it was "supportive"

of the proposed design. (Ex. 51.) Moreover, the District's in-depth environmental review process is by regulation is triggered at the building permit stage and not at the entitlement stage. If SWAG had bona fide concerns about the Project's environmental impacts, it could have elected to present those concerns in a much more particularized manner to the Commission prior to the close of the record in this proceeding. It is simply not enough to allege that a PUD will have environmental impacts without offering more as to what those impacts might be or how they might impact the persons or organizations allegedly aggrieved, or even how or what about the Project causes environmental impact-related injuries;

- (k) SWAG also alleges that the "Costs for infrastructure and transit upgrades [will] be unfairly born by the surrounding community leading to more displacement." (Ex. 37.) This is another generalized allegation that is both unsupported and false. As noted above, the Project is part of a larger PUD that did make significant infrastructure improvements at the outset of construction, including constructing a new public street. It is unclear how or what "infrastructure costs" and "transit upgrades" will be unfairly born by the community surrounding the Project or how that is an injury caused by the Project. As explained by the Applicant's engineer, the Project is required to make infrastructure-related improvement payments at the time of connection. (Ex. 47G2.) Moreover, the Applicant has already commitment to make transit improvements in the form of an Applicant-funding Capital Bikeshare station to be located to the north of the Property and in the form of a driveway that increases connectivity and porosity in the neighborhood and that is required to remain open to public use. Similarly, the first-stage PUD also included the reconstruction of the Waterfront Metrorail station, which constitutes the type of "transit upgrade" SWAG alleges is absent from the project;
- (l) SWAG alleges that "Use of status quo construction materials and basic quality . . . will lead to premature building degradation on public land." (Ex. 37.) SWAG again fails to provide any detail or evidence to support or justify its claim. To the contrary, the Project's façade materials are high quality and designed to be durable and the Project, with standard maintenance, is designed to withstand weather conditions for 99 years or longer; (Ex. 47G.)
- (m) Finally, SWAG also avers non-particularized due process violations arising from the absence of District agency reporting on impact assessments. No such violations exist. SWAG elected not to request party status to the instant proceeding. It had every opportunity to do so within the context of the Commission's Rules of Practice and Procedure. SWAG's rights in this proceeding as an organization in opposition to the Project are no different than those of any other member of the general public and SWAG has shown no harm arising from the exclusion of District agency reporting on the Project. The Commission has ample factual basis in the record before it to conclude that the Project will not have any unacceptable impacts; and

- (n) Given the Applicant's thorough environmental impact analysis in the record and the absence of any particularized allegations (let alone any facts) to the contrary in the record, the Commission finds that the Project will have no adverse effects on District services or the environment that cannot be mitigated.
102. Schools, Libraries, Parks, and Other Public Facilities and Services Impacts. The Project has no unacceptable impacts on public facilities such as schools, libraries, or parks, and the Project's impacts are generally favorable or capable of being mitigated:
- (a) The Project is highly unlikely to have an unacceptable impact on schools in the District given the size of the Project, its mix and type of units, and the capacity for the District's nearby schools to take on additional students. As of the 2017-2018 school year, the Project is within the boundaries of Amidon-Bowen Elementary School at 401 I Street, S.W.; Jefferson Middle School Academy at 801 7th Street, S.W.; and Eastern High School at 1700 East Capitol Street, N.E. DCPS data show that the Property's in-boundary schools are generally below capacity based on the most recently available data: for 2016-17, Amidon-Bowen had an enrollment of 350 students in a building with a capacity for 400; Jefferson had an enrollment of 305 students in a building with a capacity for 567; and Eastern had an enrollment of 818 students in a building with a capacity for 1,100. In addition, several other private and charter schools (such as AppleTree) are in the general vicinity of the Project, offering educational options to residents who may seek alternatives to the neighborhood public schools;
- (b) The Project accommodates the relocation and expansion of AppleTree's local pre-kindergarten program into a new, centrally-located space. Immediately opposite Wesley Place, S.W. from the Project is the Southwest Branch of the DC Public Library. Potential impacts from AppleTree are discussed below, but on balance AppleTree does not produce any unacceptable impacts; (*See* FF 100.)
- (c) The Project is unlikely to have an adverse impact on the District's library facilities. Instead, the Project's effects are likely to be positive as the Project adds new patrons and have the potential to create positive synergies with the proposed new educational and arts uses. The Applicant has had conversations with DCPL administration officials to ensure that the Project does not create any adverse impacts on the nearby library branch during construction of the Project. The Applicant has committed to providing wayfinding signage to help the public find the library from the Metrorail and has committed to significant dust and noise mitigation measures during construction. DCPL itself confirmed that the Project, including AppleTree, will not place an undue burden on the library; (Ex 51.)
- (d) The Project is also within a few blocks of the 3rd and I Street Park (adjacent to the library), Southwest Duck Pond, Lansburgh Park, and the Southwest Waterfront Park. The Project's residents will help activate the use of these facilities, and revenue associated with the Project will increase the tax base to support these facilities;

- (e) On its own, the Project is highly unlikely to cause any critical overcrowding of publicly-accessible District services because of its relatively small scale. Rather, the Project has a significantly net positive effect on District revenues. That is, the Project over-contributes to any necessary future expansion of District services—parks, emergency services, community centers, etc.—relative to the impact of the Project;
 - (f) The Project contributes to the capacity of the District’s art and cultural “infrastructure” with a ground-floor space that is intended to have a community-serving scale; and
 - (g) Any adverse effects from the Project are either capable of being mitigated or acceptable given the quality of the Project Public Benefits.
103. AppleTree-Related Impacts. The PTA spoke in opposition to the Project, and particularly its inclusion of AppleTree, at the Public Hearing and submitted written testimony into the record with similar concerns. The ANC and CBCC also raised concerns related to AppleTree. The PTA’s concerns with the Project relate exclusively to the Project’s anticipated inclusion of AppleTree Public Charter School, which serves pre-K3 and pre-K4 students, within the ground floor of the Project.¹⁷ In sum, the Commission finds

¹⁷ The PTA noted that the Commission studies transportation and economic and other impacts but does not have anything in the record in this case regarding the Project’s education impacts. (Tr. 2 at 72.) At the Public Hearing, the Commission called on DME to provide a report in this proceeding. The DME provided a report stating that charter schools are allowed to choose their own locations, and that DME will not comment on this particular choice. (Ex. 56.)

The PTA’s other concerns simply do not rise to the level of material contested issues that are redressable by the Commission. For instance, the PTA raised the concern that AppleTree’s pre-kindergarten demographic as a particular concern because it has the potential to draw away students at the beginning of their education, when parents are making an important early decision about where to send their students to school. The District has a student choice-driven lottery system for public schools and public charter schools that allows students to seek to enroll in any public or public charter school across the District. AppleTree’s inclusion in the Project does not affect the rights or abilities of students living within the boundary of Amidon-Bowen to participate in that school choice program. Under the District’s existing program, whether students attend AppleTree or Amidon-Bowen, each year they have the option to re-enter the school choice lottery even after making an initial election. This is a District-wide policy issue that the Commission cannot affect. Similarly, the PTA complained that AppleTree failed to encourage its students to attend public schools. Again this is not an issue that the Commission can influence. Finally, the PTA objected to the Applicant and AppleTree’s lack of transparency in its lease negotiations. The Commission finds that this concern of the PTA does not produce any identifiable adverse impact. The Applicant disclosed that it has entered into negotiations with AppleTree for AppleTree to lease space within the building and that lease is not yet final, but it is close to being final. The ANC and the PTA complained that the Applicant’s response to DMPED’s RFP for the Property did not identify AppleTree as a potential tenant. The Applicant acknowledged that its RFP response, which was submitted to DMPED in 2015, did not identify AppleTree as a potential tenant or a public charter school as a potential use. However, the Project’s ground floor plan was not entirely allocated in 2015 and has evolved since 2015 and will continue to do so prior to and after completion of construction. A public charter/pre-kindergarten use (i.e., AppleTree) was identified as a potential tenant of the Project as early as December 2017 in the Applicant’s pre-filing “Notice of Intent to File a Zoning Application” and during the January 2018 public meeting of the ANC and was identified in the Applicant’s initial application materials filed in May 2018. (Ex. 2B, 2.) Once it began the PUD process, the Applicant made no

that the Project does not result in unacceptable project impacts on the operation of District public school services but is instead overall favorable with respect to educational impacts. The primary reason that AppleTree does not represent an unacceptable impact of the Project is that it is not a new potential impact. AppleTree has operated a pre-K3 and pre-K4 charter school in Southwest DC for a period of nearly two decades, and has usually been located within a few blocks of Amidon-Bowen. (Ex. 35 at 41.) According to the testimony of the PTA, during this period Amidon-Bowen has been “on the rise” within increasing test scores, teacher retention, and other “significant improvements.” (Ex. 31.) Clearly, AppleTree’s presence alone is not negatively impactful to Amidon-Bowen. However, the PTA’s concerns about the impact of locating AppleTree in a new space within the Project warrant further analysis:

- (a) The PTA’s primary concern with the Project’s anticipated inclusion of AppleTree as a ground floor use is a concern about competition with Amidon-Bowen for students and by extension resources within the District’s school system. The PTA is concerned that upon completion of the Project, AppleTree, a public charter school in a brand new facility would have the potential to draw students from the same pool as Amidon-Bowen, and the extent of such competition will increase if AppleTree increases its overall enrollment. If AppleTree were to draw neighborhood students from Amidon-Bowen, the PTA alleges it could potentially negatively impact the financial resources that the District allocates to Amidon-Bowen because the District allocates resources to public schools in proportion to the number of students enrolled in the school. If the District reduces resources to Amidon-Bowen because of falling enrollment, such reduction in resources could potentially reduce the quality of the education of those students enrolled at Amidon-Bowen. In this regard, the impacts of AppleTree, and thereby the Project, are far too attenuated to have any effect on Amidon-Bowen given the existing structure of the District’s school choice program;
- (b) The Commission finds that the PTA’s concern about losing students to AppleTree is not an impact attributable to the Project and/or is capable of mitigated;
- (c) The potential impact of Amidon-Bowen potentially losing students to AppleTree is a function of the District’s school choice lottery system and not AppleTree directly:
 - The District has a student choice and lottery system for public schools and public charter schools that allows students to elect to enroll in any public or public charter school across the District. As a result, Amidon-Bowen competes not only with AppleTree, but also with all other pre-K programs across the District for students. AppleTree is only one competitor among more than 220 others. Therefore, the PTA’s concern is not specifically

secret of its intent to include AppleTree in the Project. The Commission can find no harm in the Applicant’s actions on this point that the Commission can remedy.

with AppleTree (or the Project) but with the District's broader public policy decision of allowing students choice of schools to attend;

- Moreover, AppleTree's presence as one of a very small number of schools in Southwest DC is not particularly impactful. Students leave the Amidon-Bowen boundary area for schools all across the District. According to school year 2016-2017 data from DCPS, students living within Amidon-Bowen boundaries and eligible to attend that school attended 84 different public and public charter schools across the District. AppleTree is hardly the only school drawing students from Amidon-Bowen; and
 - Finally, Amidon-Bowen itself is a net beneficiary of school choice in the District: according to statistics from the DME, of the 350 students enrolled at Amidon-Bowen during the 2016-2017 school year, only 143 (approximately 40%) lived "in-bounds"; the other 60% came from other elementary school boundary zones (i.e., from "out of bounds"). That is, in the recent past, the majority of Amidon-Bowen's students elected to leave their in-bounds school in favor of Amidon-Bowen. The PTA's objection to AppleTree is not an objection to AppleTree specifically as part of the Project, but rather to AppleTree's mere existence in Southwest and to the District's longstanding policy of allowing students to elect to attend schools outside of the boundaries within which they reside. That impact is not something that the Commission can redress because it stems from a much broader policy decision made by the executive and legislative branches;
- (d) AppleTree's potential adverse impact on Amidon-Bowen by drawing away students from Southwest households is capable of being mitigated:
- First, AppleTree serves only pre-K3 and pre-K4 students. Even if AppleTree does present some sort of heightened level of competition with Amidon-Bowen for students who live within Amidon-Bowen's boundary area given AppleTree's location in Southwest DC, AppleTree and Amidon-Bowen are competing only for a very small percentage of students. Once students reach kindergarten age, they will have aged out of AppleTree's program, and AppleTree no longer presents any competition;
 - Second, the Applicant and AppleTree agreed to cap the maximum number of students who can enroll at AppleTree. Under the conditions to this PUD, AppleTree can increase its enrollment from its existing approximately 110 students to no more than 132, an addition of only at most approximately one more pre-K class (i.e., 22 students). The Commission finds that this sufficiently mitigates any potential adverse impact to Amidon-Bowen from AppleTree;

- Third, the competitive advantage that AppleTree gains by virtue of its inclusion in a new facility in the Project is greatly offset by the relatively difficult path it has taken and is on until the Project opens. AppleTree’s existing Southwest Center, which has been in existence for nearly two decades, has generally been located in trailers and other temporary structures and has moved multiple times. Until the Project opens, it will shut down entirely at the end of the 2018-2019 school year. On the other hand, Amidon-Bowen underwent a \$5 million modernization concluding in 2012, has not had to relocate, and will be stable and open between now and the time AppleTree resumes operation, which is not likely to occur until 2022 at the earliest; and
 - Finally, other factors mitigating any impact include the District’s broader school choice policy which allows students from the Amidon-Bowen “in bounds” neighborhood to disperse all across the District (a phenomenon that is already occurring); the co-existence of AppleTree and Amidon-Bowen for nearly two decades (the Project is not presenting new impacts other than the incremental addition from 110 to 132 students and the potential “selling point” of being located in a new building); and the fact that students come from “out of bounds” to attend Amidon-Bowen;
- (e) The Commission is quite sympathetic to the concerns and priorities of the PTA. Even in a system where charter schools and neighborhood public schools co-exist, neighborhood public schools, and particularly elementary schools, play a vital role in the community fabric of a neighborhood. The PTA’s testimony makes it abundantly clear that such dynamic exists in Southwest. The dedication, hard-work and passion of the PTA’s committed volunteers are clearly improving the status of Amidon-Bowen and by extension the educational opportunities for its students. The PTA is to be commended;
- (f) The Applicant’s additional proffer related to the PTA—funds to provide additional resources for Amidon-Bowen and a cap on the number of students enrolled at AppleTree—more than compensate for any adverse impacts on Amidon-Bowen resulting from the Project’s inclusion of AppleTree; and
- (g) In sum, AppleTree is highly unlikely to have adverse impacts on Amidon-Bowen or the public school system in general because the charter school and the public school have co-existed in Southwest for nearly two decades since AppleTree first opened. AppleTree provides additional educational opportunities for District families in a part of the District that is seeing an increase in development and population growth.
104. Public Health and Safety Impacts. The Project has no unacceptable public health or safety impacts:

- (a) The Project protects and advances the public health by being designed in a high-quality manner and in compliance with all applicable construction codes. Solid waste associated with the Project is stored in an enclosed facility within the building consistent with best management practices. The Project includes bicycle facilities and other transportation demand management measures that together discourage automobile use and protect and affirmatively advance public health. The Project does not entail any overcrowding or overpopulation, but instead rationally increases residential density near a Metrorail station at a planned town center. The Project also complies with or exceeds applicable environmental performance standards;
 - (b) The Project protects and advances public safety with a design that puts “eyes on the street” through ground-floor uses that encourage pedestrian activity include active outdoor spaces such as the café zone and Play Area, which was designed in consultation with MPD. The Project’s new residents and upper-story balconies add additional activity and visibility to deter crime; and
 - (c) The Project’s site plan also promotes pedestrian and public safety by locating the parking and loading entrances in the far corner of the site, away from the active pedestrian entrances on 4th Street and the Private Drive. Through its transportation study, the Applicant will also have evaluated the impact of the Project on pedestrian, bicycle, and vehicle safety in the transportation network and found no potential adverse impacts that are not adequately mitigated by the TMP.
105. Construction Period Impacts. The Project’s construction-period impacts are all capable of being mitigated. The Applicant has been in contact with its three most proximate neighbors (the owner of the abutting office building located at 1100 4th Street, S.W., the Christ United Methodist Church and the owner of the Eliot across 4th Street) about construction-period impacts and has agreed to a robust CMP. Given the Applicant’s significant experience managing construction of multistory mixed-use buildings in infill locations in the District, the Applicant can undertake and complete the Project without any unacceptable construction-period impacts. (See Ex. 2.) In sum, the CMP: requires that the Applicant coordinate with other developers undertaking construction in the neighborhoods around the Project; establishes requirements for pre- and post-construction surveys and monitoring of nearby buildings during construction of the Project; identifies required truck routes and staging areas; provides for trash, noise, dust, rodent control, and imposes other construction mitigation measures on the Applicant and its contractors. (Ex. 22E.) Taken as a whole, the CMP more than mitigates any potential adverse impacts of the Project.

Evaluation of the Public Benefits

106. The objective of the PUD process is to encourage high-quality development that provides a commendable number of quality of public benefits and amenities by allowing greater flexibility in planning and design than may be possible under matter-of-right zoning. (11-X DCMR §§ 300.1, 305.2.) As part of its evaluation of the Application, the

Commission must find that the Project includes specific public benefits and amenities, which satisfy certain enumerated criteria. The Public Benefits must be designed such that: (i) each public benefit is tangible and quantifiable; (ii) each public benefit measureable and able to be completed or arranged prior to issuance of a certificate of occupancy; (iii) the benefits as a whole primarily benefit a neighborhood or area of the District or service a District-wide need; (iv) a majority of the public benefits relate to the geographic area of the ANC in which the application is proposed, and (v) the public benefits are not inconsistent with the Comprehensive Plan and other adopted public policies (the “Public Benefits Criteria”). (*Id.* §§ 304.4(c), 305.3, 305.4.)

107. The Project achieves the goals of the PUD process by creating a high quality mixed-use commercial development which includes the numerous attendant Public Benefits. The Commission finds that the Project includes the following Public Benefits, which are not inconsistent with the Plan as a whole with respect to the Property and which satisfy the Public Benefits Criteria.
108. Subtitle X § 305.4 requires that a majority of the public benefits of the proposed PUD relate to the geographic area of the ANC in which the application is proposed. Findings with respect to the geographic effect of the Public Benefits are addressed in the following paragraphs. In general, the Public Benefits relate to the area of the ANC.
109. Waterfront Station Public Benefits:
 - (a) Reopening of 4th Street, S.W.: The reopening of 4th Street, S.W. and the establishment of infrastructure in that street were major public benefits approved as part of the first-stage PUD. This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD although the Project provides an additional and related benefit by committing to make the Private Drive publicly accessible except during closures for short-term special events;
 - (b) Major Local Development Initiative: The Waterfront Station PUD is a major revitalization effort that has contributed to the substantial economic development of Southwest DC over the past two decades. The Project is the final phase of this Initiative;
 - (c) Urban Design: The Waterfront Station PUD established broad urban design objectives for Waterfront Station, and the Project is consistent with and advances those objectives;
 - (d) Town Center: The Waterfront Station PUD created a “town center” node around the Waterfront Station Metrorail stop with 50,000 square feet of open space for public use and enjoyment. This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD. Related but additional benefits from the Project are described below;

- (e) Maintenance of Public Park North of the Site: This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD;
- (f) Neighborhood-Serving Uses: The Waterfront Station PUD committed to 110,000 square feet of gross floor area devoted to retail uses. This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD. Related but additional benefits from the Project are described below;
- (g) Neighborhood-Serving Uses – Local/Small Businesses: The Waterfront Station Public Benefits also included an obligation to use best commercially reasonable efforts to provide opportunities for local and small businesses to occupy 12,500 square feet of retail space. Pursuant to the LURA, the Project contributes to this benefit to the extent of 2,500 square feet;
- (h) Neighborhood-Serving Uses – Grocery Store Use: The Waterfront Station Public Benefits included a commitment to include a 55,000-square-foot grocery store within the PUD area. This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD;
- (i) Housing: The Waterfront Station PUD agreed to add at least 800,000 square feet of gross floor area of residential uses. This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD. With the Project, the PUD provides a total of in excess of 1.7 million square feet of residential gross floor area. Related but additional benefits from the Project are described below;
- (j) Affordable Housing: The Waterfront Station PUD committed to add, for a period of 20 years, at least 160,000 square feet of gross floor area of affordable housing for households earning 80% of area median income. With the Project, the PUD provides a total of in excess of 241,000 square feet of affordable housing (13.6 % of the total residential gross floor area):
- 84,033 sf at 80% MFI for 20 years (Z.C. Case No. 02-38A);
 - 40,161 sf at 60% MFI in perpetuity (Z.C. Case No. 02-38I); and
 - 117,094 sf at 30%/50% MFI for 99 years (this proceeding).

The Project completes the satisfaction of this benefit and greatly exceeds the requirement in amount, level of affordability, and duration, as described in more detail below;

- (k) Sustainable Design Features: The Waterfront Station PUD committed to a series of stormwater management, green roof, and erosion and sedimentation control measures for office buildings within the overall PUD area. This benefit has been satisfied by previous second-stage PUDs approved under the Waterfront Station PUD. Related but additional benefits from the Project are described below;

- (l) Community Meeting Space: The Waterfront Station PUD provided approximately 1,000 square feet of office and meeting space for the ANC and other community groups for a period of 10 years. This benefit has been satisfied and expanded upon by previous second-stage PUDs approved under the Waterfront Station PUD;
 - (m) Security and Construction Mitigation Plan: The Waterfront Station PUD committed to providing security and construction mitigation measures during the development of the Waterfront Station PUD. This benefit has been satisfied and expanded upon by previous second-stage PUDs approved under the Waterfront Station PUD. Related but additional benefits from the Project are described below;
 - (n) Transportation Management Plan: The Waterfront Station PUD committed to a transportation management plan, which the Applicant significantly expanded upon with respect to the Project; and
 - (o) Employment and Training Opportunities: The Waterfront Station PUD committed to enter into First Source Employment Agreements and DSLBD agreements for second-stage PUDs. The Project complies with this requirement.
110. Project Public Benefits. In addition to contributing to the Waterfront Station Public Benefits, the Project provides additional benefits and amenities not contemplated in the first-stage PUD. These Project Public Benefits go above and beyond what the Commission would expect in a second-stage PUD given the limited extent of the Project's Development Incentives:
- (a) Superior Urban Design and Architecture: The Project's contemporary, yet contextual form (i.e., recalling key elements of mid-century modernism in Southwest DC), high quality materials, dual orientation, and extensive use of balconies are all elements of the Project's superior design and architecture;
 - (b) Superior Open Spaces: The Private Drive and Play Area are public elements of the Project's superior streetscape and open space design;
 - (c) Site Planning and Efficient Land Utilization: The Project's transit-oriented location and design, lack of surface parking, and infilling of a gap in a maturing retail town center each exemplify efficient site planning and land use;
 - (d) Housing in Excess of Matter-of-Right Development: The Project's provision of in excess of 370,000 square feet of residential gross floor area (and 450 overall new units) adds much needed housing supply to meet increasing demand and offset upward pressures on housing prices in a transit-accessible and mixed-use location;
 - (e) Affordable Housing: The Project's most outstanding public benefit is its contribution of affordable housing. In sum, the Project provides 136 affordable units, affordable at either 30% or 50% MFI for a period of 99 years, which exceeds the requirements of the Waterfront Station PUD in amount, depth of

affordability, and duration. For reference, approximately 91 units (at 80% MFI for only 20 years) are required to satisfy the conditions of the Waterfront Station PUD, and only 37 units (at 60% MFI) would be required under a matter-of-right inclusionary zoning development of the Property;

- (f) Building Spaces for Special Uses – Neighborhood-Serving Retail: The Project reserves at least 11,000 square feet of the ground floor for neighborhood-serving uses in the retail, general service, financial service, or eating/drinking establishment use categories. An additional 9,000 square feet of the ground floor is reserved for uses in the above categories plus education or daytime care categories;
- (g) Building Spaces for Special Uses – Neighborhood-Serving “Diner” Uses: As part of the 11,000 square foot retail requirement, the Project also reserves at least 1,200 square feet of the ground floor for a restaurant serving at least three meals per day. This obligation survives for two years following the issuance of the first Certificate of Occupancy for the building after which the restriction sunsets. The Applicant will provide the ANC with quarterly leasing updates regarding this commitment and other retail leasing developments;
- (h) Building Spaces for Special Uses – Arts/Cultural: The Project reserves 9,000 square feet of the ground floor for a theater or similar performing arts venue, or if such a use cannot be secured within five years after the first Certificate of Occupancy for the Project, any use in the entertainment/assembly/performing arts, arts/design/creation, or arts-related educational use categories. The Applicant is also obligated to work with the ANC to develop and solicit a public request for proposals or undertake similar process to find a theater operator;
- (i) Environmental/Sustainable Benefits – LEED Gold: The Project is designed to achieve LEED (2009) Gold or better;
- (j) Environmental/Sustainable Benefits – Solar Panels: The Project includes no less than 3,000 square feet of roof top solar panels;
- (k) Outdoor Children’s Play Area: The Project includes a 3,000 square foot Play Area open to general public use during daylight hours except during the hours of use by any educational/daytime care use in the Project and/or at other designated times.; and
- (l) Uses of Special Value to the Neighborhood – Amidon-Bowen PTA Contribution: The Applicant has committed to providing \$75,000 to the PTA immediately upon the final effective date of the order in this proceeding (subject to the resolution of any appeals) for the purchase of information technology and/or audio-visual equipment. The Applicant has also committed to limiting the enrollment of any public charter school in the Project to no more than 132 students in the aggregate in grades pre-K3 and pre-K4.

111. The Public Benefits as a whole primarily benefit the geographic area encompassed by the ANC or, in the case of the Project's housing, affordable housing, and environmental benefits, service a District-wide need. The Play Area, the neighborhood-serving uses, the contribution to the PTA, and the superior design and site planning, all primarily benefit the geographic area encompassed by the ANC. The Waterfront Station Public Benefits, particularly the reopening of 4th Street, S.W., the neighborhood-serving ground floor uses, the spaces for community groups, the park maintenance, plazas, and urban design and town center all primarily benefit the area encompassed by the ANC.
112. The Commission also finds that the Project Public Benefits are not inconsistent with the Plan because each is an integral part of the Project, which itself is not inconsistent with the Plan. Moreover, such Public Benefits are each tangible, quantifiable, measurable, or capable of being completed or arranged prior to the issuance of a certificate of occupancy for the Project. The Public Benefits satisfy the Public Benefits Criteria.
113. The Project opponents take issue with some of the Public Benefits, and usually only by implication, allege that some of the Public Benefits do not satisfy the regulatory requirements. Although the Commission ultimately concludes to the contrary, these various assertions warrant further evaluation:
- (a) Neighborhood-Serving Retail: WTCA and CBCC alleged that the Project's neighborhood-serving retail is inadequate and would like clearer commitments and plans for the Project's ground floor. (Ex. 23, 39; Tr. 2 at 120-27.) The Commission understands WTCA's request for more certainty but recognizes that the Project is too far away from completion of construction of the Project for firm commitments for all of the Project's ground floor space from individual retailers. The Commission finds that the Applicant's commitments regarding ground floor uses satisfy the Public Benefit Criteria even if the individual retail uses are not yet known. CBCC would like to see "locally-owned, community-serving retail and services." (Ex. 39.) The Commission notes that the Applicant has committed to providing exactly those uses on the Project's ground floor. CBCC also objected to the potential expiration of the Project's commitment to a "diner" and performing arts uses if those uses cannot be located within, respectively, two and five years following the issuance of a certificate of occupancy for the Project. The Commission finds that the "sunset" concept in the Applicant's ground floor use commitment appropriately balances the need to provide a strong incentive for the Applicant to deliver the proposed uses while also not indefinitely leaving valuable ground-floor retail space vacant. Neither the Applicant, nor this Commission, nor any neighborhood groups wants to see ground-floor vacant space for an extended or indefinite period of time. Vacant ground floor spaces undermine street level vitality. The Applicant's commitment to engage in regular dialogue with the ANC regarding retail uses during build out provides a further effective safeguard. Notwithstanding CBCC's concerns, the Commission sees no reason to believe that the Project's ground floor use proffers do not satisfy the Public Benefits Criteria;

- (b) Location of Affordable Units: SWAG noted that the Project's affordable units were initially concentrated around the enclosed courtyard. As noted above, the Applicant revised the location of the Project's affordable units after the Public Hearing, addressing SWAG's concern. In addition, SWAG is simply wrong that the courtyard is the "less sunny" side of the building. The courtyard side of the building is south-facing and therefore the *more* sunny side of the building (because the sun traces an arc from east to west in the southern sky). Finally, the only level of the Project without affordable units is the penthouse level, and not, as SWAG suggests, the upper floor *and* the penthouse. All residential stories of the Project contain affordable units. The location of affordable units on all of the floors of the Project except for the penthouse is not prohibited (indeed it is not addressed at all) under the D.C. Human Rights Act. The Zoning Regulations prohibit concentrating affordable units on any one floor, but such regulations do not require locating any affordable units in a penthouse. Indeed, the Commission's practice has been to allow no affordable units on the penthouse or top floor, recognizing that the premium rents from those floors support and subsidize affordable housing on lower levels as well as other benefits. By providing affordable units up to and including the top floor, the Project goes beyond the Commission's standard practice. More to SWAG's concern: the residents of the Project's affordable units will in no way have a "lesser experience" than the residents of the Project's market-rate units. The Project's affordable units and market-rate units will all have comparable interior finishes and fixtures, equal access to amenities, and are allocated throughout the building so that the affordable units are not distinguishable from the market-rate units. On the whole, nothing SWAG raises on this point that has gone unaddressed by the Applicant undermines the Commission's findings that the Project's affordable housing satisfies the Public Benefits Criteria;
- (c) Duration of Affordability Restriction: In a critique that implicitly seeks to undermine the value of the Project's affordable housing benefit, SWAG asserts that all of the proffered affordable units expire over time. (Ex. 37.) SWAG's characterization of the affordable housing benefits "expiring" over time is misleading. The Project's affordability proffer lasts only 99 years because that is the term of the ground lease under which the Applicant controls the Property. The Project's 99-year affordability restriction is co-terminus with the period of private control. If the District wishes to extend the period of private control beyond 99 years, it could similarly extend the affordability controls. The District's action with respect to the Project's affordability restriction after it reverts to District control is a public policy decision. Moreover, the 99-year period of affordability proffered as part of the Project greatly exceeds the 20-year period required under the Waterfront Station PUD. That 20-year period, which is the period binding on the Project as vested under a first-stage PUD, and not the IZ period of control, is the appropriate baseline for comparison. The Commission finds that the Project's affordable housing proffer complies with the Public Benefits Criteria;

- (d) Affordability Program in Waterfront Station PUD: SWAG raises objections with the affordability program in other buildings under the Waterfront Station PUD, perhaps in an effort to call into question the value of the Waterfront Station Public Benefits. The Commission notes that these other buildings are not before the Commission in this proceeding. The Northwest Building that SWAG cites was approved in Z.C. Order No. 02-38D and the M Street, S.W. projects that SWAG cites in Z.C. Order No. 02-38I, and neither are before the Commission now. The affordable housing benefit in the Waterfront Station PUD was allocated among the multiple residential buildings on the overall site. Whether the Commission's approval of the allocation of affordable units to the Northwest Building was in error or not, it is not redressable now as part of this proceeding. In any event, the Project provides more affordable housing, at deeper levels of affordability, and for a longer period of time than originally was required under the Waterfront Station PUD. With the approval of the Project, the total affordable housing commitment for Waterfront Station PUD will be 13.6% of the aggregate residential gross floor area, which is more than 1.5 times the percentage that would be required for a matter-of-right development under the District's Inclusionary Zoning requirements. To the extent SWAG is objecting to the value of the Project's Public Benefits, the Commission strongly disagrees;
- (e) Income Limits: SWAG makes further assertions that appear directed at the level of affordability of the Project's units, again in an apparent attempt to impugn the value of the affordability benefit. However, SWAG gets the facts incorrect, so this allegation can be easily dismissed. SWAG asserts that the Project is "an exclusive community for single professionals making \$45,000+" and its citation "to the housing cost floor of \$1200/month," an assertion that is demonstrably false:
- All of the affordable units in the Project are subject to an income *maximum* rather than an income *minimum* as SWAG suggests;
 - A household occupying one of the Project's 30% MFI one-bedroom or studio units could earn a *maximum income* of \$24,600 if an individual or \$28,150 if a couple under DHCD's current income limits. SWAG confusingly cites "\$45,000+" as the minimum income;
 - The *maximum* income for *any* of the Project's affordable units is \$58,600 under DHCD's current income limits for a two-bedroom unit affordable at 50% MFI;
 - Similarly, incorrect is SWAG's assertion that \$1,200 per month is the "housing cost floor." Rather than a floor, the *maximum* monthly rental for the Project's affordable units is \$1,280 monthly under DHCD's current rental limits; and

- Notwithstanding the confusing and incorrect statements from SWAG, the Project's affordable housing is a meaningful public benefit that satisfies the Public Benefit Criteria;
- (f) Affordable Commercial Space: SWAG notes that there is “no proffered affordable commercial space or conditions to work with local Ward 6 small businesses, or with Ward 6 organizations to access affordable incubator/retail space in perpetuity on the ground floor.” The Waterfront Station PUD does require that the Project (like other phases of the Waterfront Station PUD) undertake reasonable efforts to provide space for small and local businesses and 2,500 square feet of the Project's ground floor must be dedicated to such uses.¹⁸ It is true that there is no affordable/incubator commercial space requirement for the Project. The neighborhood-serving ground floor uses requirements and benefits were established in part during the first-stage PUD and more recently in consultation with the ANC. SWAG is effectively encouraging additional public benefits. The Commission finds that additional benefits are unnecessary given the already robust package of Public Benefits. The Project's Public Benefits reflect the community's desires and satisfy the Public Benefit Criteria, notwithstanding SWAG's lack of participation in determining such benefits;
- (g) Applicant Contribution to Funds for Community Emergencies: At the Public Hearing, SWAG asked whether the Applicant could reserve space or a fund for Southwest residents who experience an emergency like the fire that occurred at the Arthur Capper senior houses. The Applicant provided evidence that its affiliates have already made these types of contributions outside of the PUD process. As noted in the Post-Hearing Submission, affiliates of the Applicant have been collaborating with DCHA to provide units for displaced seniors with vouchers from Arthur Capper Carrollsburg at The Wharf and The Banks, two residential buildings controlled by the Applicant's affiliates although the Applicant does not seek to proffer these prior contributions as public benefits; and (Ex. 47C.)
- (h) Anecdotal Information about The Wharf: Mr. Williams alleged that some households encountered troubles renting units at The Wharf, a separate development in Southwest DC that is owned by affiliates of the Applicant. In the Post-Hearing Submission, the Applicant provided information about its record of renting affordable units at The Wharf. Weighing the non-particularized statement from Mr. Williams against the Applicant's Post-Hearing Submission regarding leasing activities at The Wharf, the Commission finds that there is no reason to believe that the Applicant cannot or is unlikely to deliver on its obligations with respect to affordable housing benefits in the Project.

¹⁸ To SWAG's point about limiting such spaces to Ward 6 businesses and organizations specifically, such a restriction would arguably run contrary to the D.C. Human Rights Act, which generally prohibits such discrimination on the basis of Ward. D.C. Code § 2-1401.1. The Project's small business benefits are available to all District businesses.

114. Accordingly, the Project satisfies the PUD Evaluation Standards.

Consistency with the First-Stage PUD

115. In addition to reviewing the Application against the PUD Evaluation, the Commission must review the Application against the Waterfront Station PUD. In general, the Commission must grant approval to any second-stage PUD application that it finds in accordance with the first-stage approval. (11-X DCMR § 309.2.) As noted above, the Project is in accordance with the parameters established in the Waterfront Station PUD and is consistent with the Conditions of that order.

116. However, SWAG argues that the Project is inconsistent with the first-stage PUD. SWAG is ultimately incorrect on this point, but its concerns are worthy of careful scrutiny:

- (a) Alleged Height and Height Act Deficiencies: SWAG avers that the Project “cheats the DC Height Act.” (Ex. 37.) This is incorrect. The maximum point of the Project’s roof or parapet is at an *elevation* of 133 feet. (Ex. 22G.) The height of the Project (i.e., the vertical distance from the measuring point on the ground to the highest point of the roof or parapet) is approximately 114 feet. (*Id.*) The Commission finds no error in measuring the Project’s height from M Street, S.W. given (i) the Project’s history as part of the Waterfront Station PUD, which expressly contemplated that all buildings constructed under that PUD use M Street, S.W. for a measuring point, and (ii) the text of § 2521.1(h) which provides for specific changes to the Zoning Regulations for all building in Square 542;
- (b) Other Alleged Modifications of Waterfront Station PUD: SWAG alleges that the Project has been modified in several ways relative to the approvals under the Waterfront Station PUD. (Ex. 37.) Once again the Commission finds to the contrary of SWAG’s assertions:
- SWAG alleges the Project now maximizes the building footprint and eliminates side and rear yards. The Project actually covers slightly less of the Property than the “Northeast Building” (the name of the Project under the Waterfront Station PUD) was proposed to cover in the Waterfront Station PUD. Both the original Northeast Building and the Project included open space for what is now called the “Private Drive” but the Northeast Building was shown as constructed to the lot line on both the east and west boundaries of the parcel. That is, the Northeast Building originally had no side yards, whereas the Project adds side yards to widen the sidewalk and improve the pedestrian experience along both adjacent public streets. The Project’s required side yard relief is necessary to provide side yards, not because it is not providing side yards;
 - The Project also does not eliminate a previously required rear yard. Rather, small portions of some balconies on only some floors of the Project encroach into the required rear yard, which is at least as deep, and

in some instances deeper, than was contemplated in the first-stage PUD. These balconies are architectural details not contemplated during the first-stage PUD process because such details are typically not added until a second-stage PUD;

- SWAG alleges the Project’s “brings the wings of the building to encroach in on the courtyard” as though this were a change. It is not. The Northeast Building, like the Project, also showed “wings” wrapping the courtyard. The Project adds articulation to all three public facing façades and to the courtyard, but does not change the form or massing approved in the first-stage PUD. Rather the first-stage PUD established the massing and orientation of the building and the second-stage PUD establishes the architectural details.¹⁹ The Project’s articulation constitutes final building detailing properly incorporated at the second-stage of the PUD process; and
 - Finally, SWAG complains that the allocation of the Project’s affordable units is inconsistent with the first-stage PUD. This is incorrect because the first-stage PUD did not specify any allocation of units within any of the buildings in Waterfront Station; and
- (c) The Commission finds that the Project is fully in accordance with the Northeast Building approved as part of the first-stage PUD and that the Project includes appropriate detailing and articulation that is only shown for the first time during the second-stage PUD process.

Family-Sized and Three-Bedroom Apartment Units

117. The Commission, the ANC, SWAG, and others raised questions about the Project’s lack of units containing three or more bedrooms.²⁰ The Project’s purported lack of family-sized housing and its lack of three-bedroom units are related, though separate, concerns, and the Commission reviews them independently because the latter has merit as a concern of the Project, whereas the former does not. These questions implicate elements of the Project’s consistency with the Comprehensive Plan as well as its potential impacts and its package of Public Benefits. Given the overlapping nature of this issue, the Commission addresses it separately here.
118. Family-Sized Housing. The Commission finds that the Project contains a substantial amount of “family”-sized housing. The Commission considered concerns from the ANC, SWAG, and others who would like to see in Southwest DC the development of housing

¹⁹ Compare 11-X DCMR § 302.3(a) (describing a first-stage PUD as “a general review of . . . the appropriateness, character, scale, height, mixture of uses, and design of the uses proposed”) with *id.* § 302.3(b) (describing a second-stage PUD as “a detailed site plan review to determine transportation management and mitigation, final building and landscape materials”).

²⁰ Sometimes these concerns were phrased as a lack of “family-sized” housing in the Project. (*See, e.g.*, Ex. 37 at 1.)

units large enough to allow families with children to move into and/or remain in the neighborhood. The Project positively addresses those concerns: it contains a total of 90 two-bedroom units, 28 of which are reserved as affordable (14 at 50% AMI and the other 14 at 30% AMI). Two-bedroom units, especially those with an additional “den,” of which there are 10 in the Project, are sufficiently large to accommodate families with one or two children. Five of the 10 two-bedroom plus den units are affordable, and are therefore reserved as affordable at a disproportionately greater percentage. Thirty percent of the Project’s *net* residential floor area is devoted to family-sized units, a percentage that the Commission determines is substantial. Moreover, the Project’s two-bedroom units are also slightly larger than typical two-bedroom units in the marketplace and therefore provide additional space for families. For instance, the Project’s two-bedroom units are on average 1,063 square feet. Comparable nearby new buildings have two-bedroom units averaging 861 square feet to 1,178 square feet. None of the ANC, SWAG, or any other opponent cited any authority defining “family-sized” units as only those units containing three- or more bedrooms. The Commission is not aware of any authority establishing such a definition, as it arguably would be contrary to federal fair housing law to exclude families with children from units with two-bedrooms. The Commission therefore finds that there is no meaningful dispute that the Project contains units sufficiently large so as to accommodate families with children, and indeed the Project contains more than two-dozen affordable (and many deeply affordable) units capable of doing exactly that.

119. Three-Bedroom Units. The Project does not contain any three-bedroom units notwithstanding the request from the ANC and others that the Project be revised to include three-bedroom units. While the Commission agrees with the ANC, SWAG, CBCC, Mr. Williams, and Ms. Rodney that three-bedroom units are a benefit, the Commission does not believe that three-bedroom units are necessary here given the quality and quantity of other public benefits, including in particular the amount and depth of affordable housing. (*See* 11-X DCMR § 305.5(f)(3).) Furthermore, the lack of three-bedroom units does not cause the Project to run afoul of the Comprehensive Plan or any other adopted policy applicable to the Property. The lack of three-bedroom units does not cause any unacceptable impacts, it does not void the Project’s commendable Public Benefits, and it does not violate the approval in the first-stage PUD or any procedural requirement. On balance, the Applicant has compelling reasons for not providing three-bedroom units, and after carefully weighing all of the evidence and evaluating the argument, the Commission sides with the Applicant.
120. Comprehensive Plan Analysis. While there are meritorious policy arguments for three-bedroom units, there is no evidence that the Project is *required*, pursuant to any law or regulation binding on the Project, to provide three-bedroom units. In the absence of any binding law or regulation, the Commission looks to policy guidance regarding the design of the Project’s units. On this point, the Commission finds arguably competing policies. In sum, the Commission resolves this issue in favor of the Applicant and finds that the Project is not inconsistent with the Comprehensive Plan with respect to its lack of three-bedroom units. Mindful of its obligation to weigh and reconcile competing policy objectives in determining whether the PUD is not inconsistent with the Comprehensive

Plan as a whole,²¹ the Commission makes these subsidiary findings with respect to three-bedroom units:

- (a) The Argument for Three-Bedroom Units. The desire of the ANC, SWAG, and others for three-bedroom units is moored to an articulable and adopted public policy document: the Comprehensive Plan's Housing Element. In particular, as cited by SWAG, Housing Element Policy H-1.3.1 encourages the provision of housing units for families with children through, among other things, construction of three- and four-bedroom apartment units. (10-A DCMR § 505.6.) Concededly, the Project does not directly advance this objective by providing three- or four-bedroom units. However, that is not the end of the analysis;
- (b) Policy H-1.3.1 Does Not Require Three- and Four-Bedroom Apartment Units. Policy H-1.3.1 is not so tightly prescriptive so as to limit compliance therewith to the provision of only three- and four-bedroom apartment units. Rather, H-1.3.1 has broader aims than merely the production of three- and four-bedroom apartment units, and such broader objectives become clear when Policy H-1.3.1's reference to three- and four-bedroom apartment units is reviewed in context:
- Policy H-1.3.1 reads in full: "Provide a larger number of housing units for families with children by encouraging new and retaining existing single family homes, duplexes, row houses, and three- and four-bedroom apartments"; (*Id.*)
 - The overriding intent of this policy objective is captured in the first half of the sentence: provision of "housing units for families with children." As noted above, there is no real dispute that the Project accomplishes this overall objective: the Project indisputably contains apartment units large enough to accommodate families with children;
 - Following the broad statement of the goal of providing housing units for families with children, the second half of H-1.3.1 sets forth the many different ways that it can be satisfied. First, it can be satisfied through constructing "new" housing units or "retaining existing units". Second, it can be satisfied through a non-exhaustive list of housing types, *viz.* "single family homes, duplexes, row houses, and three- and four-bedroom apartments.";
 - The Commission must presume that the list of housing types recited as compatible with "family-sized housing" is intended to be non-exhaustive because, for instance, five-bedroom units would certainly satisfy the overriding intent but are not included in the list. That is, the list of housing

²¹ See *Friends of McMillan Park v. District of Columbia Zoning Comm'n.*, 149 A.3d 1028, 1034 (D.C. 2016); *D.C. Library Renaissance v. District of Columbia Zoning Comm'n.*, 73 A.3d 103, 126 (D.C. 2014) (noting that the Court of Appeals "recognize[s] that the Commission may balance competing priorities in order to evaluate whether a project would be inconsistent with the Plan *as a whole*") (emphasis added).

types provided in this objective are intended to be illustrative and are not rigidly prescriptive. There are numerous ways to satisfy the overriding objective of “housing for families with children” and some of those ways are not expressly listed out; and

- Therefore, the Commission reads that the intent of this objective can be satisfied through two-bedroom units (and two-bedroom plus den units) even if such smaller units do not advance this objective as far as would three- or four-bedroom units. That is, the Project is not inconsistent with H-1.3.1’s overriding objective of providing “housing units for families with children” because it contains 90 two-bedroom units, even if the Project does not include three- and four-bedroom units as H-1.3.1 cites as examples of ways to achieve consistency with such objective;

(c) The Project’s Housing is Not Inconsistent with the Comprehensive Plan as a Whole. The operative standard of review for the Commission’s analysis of a project’s consistency with the Comprehensive Plan is whether the project is not inconsistent with the Comprehensive Plan *as a whole*. The Comprehensive Plan “reflects numerous occasionally competing policies and goals,” and it is up to the Commission to “balance competing priorities in determining whether a PUD is consistent with the Comprehensive Plan as a whole.” (*McMillan* at 1034.) Insofar as Policy H-1.3.1 calls for larger units, it is precisely the type of policy that operates in a loose tension with other policies that call for a greater number of units: (*See, e.g.*, 10-A DCMR § 504.7 (i.e., Policy H-1.2.2: [Affordable Housing] Production Targets).)

- That is, the Project contains only 370,257 square feet of gross floor area capable of being devoted to housing given the volumetric constraints imposed on the Property through the Zoning Regulations. That total gross floor area can be divided in many different ways, but the Applicant elected to divide such area to provide a greater overall number of units rather than to provide larger, albeit fewer units. The Project’s 370,257 square feet of residential floor area could be reconfigured to provide for larger units but doing so would reduce the overall number of units;
- In this way, policies H-1.3.1 and H-1.2.2 operate in some tension: H-1.3.1 encourages larger units, H-1.2.2 encourages a greater number of units. In a fixed amount of space, it becomes necessary to choose one over the other. As described above, the Project is not inconsistent with H-1.3.1 even if it does not reach the outer bounds of what such policy objective encourages; and
- Given the Project’s consistency with other Comprehensive Plan elements that cannot be fully reconciled with H-1.3.1, the Commission finds that the Project is not inconsistent with the Comprehensive Plan “as a whole”.

- (d) The Project's Housing is Fully Consistent with "Other Adopted Public Policies and Active Programs Related to the [Property]." Even if the Commission assumes *arguendo* that the Project's lack of three-bedroom makes it per se inconsistent with Policy H-1.3.1 (although for the reasons given above, it does not), that is not the end of the analysis. Rather, the relevant standard for the Commission is whether the Project "is not inconsistent with [as a whole] the Comprehensive Plan *and with other adopted public policies and active programs related to the subject site.*" (11-X DCMR § 304.4(a) (emphasis added).) There are other adopted public policies related to the Property specifically that override the general District-wide objectives of the Comprehensive Plan's Housing Element:
- The Applicant's decision about the division of the Project's floor area was made in consultation with and subject to approval from the Mayor (through DMPED) and the D.C. Council, both of which affirmatively acted to select the Applicant and this Project, including, specifically the number of units and the mix of affordable and market-rate units. The executive and legislative branches reasonably concluded that the Project should provide an overall greater number of units even at the cost of not providing units with three or more bedrooms;
 - Given that this adopted public policy decision was made together by the executive and legislative branches for this Project specifically, the Commission cannot conclude that the Project runs contrary to Section 304.4(a). Instead, given the specificity of the Project and the public policy deliberations made with respect to it by the executive and legislative branches, the Commission is inclined to weigh more heavily the parcel-specific considerations of the Project over the general District-wide objectives of the Housing Element;
 - Along those same lines, the specific determinations about the Project made by DMPED and the Council are more recent than the more general policy objectives set forth in the Comprehensive Plan, which objectives are at this point more than 12 years old. The Commission is inclined to weigh more heavily more recent policy guidance over older policy guidance, just as it is inclined to weigh more heavily specific policies over general ones; and
 - Therefore, the Project does not run counter to the requirements of § 304.4(a), given the recent executive and legislative approval for the specific unit mix and unit sizes proposed for the Project;
- (e) The Project's Mix of Units and Unit Sizes is Logically Connected to its Context. Peering behind the imprimatur of reasonableness in the policy determination from DMPED and the Council as to the Project's unit mix, the Commission finds that there are strong justifications for skewing the Project's unit mix towards a greater number of smaller units rather than a lesser number of larger units. That is,

notwithstanding a desire for three-bedroom units in the District generally, the Project specifically is on sound footing with respect to unit size and mix because of its proximity to transit and the demographics of Southwest DC:

- First, the Project’s proximity to the Waterfront Station Metrorail stop counsels toward providing a greater number of smaller units so as to increase, as much as is reasonable, the number of households that live near transit. This is the urban planning underpinning for transit-oriented development; and (*See, e.g.*, 10-A DCMR §§ 306.11, 309.15, 403.1; Ex. 2L.)
- Second, the Project’s mix of units also reflects the demographics of Southwest DC, which continues to show much smaller household sizes and lower percentages of households with children relative to other parts of the District. For instance, information provided to DMPED in a report prepared in 2015 by the Urban Institute and introduced into the record by the Applicant, showed that there were on average 1.7 people per household in the “Waterfront” cluster of Ward 6 (i.e., the majority of Southwest) and that only 10% of the households in such cluster had children. These are among the lowest averages in the District. (Ex. 47G1.) Further, households of one and two people, the demographic most likely to inhabit the Project’s studio and one-bedroom units, are growing faster than any other household size. (*Id.*) With this demographic context, the Project’s provision of primarily studio and one-bedroom units is entirely rational and consistent with the neighborhood’s current character and predominant needs. The Commission therefore finds that the Project’s mix of units, which comports to the prevailing demographic character of Southwest DC.

121. Three-Bedroom Units: Potential Adverse Displacement Impacts. SWAG alleges that such lack of three-bedroom units could result in displacement or other adverse impacts to the housing market. SWAG implies that the Project could have adverse impacts in the form of “increasing displacement impacts . . . on the surrounding community’s existing affordable housing.” (Ex. 37.) Apart from providing an anecdote that undercuts its argument (that is, SWAG’s example of Mr. Lee, who is looking for a studio unit), SWAG does not provide any evidence of these impacts beyond conjecture or bare assertion and does not provide any explanation for the connection between the Project and the stated concern. For all the reasons given above, the Project’s mix of housing and addition of new housing is much more likely to have net positive benefits on the housing market. The Property’s vacant condition today undercuts any credible argument that the Project will have adverse displacement impacts. SWAG notes that the Project does not replace any of “Ward 6’s threatened public housing so to mitigate any future public housing resident displacement and gentrification.” SWAG has failed to produce any evidence that the Project creates any discernible impact on public housing in Ward 6 that would necessitate

any such mitigation.²² In sum, the Commission disagrees with SWAG and instead finds that the Project is highly unlikely to have any adverse impacts with respect to displacement of existing residents.

122. Three-Bedroom Units: Public Benefits Package. It is true that the Commission considers three-bedroom units to be public benefits under § 305.5 of Subtitle X and the Commission would likely consider the Project's Public Benefits package to be stronger if it contained three-bedroom units. However, the Commission rules prohibit it from compelling specific benefits. (11-X DCMR § 305.11.) The Commission may deny a PUD only if the proffered benefits do not justify the degree of development incentives requested. (*Id.*) That is hardly the case here. The Project's overall package of Public Benefits more than adequately justifies the Development Incentives, and it is not at all a close call.
123. Alleged Lack of Adequate Agency Reports. SWAG raised concerns about the lack of reporting by District agencies to the Commission. SWAG raised concerns about the lack of reporting from District agencies generally, identifying DHCD in particular as one agency that, in SWAG's view, should have reported on specific aspects of the Project.²³ In sum, further reports are unnecessary: the Commission is the expert decision maker on matters of land use planning and policy in this proceeding and does not require input from other District agencies in order to make a decision. Often the Commission welcomes reports with input from other agencies, but it does not *require* it:
- (a) The Commission Does Not Require Agency Reports to Approve a PUD. The Court of Appeals has recently re-affirmed that agency reports are not a pre-requisite to the Commission approving a PUD; and²⁴

²² Although the burden of proof is on the Applicant to provide evidence that allows the Commission to conclude that the Application satisfies the PUD Evaluation Standards and the PUD Requirements, if an opponent wishes to allege that the Project causes an adverse impact, such opponent must provide more than a bare assertion of that impact. The Commission cannot make findings on conjecture and speculation but instead must base its findings on more than a mere scintilla of evidence. That evidentiary threshold applies to project opponents as well as the Applicant even if the Applicant carries the burden of proof in satisfying the regulatory requirements for a PUD.

²³ SWAG also raised related concerns about the purported lack of agency reporting in general being "fatal." (Ex. 37). For example, SWAG incorrectly states that the record lacks studies related to pedestrian safety. Such studies are included in the CTR and DDOT report and further addressed in the Applicant's CMP and follow-up commitments related to DDOT's Safe Routes to School program. (Ex. 15A, 22E, 25.) SWAG also asserts that the record lacks studies as to environmental impacts, infrastructure impacts, public service community facilities overcrowding and the like. Again SWAG is incorrect as environmental and infrastructure assessments were included in the Applicant's initial filing and in subsequent filings. (Ex. 2I, 15A, 22E.) For the reasons given here, SWAG's and the PTA's concerns about the lack of agency reports is not problematic.

²⁴ A common thread in complaints by SWAG and related groups is that the Commission has erred by not hearing from DHCD or other District agencies, often citing 11-X DCMR § 308.4 ("[OP] shall coordinate review of the application and prepare an impact assessment of the project, which shall include reports in writing from relevant District of Columbia departments and agencies, including, but not limited to, [DDOT] and [DHCD].") The Court has recently confirmed that such a report is not a requirement of a PUD. (*See Shickler v. District of Columbia*, No. 17-AA-496 (D.C. Feb. 7, 2019) "In this case, the relevant agencies were solicited for comment, and many of them

- (b) DHCD has Provided a Written Report and Further Reporting is Unnecessary. Notwithstanding that a report from DHCD is not a requirement, DHCD provided written comments to OP in satisfaction of the reporting provisions of the Zoning Regulations and directly addressed the Project's affordable housing commitment. Further reporting from DHCD is not necessary. The Commission does not require DHCD to determine whether the Project's units (affordable or otherwise) are capable of accommodating families. The Commission finds that the Project's units can accommodate families, including families with children. SWAG also encourages DHCD's further participation because it allegedly has information or data germane to the Project's putative displacement impacts. The Applicant provided the requested data, which was contained in a report commissioned by DMPED. Further reporting from DHCD is not necessary.

124. On balance and having reviewed the weight of the evidence in the record before it, the Commission finds that the Project's mix of unit sizes satisfies the PUD requirements generally and does not disturb the Commission's findings with respect to the PUD Evaluation Standards. The Project provides housing units sufficient to accommodate families with children. The Project's lack of three-bedroom units is not inconsistent with the Comprehensive Plan and with other adopted public policies and active programs related to the Property and does not result in any unacceptable impacts on the surrounding area.

PUD Balancing Test

125. As set forth in the Zoning Regulations, the Commission must evaluate and grant or deny a PUD application according to the standards of § 304 of Subtitle X. The Applicant has the burden of proof to justify the granting of the Application according to such standards. (11-X DCMR § 304.2.)
126. The Commission's findings in relation to a PUD must be supported by substantial evidence. (*See Howell v. District of Columbia Zoning Commission*, 97 A.3d 579 (D.C. 2014).) The Commission finds that the Applicant has satisfied the relevant evidentiary threshold to carry its burden of proof in the instant proceeding. The Applicant has provided multiple filings containing volumes of evidence all relevant to this proceeding and proffered three expert witnesses each of whom presented credible testimony at the Public Hearing. (*See Ex. 2, 13, 14, 15, 15A, 22, 34, 35, 36, 47 [plus exhibits thereto]; Tr. 2 at 11-20, 40, 46-58, 150-163.*) The Commission, in its reasonable determination, accepts such filings and expert testimony as containing evidence adequate to support the findings contained herein.

either wrote reports or participated in meetings throughout the process. The fact that some did not submit reports is not enough to undermine a decision of the Commission that is otherwise supported by substantial evidence.”) (internal citations omitted.)

127. Pursuant to Subtitle X § 304.3, in deciding on the Application, the Commission has, according to the specific circumstances of the Application, judged, balanced, and reconciled the relative value of: (i) the Public Benefits and other amenities offered as part of the Project, (ii) the Development Incentives requested by the Applicant (where, pursuant to Subtitle X § 303.12, the requested Map Amendment is a type of PUD incentive), and (iii) any potential adverse effects (collectively, the “PUD Balancing Test”):
- (a) The Public Benefits Are Numerous and of a High Quality. In sum, the Project provides the numerous and high quality Public Benefits, which satisfy the Public Benefits Criteria. A full accounting of the quality of the Public Benefits is provided above; (*See* FF 106-114.)
 - (b) The Development Incentives Are Comparatively Minor and Appropriately Granted in Light of the Public Benefits. The Commission finds that the Applicant requests comparatively minor Development Incentives for the Project. The Project’s individual Development Incentives are described above. (*See* FF 49-51.) The most significant, by far, of the Development Incentives is the Map Amendment, which allows the Applicant to construct the Project to a higher density and greater height than is possible as a matter of right. However, the Map Amendment was previously approved as part of the Waterfront Station PUD and is not inconsistent with the Comprehensive Plan. The Commission previously determined that the Waterfront Station Public Benefits more than justify the Map Amendment. The only Development Incentives before the Commission now are the Zoning Relief and Ground-Floor Flexibility. The Design Flexibility was also previously approved to a greater extent than contemplated here. The Zoning Relief and Design Flexibility, to the extent updated here, underlie and indeed make possible the Project’s superior architecture and design, which alone justify the Zoning Relief. Other Project Public Benefits (e.g., the uses of special value) justify the Ground-Floor Flexibility. Finally, the Project Public Benefits, particularly the provision of so much housing and affordable housing at levels far below and to a much greater extent than required in the Waterfront Station PUD more than adequately account for any potential adverse effects of the Project;
 - (c) Any Potential Adverse Effects of the Project are Appropriately Mitigated or Outweighed by the Public Benefits. The Project’s potential adverse impacts are listed above. (*See* FF 95-105.) As this Commission found in response to each individual articulated concern or objection to the Project, these potential adverse effects are either capable of being mitigated or appropriate in light of the Public Benefits; and
 - (d) The Public Benefits Together Outweigh the Project’s Potential Adverse Effects and Justify the Development Incentives. The Commission returns to a familiar point in its review of the record in this proceeding: the Project adds much needed housing, including significant amounts of affordable housing and family-sized housing and provides numerous additional Public Benefits. The Project’s modest

potential adverse effects—traffic, shadow, and construction period impacts, along with the highly attenuated impacts to Amidon-Bowen resulting from the inclusion of AppleTree—are all more than justified by the Project’s provision of such a significant amount of affordable housing, the outdoor Play Area and other Public Benefits. These items are the crux of the Project’s trade-off for the reasonable Development Incentives sought through the Application and more than compensate for any possible adverse effects of the Project.

128. The Commission finds that the Applicant has responded fully and satisfactorily to each material contested issue raised in this proceeding.²⁵ The Commission has reviewed the record, identified the circumstances of the Application, the Property, the Project and the surrounding area, and balanced, reconciled, and judged the Public Benefits against the Development Incentives and potential adverse effects. In sum, the Commission finds that the Project satisfies the PUD Balancing Test.

CONCLUSIONS OF LAW

Procedural and Jurisdictional Conclusions

1. A PUD application must adhere to certain procedural requirements. (11-X DCMR § 307.1; 11-Z DCMR §§ 205, 300, 400-08, 600-06, 700-707.) The Commission must hear any PUD in accordance with the contested case procedures its Rules of Practice and Procedure. (11-X DCMR § 300.3.) The Commission has found and hereby concludes: (i) the Application satisfies the PUD application requirements, and (ii) the Applicant, the Office of Zoning, OP, and this Commission have satisfied the applicable procedural requirements, including the applicable notice requirements of the Zoning Regulations. (FF 1-19.)
2. The minimum area included within a proposed PUD must be no less than 15,000 square feet and all such area must be contiguous. (11-X DCMR § 301.) The Application satisfies these minimum area and contiguity requirements. (FF 20, 87.)
3. The Application is subject to compliance with the D.C. Human Rights Act of 1977, as amended, D.C. Official Code § 2-1401.01 et seq. (the “Act”). The Conditions of this Order require that the Project and the Applicant comply with the Act.

Evidentiary Standards

4. The Applicant has the burden of proof to justify the granting of the Application according to the PUD and map amendment standards enumerated above. (11-X DCMR §§ 304.2, 500.2.) The Commission’s findings in relation to a PUD must be supported by substantial

Zoning Comm’n*, 411 A.2d 635, 638 (D.C. 1980) (“[A]n issue is not necessarily “material” simply because evidence was presented on the point at the hearing.”). The Court of Appeals has articulated the standard by which a contested issue in a PUD becomes “material”: a material contested issue is one that the Commission must consider as part of its decision-making process. (See *Daro Realty v. D.C. Bd. of Zoning Adjustment*, 581 A.2d 295, 303 (D.C. 1990).)

evidence. (*See Howell v. District of Columbia Zoning Comm'n.*, 97 A.3d 579 (D.C. 2014).) Substantial evidence is defined as “such relevant evidence as a reasonable mind might accept as adequate to support” the conclusions contained herein. (*D.C. Library Renaissance Project v. District of Columbia Zoning Comm'n.*, 73 A.3d 107, 125 (D.C. 2013).) The Applicant’s filings, testimony, and expert witness presentations are credible and thorough and reasonably adequate to support the Commission’s analysis and conclusions contained herein. (FF 126.) Accordingly, the Applicant has provided substantial evidence to demonstrate that the Project satisfies the relevant PUD evaluation standards and has carried its burden of proof sufficiently to allow the Commission to approve the Application.

5. The Commission is required under § 13(d) of the Advisory Neighborhood Commissions Act of 1975, effective March 26, 1976 (D.C. Law 1-21; D.C. Official Code § 1-309.10(d)) to give great weight to issues and concerns raised in the affected ANC’s written report. Great weight requires the acknowledgement of the ANC as the source of the recommendations and explicit reference to each of the ANC’s concerns. The written rationale for the decision must articulate with precision why the ANC does or does not offer persuasive evidence under the circumstances. In doing so, the Commission must articulate specific findings and conclusions with respect to each issue and concern raised by the ANC. (D.C. Official Code § 1-309.10(d)(3)(A) and (B).)

ANC 6D’s written report listed the following issues and concerns, which are listed below. Following each one is the Commission’s response:(Ex. 32.)

- (a) Affordable Housing: The ANC stated it was pleased that the Applicant was going beyond its obligations required by the first stage PUD by providing deeper levels of affordability and duration, but that it would appreciate if the Applicant would “give some thought” to making a portion of the affordable units larger than two bedrooms.

At the hearing, the Commission was persuaded by this concern and requested that the Applicant consider making a portion of the affordable units larger than two bedrooms, and report back to the Commission after it made this consideration. The Applicant did this and reported in its March 11, 2019 post-hearing submission that it was not possible to include three-bedroom units in the Project without reducing the overall number of units in the Project. The Applicant stated that it was required to provide a certain number of units by agreement with DMPED and by legislation authorizing disposition of the Property to the Applicant. The Applicant stated that as a result it would not provide three or more bedrooms in the Project. The Commission is satisfied that the Applicant considered this issue as suggested by ANC 6D in its report;

- (b) Architecture and Materials: The ANC stated that it was pleased with the design, particularly the balconies, but expressed that it “hopes the balcony units will be made available, in proper percentages, as part of that number that will be set aside for affordable housing.”

The Commission was persuaded by this concern, and at the hearing requested that the Applicant reconsider the location of the affordable units. The Applicant did this and submitted revised drawings with its March 11, 2019 post-hearing submission re-allocating the location of the affordable units. The Commission is satisfied with the revised locations of the affordable units, and that a proper percentage of the affordable units have balconies;

- (c) Parking and Loading: The ANC stated that “parking and loading is going to be tight at this site” and requested more information about the usage and design of the Private Drive, clarification regarding the hours of operation of the Play Area and the hours that it would be open to public use, and that it would “appreciate a broader discussion from the Commission and DDOT representatives to ensure what is planned will be adequate.”

The Commission found this advice persuasive. At the hearing, there was a robust discussion of the parking and loading for the Project, including the usage and design of the Private Drive, and the proposed AppleTree use. The Commission believes this discussion satisfied the concern expressed in the ANC’s report. With respect to the hours of operation of the Play Area, the Applicant clarified the hours of usage in its March 11, 2019 post-hearing submission to the satisfaction of the Commission;

- (d) Landscaping and Streetscaping: The ANC stated that it wanted more information about the design of the Private Drive so that the paving and design will provide a space and surface that will safely accommodate pick up and drop off of pre-school children.

The Commission found this advice persuasive. At the hearing, there was a discussion of the design of the Private Drive by the Project’s landscape architect that addressed this issue. The Commission is satisfied that it addressed the ANC’s concern;

- (e) Bicycles: The ANC stated that it was pleased there was considerable secured bike parking in the Project. The ANC stated that it wished to be involved in discussions regarding the location of the planned Capital Bikeshare station near the Project, including information about demand levels.

The Commission found this advice persuasive. In its post-hearing submission dated March 11, 2019, the Applicant shared the information it had regarding demand levels. The Commission is satisfied that it addressed that portion of the ANC’s concern. The Commission notes the degree of cooperation between the Applicant and the ANC noted in the ANC’s report and testimony and is satisfied that the Applicant will continue to collaborate with the ANC regarding locations for the planned BikeShare station;

- (f) Retail: The ANC expressed support of the Project's retail plans, and that a specific condition is included in this Order related to what is described in the conditions of this Order as the Preferred Restaurant Use.

The Commission does not consider the advice persuasive regarding the ANC's suggested condition language related to the Preferred Restaurant Use because the ANC's language differs from what the Applicant has proffered as a public benefit of the Project. This Order does include a condition that is similar in some respects to the preferred condition language included in the ANC report. The Commission believes the condition in this Order is sufficient to ensure that the Applicant complies with its proffer of a neighborhood serving diner type restaurant with the qualities described in FF 110(g);

- (g) Impact on the Library: The ANC expressed concern that the planned charter school would use the library as an extension of its campus and unduly burden the library staff and resources.

The Commission considered this advice persuasive and asked the Applicant to address this issue at the hearing, and its post-hearing submission. The Commission is satisfied by the response provided in the Applicant's post-hearing submission dated March 11, 2019 that AppleTree does not now and has no future plans to take students to the Public Library; and

- (h) Impact of the Charter School: The ANC expressed concern about a lack of transparency and coordination between the Applicant, AppleTree, the Amidon-Bowen PTA and the ANC, potential adverse impacts of the charter on Amidon-Bowen, and encouraged the Applicant to develop a community benefits agreement with the Amidon-Bowen PTA.

The Commission considered this advice persuasive and asked the Applicant to meet with the Amidon-Bowen PTA to attempt to address these issues and concerns. The Applicant provided a response that addressed the issues of transparency and coordination to the Commission's satisfaction with its post-hearing submission dated March 11, 2019. The Applicant developed a community benefits agreement with the Amidon-Bowen PTA. After reaching that agreement the PTA submitted a letter stating that it no longer opposed the Project.

6. The Commission is also required to give great weight to the written reports of OP. (D.C. Code § 6-623.04; 11-Z DCMR § 405.8.) The Commission has reviewed the OP Setdown Report and OP Hearing Report, and OP Final Report and heard testimony from OP and finds that OP supports the Application. (FF 52-54.) The Commission gives great weight to OP's recommendation to approve the Application and concurs with OP's conclusions and findings, particularly those with respect to the Project's consistency with the Comprehensive Plan and Small Area Plan. Because the Commission agrees with the OP's

reports and OP's overall conclusions, the Commission concludes it has properly granted OP's reports the great weight that they are due.

Consistency with the PUD Process, Zoning Regulations, and Plan

7. Pursuant to ZR16, the purpose of the PUD process is "to provide for higher quality development through flexibility in building controls, including building height and density, provided that a PUD: (i) Results in a project superior to what would result from the matter-of-right standards; (ii) Offers a commendable number or quality of meaningful public benefits; and (iii) Protects and advances the public health, safety, welfare, and convenience, and is not inconsistent with the Comprehensive Plan." (11-X DCMR § 300.1.) This Commission concludes that the approval of the Application is an appropriate result of the PUD process. The Project is a high-quality development that is superior to what could be constructed on the Property as a matter of right via the underlying zoning. (*See* FF 86(a).) The Commission has found that the Public Benefits are meaningful and are commendable both in number and quality. (*Id.* 86(b), 111-114.) Finally, the Commission has found that the Project does not injure but instead advances the public health, safety, welfare, or convenience and is not inconsistent with the Comprehensive Plan. (*Id.* 86(c), 90-94.)
8. The PUD process is intended to "provid[e] for greater flexibility in planning and design than may be possible under conventional zoning procedures, [but] the PUD process shall not be used to circumvent the intent and purposes of the Zoning Regulations, or to result in action that is inconsistent with the Comprehensive Plan." (11-X DCMR § 300.2.) The Commission has found that the Project generally conforms to the requirements of the Zoning Regulations except for the few areas of articulated Zoning Relief, which are nonetheless consistent with the intent and purposes of the Zoning Regulations. (FF 86, 127.) The Project is not inconsistent with the Comprehensive Plan. (*Id.* 90-94.) Therefore, this Commission concludes that Project does not circumvent the Zoning Regulations and is not inconsistent with the Plan.

Evaluation Standards

9. The Commission must evaluate the Map Amendment request and approve it only if it is not inconsistent with the Plan. (11-X DCMR §§ 500.1, 500.3.) The Commission made extensive findings in the Waterfront Station PUD that the Map Amendment is not inconsistent with the Plan. (FF 49-51.) This conclusion is consistent with the conclusion in the previously-approved Waterfront Station PUD. Accordingly, the Map Amendment has previously satisfied the relevant standard for approval and is not a contested issue in the Application.
10. The Commission must grant approval to any second-stage PUD application that it finds in accordance with the intent and purpose of the Zoning Regulations, the PUD process, and the first-stage approval, provided such approval may be subject to conditions. (11-X DCMR § 309.2.) The Commission concludes that the Application is in accordance with the Zoning Purposes, the PUD process, and the Waterfront Station PUD for the reasons

stated in FF 47-48, 51, 86, and 115-116. Accordingly, the Commission concludes that it must approve the Application subject to the Conditions of this Order. The Commission concludes it could approve this Application on this basis alone.

11. However, out of an abundance of caution, the Commission has reviewed and analyzed the Application to determine compliance with all of its Planned Unit Development Evaluation Standards. They require the Commission to evaluate whether the Application: “(a) is not inconsistent with the Comprehensive Plan and with other adopted public policies and active programs related to the subject site; (b) does not result in unacceptable project impacts on the surrounding area or on the operation of city services and facilities but instead shall be found to be either favorable, capable of being mitigated, or acceptable given the quality of public benefits in the project; and (c) includes specific public benefits and project amenities of the proposed development that are not inconsistent with the Comprehensive Plan or with other adopted public policies and active programs related to the subject site.” (11-X DCMR § 304.4.) In deciding on the Application, this Commission must “judge, balance, and reconcile the relative value of the public benefits project and amenities offered, the degree of development incentives requested, and any potential adverse effects according to the specific circumstances of the case.” (Id. § 304.3.) The Map Amendment is a development incentive against which the Commission previously weighed the benefits of the Waterfront Station PUD. (Ex. 2F.)
12. The Commission concludes the Project is not inconsistent with Comprehensive Plan and with other adopted public policies and active programs related to the subject site, for the reasons stated in FF 90-94. The Commission also notes its earlier findings regarding the Waterfront Station PUD’s consistency with the Comprehensive Plan, and sees no reason to disturb those findings now. The Commission therefore concludes that the Application complies with 11-X DCMR § 304.4(a).
13. The Commission analyzed the Project’s impacts, and concludes that the Project does not have any unacceptable impacts for the reasons stated in FF 95-105. The Commission further analyzed whether it found the specific impacts of the Project to be favorable, capable of being mitigated, or acceptable given the quality of the public benefits of the Project in FF 95-105. In several instances the Commission did not identify whether it found the impact to be favorable, capable of being mitigated, or acceptable given the quality of the public benefits of the project. This is because those impacts are highly speculative and difficult to quantify. In those instances in which the Commission did not articulate whether an impact is favorable, or identify a mitigation in those findings, the Commission concludes that the impact is acceptable given the quality of the public benefits of the Project. The Commission therefore concludes that the Application complies with 11-X DCMR § 304.4(b).
14. The Commission analyzed the specific public benefits and project amenities of the Project. The Commission concludes that the Project includes the Public Benefits listed in FF 109-110, all of which satisfy the Public Benefits Criteria and none of which are inconsistent with the Plan for the reasons discussed in FF 111-113. ZR16 defines public benefits as “superior features of a proposed PUD that benefit the surrounding

neighborhood or the public in general to a significantly greater extent than would likely result from development of the site under the matter-of-right provisions of this title.” (11-X DCMR § 305.2.) Such public benefits must satisfy the Public Benefit Criteria: (i) benefits must be tangible and quantifiable items; (ii) benefits must be measurable and able to be completed or arranged prior to issuance of a certificate of occupancy; (iii) benefits must primarily benefit the geographic boundaries of the ANC; and (iv) monetary contributions shall be permitted only if made to a District of Columbia government program or if the applicant agrees that no certificate of occupancy for the PUD may be issued unless the applicant provides proof to the Zoning Administrator that the items or services funded have been or are being provided. (Id. §§ 305.3, 305.4.) Based on this Commission’s findings regarding the Public Benefits as well as the Conditions of this Order, the Commission concludes that the Public Benefits benefit the surrounding neighborhood or the District as a whole to a significantly greater extent than would a matter-of-right development and readily satisfy the Public Benefit Criteria. The Commission therefore concludes that the Application complies with 11-X DCMR § 304.4(c).

15. The Commission has judged, balanced, and reconciled the relative value of the public benefits project and amenities offered, the degree of development incentives requested, and any potential adverse effects according to the specific circumstances of the case, and concludes the Application warrants approval. The Commission therefore concludes the Application complies with 11-X DCMR § 304.3.
16. This Commission must undertake a “comprehensive public review” of the PUD application “in order to evaluate the flexibility or incentives requested in proportion to the proposed public benefits.” (11-X DCMR § 300.5.) The Commission’s review of the Application has been comprehensive. The Commission has reviewed the entire record and has identified and examined the concerns and statements about the Project raised by the ANC, District agencies, and Project supporters and opponents. The Commission has appropriately considered the substantial evidence presented by the Applicant. The Commission grants appropriate weight to the reports and testimony of the various reviewing District agencies and the ANC. There are no items in the record that the Commission has excluded from its consideration notwithstanding in some instances this Order does not contain precise citation to such items. This Commission heard the Application at the Public Hearing and followed the contested case procedures of the Zoning Regulations. The Commission has concluded that the proposed public benefits of the Project are sufficient to justify the flexibility and incentives. The Commission therefore concludes that it has complied with 11-X DCMR § 300.5.

DECISION

In consideration of the above Findings of Fact and Conclusions of Law contained in this Order, the Zoning Commission for the District of Columbia **ORDERS APPROVAL** of the second-stage PUD Application subject to the guidelines, conditions, and standards set forth below:

A. **Project Development**

1. The Project shall be constructed in accordance with the plans prepared by Torti Gallas Urban, dated January 11, 2019 and included in the record at Ex. 22G1-22G6, as updated by the plans dated January 31, 2019 and included in the record as Ex. 34A and by the plans dated March 11, 2019 and included in the record as Ex. 47H1-47H2 (collectively, the “Final Plans”), modified by the guidelines, conditions, and standards herein.
2. The Property shall be subject to the requirements of the C-3-C Zone District except as set forth herein or modified hereby as shown on the Final Plans. The Project shall be constructed to a maximum height of 114 feet and as measured from the measuring point on M Street as shown on the Final Plans. The Project shall have flexibility from the rear yard and side yard requirements of the Zoning Regulations as set forth in the Final Plans. The Applicant shall have the design flexibility as follows:
 - (a) To vary the location and design of all interior components, including partitions, structural slabs, doors, hallways, columns, stairways, mechanical rooms, and toilet rooms, provided that the variations do not change the exterior configuration or appearance of the structure;
 - (b) To vary the colors of the exterior materials based on availability at the time of construction, provided such colors are within the color ranges proposed in the Final Plans;
 - (c) To make minor refinements to the locations and dimensions of exterior details that do not substantially alter the exterior design shown on the Final Plans. Examples of exterior details would include, but are not limited to, doorways, canopies, railings, and skylights;
 - (d) To vary the final number of residential units by plus or minus 10%, and accordingly adjust the type and location of affordable units to reflect the final unit mix of the Project, provided that the Applicant shall provide the affordable housing set forth in Condition B.4 of this Order and shall not modify the size and bedroom counts of the affordable units as shown in Ex. 47H1 unless the flexibility results in larger affordable units or units with more bedrooms, and provided further that the affordable units shall continue to be distributed evenly throughout the building including on all floors of the building other than the penthouse level and in roughly the proportion between the north and south sides of the building as shown in Ex. 47H1;
 - (e) To make refinements to the approved parking configuration, including layout and number of parking spaces between a range of 205 to 233

parking spaces, so long as the number of parking spaces is at least the minimum number of spaces required by the Zoning Regulations;

- (f) To vary the location, attributes, and general design of the approved streetscape to comply with the requirements of, and the approval by, the DDOT Public Space Division;
- (g) To vary the final streetscaping and landscaping materials on private property within the Project based on availability and suitability at the time of construction or otherwise in order to satisfy any permitting requirements of DC Water, DDOT, DOEE, DCRA, or other applicable regulatory bodies;
- (h) To vary the amount, location and type of green roof, solar panels, and paver areas to meet stormwater requirements and sustainability goals or otherwise satisfy permitting requirements, so long as the Project achieves a minimum GAR of 0.2 and installs solar panels on a minimum of 3,000 square feet of roof area;
- (i) To vary the final design and layout of the mechanical penthouse to accommodate changes to comply with Construction Codes or address the structural, mechanical, or operational needs of the building uses or systems, so long as such changes do not substantially alter the exterior dimensions shown on the Plans and remain compliant with all applicable penthouse setback requirements;
- (j) To vary the final design and layout of the indoor and outdoor residential amenity spaces to reflect their final design and programming;
- (k) To vary the location, layout, and type of play equipment within the Play Area;
- (l) To vary the location of the residential lobby entrance on 4th Street, S.W. and/or relocate the lobby entrance to the Project's frontage on the Private Drive to accommodate the final retail demising plan;
- (m) To vary the size and location of the theater/cultural use entrance to accommodate the final plans for the theater use, provided that the entrance will remain on the Private Drive; and
- (n) To vary the final design of the ground floor-frontage, including the number, size, design, and location of windows and entrances, signage, awnings, canopies, and similar storefront design features, to accommodate the needs of the specific tenants within the parameters set forth in the Storefront and Signage Plans.

B. Public Benefits

1. **Retail Use: For the life of the Project**, the Applicant will reserve 11,000 square feet of the Project's ground floor for uses in the neighborhood-serving retail, general service, financial service, or eating/drinking establishment use categories set forth in Subtitle B of the Zoning Regulations, in accordance with the requirements of Conditions 13 and 14 of Z.C. Order No. 02-38A and to the extent required pursuant to the LURA with respect to the Property:
 - (a) **For a minimum of two years after the date of issuance of the first certificate of occupancy for the Project**, the Applicant will reserve a minimum of 1,200 square feet of the Project's ground floor for a restaurant use serving three meals a day with typical hours of operation beginning not later than 7:00 a.m. ("Preferred Restaurant Use"), or other use as approved by ANC 6D. The Applicant will ensure that the Project is designed to accommodate kitchen equipment functions for the Preferred Restaurant Use (e.g. exhaust systems and grease traps). After the expiration of this period, the Preferred Restaurant Use may be used for any other use in the retail, service, financial service, or eating/drinking establishment use categories set forth in Subtitle B of the Zoning Regulations; and
 - (b) **Following the issuance of a building permit for the Project and until two years after the date of issuance of the first certificate of occupancy for the Project**, the Applicant will provide ANC 6D representatives with quarterly updates on retail marketing and leasing efforts for Preferred Restaurant Use as well as other retail space.
2. **Theater/Cultural Use: For a minimum of five years after the date of issuance of the first certificate of occupancy for the Project**, the Applicant will reserve a minimum of 9,000 square feet of the Project's ground floor for a theater or similar performing arts venue. After the expiration of this period and for the life of the Project, the space will be reserved for any use in the entertainment/assembly/performing arts, arts/design/creation, or arts-related educational use categories set forth in Subtitle B of the Zoning Regulations.

Prior to the issuance of a building permit for the Project, the Applicant will issue solicitations for a potential theater operator through a "request for proposals" or similar process. The Applicant will request that respondents address neighborhood engagement and inclusivity in their respondents and include them as evaluation criteria within such request for proposals. The Applicant will provide ANC 6D representatives with an opportunity to review and advise on proposals that are received.
3. **Retail/Educational Use: For the life of the Project**, the Applicant will reserve 9,000 square feet of the Project's ground floor for neighborhood-serving uses in

the retail, general service, financial service, eating/drinking establishment, education, or daytime care use categories set forth in Subtitle B of the Zoning Regulations. The maximum number of students attending school daily at any educational use shall not exceed 132.

4. **Housing and Affordable Housing**

(a) **For the duration of the Ground Lease**, the Project shall provide affordable housing pursuant to the terms of the LDDA and as set forth in the following chart:

Residential Unit Type	Gross Residential Square Feet (Percent of Total)	Units	MFI	Affordability Control Period	Tenure
Total	366,842 sf + 23,469 sf ²⁶ 390,311 sf (100%)	450		Varies	Rental
Market Rate	273,217 sf (70%)	314	N/A	N/A	Rental
YEARS 1 – 50					
Affordable Units	58,547 sf (15%)	68	30% MFI	Years 1-50	Rental
Affordable Units	58,547 sf (15%)	68	50% MFI	Years 1-50	Rental
YEARS 51-99					
Affordable Units	29,000 sf (7.5%)	34	30% MFI	Years 51-99	Rental
Affordable Units	88,000 sf (22.5%)	102	50% MFI	Years 51-99	Rental

(b) **In addition to the affordable housing required by B.4.(a) following the expiration of the Ground Lease and for the remainder of the life of the Project**, the Applicant shall set aside for households earning up to 50% MFI a portion of the building’s residential area equal to at least eight percent of the penthouse habitable space, not including penthouse habitable space devoted exclusively to communal rooftop recreation or amenity space for the primary use of the residents of the residential building. This provision assumes that the Zoning Administrator will grant the Applicant an exemption from the Inclusionary Zoning regulations (“IZ Regulations”) set forth in Subtitle C, Chapter 10 of the Zoning Regulations pursuant to 11-C DCMR § 1001.6 (“IZ Exemption”). However, the Commission takes no position as to whether the exemption should be granted. Should the Zoning Administrator deny the IZ Exemption, the Applicant shall provide the affordable housing in accordance with Condition B.4.(a) and comply with the requirement of 11-C DCMR § 1500.11, unless the IZ Regulations impose more restrictive standards;

²⁶ This square footage is not GFA but is instead attributable to habitable penthouse space.

- (c) Each control period shall commence upon the issuance of the first certificate of occupancy; and
- (d) **Prior to the issuance of a certificate of occupancy**, the Applicant shall record the monitoring and enforcement documents required by 11-X DCMR § 311.6, which shall require compliance with this Condition. (For the avoidance of doubt, the Affordable Housing Covenant required pursuant to the LDDA shall satisfy this requirement.) If the IZ Exemption is denied by the Zoning Administrator, the Applicant shall also record the covenant required by the Inclusionary Zoning Act.
5. **Prior to the issuance of a building permit for the Project**, the Applicant shall submit to the Zoning Administrator a copy of the executed First Source Agreement and Certified Business Enterprise agreement for the Project.
6. **Prior to the issuance of a certificate of occupancy for the Project**, the Applicant shall provide the Zoning Administrator with evidence that the Project has or will achieve the requisite number of prerequisites and points necessary to secure Gold certification or higher from the U.S. Green Building Council under the LEED-2009 rating system.
7. **Prior to the issuance of the first certificate of occupancy for the Project**, the Applicant shall provide the Zoning Administrator with information showing that solar panel systems installed on the Project occupy no less than 3,000 square feet of roof area.
8. **For the life of the Project**, the Applicant shall provide and maintain a children's play area of no less than 3,000 square feet which shall be open to general public use during daylight hours except during the hours of use by any educational/daytime care use in the Project and/or at other designated times, provided, however, that if there is an educational or daytime care use in the Project such play area shall be open to public use by not later than 5:00 p.m. daily, and if there is no educational/daytime care use in the Project such play area shall be open to general public use during all daylight hours and/or at other designated times (e.g., to allow cleaning, maintenance, repairs, and the like).
9. **Prior to the issuance of a certificate of occupancy for the Project**, the Applicant shall submit evidence to the Zoning Administrator that it has engaged a lighting consultant to incorporate sufficient lighting to discourage loitering after dark and developed a protocol for the placement and monitoring of security cameras in consultation with MPD officers.
10. **During the construction of the Project**, the Applicant shall abide by the terms of the CMP. (Ex. 22E.)
11. **During the construction of the Project**, the Applicant shall assist the Southwest Library with wayfinding through signage or other means.

12. Contribution to Amidon-Bowen Elementary School PTA:
- (a) **Not more than 90 days after the issuance of this Order with no appeal having been taken (or in the event of an appeal of this Order, no more than 90 days following the issuance of a mandate fully and finally affirming this Order)**, the Applicant shall deliver to Amidon-Bowen Elementary School either (i) \$75,000-worth of laptop computers and corresponding number of compatible laptop computer storage carts, or (ii) such other combination of up to \$75,000-worth of information technology equipment and/or audio-visual equipment as may be agreed upon by the Applicant, the Amidon-Bowen Elementary School PTA, and DCPS representatives; and
 - (b) In satisfaction of this condition, the Applicant shall, **prior to the issuance of a Certificate of Occupancy**, submit to DCRA invoices evidencing proof of purchase of \$75,000 of such computers, carts, and/or other equipment together with evidence that all such computers, carts, and/or other equipment have been delivered to Amidon-Bowen Elementary School PTA

C. **Transportation Mitigation**

School Pick-up/Drop-Off Measures:

1. **For as long as an educational or day care (i.e., a “School”) use exists in the Project**, the Applicant shall implement the following transportation mitigation measures with respect to the School use:
- (a) Pick-up/drop-off operations may either occur along the Private Drive, or within the parking garage, or a combination of both, depending on the ultimate needs of the School;
 - (b) During the morning drop-off period and afternoon pick-up period, vehicles dropping off students may use the Private Drive only when staffed by a School employee(s), and at all other times, any caregiver dropping off a student must park in one of the designated parking spaces in the Project’s garage and walk the student(s) into the School unless special arrangements are made in advance with the School;
 - (c) A School staff member or designee shall monitor the queue along the Private Drive during pick-up and drop-off periods, and if such queues extend past the point in which a vehicle can comfortably pass standing vehicles, such School staff member shall direct vehicles dropping off students to continue to the Project’s garage;
 - (d) To accommodate caregivers parking in the garage for pick-up/drop-off activity, a minimum of 10 spaces in the garage shall be designated for

School-related users, shall be signed as such, and shall be available without charge for up to 30 minutes per user;

- (e) School officials shall inform caregivers that parking for pick-up/drop-off activity is to occur within the garage and not within on-street parking spaces surrounding the school on 4th Street, S.W., Wesley Place, S.W., or K Street, S.W.;
- (f) School officials, and the property manager as necessary, shall monitor pick-up/drop-off operations during the first year of operation and thereafter make adjustments as necessary; and
- (g) The foregoing requirements and all other applicable transportation-related conditions contained herein shall be incorporated into any School operator's lease with the Applicant, and the Applicant shall reserve its rights under the lease to enforce the operator's compliance with such conditions.

Safe Routes to School Measures

- 2. **Prior to the issuance of a certificate of occupancy for a School use in the Project**, the Applicant shall submit evidence to the Zoning Administrator that the Applicant and School officials have met with DDOT Safe Routes to School staff to prepare a safe routes plan for the School.

Private Drive Management Measures

- 3. **For the life of the Project**, the Applicant shall implement the following measures with respect to the Private Drive:
 - (a) Pick-up and drop-off activities in the Private Drive shall be limited to only that portion of the Drive that is sufficiently wide to allow through traffic to pass standing vehicles;
 - (b) The Applicant shall not permit residential or commercial pick-up/drop-off activities to occur along any of 4th Street, S.W., Wesley Place, S.W. or K Street, S.W.;
 - (c) "No Parking" signage shall be installed and maintained along the Private Drive to direct vehicles not to park along the Private Drive in accordance with the Final Plans; and
 - (d) The Private Drive may from time to time be closed to vehicular traffic for special events but only during times that do not coincide with School pick-up/drop-off activity.

4. **For the life of the Project**, the Private Drive shall be open to vehicular and pedestrian through traffic but may be closed to public vehicular and/or pedestrian through traffic for events and programming.

Loading Management Measures

5. **For the life of the Project**, the Applicant shall implement the following measures with respect to the Project's loading:
 - (a) The Project's property manager shall designate a loading facility manager ("Loading Manager") and shall deliver the contact information (including the cell phone number and e-mail address) for such Loading Manager to the property manager for the adjacent office building at 1100 4th Street, S.W. The Loading Manager shall communicate regularly and work cooperatively with the property and loading managers of that adjacent building to avoid conflicts in the private alley and to comply with all written agreements between the property owners;
 - (b) The Loading Manager shall schedule deliveries so as to not exceed the Project's loading facility capacity, and in the event that an unscheduled delivery vehicle arrives while the Project's loading facility is full, the Loading Manager shall direct the driver of such vehicle to return at a later time when the loading facility has adequate capacity;
 - (c) The Project's property manager shall provide all tenants of the Project with information regarding loading dock restrictions, rules, and suggested truck routes;
 - (d) The Project's property manager shall require all tenants (i.e., residential and non-residential) to use trucks 30 feet or shorter in length, and in the event that a tenant requires the use of a truck that is longer than 30 feet in length, the truck will be directed to load/unload within the east-west Private Drive and not within public space;
 - (e) The Project's property manager shall require all residential tenants to schedule move ins/move outs in advance of the occurrence of same;
 - (f) The Project's property manager shall instruct all short-term deliveries (e.g., UPS, FedEx, USPS, etc.) to be made from within the Project's loading docks in accordance with the conditions herein and not from any of the Private Drive, 4th Street, S.W., K Street, S.W., Wesley Place, S.W., or the private extension of Wesley Place, S.W.;
 - (g) The Applicant shall coordinate with the property management of other buildings within the overarching Waterfront Station development to instruct deliveries be made within the provided loading docks;

- (h) The Loading Manager shall not permit tenants or delivery trucks serving the Project to (i) permit any vehicle accessing the loading area to park, stand, load, or unload in the restricted "Access Area" in the private extension of Wesley Place, S.W., (ii) store or otherwise permit any trash, refuse, rubbish, debris, structure, or equipment within the Access Area, (iii) cause or permit any use of the Access Area that would otherwise conflict with loading dock operations for the Safeway or other tenants of the adjacent office building, or (iv) use or permit to be used the Access Area in a manner that interferes with or disturbs use and enjoyment of the Access Area by the grocery store tenant or other tenants of the adjacent office building;
- (i) The Loading Manager shall not permit trucks using the loading facility to idle and shall require such trucks to follow all District guidelines for heavy vehicle operation including but not limited to 20 DCMR § 900 (Engine Idling), the requirements set forth in DDOT's "Freight Management and Commercial Vehicle Operations" document, and the primary access routes listed in DDOT's "Truck and Bus Route System" as applicable from time to time; and
- (j) The Loading Manager shall disseminate to drivers from delivery services that frequently utilize the loading facility (i) suggested truck routing maps, and (ii) other applicable materials such as DDOT's "Freight Management and Commercial Vehicle Operations" document, as needed to encourage compliance with idling laws.

Parking Management Measures

- 6. **For the life of the Project**, the Applicant shall implement the following with respect to the Project's parking:
 - (a) A minimum of 35 spaces in the Project's garage shall be reserved for non-residential uses; and
 - (b) Such non-residential parking spaces shall be made available for educational and/or daytime care uses in the Project for short-term parking at no cost to encourage non-residential pick-up/drop-off activity to take place within the Project's garage rather than on public streets or within the Private Drive.
- 7. **For the life of the Project**, the Applicant shall install and maintain electric vehicle charging stations within the garage that can accommodate a minimum of six vehicles at any given time.

Transportation Demand Management (“TDM”) Measures

8. **Prior to the issuance of a certificate of occupancy for the Project**, the Applicant shall demonstrate to the Zoning Administrator that it has paid for the cost of installation and one year of operating costs for a 19-dock Capital Bikeshare station in the vicinity of the Property at a location to be selected by DDOT.
9. **For the life of the Project**, the Applicant shall implement the following with respect to the Project’s transportation demand:
 - (a) The Applicant shall identify a “TDM Leader” (for planning, construction, and operations), who shall distribute and market to the residents and tenants of the building various transportation alternatives and options in existence from time to time, which materials shall include TDM materials to new residents and tenants in a welcome package;
 - (b) The Applicant shall provide the TDM Leader’s contact information to DDOT and report TDM efforts and amenities to goDCgo staff once per year;
 - (c) The TDM Leader shall receive TDM training from goDCgo to learn about the TDM conditions for this Project and nearby available options;
 - (d) The Applicant shall post all TDM commitments online, publicize the availability of the same, and allow the public to see what commitments have been promised;
 - (e) The Applicant shall provide website links to CommuterConnections.com and goDCgo.com on Project-related websites;
 - (f) The Applicant shall unbundle the fee it charges for parking from the base rent under a lease or the purchase price of a residential unit and shall set the minimum parking fee at the average market rate, where the market rate is determined by the average price in garages within 0.25 miles of the Project;
 - (g) The Applicant shall install a “Transportation Information Center Display” on an electronic screen within the residential lobby, which Display shall contain information related to local transportation alternatives;
 - (h) The Applicant shall meet or exceed the Zoning Regulations’ requirements for bicycle parking, including the requirement to provide secure interior bicycle parking and short-term exterior bicycle parking around the perimeter of the Property, and long-term bicycle storage rooms will accommodate non-traditional sized bikes including cargo, tandem, and kids’ bikes;

On April 8, 2019, upon motion by Vice Chair Miller, as seconded by Commissioner Turnbull, the Zoning Commission took **FINAL ACTION** to **APPROVE** the Application at its public meeting by a vote of **5-0-0** (Anthony J. Hood, Peter G. May, Robert E. Miller, Peter A. Shapiro, and Michael G. Turnbull to approve).

In accordance with the provisions of 11-Z DCMR § 604.9, this Order shall become final and effective upon publication in the *D.C. Register* on August 16, 2019.

BY THE ORDER OF THE D.C. ZONING COMMISSION

A majority of the Commission members approved the issuance of this Order.

ZONING COMMISSION OF THE DISTRICT OF COLUMBIA
Z.C. ORDER NO. 19-09
Z.C. Case No. 19-09
Kenilworth Avenue North, LLC
(Voluntary Design Review @ Square 5113, Lot 806 and Parcel 185/38)
July 29, 2019

Pursuant to notice, the Zoning Commission of the District of Columbia (the “Commission”) held a public hearing on June 20, 2019 to consider the application of Kenilworth Avenue North, LLC (the “Applicant”) for Voluntary Design Review approval to construct a new assisted living facility on the property located at Square 5113, Lot 806 and Parcel 185/38 (the “Property”) in the RA-1 zone (“Application”). The Applicant requested Voluntary Design Review pursuant to Subtitle X § 601.2 of Title 11 of the District of Columbia Municipal Regulations (“DCMR”) (the “Zoning Regulations,” to which all references are made unless otherwise specified), including flexibility to allow a height of 60 feet and five stories pursuant to Subtitle X § 603.1. In addition, pursuant to Subtitle X § 603.3, the Applicant requested a special exception for a continuing care retirement community (“CCRC”) use in the RA-1 zone pursuant to Subtitle U § 420.1(i). The Commission considered the Application for the Project pursuant to Subtitles X and Z. For the reasons below, the Commission hereby **APPROVES** the Application.

FINDINGS OF FACT

Notice

1. Pursuant to Subtitle Z § 301.6, on March 5, 2019, the Applicant mailed a Notice of Intent to file a Voluntary Design Review application to all property owners within 200 feet of the Property and to Advisory Neighborhood Commission (“ANC”) 7D, the “affected ANC” per Subtitle Z §101.8. The Applicant also thereafter presented the project to ANC 7D. (Exhibit [“Ex.”] 2D.)
2. On April 25, 2019, the Applicant submitted the Application as contract purchaser of the Property on behalf of the owner, requesting Voluntary Design Review approval for the project. (Ex. 1-2F.)
3. Pursuant to Subtitle Z § 402, on May 2, 2019, the Office of Zoning (“OZ”) published the Notice of Public Hearing. (Ex. 5, 6.)

The Property

4. The Property contains approximately 122,866 square feet (2.82 acres) of land area. The Property is located at the intersection of Kenilworth Avenue and Eastern Avenue, near the D.C.-Maryland line. (Ex. 9A.)
5. The majority of the Property area is set back from the street, with a “pipe stem” that extends to Kenilworth Avenue. The Property is bounded by the Kenilworth Parkside Apartments and undeveloped land to the east (just beyond which is the Maryland-D.C. border),

Kenilworth Avenue to the south, and a large multifamily apartment complex to the west. Directly to the north of the Property is Anacostia Park, which is part of the Kenilworth Aquatic Gardens. (Ex. 9A.)

6. The Deanwood Metrorail Station is located approximately 0.4-mile walking distance south of the Property. (Ex. 2.)
7. The adjacent apartment complex is owned by the U.S. Department of Housing and Urban Development and the D.C. Housing Authority, and it is the site of the planned mixed-use, mixed-income Kenilworth Courts redevelopment Planned Unit Development (“PUD”) approved by the Commission in Z.C. Case No. 15-21.
8. The northern portion of the Property is located within the floodplain as depicted on the Federal Emergency Management Agency (“FEMA”) Flood Insurance Rate Map. (Ex. 2E2.)
9. The Application states that the Property is currently vacant and was previously subjected to illegal dumping, forest clearcutting, and sporadic asphalt paving under prior ownership.
10. The Property is located in the RA-1 zone. In general, the purpose of the RA-1 zone is to, among other things, “[p]ermit flexibility of design by permitting all types of urban residential development . . .” and to provide “for areas predominantly developed with low-to moderate-density development” (Subtitle F §§ 300.1(a), 300.2.)

Application

11. The Application proposes to develop the Property with an all-affordable CCRC (assisted living facility) with 155 age-restricted residential units (the “Project”). All of the units will be affordable for households earning up to 60% of the Median Family Income (“MFI”). (Ex. 2.)
12. The Application notes that upon completion, the Project will be one of only two planned affordable assisted living facilities in Wards 7 and 8. (Ex. 2.)
13. The proposed assisted living facility is expected to employ approximately 80 full-time employees, including an on-site nurse, caregivers, and staff. (Ex. 2.)
14. The Application proposes a U-shaped building which will be 60 feet (five stories) in height, 20 feet above the maximum height permitted by right. The Project will have an FAR of 0.99 and lot occupancy of 23%, below the maximum 1.08 FAR and 40% lot occupancy permitted in the RA-1 zone, and it will have a rear yard of approximately 157.8 feet, well in excess of the minimum 20 feet required. (Ex. 9A.)
15. The Application notes that the Project will utilize a variety of high-quality materials to achieve a greater degree of façade articulation for the building, incorporating stacked stone veneer, rainscreen metal panel, solid phenolic panel, and fibrous cement panel elements into the façade, as well as operable aluminum storefront windows for the

- resident units and a tall glazed curtainwall central feature along the front façade facing on the second-floor outdoor patio. (Ex. 9A.)
16. The Project will incorporate numerous environmentally sustainable design features, including rooftop solar arrays that will generate up to three percent of the building's energy annually, and vegetative roof areas. (Ex. 2, 9A, 14.)
 17. The first floor of the building will include open seating areas, offices for the facility, a general store and computer room, and service areas, in addition to kitchen and dining areas. Residential units will all be located on the second through fifth floors, which also will include nursing offices and library, kitchen and/or gym spaces, varying by floor. The second floor also will include large and small activity rooms for residents. (Ex. 2, 9A.)
 18. The Project will include substantial outdoor amenity spaces for residents. On the front of the building facing south, there will be a large outdoor terrace on the second floor as well as a covered terrace on the ground floor near the building entrance. The site plan will include a pedestrian boardwalk with seating on the west side of the site to provide residents and visitors with direct access to the restored green space at the rear of the building and the nearby Kenilworth Aquatic Gardens. (Ex. 2, 9A, 14.)
 19. In addition, the Project will include sidewalk and pedestrian pathway connections leading from Kenilworth Avenue through the site, and the proposed nature boardwalk will connect to the existing sidewalk along Anacostia Avenue to the north of the Property to provide pedestrian porosity through the site and the ability for residents to engage in outdoor activity without leaving the Property. (Ex. 2, 9A, 14.)
 20. The Project will include a comprehensive landscaping and tree planting program as part of the Applicant's restoration of the site, including planting ornamental and canopy trees along the Property's entry drive, the front of the building and along the rear of the Property. The planting program will also include an evergreen hedge along the front drive of the building, meadow plantings in the wetlands area facing the rear terrace, and perennials and shrubs closer to the building to the rear. (Ex. 9A.)
 21. The Application proposes to provide 26 covered parking spaces on the ground level below the west wing of the building, as required. It also proposes 51 long-term bicycle parking spaces and eight short-term bicycle parking spaces. The Application originally proposed surface parking in front of the building, which would have required additional special exception relief. The location of the parking was subsequently revised and the request for special exception relief was withdrawn in the Applicant's prehearing statement of May 31, 2019. (Ex. 9, 9A.)
 22. The Project will provide two vehicular access/egress points. The main access point will be from Kenilworth Avenue to the south. The secondary access/egress point will be from the planned Shaw Drive to the west, which is currently a public alley and is proposed to be converted to a private street as part of the Kenilworth Courts PUD in the future.

23. On May 21, 2019, the Applicant filed a Comprehensive Transportation Review (“CTR”) for the Project. (Ex. 8A1-8A2.) The CTR includes the Applicant’s proposed Transportation Demand Management (“TDM”) measures for the Project.
24. The Application notes that the Applicant has consulted with the District Department of Energy and Environment (“DOEE”) in preparing the design of the Project to minimize risk of adverse impact from the floodplain and on the wetlands. In addition to complying with all applicable floodplain regulations, the Project will remediate the floodplain risks by raising the grade for the finished first floor of the building to at least the 500-year floodplain event elevation. The applicable regulations require elevating to 1.5’ above the 100-year floodplain. (Ex. 2 and 9A.)
25. The Application proposes to exceed these requirements by elevating to at least the 500-year floodplain to provide greater protection to the Project’s residents. (Ex. 2, 9A, 14.) The result is a vertically oriented design that focuses the building towards the south side of the Property and away from the wetlands on the Property to the greatest extent possible in order to maximize the amount of green space on the site and minimize any impact to the existing landscape and natural environment.
26. The Applicant states that the floodplain will be altered to be removed from the development area by submission and approval of a Conditional Letter of Map Revision (CLOMR) as required by DOEE and FEMA. Upon completion of construction, a Letter of Map Revision (LOMR) will be processed to finalize the map revision on the FEMA FIRM (Flood Insurance Rate Map). (June 20, 2019 Public Hearing Transcript (“Tr.”) at 31.)

Relief Requested

27. The Application requests Voluntary Design Review approval pursuant to Subtitle X § 601.2 of the Zoning Regulations, including flexibility pursuant to Subtitle X § 603.1 to allow a height of 60 feet and five stories where a maximum of height of 40 feet and three stories is otherwise permitted. The additional 20 feet is within the limit permitted for a PUD in the RA-1 zone (X § 303.7), and under Subtitle X § 603.2, the Commission may grant height relief up to the maximum height permitted for a PUD in a Design Review case.
28. Pursuant to Subtitle X § 603.3, the Application also requests a special exception for a CCRC use in the RA-1 zone pursuant to Subtitle U § 420.1(i).
29. Lastly, should the Commission approve the voluntary design review, the Application requests design flexibility from the final approved plans, including specific requests for flexibility to:
 - (a) Vary the final design and configuration of the Project’s outdoor terrace/patio to accommodate any adjustments needed to comply with environmental review and approval requirements; and

- (b) Vary the design of the signage for the Project located at the Property entrance on Kenilworth Avenue N.E., subject to compliance with the D.C. Building Code and consistent with the indicated dimensions. (Ex. 2, 9, 9A, 9B,14.)

Responses to Application

30. The Application states that the Applicant made several presentations to ANC 7D, regarding the Project, met multiple times with Office of Planning (“OP”), District Department of Transportation (“DDOT”), and DOEE, and met with the Kenilworth Parkside Management Corporation Resident Council, which represents residents of the Kenilworth Parkside development to the south of the Property. (Ex. 2.)

OP Report

31. OP filed a report, dated June 10, 2019 (“OP Report”), recommending approval of the Application and testified accordingly at the public hearing. OP’s report supports the requested design review flexibility for the proposed building height, the special exception relief for the CCRC use, and the additional design flexibility from the Final Plans. (Ex. 11.)
32. OP examined the Project against the design review criteria and found that the Project satisfies each relevant condition. OP also found that the Project is not inconsistent with the designation for the Property on the Comprehensive Plan’s Future Land Use Map and Generalized Policy Map. Similarly, OP concluded that the Project conforms to the Comprehensive Plan and furthers policies in the Comprehensive Plan’s Land Use; Housing; Environmental Protection; Economic Development; Parks, Recreation, and Open Space; Community Services and Facilities; and Far Northeast and Southeast Area Elements.
33. OP’s report also includes comments from DOEE that commended the Applicant on the Project’s design and incorporation of environmental features and compliance and provided additional information and comments for further review during permitting.
34. OP also requested that the Project provide screened-in outdoor spaces for residents, in addition to the other outdoor spaces proposed. (Ex. 11;Tr. at 38-40.)

DDOT Report

35. DDOT filed a report dated June 10, 2019 (“DDOT Report”), stating that it had no objection to the approval of the Project and testified accordingly at the public hearing. (Ex. 10.) DDOT made a number of findings in its report, including that the Applicant’s traffic impact analysis of the addition of a new leg to the intersection of Kenilworth Avenue, N.E. and Eastern Avenue, N.E. is acceptable. DDOT recommended the following conditions to approval of the Application:
 - (a) That the Applicant be required to fund any changes to the existing signal or roadway geometrics at this intersection, subject to DDOT approval;

- (b) That the Applicant implement the TDM measures proposed in the Applicant's CTR, subject to minor additions requested by DDOT in its report; and
 - (c) That the Applicant dedicate the right-of-way necessary to accommodate extensions of both Eastern Avenue, N.E. and Anacostia Avenue, N.E. through the site should those extensions be constructed in the future. (Ex. 10.)
36. At the public hearing, DDOT confirmed agreement with the Applicant's clarification that the Project is required to neither obstruct nor ask for compensation for the land required for an extension of either right-of-way, but that such land was not required to be dedicated. At the hearing, DDOT also acknowledged agreement to the Applicant's minor refinements to the TDM plan, as modified by DDOT. (Tr. at 45-46.)

ANC Report

37. At its regularly scheduled and duly noticed public meeting on March 26, 2019, ANC 7D voted to support the application for design review and the requested relief (the "ANC Report"). (Ex. 4.)
38. The ANC report notes no issues or concerns. ANC 7D found that the Project will enhance the neighborhood by developing a vacant site and providing ample outdoor recreation space for residents and the community. The ANC also notes that the proposed building and its landscaping will be attractive and high quality and will add to the visual environment of the neighborhood. The ANC's report states that the site design will ensure that parking and traffic will be well managed and will not adversely affect nearby streets. Finally, the ANC Report noted that the Applicant had engaged consistently and intentionally with the ANC, and the greater community, regarding the Project and that the ANC expected this engagement to continue as the Project is developed.
39. In addition to the ANC's report, Dorothy Douglas, the Single Member District ("SMD") Representative for SMD 7D03, in which the Property is located, submitted two letters in support of the Project and testified in support of the Application at the Commission's June 20, 2019 hearing. (Ex. 15, 16; Tr. at 49-52.)

Other Responses

40. On June 19, 2019, Vincent Gray, the District Councilmember for Ward 7, submitted a letter in support of the Project. (Ex. 13.)
41. Wayne Turnage, Director of the District Department of Health Care Finance, submitted a letter dated June 19, 2019, in support of the Project. (Ex. 15.)
42. On June 20, 2019, the National Park Service ("NPS") submitted a letter requesting that the Commission not take action on the Application pending review and investigation relating to outstanding resource injuries/violations associated with the Property. (Ex. 18.)

Parties

43. Apart from the Applicant and the ANC, there were no other parties to this proceeding.

Public Hearing

44. After proper notice, the Commission held a hearing on the Application on June 20, 2019. Expert witnesses appearing on behalf of the Applicant included Robert Schiesel, of Gorove/Slade Associates, as an expert in transportation planning engineering and Ryan Connor, of Urban Ltd., as an expert in civil engineering. Brian Coltrane of e4h Architecture, the project designer, also testified on behalf of the Applicant¹. In addition, Juan Cardona, Oussama Souadi, Vance Gragg, and Haaziq Gragg testified on behalf of the Applicant.
45. Aside from the Applicant's representatives, Dorothy Douglas, the SMD Representative for the Property, Tom Brown, and Cornelia Mack testified in support of the Application.
46. No persons testified in opposition to the Application
47. At the hearing, the Applicant presented the Project and responded to questions from the Commission, including explaining the final proposed TDM measures as coordinated with DDOT. The Applicant noted its acceptance of DDOT's conditions, with minor revisions as discussed with and agreed to by DDOT. (Ex. 14, p. 40-42.)
48. The Applicant also clarified the location of screened-in outdoor spaces, as requested by OP in its report. (Tr. at 20-22, 26.)
49. The Applicant also responded to questions from the Commission regarding the possibility of reincorporating the previously proposed rear balconies into the design. Specifically, the Applicant described the difficulty of providing balconies large enough to be functional while still complying with maximum FAR restrictions. (Tr. at 24-25.)
50. In response to the Commission's questions, the Applicant stated that it would meet with NPS regarding its concerns related to its objections and confirmed that it would fully cooperate with any investigation conducted by NPS regarding any past illegal activities that may have occurred on the site. (Tr. at 59-60.)
51. At the conclusion of the hearing, the Commission asked the Applicant to provide an illustration of the previously proposed rear balconies and its further communication and coordination with NPS regarding the concerns raised in NPS' letter to the Commission requesting postponement of the case.

Post-Hearing Submissions

52. On July 15, 2019, the Applicant filed a post-hearing submission with responses to the issues raised by the Commission at the June 20, 2019 hearing. In the submission, the

¹ The Applicant initially proffered Mr. Coltrane as an expert in architecture but subsequently withdrew that request at the hearing. (Tr. at 8.)

Applicant provided plans showing the original design of the Project that included rear balconies on each floor, which were subsequently removed in the Applicant's current plans. The Applicant's statement explains that the balconies would have needed to project a minimum of six feet in order to be usable. However, this additional gross floor area would have resulted in the Project exceeding the FAR requirements for the zone. The Applicant ultimately decided that providing smaller balconies would not be a benefit to the residents and so removed them entirely. (Ex. 20.)

53. The Applicant also provided the Commission with information regarding its communications with NPS and noted that the Applicant had discussed the Project with NPS representatives, but that a formal meeting had not yet been scheduled. The Applicant noted that it expected NPS to file additional comments prior to final action. (Ex. 20.)
54. Lastly, the Applicant added a request for provisional special exception relief for the Project to opt into Inclusionary Zoning ("IZ") and utilize the IZ bonus density in the event that the amendments to the IZ regulations approved in Z.C. Case No. 04-33I become effective prior to Commission's order approving this Application becomes effective. (Ex. 20.)²
55. On July 26, 2019, NPS submitted an email indicating that it had met with the Applicant to discuss the Project. The email noted that NPS had not finalized any plans or wetland mitigation yet, but it intended to continue working with the Applicant to reach a solution. (Ex. 22.)

CONCLUSIONS OF LAW

Design Approval

1. Pursuant to Subtitle X § 600.1, the purpose of the Design Review process is to:
 - (a) *Allow for special projects to be approved by the Zoning Commission after a public hearing and a finding of no adverse impact;*
 - (b) *Recognize that some areas of the District of Columbia warrant special attention due to particular or unique characteristics of an area or project;*
 - (c) *Permit some projects to voluntarily submit themselves for design review under this chapter in exchange for flexibility because the project is superior in design but does not need extra density;*
 - (d) *Promote high-quality, contextual design; and*

² The Commission determined that this relief is not required because under Subtitle A § 301.7, a building permit consistent with this Order may be processed under the Zoning Regulations in effect on the date of the vote of the Commission to take final action, which in this case occurred prior to the effective date of the text amendment adopted in Z.C. Case No. 04-33I

- (e) *Provide for flexibility in building bulk control, design, and site placement without an increase in density or a map amendment.*
2. The Commission has jurisdiction to grant Voluntary Design Review approval for the proposed development and the requested special exception relief pursuant to Subtitle X §§ 601.2, 603.1, and 603.3 of the Zoning Regulations.
 3. The Commission concludes that pursuant to Subtitle X § 601.3, the Application has met the two-acre minimum area required for a Voluntary Design Review application in the RA-1 zone because the Property has a land area of approximately 2.82 acres.
 4. Under Subtitle X § 601.4, all of the property included in a Voluntary Design Review application is required to be contiguous or separated only by a public street, alley, or right-of-way. The entire Property is contiguous.
 5. Under Subtitle X § 603.1, the Commission may also grant relief from certain development standards, including height. Pursuant to Subtitle X § 603.2, the flexibility for height is limited to what would be available to a PUD. The Commission concludes that the requested height of 60 feet is allowable under Subtitle X § 303.7.

General Design Review Criteria (X § 604)

6. Section 604 requires that in order for the Commission to approve a Design Review application it must:
 - (a) *Find that the proposed design review development is not inconsistent with the Comprehensive Plan and with other adopted public policies and active programs related to the subject site;*
 - (b) *Find that the proposed design review development will not tend to affect adversely the use of neighboring property and meets the general special exception criteria of Subtitle X, Chapter 9;*
 - (c) *Review the urban design of the site and the building according to certain enumerated criteria set forth below; and*
 - (d) *Find that the criteria of Subtitle X § 604.7 are met in a way that is superior to any matter-of-right development possible on the site.*
7. The Commission concludes that the Application meets the general Design Review criteria as elaborated below.

Not Inconsistent with the Comprehensive Plan (X § 604(a))

8. The Commission concludes that the Application meets the first prong of the general Design Review criteria – to not be inconsistent with the Comprehensive Plan - because the Application does not contradict any provisions of the Comprehensive Plan and in fact furthers several principles and elements of the Comprehensive Plan as detailed below.
9. The Future Land Use Map of the Comprehensive Plan designates the Property as appropriate for “moderate density” residential uses. The Comprehensive Plan Framework Element defines the “moderate density” residential designation as consisting of:

“[T]he District’s row house neighborhoods, as well as its low-rise garden apartment complexes. The designation also applies to areas characterized by a mix of single-family homes, 2-4-unit buildings, row houses, and low-rise apartment buildings.” (10A DCMR § 225.4)

The Project is not inconsistent with this designation as the development will be similar to a low-rise apartment building in scale and character.

10. The Commission finds in this case, that a height of 60 feet is appropriate for a moderate-density residential designation. The proposed additional 20 feet over maximum by-right height is not needed to accommodate additional density or volume for the Project and is not requested in order to permit a larger than appropriate building. The additional height is necessary only to accommodate the constraints associated with the floodplain condition on the Property and the need to minimize the building footprint to preserve as much open space and wetlands areas as possible. The proposed height allows a more compact and efficient building design that still attains the necessary density for an affordable assisted living facility.
11. The Commission also notes that the siting of the building as well as the Property’s topography will minimize any impact that the proposed height might otherwise have on the character of the surrounding area. As shown on the architectural plans, the Project will appear shorter than its measured height, as compared to surrounding buildings because of grade changes, and it will have ample separations from any nearby properties to preserve the garden apartment character of the neighborhood. (Ex. 9A.)
12. The Commission concludes that the Project furthers the goals of the Comprehensive Plan’s Generalized Policy Map, which designates the Property as a Neighborhood Enhancement Area. The Framework Element provides:

“[t]he guiding philosophy in Neighborhood Enhancement Areas is to ensure that new development ‘fits-in’ and responds to the existing character, natural features, and existing/planned infrastructure capacity. New housing should be encouraged to improve the neighborhood and must be consistent with the land use designation on the Future Land Use Map. The unique and special qualities of each area should be maintained and conserved, and overall neighborhood character should be protected as development takes place.”

The Commission concludes that the Project will create new housing for an underserved demographic at a density level that is on par with the surrounding development, both existing and proposed for the Kenilworth Courts project. The Project will conserve and restore the special natural qualities of the site, thereby making a substantial contribution to the character of the neighborhood as a whole.

13. In addition, the Commission concludes that the Project furthers the following relevant elements of the Comprehensive Plan:
- (a) Land Use Element. The Project furthers the following policies contained in the Land Use Element: *Policy LU-1.3.2 Development Around Metrorail Stations*; *Policy LU-1.3.3 Housing Around Metrorail Stations*; *Policy LU-1.4.1 Infill Development*; *Policy LU-1.4.2 Long-Term Vacant Sites*; and *Policy LU-2.2.4 Neighborhood Beautification* by redeveloping a long-term vacant site that has suffered from environmental degradation with infill development consisting of an affordable assisted living facility that is approximately 0.4 miles away from the Deanwood Metro Station. Moreover, the Project will revitalize the natural features of the Property with a robust landscaping plan and respectful programming features to facilitate direct access to the green space on site for residents and visitors;
 - (b) Housing Element. The Project furthers the following policies contained in the Housing Element: *Policy H-1.1.1 Private Sector Support*; *Policy H-1.1.3 Balanced Growth*; *Policy H-1.1.5 Housing Policy*; *Policy H-1.2.1 Affordable Housing Production as a Civic Priority*; *Policy H-1.2.2 Production Targets*; *Policy H-1.3.3 Assisted Living and Skilled Nursing*; *Policy H-4.2.2 Housing Choice for Seniors*; and *Policy H-4.2.3 Neighborhood-Based Senior Housing* by redeveloping vacant and underutilized land that currently suffers from frequent littering to provide an affordable senior living community serving a key demographic in a greatly underserved area of the city;
 - (c) Far Northeast and Southeast Area Element. The Project furthers the following policies contained in this element: *Policy FNS-1.1.2 Development of New Housing* and *Policy FNS-2.2.4 Deanwood Metro Station* by redeveloping an extant vacant lot with new senior housing within 0.4 miles of the Deanwood Metro Station;
 - (d) Environmental Protection Element. The Project furthers the following policies contained in this element: *Policy E-1.1.3 Landscaping*; *Policy E-3.1.1 Maximizing Permeable Surfaces*; and *Policy E-4.6.3 Discouraging Illegal Dumping* by incorporating extensive landscaping that restores much of the Property from its currently degraded condition, which includes dumped trash, patches of asphalt, concrete and destroyed vegetation areas, to its natural state. In addition to a robust landscaping program, the Project will utilize permeable paving in various locations, planter boxes, green roofs, and other features to meet the stormwater

management goals and guidelines. Furthermore, the Project's rooftop will incorporate solar panels to minimize its energy consumption from less sustainable sources;

- (e) Economic Development Element. The Project furthers the following policies contained in this element: *Policy ED-2.4.1 Institutional Growth* and *Policy ED-4.2.7 Living Wage Jobs* by adding 80 new living wage jobs, boosting employment opportunities in Ward 7, and particularly jobs in the health care sector;
- (f) Community Services and Facilities Element. The Project furthers the following policy contained in *Policy CSF-2.3.1 Senior Care Facilities* by establishing a new affordable senior care facility;
- (g) Transportation Element. The Project furthers the following policy contained in *Policy T-1.1.4 Transit-Oriented Development* by constructing a facility that is less than one-half mile from a Metro station; and
- (h) Parks, Recreation and Open Space Element. The Project furthers the following policy contained in *Policy PROS-4.3.3 Common Open Space in New Development* by including revitalization efforts to create a common open space for residents and visitors of the Project in the form of restored green space accessible via a pedestrian boardwalk.

Satisfaction of the General Special Exception Criteria (X § 604(b))

14. The Commission concludes that Project satisfies the second prong of the general Design Review criteria by meeting the general special exception criteria of Subtitle X, Chapter 9. The Commission concludes that the Project will be harmonious with the general purpose and intent of the Zoning Regulations and Zoning Maps for the RA-1 zone and comply with the Zoning Regulations in terms of development standards, including FAR, proposed uses, and parking, except for the requested flexibility for the Project's height which the Commission may grant under Voluntary Design Review.
15. The Commission also concludes that the Project will not adversely affect the use of neighboring property in accordance with the Zoning Regulations and Zoning Maps, because the Project is designed to fit in and operate compatibly with neighboring properties and uses. The Commission found the findings of the DDOT Report persuasive with regard to the potential traffic impacts on the intersection of Kenilworth Avenue and Eastern Avenue, N.E. and concludes that the potential impacts can be mitigated through the imposition of the conditions specified in the DDOT Report and the Applicant's TDM Plan.
16. The Commission also concludes, based on the comments from DOEE contained in the OP Report, that the environmental issues on the Property will be mitigated and addressed through the environmental permitting process conducted by other District agencies.

Consistency with the Urban Design Criteria (X § 604(c))

17. The Commission concludes that the Project meets the third prong of the general Design Review criteria because it is consistent with each of the urban design criteria listed in Subtitle X § 604.7 and provided in italics below:

X § 604.7(a) Street frontages are designed to be safe, comfortable, and encourage pedestrian activity, including:

- (1) Multiple pedestrian entrances for large developments;*
- (2) Direct driveway or garage access to the street is discouraged;*
- (3) Commercial ground floors contain active uses with clear, inviting windows;*
- (4) Blank facades are prevented or minimized; and*
- (5) Wide sidewalks are provided:*

The Project maximizes connectivity and vehicular and pedestrian porosity through the site. The Project will provide two access points: one on Kenilworth Avenue and one on (planned) Shaw Drive. This will ensure that vehicles will always have two means to access and exit the Property both for the convenience of traffic flow and in the event of emergency. In addition, the Project will include a pedestrian pathway from Kenilworth Avenue through the site and a direct connection from the proposed nature boardwalk to Anacostia Avenue (and Anacostia Park/Kenilworth Aquatic Gardens) to the north. From a site access perspective, the Project will integrate with Kenilworth Courts, and, upon that project's completion, it will complement the planning principles represented in that project to create a comprehensive pedestrian-friendly and interconnected neighborhood environment.

X § 604.7(b) Public gathering spaces and open spaces are encouraged, especially in the following situations:

- (1) Where neighborhood open space is lacking;*
- (2) Near transit stations or hubs; and*
- (3) When they can enhance existing parks and the waterfront:*

The Project will include substantial green open space with a pedestrian boardwalk with seating, providing access through and passive recreation in this park-like environment and connecting through the site to Anacostia Avenue and Kenilworth Aquatic Gardens:

X § 604.7(c) New development respects the historic character of Washington's neighborhoods, including:

- (1) Developments near the District's major boulevards and public spaces should reinforce the existing urban form;*
- (2) Infill development should respect, though need not imitate, the continuity of neighborhood architectural character; and*
- (3) Development should respect and protect key landscape vistas and axial views of landmarks and important place:*

As an infill development on a currently vacant site, the Project will provide much needed affordable senior housing in an underserved part of the city while doing so in a way that respects the existing character of the surrounding area and restores natural features of the Property and establishes multiple connections to this outdoor amenity from surrounding locations. The Project will maintain the moderate-density residential character of the area by providing a multi-story residential building with significant surrounding open space, which is commensurate with nearby development. The Project design will achieve this moderate density character by balancing the building design with additional height but with less density, a smaller footprint, and a large rear yard to accommodate the programmatic and density needs of an assisted living facility in this neighborhood.

X § 604.7(d) Buildings strive for attractive and inspired façade design that:
(1) Reinforces the pedestrian realm with elevated detailing and design of first and second stories; and
(2) Incorporates contextual and quality building materials and fenestration:

The Project will incorporate high-quality and durable building materials to achieve a greater degree of façade articulation. The Project will include stacked stone veneer, rainscreen metal panel, “wood look” solid phenolic panel, and fibrous cement panel elements into the façade. The architectural features will complement adjacent woodlands and nearby aquatic gardens by incorporating natural looking materials such as wood and stone as well as providing vistas from the rear elevator lobbies on each floor. The Project will include outdoor gathering spaces designed to maximize residents’ and visitors’ access to, and enjoyment of, the natural surroundings. These features include the large outdoor terraces on the ground floor at the rear of the building and on the ground and second floors at the front of the building.

X § 604.7(e) Sites are designed with sustainable landscaping:

The Project will include extensive sustainable landscaping to be incorporated throughout the site as a major component of the proposed redevelopment effort.

X § 604.7(f) Sites are developed to promote connectivity both internally and with surrounding neighborhoods, including:
(1) Pedestrian pathways through developments increase mobility and link neighborhoods to transit;
(2) The development incorporates transit and bicycle facilities and amenities;
(3) Streets, easements, and open spaces are designed to be safe and pedestrian friendly;
(4) Large sites are integrated into the surrounding community through street and pedestrian connections; and

(5) *Waterfront development contains high-quality trail and shoreline design as well as ensuring access and view corridors to the waterfront:*

The Project is designed to facilitate connectivity through multiple access points. Primary vehicular access will be from Kenilworth Avenue, with secondary vehicular access to/from planned Shaw Drive. In addition, the site design includes sidewalks and pedestrian pathways from Kenilworth Avenue through the site connecting to the proposed nature boardwalk that will then connect to Anacostia Avenue. The Project will also include the approximately 51 long-term bicycle parking spaces and eight short-term bicycle parking spaces to accommodate staff and visitors who choose to travel by bike.

18. The Project demonstrates superior design, site planning, safe pedestrian access, and other features that are superior to typical matter-of-right development. Because of this, the Project satisfies the urban design criteria of Subtitle X § 604.7 in a way that is superior to any matter-of-right development possible on the Property.

Special Exception Approval for Continuing Care Retirement Community

19. Pursuant to Subtitle X § 603.3 the Applicant also requested special exception approval for a CCRC use pursuant to Subtitle U §§ 203.1(f) and 420.1(i). The Commission concludes that the Application has met the standards as explained below:
- (a) *The use shall include one or more of the following services: . . . (B) Assisted Living Facilities:*
The Project is an assisted living facility;
- (b) *If the use does not include assisted living or skilled nursing facilities, the number of residents shall not exceed eight:*
Because the Project is an assisted living facility, this criterion is inapplicable;
- (c) *The use may include ancillary uses for the further enjoyment, service, or care of the residents:*
Under Subtitle U § 420.1(i), this provision is not applicable to CCRC uses in the RA-1 zone and thus ancillary uses are not permitted for the Project in furtherance of the aims of the RA zones to promote and protect areas of moderate density residential development. Here, the Project does not include any ancillary uses other than those normally associated with an assisted living facility, such as a central dining room, facility offices, and activity areas;
- (d) *The use and related facilities shall provide sufficient off-street parking spaces for employees, residents and visitors:*
The Project's proposed 26 spaces will be sufficient to ensure that there will be adequate parking for employees, residents, and visitors;

- (e) *The use, including any outdoor spaces provided, shall be located and designed so that it is not likely to become objectionable to neighboring properties because of noise, traffic, or other objectionable conditions:*
The Project, as designed, will not result in any objectionable conditions for neighboring properties. The proposed assisted living facility is not expected to generate an unusually high level of noise or traffic, and the site plan includes multiple vehicular access points to ensure that vehicle circulation to and within the site is accommodated without any substantial negative effects on the surrounding transportation network. The Project will meet and exceed all applicable setback requirements; and
- (f) *The [Commission] may require special treatment in the way of design, screening of buildings, planting and parking areas, signs, or other requirements as it deems necessary to protect adjacent and nearby properties:*
The Project has been carefully designed in order to site the building and other design features so as to minimize the building footprint and maximize the amount of open space on the Property. Further, the Project will exceed all applicable setback requirements, will be separated a considerable distance from any neighboring building, and will have ample landscaping buffers. Accordingly, additional special measures are not needed in this case to protect adjacent and nearby properties.

“Great Weight” to the Written Report of the ANC

20. The Commission is required to give “great weight” to the issues and concerns of the affected ANC expressed in its written report (§ 13(d) of the Advisory Neighborhood Commissions Act of 1975, effective March 26, 1976 (D.C. Law 1-21; D.C. Official Code § 1-309.10(d) (2012 Repl.) and Subtitle Z § 406.2). To satisfy this great weight requirement, District agencies must articulate with particularity and precision the reasons why an affected ANC does or does not offer persuasive advice under the circumstances. The District of Columbia Court of Appeals has interpreted the phrase “issues and concerns” to “encompass only legally relevant issues and concerns.” (*Wheeler v. District of Columbia Board of Zoning Adjustment*, 395 A.2d 85, 91 n.10 (1978).)
21. ANC 7D, the “affected ANC” in this case, did not raise any issues or concerns in its report and recommended approval. Therefore, the Commission finds it to be persuasive and concurs with its findings.

“Great Weight” to the Recommendations of OP

22. The Commission is also required to give great weight to the recommendations of OP. (D.C. Official Code § 6-623.04 and Subtitle Z § 405.8)
23. The Commission gives OP’s recommendation to approve the application great weight, concurs with OP’s, and concludes that the Applicant’s responses appropriately addressed OP’s questions and concerns. Accordingly, the Commission has given the requisite great weight to OP’s report and recommendation.

DECISION

In consideration of the above Findings of Fact and Conclusions of Law, the Zoning Commission for the District of Columbia orders **APPROVAL** of the application for Voluntary Design Review, including **APPROVAL** of special exception relief and flexibility requested. This approval is subject to the following conditions, standards, and flexibility:

1. **Project Development.** The Project shall be built in accordance with the plans and elevations dated May 31, 2019 and marked as Exhibit 9A and supplemented by Exhibit 14 of the record (the “Final Plans”), and with the following design flexibility from the Final Plans:
 - (a) Interior Components: To vary the location and design of all interior components, including partitions, structural slabs, doors, hallways, columns, stairways, atria, and mechanical rooms, provided that the variations do not change the exterior configuration of the building as shown on the plans approved by the Order;
 - (b) Exterior Materials – Color: To vary the final selection of the colors of the exterior materials based on availability at the time of construction, provided such colors are within the color ranges shown on the plans approved by the Order;
 - (c) Exterior Details – Location and Dimension: To make minor refinements to the locations and dimensions of exterior details that do not substantially alter the exterior configuration of the building or design shown on the plans approved by the order. Examples of exterior details would include, but are not limited to, doorways, canopies, railings, and skylights;
 - (d) Number of Units: To provide a range in the approved number of residential dwelling units of plus or minus 10%, except that (i) the total square footage of the residential dwelling units shall not be reduced, and (ii) the number of units and the square footage reserved for affordable housing shall not be reduced;
 - (e) Parking Layout: To make refinements to the approved parking configuration, including layout and number of parking space plus or minus 10%, so long as the number of parking spaces is at least the minimum number of spaces required by the Zoning Regulations;
 - (f) Streetscape Design: To vary the location, attributes, and general design of the approved streetscape to comply with the requirements of, and the approval by, the DDOT Public Space Division;
 - (g) Signage: To vary the final design of the signage for the Project located at the Property entrance on Kenilworth Avenue, subject to full compliance with applicable signage restrictions under the D.C. Building Code and consistent with the indicated dimensions; and

- (h) To vary the final design and configuration of the Project's rear outdoor terrace/patio in order to accommodate any adjustments needed in order to comply with environmental review and approval requirements.
2. **Kenilworth Avenue and Eastern Avenue Intersection.** The Applicant shall fund, design, and construct any new or relocated traffic signal equipment and all required geometric modifications at the intersection of Kenilworth Avenue, N.E. and Eastern Avenue, N.E., as required by and subject to approval by DDOT.
3. **Potential Future Right-of-Way Extensions.** The Applicant shall construct the Project so as to not obstruct the land required for the right-of-way necessary to accommodate extensions of both Eastern Avenue and Anacostia Avenue through the Property, shall not seek compensation for such land, and shall allow public access on the Property for such roadway, should any such right-of-way extension be planned, designed, and funded for construction by the District in the future.
4. **Electrical Vehicle ("EV") Charging Station.** The Applicant shall install a minimum of one EV charging station as part of the Project.
5. **Transportation Demand Management Measures. For the life of the Project,** the Applicant shall adhere to the following TDM plan measures:
- (a) Identify a TDM Leader (for planning, construction, and operations) at the building, who will act as a point of contact with DDOT/Zoning Enforcement with annual updates;
 - (b) The TDM Leader will work with residents to distribute and market various transportation alternatives and options;
 - (c) Provide TDM materials to new residents in the Residential Welcome Package materials;
 - (d) Unbundle the cost of residential parking from the cost of lease or purchase of each unit;
 - (e) Meet Zoning Regulations short-term bicycle parking requirement by installing eight spaces near the entrance to the Building as indicated on the plans;
 - (f) Meet Zoning Regulations long-term bicycle parking requirement by installing 51 internal to the building.
 - (g) Work with DDOT and goDCgo (DDOT's TDM program) to implement TDM measures at the site;
 - (h) Share the full contact information of the TDM Leaders for the site with DDOT and goDCgo;

- (i) Require TDM Leaders to receive training from goDCgo to learn about the TDM conditions for the Project and available options for implementing the plan;
 - (j) Post all TDM commitments on the Project's website, publicize availability, and allow the public to see what commitments have been promised;
 - (k) Provide links to CommuterConnections.com and goDCgo.com on the Project's website;
 - (l) Distribute information on the Commuter Connections Guaranteed Ride Home (GRH) program, which provides commuters who regularly carpool, vanpool, bike, walk, or take transit to work with a free and reliable ride home in an emergency;
 - (m) Provide a minimum of two showers and 20 lockers for use by employees;
 - (n) Provide employees who wish to carpool with detailed carpooling information and will be referred to other carpool matching services sponsored by Metropolitan Washington Council of Governments ("MWCOG") or other comparable service if MWCOG does not offer this service in the future; and
 - (o) Require the TDM Leader to demonstrate to goDCgo that the site is in compliance with the DC Commuter Benefits Law by participating in at least one of the three transportation benefits outlined in the law (employee-paid pre-tax benefit, employer-paid direct benefit, or shuttle service).
6. This Application approval shall be valid for a period of two years from the effective date of this Order. Within such time, an application for building permit must be filed as specified in 11-Z DCMR § 702.2. Construction must begin within three years after the effective date of this Order. (11-Z DCMR § 702.3.)
7. In accordance with the D.C. Human Rights Act of 1977, as amended, D.C. Official Code §§ 2-1401.01 et seq. (Act), the District of Columbia does not discriminate on the basis of actual or perceived: race, color, religion, national origin, sex, age, marital status, personal appearance, sexual orientation, gender identity or expression, familial status, family responsibilities, matriculation, political affiliation, genetic information, disability, source of income, or place of residence or business. Sexual harassment is a form of sex discrimination which is prohibited by the Act. In addition, harassment based on any of the above protected categories is prohibited by the Act. Discrimination in violation of the Act will not be tolerated. Violators will be subject to disciplinary action.

At its public meeting on July 29, 2019, upon the motion of Chairman Hood, as seconded by Commissioner Turnbull, the Zoning Commission took **FINAL ACTION** to **APPROVE** the Application by a vote of **5-0-0** (Anthony J. Hood, Robert E. Miller, Peter A. Shapiro, Peter G. May, and Michael G. Turnbull).

In accordance with the provisions of 11-Z DCMR § 604.9, this Order shall become final and effective upon publication in the *D.C. Register*; that is on August 16, 2019

BY THE ORDER OF THE D.C. ZONING COMMISSION

A majority of the Commission members approved the issuance of this Order.
