ANNOUNCES A PUBLIC OVERSIGHT ROUNDTABLE ON

FIVE YEARS OF THE METROPOLITAN POLICE DEPARTMENT'S BODY-WORN CAMERA PROGRAM: REFLECTIONS AND NEXT STEPS

Thursday, September 26, 2019, 12:30 p.m.
Room 123, John A. Wilson Building
1350 Pennsylvania Avenue, N.W.
Washington, D.C. 20004

On Thursday, September 26, 2019, Councilmember Charles Allen, Chairperson of the Committee on the Judiciary and Public Safety, will convene a public oversight roundtable to discuss "Five Years of the Metropolitan Police Department's Body-Worn Camera Program: Reflections and Next Steps". The roundtable will take place in Room 123 of the John A. Wilson Building, 1350 Pennsylvania Avenue, N.W., at 12:30 p.m. Note that the Committee has also scheduled a public roundtable in the same room from 10 a.m. to noon.

In October 2014, the Metropolitan Police Department ("MPD") launched Phase I of its body-worn camera program with a 400-camera model selection pilot. Phase II was launched in June 2015, in which another 400-camera expansion formed the basis for a research study on their impact on such issues as resident complaints and the use of force. Concurrently, the Council passed D.C. Law 21-83, the Body-Worn Camera Program Amendment Act of 2015, which prioritized public and civilian oversight agency access to video footage, with protections for personal privacy; established retention requirements; allowed public records requests; required program analysis; and mandated regular reporting by MPD. At the time, the Committee on the Judiciary noted that body-worn cameras can serve several purposes: (1) fostering accountability and enhancing performance by law enforcement; (2) improving police-community relations; (3) promoting the fair administration of justice; (4) creating more accurate and transparent records of law enforcement's interactions with the public; (5) improving evidence collection; and (6) discouraging and defending against erroneous complaints against law enforcement officials.

Subsequent to the law's passage, in 2016, MPD expanded its deployment to 2,800 cameras for officers and sergeants in public contact positions in all districts and other specialized units – at the time, the largest deployment of body-worn cameras in the country. As of December 2018, more than 3,100 cameras were deployed.

This public oversight roundtable will review the existing law, regulations, and MPD policies governing the body-worn camera program; MPD's biannual reports; the release of and access to video footage over the past five years; subsequent developments in other jurisdictions; and any recommendations for the program from the public, subject-matter experts, and government agencies. More broadly, the Committee will consider whether the goals underlying the procurement and deployment of body-worn cameras noted above have been advanced, and if so, how.

The Committee invites the public to testify or to submit written testimony. Anyone wishing to testify at the roundtable should contact the Committee via email at judiciary@dccouncil.us and provide their name, telephone number, organizational affiliation, and title (if any), by **close of business Monday, September 23**. Representatives of organizations will be allowed a maximum of five minutes for oral testimony, and individuals will be allowed a maximum of three minutes. Witnesses should bring **twenty copies** of their written testimony and, if possible, also submit a copy of their testimony electronically in advance to judiciary@dccouncil.us.

For witnesses who are unable to testify at the roundtable, written statements will be made part of the official record. Copies of written statements should be submitted to the Committee at judiciary@dccouncil.us. **The record will close at the end of the business day on Tuesday, October 1.**

PROPOSED RESOLUTION 23-0357, THE "CLOSED CIRCUIT TELEVISION MODERNIZATION RULEMAKING APPROVAL RESOLUTION OF 2019"

Thursday, September 26, 2019, 10:00 a.m.
Room 123, John A. Wilson Building
1350 Pennsylvania Avenue, N.W.
Washington, D.C. 20004

On Thursday, September 26, 2019, Councilmember Charles Allen, Chairperson of the Committee on the Judiciary and Public Safety, will convene a public roundtable to discuss Proposed Resolution 23-0357, the "Closed Circuit Television Modernization Rulemaking Approval Resolution of 2019". The roundtable will take place in Room 123 of the John A. Wilson Building, 1350 Pennsylvania Avenue, N.W., at 10:00 a.m.

The stated purpose of PR23-0357 is to approve a proposed rulemaking to amend Chapter 25 (Metropolitan Police Department Use of Closed Circuit Television) of Title 24 (Public Space and Safety) of the District of Columbia Municipal Regulations. The rulemaking would change the requirement that an official of the rank of Lieutenant or above must be present in the Command Information Center to monitor CCTV activities and would allow for sergeants and civilian equivalents to do so; extend the current CCTV retention period from 10 days to 90 days; allow CCTV recordings used for training purposes to be retained as per the Metropolitan Police Department's retention schedule for Police Academy records; and require video recordings to be maintained rather than "indexed" or "stored".

The Committee invites the public to testify or to submit written testimony. Anyone wishing to testify at the roundtable should contact the Committee via email at judiciary@dccouncil.us and provide their name, telephone number, organizational affiliation, and title (if any), by **close of business Monday, September 23**. HISTORIC PRESERVATION REVIEW BOARD

NOTICE OF PUBLIC HEARINGS

The D.C. Historic Preservation Review Board will hold a public hearing to consider applications to designate the following properties as historic landmarks in the D.C. Inventory of Historic Sites. The Board will also consider the nomination of the properties to the National Register of Historic Places:

Case No. 18-07: Mitchell Park Fieldhouse
1801 23rd Street NW
Square 2529, Lot 821
Affected Advisory Neighborhood Commission: 2D

Case No. 18-08: Chevy Chase Playground
5500 41st Street NW
Square 1744, Lot 1 and Square 1745, Lot 1 (Reservation 431)
Affected Advisory Neighborhood Commission: 3E

Case No. 11-19: Recorder of Deeds Building
515 D Street NW
Square 489, Lot 802
Affected Advisory Neighborhood Commission: 2C

The hearing will take place at **9:00 a.m. on Thursday, October 24, 2019**, at 441 Fourth Street, NW (One Judiciary Square), in Room 220 South. It will be conducted in accordance with the Review Board's Rules of Procedure (10C DCMR 2). A copy of the rules can be obtained from the Historic Preservation Office at 1100 4th Street SW, Suite E650, Washington, DC 20024, or by phone at (202) 442-8800, and they are included in the preservation regulations which can be found on the Historic Preservation Office website.

The Board's hearing is open to all interested parties or persons. Public and governmental agencies, Advisory Neighborhood Commissions, property owners, and interested organizations or individuals are invited to testify before the Board. Written testimony may also be submitted prior to the hearing. All submissions should be sent to the address above.

For each property, a copy of the historic designation application is currently on file and available for inspection by the public at the Historic Preservation Office and posted on the office's website at https://planning.dc.gov/page/pending-nominations-dc-inventory. Copies of the staff reports and recommendations will be available at the office five days prior to the hearing. The office also provides information on the D.C. Inventory of Historic Sites, the National Register of Historic Places, and Federal tax provisions affecting historic property.

If the Historic Preservation Review Board designates a property, it will be included in the D.C. Inventory of Historic Sites, and will be protected by the D.C. Historic Landmark and Historic District Protection Act of 1978. The Review Board will simultaneously consider the nomination of the property to the National Register of Historic Places. The National Register is the Federal

government's official list of prehistoric and historic properties worthy of preservation. Listing in the National Register provides recognition and assists in preserving our nation's heritage. Listing provides recognition of the historic importance of properties and assures review of Federal undertakings that might affect the character of such properties. If a property is listed in the Register, certain Federal rehabilitation tax credits for rehabilitation and other provisions may apply. Public visitation rights are not required of owners. The results of listing in the National Register are as follows:

Consideration in Planning for Federal, Federally Licensed, and Federally Assisted Projects: Section 106 of the National Historic Preservation Act of 1966 requires that Federal agencies allow the Advisory Council on Historic Preservation an opportunity to comment on all projects affecting historic properties listed in the National Register. For further information, please refer to 36 CFR 800.

Eligibility for Federal Tax Provisions: If a property is listed in the National Register, certain Federal tax provisions may apply. The Tax Reform Act of 1986 (which revised the historic preservation tax incentives authorized by Congress in the Tax Reform Act of 1976, the Revenue Act of 1978, the Tax Treatment Extension Act of 1980, the Economic Recovery Tax Act of 1981, and the Tax Reform Act of 1984) provides, as of January 1, 1987, for a 20% investment tax credit with a full adjustment to basis for rehabilitating historic commercial, industrial, and rental residential buildings. The former 15% and 20% Investment Tax Credits (ITCs) for rehabilitation of older commercial buildings are combined into a single 10% ITC for commercial and industrial buildings built before 1936. The Tax Treatment Extension Act of 1980 provides Federal tax deductions for charitable contributions for conservation purposes of partial interests in historically important land areas or structures. Whether these provisions are advantageous to a property owner is dependent upon the particular circumstances of the property and the owner. Because the tax aspects outlined above are complex, individuals should consult legal counsel or the appropriate local Internal Revenue Service office for assistance in determining the tax consequences of the above provisions. For further information on certification requirements, please refer to 36 CFR 67.

Qualification for Federal Grants for Historic Preservation When Funds Are Available: The National Historic Preservation Act of 1966, as amended, authorizes the Secretary of the Interior to grant matching funds to the States (and the District or Columbia) for, among other things, the preservation and protection of properties listed in the National Register.

Owners of private properties nominated to the National Register have an opportunity to concur with or object to listing in accord with the National Historic Preservation Act and 36 CFR 60. Any owner or partial owner of private property who chooses to object to listing must submit to the State Historic Preservation Officer a notarized statement certifying that the party is the sole or partial owner of the private property, and objects to the listing. Each owner or partial owner of private property has one vote regardless of the portion of the property that the party owns. If a majority of private property owners object, a property will not be listed. However, the State Historic Preservation Officer shall submit the nomination to the Keeper of the National Register of Historic Places for a determination of eligibility for listing in the National Register. If the property is then determined eligible for listing, although not formally listed, Federal agencies will be required to allow the Advisory Council on Historic Preservation an opportunity to

comment before the agency may fund, license, or assist a project which will affect the property. If an owner chooses to object to the listing of the property, the notarized objection must be submitted to the above address by the date of the Review Board meeting.

For further information, contact Tim Dennee, Landmarks Coordinator, at 202-442-8847.

Official Code, § 11-1525(a) (2012 Repl.)) and § 431(d)(3) of the District of Columbia Self Government and Governmental Reorganization Act, effective December 24, 1973 (87 Stat. 774, Pub.L. 93-198), hereby amends its rules contained in Chapter 20 (Judicial Disabilities and Tenure) of Title 28 (Corrections, Courts, and Criminal Justice) of the District of Columbia Municipal Regulations (DCMR).

These rules shall be effective immediately upon publication in the *D.C. Register*. D.C. Official Code § 11-1525(a) (2012 Repl.) provides that the Commission is an independent agency; therefore, prior public notice and hearings are not required on the subject of Rules adopted by the Commission.

Chapter 20, JUDICIAL DISABILITIES AND TENURE, of Title 28 DCMR, CORRECTIONS, COURTS, AND CRIMINAL JUSTICE, is amended to read as follows:

CHAPTER 20 JUDICIAL DISABILITIES AND TENURE

2000 COMMISSION ON JUDICIAL DISABILITIES AND TENURE

2000.1 The Commission on Judicial Disabilities and Tenure (also referred to in this chapter as "the Commission") is established and shall be operated in accordance with the provisions of the D.C. Court Reform and Criminal Procedure Act of 1970, effective July 29, 1970 (84 Stat. 473, 91 Pub. L. 91-358; D.C. Official Code, §§ 11-1521, *et seq*.).

2000.2 The Chairperson of the Commission shall be elected annually by the members of the Commission from among the members of the Commission.

2000.3 The Commission may select a Vice Chairperson and other officers as the Commission, from time to time, may deem appropriate.

2000.4 The Chairperson shall preside at each meeting of the Commission.

2000.5 Officers, special counsel, and other personnel who are selected by the Commission shall perform the duties assigned to them by the Commission.

2000.6 The Commission may retain medical or other experts to assist it.

2001 TRANSACTION OF COMMISSION BUSINESS

2001.1 The Commission shall act only at a meeting. The actions of the Commission may be implemented by any appropriate means directed by the Commission.

2001.2 Meetings of the Commission shall be held at times agreed upon by the members of the Commission, or upon call by the Chairperson, or by a majority of the members of the Commission and after notice to all members of the Commission.

2001.3 Minutes shall be kept of each meeting of the Commission. The minutes shall record the names of those present, the actions taken, and any other matters that the Commission may deem appropriate.

2001.4 A quorum for Commission action shall consist of four (4) members.

2001.5 Commission action shall be taken only upon concurrence of four (4) members; Provided, that the concurrence of five (5) members shall be required to suspend a judge from all or part of his or her judicial duties pursuant to § 432(c)(3) of the Self-Government Act.

2001.6 The Chairperson, Vice Chairperson, Acting Chairperson, or a member designated by one of them may carry out the routine of Commission business (such as the granting of postponements pursuant to this chapter, authorization of preliminary inquiry into complaints or information regarding a judge's conduct or health, and authorization of informal and non-determinative communications with a judge or the judge's counsel).

(b) When involved as a litigant or attorney in a proceeding pending before an associate judge seeking reappointment, a retiring judge requesting a favorable recommendation for appointment as a senior judge, or a senior judge seeking favorable recommendation for reappointment to senior status.

2002 PHYSICAL EXAMINATIONS AND MEDICAL INFORMATION

2002.1 At the Commission's request, a judge shall submit to a physical and/or mental examination by a health care professional designated

by the Commission after consultation with the judge. The examination and report shall be made at the judge's expense, unless the Commission grants a waiver based on extraordinary circumstances. Such examination is a condition of continued judicial service.

2002.2 The physician's report shall be given in writing to the Commission.

2002.3 At the Commission's request, a judge shall provide the Commission with all waivers and releases necessary to authorize the Commission to receive all medical records, reports, and information from any medical person, medical institution, or other facility regarding the judge's physical or mental condition.

2002.4 The failure of a judge to submit to a physical or mental examination or to provide waivers and releases required under this section shall be considered by the Commission adversely to the judge.

2002.5 Copies of all medical records, reports, and information received by the Commission shall be provided to the judge at his or her request.

2003 FINANCIAL REPORTS

2003.1 Each judge shall file with the Commission on or before the first Monday in June of each year, on forms provided by the Commission, the reports of personal financial interest required by D.C. Official Code § 11-1530, as amended, for the preceding calendar year.

2003.2 The Commission from time to time may require a judge to file pertinent supplemental information.

2003.3 These Rules govern access to the Annual Financial Reports filed by judges of the District of Columbia Courts, as required by D.C. Official Code § 11-1530, as amended.

2003.4 These Rules apply to the processing of all requests for copies of the Annual Financial Reports of judges of the District of Columbia Courts, maintained by the D.C. Commission on Judicial Disabilities and Tenure (the Commission).

2003.5 The Commission's responsibility for monitoring the release of the Annual Financial Reports includes the following:

(a) The Commission will monitor and grant or deny the release of copies of all Annual Financial Reports to ensure compliance with the statute and the Commission's Rules.

(b) The Commission will monitor and grant or deny requests for viewing all Annual Financial Reports at the office of the Commission, to ensure compliance with the statute and the Commission's Rules.

(c) As provided by D.C. Official Code § 11-1530(a)(1c)(a)(c)(1), as amended, the Commission will review and, within the Commission's discretion, grant or deny any requests for the redaction of statutorily mandated information where the release of the information could endanger a judge or a member of the judge's family. It will review, and grant or deny any requests for waiver of costs associated with a request for the release of an Annual Financial Report. It will also provide guidance when questions not covered in these Rules arise.

(d) The Commission will not permit public access to any Annual Financial Report unless all of the Reports due for a calendar year have been received by the Commission. If extensions of time have been requested by judges in which to file Reports, none of the Reports for that calendar year will be available until all extension deadlines have expired and all Reports have been received by the Commission.

2003.6 The Annual Financial Reports filed by judges are maintained by the Commission, and in accordance with the statute and the Commission Rules, the Reports are kept for three years subsequent to filing.

2003.7 All requesters who wish to review or obtain a copy of an Annual Financial Report must submit a Form CJDT 10A to the staff of the Commission. The form must be in writing and contain the following information:

(a) The requester's name, occupation, telephone number, e-mail, and mailing address;

(b) The name and address of any other person or organization on whose behalf the inspection or copy is requested; and

(c) That the requester is aware of the prohibitions with regard to obtaining or viewing the Report.

(d) A list of the judges whose Reports are being requested.

2003.8 Requesters will be notified in writing of the Commission's decision to grant or deny a request for viewing or copying Reports. If the Commission grants a request, the requester will also be advised of the total reproduction cost for the Reports ordered.

2003.9 Requesters will be charged twenty-five cents ($0.25) per page to cover costs. Only entire Reports will be reproduced, requests for particular pages or sections will not be honored. The Commission only accepts checks or money orders, which must be made payable to the D.C. Treasurer.

2003.10 Requesters must provide a copy of the CJDT 10A form with the check or money order to the Commission. Once the form and payment are received the requester will be notified of the date when the requested Report(s) can be collected from the Commission office.

2003.11 Each CJDT 10A form received that results in the release or viewing of a Report will be filed and will be made available to the public throughout the period during which the Report is made available to the public.

2003.12 Annual Financial Reports may be viewed in the Commission office by appointment. Appointments must be made at least five working days in advance. Commission staff will provide the requester with a copy of the Report(s) requested, which may be redacted, if so approved by the Commission. In no case will the original file be removed from the Commission office for review by a member of the public. Requesters wishing to view Reports must also complete a CJDT 10A and provide all of the information requested, and will be notified in writing of the Commission's decision to grant or deny the request.

2003.13 A copy of the requested Reports may be furnished without charge or at a reduced charge if it is determined that waiver or reduction of the fee is in the public interest. Requests for waivers must be presented in writing to the Commission.

2003.14 Annual Financial Reports will not be released to any individual who fails to properly complete a CJDT 10A form or pay costs.

(a) Commission staff will take every step to ensure that the Reports are maintained securely.

(b) Commission staff will not release or allow the viewing of any Report until the Commission has approved the requester's CJDT 10A form, and until written notice has been given to the judge. In accordance with the Commission's direction, Commission staff will minimize security risks by redacting information not required by the statute including without limitation:

(1) Spouse's and dependents' names;

(2) Home addresses;

(3) Social security numbers;

(4) Financial account and bank account numbers;

(5) Street addresses of personal properties, financial institutions, and business properties;

(6) Ownership codes; and

(7) Judge's signature.

2003.15 The Commission will immediately notify the judge in writing and by e-mail when a Form CJDT 10A is received requesting the release of the judge's Annual Financial Report(s) and will provide each judge with a copy of the requester's CJDT 10A form. A judge will have ten (10) days from receipt of the Commission's notification, to request a redaction.

2003.16 A Report that may be disseminated to the public after release to a requester, may be redacted pursuant to D.C. Official Code § 11-1530(c)(1)(2), as amended, to prevent public disclosure of personal or sensitive information that could endanger the judge or a member of the judge's family, directly, or indirectly, if possessed by a member of the public hostile to the judge or a member of the judge's family.

2003.17 The procedure for determining whether redaction is appropriate will be as follows:

(a) When an Annual Financial Report is filed, the judge may request redaction(s) believed to be appropriate before release of a Report that may be disseminated to the public. Requests for redaction may also be made after a judge receives a notification of a request to view or copy a Report.

(b) The judge must state with specificity what material is sought to be redacted. The judge must also state in detail the reasons justifying redaction. These reasons may include, but are not limited to

(1) The purposes and need for an ongoing protective detail provided by the United States Marshals Service, or the D.C. Courts Security Division;

(2) Particular threats or inappropriate communications;

(3) Involvement in a high threat trial or appeal; or

(4) Certain information on the form that could endanger the judge or a member of the judge's family directly or

indirectly if possessed by a member of the public hostile to the judge or a member of the judge's family.

2003.18 The Commission will determine, whether information sought to be redacted could, if disseminated to the public, endanger the judge or a member of the judge's family directly or indirectly and grant or deny the request accordingly. Information that could facilitate the financial harassment of a judge or a member of the judge's family, such as identity theft, may be deemed information that could endanger a judge or a member of the judge's family.

2003.19 No redactions will be granted that eliminate disclosure of the existence, rather than extent, of an interest in an entity that would disqualify the judge from serving as a judge in litigation involving that entity, unless disclosure of that interest would reveal the location of a residence of the judge or a member of the judge's family, reveal the place of employment of the judge or a member of the judge's family.

(a) Information may be redacted from a Report in accordance with such findings to the extent necessary to protect the judge who filed the Report and his or her family, and the redactions will remain in effect for three (3) years.

(b) The Commission staff will notify a judge in writing and by e-mail when a Report is actually released or reviewed and provide the judge with a copy of the released Report with any redactions. The staff will maintain a copy of the redacted material for as long as the original Report is maintained.

(c) A request for redaction and its supporting documents, except for copies of the Annual Financial Report and any amendments thereto, are considered confidential and will only be used to determine whether to grant a request for redaction.

2004 COMPLAINTS

2004.1 Subject to the confidentiality provisions of § 2044, the Commission may receive information or a complaint from an individual or an organization regarding a judge's conduct or health.

2005 PRECEDENTS

2005.1 The provisions of this section shall apply to determinations by the Commission of grounds for removal under § 432(a)(2) of the Self-Government Act, and to evaluations by the Commission of judges who are candidates for renomination.

2005.2 Each judge shall be deemed to be on notice of the following; Provided, that copies of the decisions, evaluations, reports, or communications have been filed by the Commission with the Chief Judge of each court:

(a) The Commission's decisions in proceedings;

(b) The Commission's evaluations of judges who have been candidates for re-nomination;

(c) The annual reports of the Commission; and

(d) Any communication by the Commission to either of the Chief Judges of the courts of the District of Columbia specifying that the judges are to take notice of the communication.

2005.3 Expressions by the Commission in the decisions, evaluations, and communications listed in § 2005.2 shall be pertinent precedents to be taken into account by the Commission.

2005.4 Each judge shall be deemed to be on notice of provisions promulgated by the Advisory Committee on Judicial Activities of the Judicial Conference of the United States regarding the Code of Judicial Conduct for United States Judges. Each judge shall also be on notice of the advisory opinions of the District of Columbia Courts' Advisory Committee on Judicial Conduct.

2005.5 Insofar as the opinions of the Advisory Committee on Judicial Activities deal with provisions of the Code of Judicial Conduct that are similar to requirements applicable to judges of District of Columbia courts, the Commission shall regard them as persuasive.

§§ 2006 – 2009: [RESERVED]

2010 INVESTIGATIONS

2010.1 The Commission may investigate to determine whether a proceeding should be instituted on charges of misconduct, failure to perform judicial duties, or disability, upon receiving information regarding the following by complaint or otherwise:

(b) That a judge engaged in other conduct prejudicial to the administration of justice or which brings the judicial office into disrepute; or

(c) That a judge may have a mental or physical disability (including habitual intemperance) which is or is likely to become permanent and which prevents, or seriously interferes with, the proper performance of his or her judicial duties.

2010.2 The investigation may be carried out in a manner that the Commission deems appropriate, including the taking of evidence at Commission meetings or by deposition.

2010.3

The failure or refusal of the judge to respond may be considered a failure to cooperate.

(b) The failure or refusal of a judge to cooperate in an investigation, or the use of dilatory practices, frivolous or unfounded responses or argument, or other uncooperative behavior may be considered a violation of Canon 1 of the Code of Judicial Conduct and, therefore, an independent ground for disciplinary action.

2010.4 After investigation, if the Commission determines that a proceeding should not be instituted, the Commission shall so inform the judge if he or she was previously informed of the pendency of the complaint by either the complainant or the Commission and shall give notice to the complainant either that there is insufficient cause to proceed or that the complaint poses a legal issue over which the Commission has no jurisdiction, as appropriate.

2011 NOTICE OF A PROCEEDING

2011.1 If, after investigation, the Commission determines that a proceeding is warranted, the Commission, except for good reason, shall notify the judge of its determination.

2011.2 If immediately requested by a judge who has been notified under § 2011.1, the Commission, or a member of the Commission, or a special counsel may, if the circumstances warrant, confer with the judge for the purpose of considering whether the matter may be disposed of without a proceeding.

2011.3 If the matter is disposed of without a proceeding, notice shall be given to the complainant that the matter has been resolved.

2011.4 If notification under § 2011.1 is not given or, if given, if a disposition without a proceeding does not result, the Commission shall issue a written notice to the judge advising him or her of the institution of a proceeding to inquire into the charges.

2013.6 The judge shall include in the answer all procedural and substantive defenses and challenges which the judge desires the Commission to consider.

2013.7 The Commission may rule on the defenses and challenges at the outset of the hearing or may take them under advisement to be determined during, at the close of, or at a time subsequent to the hearing.

2015.5 A verbatim record of each hearing shall be kept.

2016.6 The *guardian ad litem* or legal representative may exercise any right and privilege and make any defense for the judge with the same force and effect as if exercised or made by the judge, if he or she were competent. Whenever the provisions of this chapter provide for notice to the judge, that notice shall be given to the *guardian ad litem* or legal representative.

2019.4 The petition to the Superior Court shall state, without identifying the judge, the general nature of the pending matter, the name and residence of the person whose testimony or other evidence is desired, and any special directions the Commission may prescribe.

No substantive changes were made to the proposed regulations.

These rules were adopted as final on September 5, 2019 by resolution, and will become effective on October 1, 2019, after publication of this notice in the *D.C. Register*.

DEPARTMENT OF HEALTH

NOTICE OF SECOND PROPOSED RULEMAKING

The Director of the Department of Health ("Department"), pursuant to the authority set forth in § 1301 of the Assisted Living Residence Regulatory Act of 2000, effective June 24, 2000 (D.C. Law 13-127; D.C. Official Code §§ 44-101.01 *et seq*. (2012 Repl.)) (the "Act") and in accordance with Mayor's Order 2005-137, dated September 27, 2005, hereby gives notice of her intent to adopt the following amendment to Chapter 101 (Assisted Living Residences) of Title 22 (Health), Subtitle B (Public Health and Medicine), of the District of Columbia Municipal Regulations ("DCMR").

The adoption of this amendment to Chapter 101, which had until now contained only licensure fees, is necessary to supplement the Act, which sets uniform, minimum standards of licensure for assisted living residences ("ALRs") in the District. The purpose of the rulemaking is to address gaps in the Act that put residents at risk of injury to their persons and to the rights granted to them under the Act. The rulemaking will also enhance and clarify the Act's existing provisions as necessary to address current industry practices and challenges while promoting and protecting ALR residents' rights, health, welfare, and safety. Lastly, this rulemaking relocates the section titled "Fees" from 22-B DCMR § 10101 to 22-B DCMR § 10105, but does not make any substantive changes to the existing language in the section.

The rulemaking was first published as a Notice of Emergency and Proposed Rulemaking in the *D.C. Register* on August 24, 2018 at 65 DCR 8785. The Department received comments in response to the notice from the following (in order of receipt): Sharon E. Ricardi, President, Northbridge Advisory Services, on behalf of Hallkeen Assisted Living & Northbridge Advisory Services, jointly; Marjorie Rifkin, Managing Attorney, Disability Rights DC at University Legal Services; Kathleen N. Ausley and Dr. Allan J. Reiter, together in their individual capacities; Edward F. Howard, in his individual capacity; Mark C. Miller, DC Long-Term Care Ombudsman, Office of the DC Long-Term Care Ombudsman, Legal Counsel for the Elderly; Louis Davis, Jr., State Director, AARP DC State Office; Gilda H. Lambert, in her individual capacity; Veronica Damesyn Sharpe, President, District of Columbia Health Care Association; Kate Sullivan Hare, Executive Director, Long Term Care Quality Alliance; Judith Levy, Coordinator, District of Columbia Coalition on Long Term Care; Stephanie M. Ross, in her individual capacity; Dallas Salisbury, in his individual capacity; Margaret Lenzner, in her individual capacity; and Christy Kramer, Director, LeadingAge DC. Those who submitted comments in their individual capacities will be referred to as "Individual Commenters" for the purpose of addressing comments, below.

Based upon the review of the written comments received during the comment period, the following provisions have been amended or added in order to improve conveyance of the rulemaking's purpose, intent, or meaning:

§ 10106.3 – revised to incorporate the recommendation of Disability Rights DC, to state clearly that background check information collected pursuant to § 10104 shall be considered with the rest of the application. Commenter's recommendation was directed at § 10104.2;

however, the Department determined that the best course was to incorporate the provision via § 10106 "Initial ALR License."

§ 10106.5 – removed, to incorporate the recommendations of the DC Long-Term Care Ombudsman and Disability Rights DC to remove the provision excepting ALRs with fewer than seven (7) beds from providing evidence of a certificate of occupancy with their license application, as is consistent with current zoning regulations.

§ 10107 – revised to incorporate the recommendations of Disability Rights DC, the District of Columbia Health Care Association, and the DC Long-Term Care Ombudsman, to provide additional rules with respect to inspections conducted by the Department, including the events that trigger inspection, the scope of information subject to inspection, and the Department's protection of resident information prior to releasing an inspection report to the public. The revisions are reflected in this Second Proposed Rulemaking at §§ 10107.1, 10107.2, 10107.3, 10107.5, 10107.6, and 10107.7. The Department, however, declined to adopt the recommendation to prescribe the fixed percentage of records to review during inspections because the number of records required for the Department to ascertain compliance may be more or less than the indicated fixed percentage, depending on the circumstances of the investigation.

§ 10108.2 – revised to incorporate the recommendation of the DC Long-Term Care Ombudsman, to clarify that the minimum standard for admission is that an applicant requires "at least" the minimal level of assistance with assisted living services provided by the ALR. To further clarify the intent and meaning of the subsection, the Department has also specified "assisted living services" to be "assistance with activities of daily living or instrumental activities of daily living," consistent with the terminology used by the Act.

§ 10108.3 – revised to incorporate the recommendation of Disability Rights DC, to expressly state that an ALR shall consider available mental health resources in the District when assessing a potential resident's mental health needs and the ALR's ability to meet those needs at the time of admission.

§ 10109.3 – revised to incorporate the recommendation of the District of Columbia Health Care Association, in part, to permit a resident to view, upon demand, a copy of the required ALR policies enumerated in § 10110, but not a copy of all internal procedures connected to those enumerated policies. The Department determined that residents and surrogates must be afforded access to the ALR procedures related to the resident's access to grievance mechanisms and his or her participation in the development and revision of the individualized service plan ("ISP"). Therefore, the rulemaking will continue to preserve residents' access to those procedures, in addition to all the policies indicated in § 10110, upon demand. (Note: The revisions to §10109.3 are reflected in §§ 10110.5 and 10110.6 of this Second Proposed Rulemaking.)

Regarding resident groups and the resolution of grievances and requests: §§ 10109.4 through 10109.6 – revised to incorporate the recommendations of 2 Individual Commenters, Disability Rights DC, and the Long Term Care Quality Alliance, to set a

fifteen (15) day deadline for ALRs to respond, in writing, to requests and grievances submitted by a resident or resident group. Consequently, the Department declined to adopt the recommendation from another Individual Commenter and the DC Long-Term Care Ombudsman to set the deadline for ALRs to respond to submitted grievances or requests at ten (10) and thirty (30) days, respectively. The Department also declined to adopt another Individual Commenter's recommendation that would have also required ALRs to report their progress on all received requests or grievances within the fifteen (15) day response window because § 10109.7's requirement for the ALR to identify the action (or inaction) it intends to take is adequate correspondence from the ALR and in-line with the spirit of the Act. (Note: Recommendations for §§ 10109.4 – 10109.6 are reflected in §§ 10109.6 and 10109.7 of this Second Proposed Rulemaking.) **A new § 10109.5 – added to incorporate the recommendation of 2 Individual Commenters and AARP,** to provide for resident group meetings to be posted prominently in designated areas; to have the date, time, and location of upcoming meetings be included in the ALR's published activity calendars or schedules of events; and to ensure resident group meetings are provided meeting space of appropriate size and seating for attendees. **A new § 10109.13 – added to incorporate the recommendation of an Individual Commenter,** to prohibit using "resident group" or "resident council" to describe a group or other gathering that is moderated or otherwise controlled by an ALR.

A new § 10109.11 – added to incorporate the recommendation of the Long Term Care Quality Alliance, to ensure that the documents made available to residents on demand by the Act also be made available to a resident's surrogate, when applicable.

Regarding mandatory policies and procedures: § 10110.1 – revised to incorporate the recommendations of 2 Individual Commenters, the Long Term Care Quality Alliance, the District of Columbia Health Care Association, and Disability Rights DC, to specify that an ALR's A/V monitoring system policies shall include length of retention of recordings and destruction of recordings; to add resident falls and protection from retaliation against residents for expressing complaints and grievance to the enumerated mandatory policies and procedures; to specify that an ALR's policy on visitation shall include visitor conduct; and to rephrase language requiring that policies meet "requirements set forth by the Department" in order to clarify that the policies must meet the Director's approval. (Note: §10110.1 has been renumbered to §10110.2 in this Second Proposed Rulemaking.) **A new § 10110.1 – added in response to the recommendations of the DC Long-Term Care Ombudsman, the Long Term Care Quality Alliance, Disability Rights DC, and 2 Individual Commenters for additional policies and procedure topics to be specified,** to expressly state the Department's intent for ALRs to develop and implement policies and procedures concerning aspects of the ALR's operation, and that all policies and procedures be consistent with applicable District and federal law. **§ 10110.2 – revised to incorporate the recommendation of the Long Term Care Quality Alliance, in part,** to require all policies be dated as to when they became effective; however, the Department did not adopt the commenter's recommendation to require each dated

policy also identify all changes made from its prior version in strike-through format, as the Department does not seek to regulate how policies are edited.

Regarding Financial Agreements: § 10112.1 – revised to incorporate the recommendation of the District of Columbia Health Care Association, to clarify that quarterly financial records reported to a resident (or surrogate) shall pertain to the funds and personal property entrusted to the ALR, as described in § 603(a)(2) of the Act. (Note: § 10112.1 has been renumbered to § 10112.4 in this Second Proposed Rulemaking.) **§ 10112.2 – revised to incorporate the recommendation of Disability Rights DC,** to require an ALR turn over funds entrusted to the ALR at the time of the resident's discharge; however, the Department did not incorporate commenter's recommendation to require the final accounting be turned over at the time of discharge, as a period for the ALR to finalize its accounting beyond the moment of discharge is reasonable and consistent with practices in other jurisdictions. The revisions are reflected in §§ 10115.10 and 10115.11 of this Second Proposed Rulemaking.) **A new § 10112.2 – added to incorporate the recommendation of Disability Rights DC,** to require resident funds over two hundred dollars ($200) that are entrusted to an ALR be deposited in an interest-bearing account in the resident's name.

Regarding ISPs: A new § 10113.2 – added to incorporate the recommendation of the DC Long-Term Care Ombudsman, AARP, and an Individual Commenter, to support the participation of family and friends in the development, review, and renegotiation of a resident's ISP. **§ 10113.3 – revised to incorporate the recommendation of District of Columbia Health Care Association,** to increase the time for completing a post-admission assessment to seventy-two (72) hours. (Note: § 10113.3 has been renumbered to 10113.5 in this Second Proposed Rulemaking.) **A new § 10113.3 and new § 10113.6 – added to incorporate the recommendation of Disability Rights DC,** to identify the individuals required to participate in the ISP development and update process on behalf of the ALR. **§ 10113.5 – revised to incorporate the recommendation of an Individual Commenter,** to enumerate the details that an ALR must address in the notice of a resident's upcoming ISP review. (Note: § 10113.5 has been renumbered to § 10113.8 in this Second Proposed Rulemaking.) **A revised § 10113.6 and a new §§ 10113.10, 10113.12, & 10113.13 – added to incorporate the recommendations of Disability Rights DC, the DC Long-Term Care Ombudsman, the Long Term Care Quality Alliance, and an Individual Commenter,** to clarify the means by which disagreements between a resident and the ALR regarding updates of the resident's ISP shall be resolved prior to implementation of the ISP, and to emphasize a resident's right to engage in negotiating a shared responsibility agreement ("SRA") to refuse participation in a service. The Act and rulemaking provide for negotiation of an SRA to be the mechanism for disputing services an ALR attempts to provide a resident, and for resolving those disputes. The Act provides great protection to a resident's right to initiate negotiation of an SRA for any disagreement as to lifestyle, personal behavior, safety, or the resident's ISP. (*See*, the Act, at D.C. Official Code § 44-106.05(a)). As indicated by the numerous comments received with respect to the ISP update process, the

Department has been made aware that the Act and rulemaking's coverage of the ISP and SRA processes did not adequately inform and guide the public as intended. As a result, the Department revised and added provisions to § 10113 to provide express, detailed rules for navigating a disagreement during the ISP update process. (Note: § 10113.6 has been renumbered to §1013.11 in this Second Proposed Rulemaking.)

§ 10114.3 – revised to incorporate the recommendation of an Individual Commenter, in part, to explicitly require an ALR to document and provide to a resident, in writing, the adverse risks for which the ALR declined to enter into an SRA with the resident when declining under the authority of this subsection. A copy of that correspondence shall also be kept in the resident's record. (Note: § 10114.3 has been renumbered to § 10114.4 in this Second Proposed Rulemaking.)

§ 10114.5 – revised to incorporate the recommendation of the District of Columbia Health Care Association, to clarify that an ALR is not required to permit a resident to pursue a course of action it poses a clear and present risk of harm to the health, wealth, or safety of other residents or staff. (Note: § 10114.5 has been renumbered as § 10114.6 in this Second Proposed Rulemaking.)

Regarding a resident's relocation, transfer, or discharge: § 10115.1 – revised to incorporate the recommendation of 2 Individual Commenters and Disability Rights DC, to require consultation between the ALR and a resident prior to the ALR initiating a discharge on the basis that it can no longer meet a resident's care needs. **A new § 10115.6 – added to incorporate the recommendations of 3 Individual Commenters and the Long Term Care Quality Alliance,** to expound on the Act's protections for residents seeking to return to an ALR after having been transferred to an acute care facility to temporarily receive a higher level of care. **§ 10115.8 – revised to incorporate the recommendation of Disability Rights DC, in part,** to ensure a resident receives all personal funds he or she entrusted to the ALR during his or her residency; however, the Department did not adopt commenter's recommendation to require that ALRs provide a final accounting and any refunds due at the time of the resident's discharge because the rulemaking's existing provision of up to thirty (30) days is consistent with practices in several other jurisdictions. (Note: § 10115.8 has been renumbered as § 10115.11 in this Second Proposed Rulemaking.) **A new §10115.14 – added to incorporate the recommendations of 2 Individual Commenters, in part,** to ensure documentation of a resident's relocation, transfer, or discharge, and the basis for the action, be kept in the resident's record and, thus, be accessible to the resident. The Department declined to adopt the commenter's recommendation to require a copy of the documented relocation, transfer, or discharge be sent to the resident's physician or surrogate because both the physician and surrogate are part of the interdisciplinary team that conducts the resident's ISP review.

A new § 10116.19 – added to incorporate the recommendation of 2 Individual Commenters, to require posting the name of the assisted living administrator ("ALA") or acting administrator on duty.

§ 10118.1 – revised to incorporate the recommendation of the District of Columbia Health Care Association, and in response to multiple comments indicating a misunderstanding of the extent of an ALR's responsibility for private duty healthcare professionals, to simplify the rulemaking by holding ALRs responsible for private duty healthcare professionals to the extent of requiring and causing a private duty healthcare professional to comply with the provisions of § 10118 as a condition of providing service on the ALR's premises.

A new § 10118.3 – added to incorporate the recommendation of 2 Individual Commenters, to provide a resident with notice and an opportunity to appeal in the event that a private duty healthcare professional hired by the resident is removed from the ALR premises upon determination by the ALR that the private duty healthcare professional has, or is suspected to have, a communicable disease, is mentally or physically incapable of performing his or her duties, or otherwise presents a risk to the health and safety of one (1) or more residents in the ALR.

§ 10119.4 – revised to incorporate the recommendation of the DC Long-Term Care Ombudsman, to provide for residents or their surrogates to challenge an ALR's decision to immediately remove a companion from its premises under § 10119.4. (Note: § 10119.4 has been renumbered as § 10119.5 for this Second Proposed Rulemaking.)

A new § 10119.6 – added to incorporate the recommendation of the District of Columbia Health Care Association, to ensure that ALRs require all companions, as defined by the rulemaking, to report abuse, neglect, or exploitation of a resident to the ALR. This amendment is consistent with the reporting requirement for ALR staff and all private duty healthcare professionals providing services to residents on the ALR's premises.

§ 10122.1 – revised to incorporate the recommendation of the DC Long-Term Care Ombudsman, to clarify that on-site medication reviews are performed by a registered nurse.

A new § 10123.2 – added to incorporate the recommendation of an Individual Commenter, to clearly hold medication that requires refrigeration or medication stored on portable medication carts to security standards consistent with the Act's requirements for medication stored in the ALR's medication storage area; and to expressly state that medication be stored as indicated on its label.

§10123.3 – revised to incorporate the recommendation of Disability Rights DC, to ensure that medications are returned to residents at the time of their discharge from an ALR, to the extent permitted by law. (Note: § 10123.3 has been renumbered as § 10123.6 in this Second Proposed Rulemaking.)

Regarding medication self-administration: § 10124.2 – revised to incorporate the recommendation of Disability Rights DC, to ensure that individuals with disabilities are not disqualified from being assessed capable of self-administration due to performing the required assessment tasks with the utilization of accommodations for their disabilities, provided that he or she can perform the tasks in part (a) or (b) of the assessment tool without the assistance of another person. It is the Department's position that any individual who cannot perform the tasks required in the part (a) or (b) of the assessment tool without the assistance of another person, regardless of ability or disability, cannot safely self-administer. **A new § 10124.4 – added to incorporate the recommendations of 4 Individual Commenters and the Long Term Care Quality Alliance,** to more clearly convey the rulemaking's intent to permit residents who are capable of self-administration – or self-administration with a reminder or physical assistance to open or remove medication from containers – to utilize devices or other resources to facilitate the self-administration of their medication, as limited by the rulemaking.

§§ 10124.3 and 10124.7 – revised to incorporate the recommendation of the District of Columbia Healthcare Association, to remove trained medication employee ("TME") from the list of permitted private duty healthcare professionals because ALR residents may not directly employee TMEs. (Note: § 10124.7 has been renumbered as § 10124.8 for this Second Proposed Rulemaking.)

A new § 10125.1 – added to incorporate the recommendation of an Individual Commenter, to clarify that the Department may receive complaints regarding ALRs in addition to the DC Office of the Long-Term Care Ombudsman.

§ 10125.2 – revised to incorporate the recommendations of the DC Long-Term Care Ombudsman and Disability Rights DC, to require instances of abuse or unusual incidents involving death or criminal activity at an ALR be reported to the Metropolitan Police Department. (Note: § 10125.2 has been renumbered as § 10125.4 in this Second Proposed Rulemaking.)

A new § 10126 – added to incorporate the recommendation by the District of Columbia Health Care Association, to provide additional guidance with respect to the grounds for which an inspection can be conducted and the breadth of information that is subject to inspection. The Department provided inspection rules consistent with those that govern every other residence facility within its purview, taken from 22-B DCMR §§ 3101 and 3105 as necessary to supplement the inspection provisions already in effect under the Act.

The Department received, but declined to incorporate the following comments into this Second Proposed Rulemaking:

Regarding the Preamble and § 10117.1, recommendations to provide a grandfathering clause to permit continued practice of assisted living administration without a license for

the ALAs who currently practice in the absence of ALA licensure regulations - from Hallkeen Assisted Living & Northbridge Advisory Services and the District of Columbia Health Care Association. The Department did not accept these recommendations. This rulemaking does not have the authority to promulgate "grandfather" licensure exceptions for ALAs because license requirements for ALAs are promulgated by the District of Columbia Board of Long-Term Care Administration under the authority of the District of Columbia Health Occupations Revision Act of 1985, effective March 25, 1986 (D.C. Law 6-99; D.C. Official Code §§ 3-1201.01 *et seq*. (2016 Repl.)). The Board of Long-Term Care Administration governs the practice of assisted living administration and will develop rules in a separate rulemaking to address ALA licensure and authorized practice. Furthermore, as stated in the preambles of both the initial Notice of Proposed Rulemaking and this Second Proposed Rulemaking, the Department will not enforce the portions of the rulemaking that require an individual to be licensed by the District of Columbia Board of Long-Term Care Administration or otherwise authorized by the Director to practice assisted living administration until rules have been promulgated, and become effective, to govern said licensure and authorization.

Regarding §§ 10100.2, 10109, 10116, and Chapter 101, recommendations to repeat all or some sections of the Act, *verbatim*, in the rulemaking – from DC Long-Term Care Ombudsman, and AARP. The Department did not accept the recommendations because to do so contradicts the clear language of the rulemaking authority granted by the Act at D.C. Official Code § 44-113.01: to supplement the provisions of the Act. The Department's position is that repeating provisions for the sole purpose of visibility in both the Act and the rulemaking is not within the spirit of the rulemaking authority granted by the Act.

Regarding §§ 10100.3 and 10109, generally, recommendation to insert additional provisions to create a right to external review by an independent party in the event of the resident's disagreement with an action or inaction by an ALR; to insert additional provisions that provide a formal appeals process for residents dissatisfied with an ALR's action or inaction; and to allow residents to submit complaints to District agencies or advocacy organizations – from an Individual Commenter and Disability Rights DC. The Department did not accept the recommendation because the Act, at D.C. Official Code § 44-105.05(a)(4), already requires an ALR to provide for independent external review process as part of the grievance mechanism intended by the Act. The processes by which to exercise the grievance mechanism are presented in the service agreement between the resident and the ALR, per the Act, at D.C. Official Code § 44-106.02(a)(4). As mentioned previously, it is not the purpose of this rulemaking to repeat the Act's provisions. Furthermore, nothing in the rulemaking or the Act prevents a resident from lodging complaints to any organization that will receive them. Notwithstanding that, the Act clearly notifies residents of their right to address grievances to the Office of the Long-Term Care Ombudsman at § 44-105.05(a)(5). Nonetheless, the Department included an explicit statement of a resident's options to lodge complaints with

both the Office of the Long-Term Care Ombudsman and the Department of Health when it undertook a revision to § 10125 "Reporting" unrelated to this comment.

Regarding §§ 10100.3 and 10109, recommendations to instruct on a resident's available causes of action in the event of the resident's disagreement with an action or inaction by the Department, and to create a right for a resident to bring civil action before a jury against an ALR for violation of these rules, District and federal law, internal policies and procedures, resident agreements, or ISPs – from an Individual Commenter. The Department did not accept this recommendation because instructing residents on their available causes of action is a matter outside the scope of this rulemaking (which is to provide and expound on standards for the licensing and operation of ALRs). Furthermore, absence of the commenter's desired language does not affect a resident's right to pursue civil action against a party in common law and under other statutory authority.

Regarding § 10100.4, a recommendation to cross-reference to the corresponding federal provision for settings requirements at 42 CFR § 441.301(c)(4) and include a statement requiring compliance thereto – from DC Long-Term Care Ombudsman. The Department did not accept the recommendations because the requirement to comply with the federal rules for settings requirements at 42 CFR § 441.301 is expressly stated in the District of Columbia Department of Health Care Finance's rules for participation, at 29 DCMR § 4200.6. It is unnecessary to repeat that requirement in this rulemaking.

Regarding §§ 10100.4 and 10109, recommendations to require all ALRs comply with the requirements to participate in the Medicaid Home Community-Based Services Waiver program for the Elderly and Persons with Physical Disabilities ("Waiver program" or "EPD Waiver Program"), and to integrate all of the rules for participation in the Waiver program into the rulemaking – from Disability Rights DC, the DC Long-Term Care Ombudsman, and an Individual Commenter. The Department did not accept these recommendations because universal compliance with the Waiver program rules is not required. The Act and this rulemaking set forth uniform minimum standards of licensure which are to apply to all ALRs in the District; whereas, the Department of Health Care Finance has set forth comprehensive regulations for settings seeking participation in the Waiver program at 29 DCMR 4200 *et seq*. An ALR is required by the Department of Health Care Finance to meet the Waiver program's requirements if, and only if, that ALR expects to participate in the Waiver program. Consequently, this rulemaking instructs only ALRs seeking participation in the Waiver program to comply with the Waiver program requirements set forth by the Department of Health Care Finance and declines to incorporate those Waiver program requirements across all ALRs within the District without regard to their participation status. The Department is satisfied that the Act and its attendant regulations will ensure that ALRs who don't participate in the Waiver program maintain standards that protect the health and safety of the public and the rights of the residents, within.

Regarding § 10101, recommendations to add "facilitate aging in place" and "resident's right to have access to the community" to the purpose statement – from an Individual Commenter and DC Long-Term Care Ombudsman. The Department did not accept the recommendations because it has replaced the enumerated principles to which the commenters sought to add their suggestions with language that more clearly captures the intended purpose of the rulemaking. The recommendations have become moot.

Regarding § 10103.6, recommendation to expressly require that an ALR return its license to the Department after a license restriction has been imposed upon it – from the DC Long-Term Care Ombudsman. The Department did not accept this recommendation because commenter's recommendation is inconsistent with existing rule language governing the return of licensure for other residence facilities within the Department's purview. The Department has determined that this license requirement language should be consistent across all residence facilities within its purview at this time.

Regarding § 10104, recommendations to make the applicant background checks described in § 10104.2 compulsory for all applicants – from the DC Long-Term Care Ombudsman and an Individual Commenter. The Department did not accept these recommendations because the applicant background checks in § 10104.2 are separate from and additional to the criminal background checks already required for applicants by the Act. The applicant background checks in § 10104.2 are available to the Department as a tool for the agency to utilize when further applicant information is needed. The applicant background checks in § 10104.2 are intentionally discretionary in order to avoid unnecessary expenditure of resources on applications for which such background checks would be frivolous.

Regarding § 10104.2, recommendations for a compulsory disqualification of applicants who "fail the criminal background check" or who are alleged to have engaged in conduct that would "fail" the criminal background check – from the DC Long-Term Care Ombudsman and Disability Rights DC. The Department did not accept these recommendations because the Act already cross-references to the enumerated list of crimes for which an applicant who has been convicted may not receive an ALR license under the Health-Care Facility Unlicensed Personnel Criminal Background Check Act of 1998. Further, the standard for disqualification is <u>conviction</u> of one of the crimes enumerated in that list (and its corresponding regulation at 22-B DCMR § 4705), not just the allegation of criminal conduct, as requested by the commenter.

Regarding § 10105, recommendations to increase licensing fees – from the Long-Term Care Quality Alliance and an Individual Commenter. The Department did not accept the recommendation because it did not determine that there was a need to increase licensing fees at this time.

Regarding § 10106: A recommendation to add an explicit requirement that all application materials be matters of public record and posted publicly – from an Individual Commenter. The Department did not accept the recommendation because the public's right to access and inspect public records is set forth by the Freedom of Information Act of 1976, effective March 29, 1977 (D.C. Law 1-96; D.C. Official Code §§ 2-531 *et seq*. (2016 Repl.)), as amended. It is not necessary to repeat the provisions of that law in this rulemaking. **A recommendation to alter the definition of "change of ownership" as it currently exists in the Act in order to expressly account for changes of control at an ALR – from an Individual Commenter.** The Department did not determine a need for this requirement at this time. It is the Department's position that the Act's existing definition for "change in ownership" is sufficient to adequately inform and instruct the public.

Regarding § 10606.6, recommendation to remove the requirement for the internal procedures enumerated in § 10110 to be submitted to the Department as part of the ALR license application – from the District of Columbia Health Care Association. The Department did not accept this recommendation because the requirement to review policies and procedures during the application process is completely consistent with the Act's existing application requirements to submit disaster plans, staffing plans, ISP procedures, and other reasonably relevant information required by the Department. The Department is the regulatory authority charged with enforcing an ALR's compliance with ALR laws and its safekeeping of ALR residents in the District. As such, it is the Department's position that it must be able to review the applicant's procedures enumerated in § 10110 in order to adequately assess an applicant's proposed operations and proactively protect the public from violations of the Act's standards of care and other applicable requirements.

Regarding §§ 10107 and 10126, recommendations to add provisions that prescribe a fixed type and number of files to be reviewed by the Department during inspections – District of Columbia Health Care Association, DC Long-Term Care Ombudsman, and an Individual Commenter. The Department did not adopt the recommendation to prescribe the fixed percentage of records to review during inspections because the number of records required for the Department to ascertain compliance may be more or less than the fixed percentage, depending on the circumstances of the investigation and size of the ALR. The Department has provided in this Second Proposed Rulemaking additional inspection rules that are consistent with the inspection regulations applicable to other residence facility within its purview in order to supplement the inspection provisions already in effect under the Act. (Note: § 10126 has been incorporated into § 10107, which has been retitled "Inspections Before and After Licensure" in this Second Proposed Rulemaking.)

Regarding § 10108, recommendations to amend the minimum standard for admission to allow individuals who do not receive assisted living services to be admitted to an ALR – from 2 Individual Commenters and the Long-Term Quality Care Alliance. The Department did not adopt this recommendation because it is not consistent with the spirit or intent of the Act.

It is the Department's position that an ALR shall admit only individuals whose initial assessments and ISP indicate that the individual should receive assisted living services (i.e., assistance with activities of daily living or instrumental activities of daily living), as is intended by the Act and evidenced in its Purpose and Philosophy of Care sections. (*See* D.C. Official Code §§ 44-101.01 – .02). The Department's position is consistent with numerous jurisdictions across the nation that also restrict admission to individuals who receive some level of assistance with activities of daily living or instrumental activities of daily living.

Regarding § 10108.1, recommendation to amend the leading sentence to incorporate a resident' surrogate – from AARP. The Department did not accept this recommendation. The Department deleted the leading sentence after determining it to be unnecessarily repetitive of the Act, thereby rendering the recommendation moot.

Regarding § 10108.2: A recommendation to base the determination of a resident's need for the minimum level of assisted living service provided by the ALR on the assessments conducted prior to admission rather than on the ISP that is developed based on those assessments – from the District of Columbia Health Care Association. The Department did not adopt this recommendation because it is in the public's best interest for an ALR to develop (or attempt to develop) an ISP for all applicants prior to making a determination about the level of assisted living services that individual should receive. The requirement ensures that an ALR adequately documents in the ISP the assistance needs indicated by an applicant's assessments or, if the applicant's assessment does not indicate a need for the minimum level of assistance, the requirement ensures that the ALR creates adequate documentation of the resident's assessment as the basis of his or her ineligibility for admission. **A recommendation to clarify the intended meaning of "minimum level of assisted living services provided by the ALR" by clarifying that those services are provided in the base monthly cost without any additional fees; and to require that ALR providers present each applicant with line by line detail regarding the services included at every level of care, and what is interchangeable without added charge, and if a point system is used to determine level of care, that the applicant shall be given a menu of the points for each and every service that the ALR would propose to charge for as part of more than the "minimum level" of care provided for the base rent/fee – from an Individual Commenter.** The Department has determined that it need not adopt the commenter's recommendations. The Department, when revising the language in § 10108.02 of this Second Proposed Rulemaking, clearly indicated that an applicant must require "at least the minimal level of assistance with activities of daily living or instrumental activities of daily living provided by the ALR." The Department determined that it is not necessary to accommodate the commenter's recommendation to define "minimal level of assistance provided by an ALR" as "the assistance included in an ALR's base service package" because the Department's new definition adequately conveys the meaning that the Department intends to be received by the public. Further, it is the Department's position that the Act provides a sufficient universal, minimum standard for disclosure of rates, services, and service packages at D.C. Official Code §

44-106.03(a)(3) and assures residents are adequately informed of these financial details prior to admission at §§ 44-106.02(a) and 106.03(a). Therefore, the Department declined to accept the recommendations. **A recommendation that § 10108.2 should be revised to prohibit the perpetuation of disability-based discrimination that would violate the Americans with Disabilities Act, the Fair Housing Act, and the District of Columbia Human Rights Act – from Disability Rights DC.** The Department did not accept this recommendation. The recommendation appears to be founded on the commenter's misunderstanding that § 10108.2 prohibits individuals who need more than the minimal level of assisted living service provided by an ALR. Instead, the provision prohibits those who do not require at least the minimum level of service. The Department has revised the language of § 10108.2 for clarity in order to prevent similar misunderstandings in the future. Additionally, the commenter's recommendation appears to be founded on the mistaken belief that beneficiaries of the District's EPD Waiver program must require a level of service that can only be provided by facilities that provide a nursing facility level of care or higher; however, the EPD Waiver program is intended for individuals who might be eligible for admission to a nursing facility, but who can receive appropriate and adequate care at a facility that provides less than a nursing facility level of care. (*See*, DC Department of Health Care Finance webpage for the EPD Waiver Program. "The EPD waiver program is a Medicaid Waiver choice program for the elderly and individuals with physical disabilities who are able to safely receive supportive services in a home and community-based setting." (Emphasis added.))

Furthermore, the commenter did not provide reasoning or support for its allegation that the admission standards in § 10108 perpetuate a policy of admissions practices and discharge grounds that discriminate against individuals with mobility disabilities and, thus, violated the Americans with Disabilities Act, the Fair Housing Act, or the District's Human Rights Act. The Department has deliberated on this allegation greatly and has not found any provision in § 10108 or the Act that corroborates the commenter's allegations. To the contrary, the Act expressly states that all residents have the right to reasonable accommodations for individual needs and preferences, and the rulemaking reiterates the Act's provision that an ALR shall make every effort to avoid discharge, including reasonable accommodations.

Lastly, the commenter incorrectly alleges that the rulemaking inappropriately permits ALRs to deny admission to individuals who need more than 35 weekly hours of combined nursing and health air services when, in fact, this admission standard: 1) Is statutorily established by the Act at § 44-106.01(d)(2); and 2) denies admission when the individual is at high risk for health or safety complications that the ALR cannot adequately manage and requires more than 35 weekly hours of combined nursing and health air services. Nothing in the rulemaking expands the Act's limitation to encroach upon disability rights, contrary to the comment's allegation. Therefore, the Department determined that there is no need to adopt the recommendation to revise the subsection to avoid perpetuating discrimination.

Regarding § 10108.3: A recommendation to describe an ALR's obligation to provide appropriate treatment modalities – from Disability Rights DC. The Department did not adopt this recommendation because it is the Department's position that both § 10108.3 and the Act, at D.C. Official Code § 106.01(d)(1), are sufficiently clear on the point: An ALR is obligated to employ appropriate treatment modalities to manage dangerous and negative behaviors as a condition of admitting a resident who is dangerous to himself or others or exhibits the negative behavior described by the rule. **A recommendation to amend the Act's admission standards in order for residents with dementia to reside at ALRs, and to allow ALRs to reject patients whose compliant behavior depends on the use of strong sedative medication or restraints that incapacitate the patient and do not comply with the facility's standards – from an Individual Commenter.** The Act provides that an ALR may only admit a resident for whom it can provide adequate and appropriate services. That decision is made by the ALR, which is in the best position to know its capabilities and resources, not by rulemaking. The Act's admission standards do not need to be amended in order for residents with dementia to be admitted at ALRs which are prepared to render adequate and appropriate care, as evidenced by the successful operation of an ALR in the District that continues to accept residents with dementia. Furthermore, neither the Act nor the rulemaking compel an ALR to admit a resident that it cannot adequately and appropriately treat without violating that resident's rights (e.g., by using physical restraints or psychopharmacologic drugs to render the resident compliant rather than to treat a standard psychological diagnosis). Therefore, the Department did not determine a need to amend the Act's admission standards for residents with dementia at this time.

Regarding § 10109: A recommendation to expressly mention the entire range of ALR services provided by ALRs – from Disability Rights DC. The Department did not accept this recommendation because Act, at D.C. Official Code § 101.02(b)(1), adequately describes the services that may be provided by ALRs: the provision or coordination of personalized assistance through activities of daily living (which the Act defines with adequate specificity), recreational activities, 24-hour supervision, and provision or coordination of health services and instrumental activities of daily living (which the Act also defines with adequate specificity). The Department did not determine a need to enumerate ta list of ALR services in the rulemaking. R**ecommendations to extend all rights provided within to surrogates – from an Individual Commenter.** The Department did not accept this recommendation. Although a surrogate is extended the rights granted to a resident in several cases due to the nature of the legal relationship between the two, there are many cases in which rights granted to residents do not apply to the surrogate. Instead of broadly granting surrogates the same rights as residents across § 10109, the rulemaking expressly states when the surrogate is extended a right (e.g., the phrase "the resident (or surrogate)" appears throughout the rulemaking when applicable.). **A recommendation to insert an additional rule that states: Except in emergencies, the resident may refuse to admit and, may deny immediate entry of ALR staff to their unit until an appointment has been scheduled at a mutually convenient time – an Individual Commenter.** The Department did not accept this recommendation because it is inconsistent

with the agency's objective to protect the health, safety, and welfare of the public, including ALR residents. An ALR is responsible for the safety of its residents at all times. A requirement to wait for an appointment in order to gain entry to a resident's living quarters can interfere with an ALR's ability to assess the health or welfare of a resident, and the Department does not venture to regulate how an ALR might determine an emergency is occurring within the resident's living unit that would justify entry without consent. Therefore, the Department does not intend to incorporate the recommendation. **A recommendation to insert an additional rule that requires an ALR to report to the resident if the ALR suspects the surrogate is making decisions or taking actions that are not consistent with the resident's desires – from an Individual Commenter.** The Department did not accept this recommendation because to do so would result in imposing a rule on ALRs to speculate "what the resident desires or would want" when that decision is the surrogate's by definition of the surrogate-resident relationship. Furthermore, the Act and this rulemaking already require an ALR to report any surrogate conduct that is suspected to be abuse, neglect, or exploitation of a resident to the proper authorities. Therefore, the Department's position is that the rulemaking and Act provide adequate protections and there is no need to adopt this recommendation. **A recommendation to add a provision requiring ALRs to consult with residents prior to selecting, planning, and scheduling all resident activities – from an Individual Commenter.** The Department did not adopt this recommendation because it overreaches the spirit and intent of the Act at § 44-105.01(b). (In order to promote independence an ALR shall provide or coordinate recreational and social activities in a way that promotes optimum dignity and independence for the residents.) The recommendation is at odds with the Act because it seeks to require that an ALR consult with its residents before selecting, planning, or scheduling any resident activity; whereas the Act provides for the ALR to steer the organization of activities with the resident's dignity and independence in mind. Furthermore, if the recommendation were incorporated into the rulemaking, it would impede, rather than improve, social and recreational activity planning because all social and recreational planning would be stalled until the activities could be presented to all interested residents for their input. **Recommendations to state a resident's right to exercise his or her rights as a resident of the ALR and as a citizen or resident of the United States, and to expressly prohibit an ALR from altering the authority granted to a surrogate by the resident or a court of law – from an Individual Commenter.** The Department did not accept these recommendations because they are outside the scope of the rulemaking's authority and are also unnecessary. The Department does not have the authority to confer upon individuals the rights granted to residents or citizens of the United States. Likewise, the commenter seeks to include language that expressly prohibits an ALR from altering the rights granted to a surrogate; however, an ALR does not have the natural authority to augment or diminish the legal rights granted to a surrogate by the resident or a court order. Furthermore, it is unnecessary for the rulemaking to create "the right to exercise his or her rights as a resident" as this language is circular. **A recommendation to insert additional language to present grievances to the ALR or any party without criticism, restriction, punishment, or**

discouragement by the ALR or an organization affiliated with the ALR and without action taken against a third party as a means of exerting pressure (i.e., without retaliation) – from an Individual Commenter. The Department did not accept this recommendation because the requested provision is already sufficiently protected by law, at D.C. Official Code § 44-105.05(a)(3), which provides residents the right to present grievances and complaints without fear of threat of retaliation. **Recommendations to insert additional language to protect a resident's right to make his or her own choices, and a resident group's right to conduct its business, free of interference by family, surrogates, or the ALR; and to prohibit the ALR from seeking out a resident's family members or others with the intent of having them influence the choices of the resident (i.e., interference with a resident's right to act autonomously) – from 2 Individual Commenters.** The Department did not adopt these requests for additional provisions protecting a resident's right to autonomy because the Act and this rulemaking already include several provisions that prohibit retaliation and interference with a resident's right to act autonomously. **A recommendation to create rights for family groups and groups other than resident groups to form on ALR premises and be provided the same benefits and protections given to resident groups under the Act – from the Long Term Care Quality Alliance and 2 Individual Commenters.** Commenter's request to create a right for residents to form groups other than resident groups is not within the spirit and intent of the Act, and not a matter of public health, safety, and welfare within the Department's purview. The Act clearly assigns several rights to resident groups but does not extend those rights to groups organized and run independent of the residents, such as family groups. The Department's position is that the Act did not intend to extend a resident group's rights to members of the general public such that they should be entitled to organize on an ALR's premises and be accommodated by the ALR with meeting space and staff members to assist with the meeting and respond to grievances and complaints by deadlines enforced by the Department.

Regarding §§ 10109 and 10111, recommendations to mandate compliance with HIPAA across all ALRs, to prescribe a process for protecting confidential information in resident records and resident health records, and to impose a requirement for all ALRS to track and identify every staff member each time he or she accesses information contained within a resident's health record – from 2 Individual Commenters. The Department did not accept these recommendations because they seek for the Department to subject all ALRs to HIPAA's Privacy and Security rules regardless of whether the ALRs would be considered covered entities by HIPAA's own definition. Additionally, the Act, at D.C. Official Code § 44-105.06(a)(2), adequately protects residents' rights to confidential treatment of health information by providing for residents to have their records kept confidential and released only in accordance with their informed, uncoerced consent. The commenter did not offer recommendations that could improve the Act's existing provisions. Last, the tracking of staff members' access to resident records is not required by any of the District's residence facility standards and the Department did not determine that a need exists to create such a standard for ALRs.

Regarding § 10109, generally, and § 10109.8, recommendations to state a requirement for ALRs operate in compliance with the Department's policies and procedures, and District and federal laws; and to require that ALR resident agreements shall conform with District and federal laws – from 2 Individual Commenters. The Department did not accept these recommendations because ALRs are already required to operate in conformance with all applicable District and federal law, per §§ 10102 and 10106. Additionally, federal law does not regulate the operation of ALRs beyond their eligibility to participate in Medicaid and Medicare; therefore, a requirement to operate in compliance with federal ALR law is impractical. Furthermore, the Department's policies and procedures are internal, and meant to address ALR survey and licensure tasks for the Department's staff. Therefore, neither can be imposed upon ALRs.

Regarding § 10109.1, a recommendation to require ALR staff to follow the direction of the resident at all times, unless the resident is declared incompetent by a court of law – from an Individual Commenter. The Department did not accept this because the Department's position is that ALR staff must not be prohibited from using their professional judgment to make decisions about resident care in order to prevent a resident from serious harm to the resident or others.

Regarding § 10109.2, a recommendation that "retaliation" should be changed to "fear of retaliation;" and that a resident's fear of retaliation should be deemed the same as abuse under the Act; and that all the provisions related to reporting abuse under the Act and the rulemaking shall also apply to causing fear of retaliation. The Department did not accept this recommendation, but rather amended "retaliation" to be "threat of retaliation," because it is a more precise description of the conduct ALRs are prohibited from engaging in under the Act. In contrast, "fear of" threat of retaliation – which is the complete phrase used in the Act - pertains to the resident's response (fear) to the prohibited conduct (threats of retaliation). The Department's chosen language more clearly conveys the agency's intent to prohibit threats of retaliation per the Act and minimizes potential for misinterpretation.

Regarding §§ 10109.3 and 10110, recommendations to require all ALRs to provide written and or electronic copies of any and all policies enumerated in § 10110 upon demand; and to require a standard that policies presented for a resident's be presented in written form – from Long Term Care Quality Alliance, and 4 Individual Commenters. The Department did not accept these recommendations because it did not wish to impose a universal requirement for ALRs, big and small, to print policies upon request due to the number of policies enumerated in §10110, the volume of each policy's contents, and the requirement of staff available to accommodate the requests on demand. The Department is also aware that not every ALR keeps electronic copies of its policies fit for public distribution at all times (nor does every resident have the technology required to receive an electronic copy) and does not seek to impose such a requirement in order to effectuate the recommendations. Furthermore, the purpose of the rule is to guarantee residents' access to ALR policies, and it is the Department's position that this goal

can be achieved via electronic or written presentation of those policies. The rulemaking does not intend to restrict the methods by which an ALR shares its policy with a resident (provided that the resident does not require accommodations for a disability that compels the ALR to provide the policies in a particular format).

Regarding §§ 10109.4 and 10109.7, to insert language that requires the resident group to approve attendance by a surrogate or the guests a resident invites to the resident group meeting, and to modify the ALR's requirement to provide a staff member to facilitate meetings and receive requests and grievances so that staff need only be provided upon the request of the resident group – from District of Columbia Health Care Association. The Department did not accept these recommendations because they contradict the Act and restrict a resident in his or her ability to exercise the resident rights expressly granted by the Act, at D.C. Official Code § 44-105.05. The rules are intended by the Department to protect the rights of residents, and to ensure that surrogates can be involved and informed in ALR resident matters so that they may make decisions in the best interest of the resident he or she represents.

Regarding § 10109.6, a recommendation to remove the provision that § 10109.6 should not be interpreted as requiring an ALR to implement a resident or resident group's requests exactly in the manner recommended by the resident or the resident group – from the DC Long-Term Care Ombudsman. The Department did not adopt this comment because, in order to sufficiently convey the intent of the rule, to the rulemaking must make clear that an ALR is not required to adopt recommendations made by residents or resident groups in the exact manner they are recommended.

Regarding § 10109.8: A recommendation to relocate § 10109.8 to its own section - from the DC Long-Term Care Ombudsman. The Department did not adopt this comment because § 10109.8 is correctly organized under the proper section. Resident groups are organized in the Act under Subchapter V "Resident's Rights and Quality of Life," and will be organized in the regulations under the corresponding section for Resident Rights, § 10109. **Recommendations to expand the list of documents to which residents have a right to access upon demand at D.C. Official Code § 44-105.06(a)(1) – from 2 Individual Commenters and the Long Term Quality Care Alliance.** The Department did not accept this recommendation because the documents identified by the existing rule are the documents the Act intended to be made available. To provide better clarity as to the intent and meaning of the rule, the Department has taken the opportunity in this Second Proposed Rulemaking to describe the documents that are covered in additional detail but did not expand the list of documents. The revision is reflected in § 10109.10 of this Second Proposed Rulemaking.

Regarding §§ 10109.8 and 10111.1, recommendations to emphasize the parts of a resident agreement containing a binding pre-dispute arbitration agreement – from an Individual Commenter and the Long-Term Quality Care Alliance. The Department did not adopt this recommendation at this time because the agency will look to federal rules for guidance on

binding pre-dispute arbitration clauses in long-term care facilities when the federal rules are issued as final.

Regarding § 10110, recommendations to require that ALRs make all currently-written policies and procedures available immediately, and to complete the development and implementation of any that do not currently exist within 90 days of the rulemaking's effective date – from 2 Individual Commenters. The Department did not accept these recommendations because it is not necessary to add these requests to the rulemaking. The rulemaking, by operation of law on its effective date, will require that the enumerated policies be made available for view upon request. Additionally, the Department is working with ALRs to help providers achieve compliance with policy and procedure requirements in a period of time that is reasonable for ALRs while still protecting the health and safety of the public. The Department declines to set a fixed deadline via rulemaking because ALRs will progress to full compliance at different rates, depending on their size and available resources. The Department will monitor ALRs to ensure progress towards full compliance does not stall.

Regarding § 10110, recommendations to require policies and procedures that ensure ALRs make their applications, contracts, agreements, ISPs and all policies and procedures, and written notices available in alternative formats for people who are blind or have low vision, and accommodate people who rely on service animals to live in ALRs with their service animals based on the Fair Housing Amendments Act; and to require policies and procedures that incorporate the District's HCBS Transition Plan, including the "EPD Provider Readiness Review Checklist which the District [committed to using] to process renewals of assisted living providers' status as EPD waiver providers and to verify compliance with the following requirements under 42 CFR § 441.301...[to ensure, inter alia,] [t]he setting is integrated in and supports full access of individuals receiving Medicaid HCBS to the greater community" – from Disability Rights DC. The Department did not adopt these recommendations. § 10110 sets forth the mandatory policies and procedures to be required across all ALRs, based on the Act's expressed requirements and the minimum documentation needed by the Department in order to assess whether the facility is appropriate for licensure. It is the Department's position that the commenter's policy and procedure suggestions are not necessary for the Department's assessment purposes. The commenter's recommendations are already provided by the Americans with Disabilities Act and the Fair Housing Act, as amended, and are applicable to ALRs under those federal laws. The rulemaking enables the Department to enforce an ALR's compliance with the ADA, FHA, and other anti-discrimination laws via §§ 10102.5 and .6, and §§ 10130.1-.3. The Department's position is that the protections provided by those federal laws, coupled with the agency's ability to enforce them, is sufficient to protect the public's interests. Thus, the Department did not determine a need to adopt the recommendation at this time.

Additionally, the commenter mistakes the HCBS Transition Plan as the Department of Health's obligation to implement into the rulemaking. The Transition Plan, which sets forth the

benchmarks and timeline the District needed to achieve in order to be approved for Medicaid participation, was developed and implemented by the Department of Healthcare Finance because it is the agency responsible for the District's State Medicaid plan. The Transition Plan is not within the Department's purview or the scope of the Act or this rulemaking; therefore, the Department will not incorporate it into the rulemaking.

Regarding § 10110.1, recommendations to expand the enumerated policies and procedures required by all ALRs in the District to include "privacy rights, confidentiality of health records under HIPAA, and diversity training;" "Unwitnessed falls and injuries, Family Council, Resident and Family Council, Resident Council, bedsore and wound care treatment and prevention, catheter care, stroke and heart attack care, symptoms and prevention, Lifeline and response methods and timing, resident responsibilities, administrative and housekeeping schedule and requirements, food poisoning or similar adverse food related events, contagion disease outbreak, and partial or total emergency evacuation in the event of fire, earthquake, prolonged power outage, prolonged water or plumbing failure, or prolonged mechanical system failure;" "privacy rights and confidentiality of health records under HIPAA and DC laws protecting health and mental health information, basic non-discrimination principles, diversity training (including LGBTQI training), prohibition on physical or chemical restraints, and handling and documentation of unusual incidents;" and "use of electronic medical records and electronic medication administration records as well as supporting resident use of technology in all areas where it might contribute to resident health and safety" – from the DC Long-Term Care Ombudsman, 2 Individual Commenters, the Long Term Quality Care Alliance, and Disability Rights DC. The Department did not adopt this recommendation. § 10110 sets forth the minimum mandatory policies and procedures that will be required across all ALRs in order to satisfy the Act's express requirements to have a particular policy or procedure, and to provide the minimum policies and procedures needed for the Department to assess whether the facility is appropriate for licensure and operation. It is the Department's position that the additional policies recommended by the commenters are not necessary for the Department's assessment purposes at this time. Last, some of the recommended policies and procedures have already been captured by a category enumerated in the rulemaking; e.g., the requirement for emergency preparedness policies and procedures will address partial or total emergency evacuation in the event of fire, earthquake, prolonged power outage, prolonged water or plumbing failure. (Note: § 10110.1 has been renumbered as §10110.2 for this Second Proposed Rulemaking.)

Regarding § 10110.1, recommendations to add specific requirements and scope to the content of the enumerated policies and procedures, including specifying that the criteria to determine a resident's care must include written details on services provided at each level of care or detail on point systems used to determine each level of care offered by the ALR; specifying that visitation policies shall require that the ALR allow residents immediate access to representatives of numerous government agencies and resident advocacy groups,

to family and guests, and to his or her physician and legal counsel; specifying that complaints and grievances policies and procedures must cover a neutral independent arbitrator, a resident's right to be represented by an advocate of choice or have a witness present at meetings, timelines for each phase of the process that ensure that the grievance is resolved and a final report issued within 30 business days from the date the grievance is filed with the grievance officer, use of written or audio records of the grievance and any supporting evidence, use of audio recordings of all meetings held related to the complaint, a written report with conclusions and justifications, an appeals process, and a file containing all pertinent information related to the complaint that is required to be maintained by the ALR for a minimum of 10 years and is accessible to the resident; specifying that policies for audio-visual monitoring systems must prohibit misuse of the system in a retaliatory, discriminatory, or disciplinary manner; – from 2 Individual Commenters. The Department did not accept this recommendation because it is not the purpose of § 10110 to set prescriptive policies for ALRs. Instead, § 10110 sets forth the minimum mandatory policies and procedures that will be required across all ALRs in order to satisfy the Act's express requirements to have a particular policy or procedure, and to provide the minimum policies and procedures needed by the Department to assess whether the facility is appropriate for licensure and operation. It is the Department's position that the recommended additions to the Department's selected policies and procedures are not necessary for the Department's assessment purposes at this time. Furthermore, the recommended specifications seek to create protections of resident rights that are redundant to resident right protections already provided throughout the Act and the rulemaking. Nonetheless, the Department did take the opportunity in this Second Proposed Rulemaking to revise § 10110.1(l) in order to indicate that audio-visual monitoring systems shall be used to monitor non-private areas of the ALR's internal and external premises, which is in-line with the spirit of the recommendations received from the 2 Individual Commenters regarding discriminatory, retaliatory, or disciplinary use of surveillance.

Regarding § 10110.1, recommendations to rewrite paragraph (f) as "incidents and complaints" in order to be consistent with the Department of Health Care Finance; and to rewrite paragraph (q) as "access to emergency medical services, including emergency transport via ambulance" – Long-Term Care Quality Alliance and District of Columbia Health Care Association, respectively. The Department did not accept these recommendations because the existing language in paragraph (f) is consistent with the Act and the existing language in paragraph (q) clearly describes the policy and procedure that the Department seeks to require.

Regarding § 10110.1(m), recommendations to make visitation policy standards allow for 24/7/365 unrestricted visitation – from 4 Individual Commenters. The Department did not accept this recommendation because § 10110 sets forth the minimum mandatory policies and procedures that will be required across all ALRs in order to satisfy the Act's express requirements to have a particular policy or procedure, and to provide the minimum policies and

procedures needed by the Department to assess whether a facility is appropriate for licensure and operation. It is not the purpose of § 10110 to set policies for ALRs, which is what the commenters are effectively requesting. Instead, the Act directs ALR visitation policies by granting residents a right to "free access to visitors of their choice." Therefore, it is the Department's position that the recommended specifications to visitation policies are not necessary or appropriate for this rulemaking. Furthermore, the recommendations would confer upon visitors a right to stay on an ALR's premises 24/7/365, which overreaches the intent and spirit of the Act. The Department's position is that "free access to visitors of their choice" was intended to prevent an ALR from withholding a resident's visitation in a discriminatory manner and does not equate to a right to keep visitors on the ALR's premises 24/7/365 and without restriction.

Regarding § 10110.1(m), a recommendation that "the visitation policy should distinguish between 'paid' and 'unpaid' visitors, since a compensated Private Duty Aide (10119) or compensated Companion (10118) are also 'visitors' to the resident and the facility" – from the Long Term Care Quality Alliance. The Department did not adopt this recommendation because a distinction between paid and unpaid visitors is not pertinent to the Department's assessment of an ALR's visitation policy. Furthermore, the rulemaking clearly distinguishes between receiving a visitor and receiving healthcare or companion service providers, as indicated by separating the policies for a resident's right to visitation (paragraph (n)) from policies for private duty healthcare professionals and companions (paragraphs (c) and (d)).

Regarding § 10111, generally: A recommendation to add "And every licensed ALR in the District of Columbia shall fully comply with the patient privacy and access to information provisions of HIPPA" – from an Individual Commenter. The Department did not accept this recommendation because it seeks for the Department to subject all ALRs to HIPAA's Privacy and Security rules regardless of whether the ALRs would be considered covered entities by HIPAA's own definition. Furthermore, the Act, at D.C. Official Code § 44-105.06(a)(2), adequately protects residents' rights to confidential treatment of health information by providing for residents to have their records kept confidential and released only in accordance with their informed, uncoerced consent. The commenter did not recommend how these existing protections could be further improved beyond this standard. **A recommendation to expound on the Act's provision regarding fair and reasonable contract terms and billing practices by, for example, requiring ALRs to provide the elements that make up service levels, offering bundled services a la carte with opportunity to decline services on an a la carte basis, and capping cost of a la carte services at the price of the service level – from the Long Term Care Quality Alliance.** The Department did not adopt this recommendation because the Act already provides a sufficient universal, minimum standard for disclosure of rates, services, and service packages at D.C. Official Code § 44-106.03(a)(3): "The written resident agreement shall include financial provisions that indicate the following: Rate structure and payment provisions

covering all rates to be charged to the resident, including the following: (A) Service packages; (B) Fee for service rates; and (C) Any other nonservice related charges." The Act requires that these financial details be available for an applicant to review prior to admission so that a resident is afforded an opportunity to gather all the service cost information he or she requires before entering into a resident agreement. The Department will be consistent with other jurisdictions in the nation by regulating ALR service costs only to the extent provided in the Act is. **Recommendations to rewrite the subsection to read: "An ALR shall not provide any service or item that will be at a cost additional to the aggregate of assisting living services that are identified in the resident's most current ISP;" to remove the requirement to provide oral notice of an increase in fees; and to remove the requirement to obtain a resident's signature confirming receipt of the written advanced disclosure – from the District of Columbia Health Care Association.** The Department did not accept these recommendations. The language selected by the Department achieves the Department's intent to protect residents' rights by requiring proper notice of <u>any</u> rate increase, pursuant to the Act at § 44-106.03(a)(6), including nonservice related charges. Furthermore, the Department's position is that the written disclosure requirement is critical in protecting residents from surprise expenses related to their services. Rather than delete the provision, as recommended, the Department has inserted an additional provision to instruct how ALRs should document unsuccessful attempts to obtain a resident's signature confirming receipt of the advance disclosures. The Department made a clerical revision to the subsection in this Second Proposed Rulemaking in order to more concisely convey the provision; however, the subsection maintains the Department's intent to protect residents' rights by requiring proper notice of any rate increase, including increases for nonservice related charges. **Recommendations to provide for a resident to affirm agreement, or indicate his or her disagreement, with the ISP – from 2 Individual Commenters.** The Department did not adopt these recommendations because they do not assist the agency in achieving the rule's intent, which is to document that the statutorily-required notice was given. The rulemaking provides for a resident's disagreement with the ISP to be recorded in § 10113 of this Second Proposed Rulemaking.

Regarding § 10111.3, a recommendation to remove § 10111.3, which allows an ALR to be excused from the section's requirements under emergency circumstances – from the DC Long-Term Care Ombudsman. The Department did not accept this recommendation because this provision is necessary to allow an ALR to immediately implement a new service or item to protect a resident's health and safety in exigent emergency circumstances without fear of penalization.

Regarding § 10112, generally, a recommendation to clarify whether an ALR may require a responsible party to guaranty full payment of ALR invoices and other obligations – from an Individual Commenter. The Department did not accept this recommendation because the Act is clear that an ALR may require a guarantor, stating, at D.C. Official Code § 44-106.03(a)(5), that a resident agreement shall identify the persons responsible for payment of all

the resident's fees and charges. The Department did not determine that there is a need to repeat this provision in the rulemaking.

Regarding § 10112.3, a recommendation to require ALRs to disclose all fees and extra charges that a resident may encounter during their lifetime at the ALR, prior to admission – from an Individual Commenter. The Department did not accept this recommendation because it is not reasonable to require an ALR to anticipate all fees and charges it might impose for the indeterminable future.

Regarding §§ 10113 and 10114.4, recommendations to regulate a resident's documentation of good faith attempts to negotiate an SRA, or disagreements with an ALR or its version of recorded events. – from an Individual Commenter. The Department did not adopt these recommendations to regulate a resident's independent documentation of interactions and disagreements with an ALR because this rulemaking is concerned with regulating the licensure and operation of ALRs, not residents. Furthermore, the Department's regulations do not affect a resident's right or ability to independently document its interactions with an ALR.

Regarding § 10113.2, a recommendation to clarify whether ALRs may accept recent assessments performed by practitioners who are unaffiliated with the ALR for purposes of the ALR's initial assessment and ISP development process – from Disability Rights DC. The Department did not adopt this recommendation because the reliability of such assessments is a determination to be made by the ALR and the healthcare professionals developing the resident's ISP. The Department's position is that there is not a need to regulate the use of such assessments at this time.

Regarding § 10113.2(c), a recommendation to remove the requirement that an ISP be based on the reasonable accommodation of a resident or surrogate's preferences because such preferences are not assessments – from District of Columbia Health Care Association. The Department did not remove paragraph (c) as recommended by this comment because the contents of paragraphs (a), (b), and (c) are required by the Act. However, the comment is correct in that the preferences indicated in paragraph (c) are not assessments, as the lead-in language of § 10113.2 suggests. Therefore, the Department has amended § 10113.2 to correct the misstatement by referring to paragraph (a), (b), and (c) as "factors" instead of "assessments." (Note: § 10113.2 has been renumbered as § 10113.4 in this Second Proposed Rulemaking.)

Regarding 10113.4: Recommendations to also obtain a signed statement from residents indicating whether the resident agrees or disagrees with the ISP – from 2 Individual Commenters. The Department did not accept this recommendation because the Department has revised the rulemaking, particularly in Section 10113, to include additional protections and guidance when a resident disagrees with the ISP developed by the ALR. The revision instructs that a resident's disagreement with an ISP shall be documented in the ISP, thereby rendering the recommendations unnecessary. **A recommendation to remove the requirement for an ALR**

to obtain a written confirmation from residents indicating their invitation and participation in the review of the resident's ISP and, rather, to permit ALRs to document the resident's invitation and participation without resident confirmation– from District of Columbia Health Care Association. The Department did not accept the recommendation because it is the Department's position that a minimum standard requiring an ALR to attempt to obtain written confirmation is critical to promoting the participation of a resident in his or her ISP review, as is intended by the Act; however, the Department recognizes that challenges out of the ALR's control may frustrate attempts to secure a resident's written confirmation. Instead of adopting the recommendation to remove the requirement, § 10113.7 of this Second Notice of Proposed Rulemaking has been revised to instruct how an ALR shall document unsuccessful attempts to obtain a resident's written confirmation when obtaining it proves to be difficult. **Recommendation to provide that, during health emergencies, changes to an existing ISP shall have no effect without the signature of the resident or surrogate – from an Individual Commenter.** The Department did not accept this recommendation because the Department finds that it requests an unnecessary provision. Changes do not occur to an ISP during an emergency, as suggested by the commenter; rather, changes to an ISP occur only after the emergency has subsided and a re-assessment of the resident's care needs has taken place. A resident may then indicate his or her disagreement with an updated ISP based on the reassessment in accordance with these proposed rules.

Regarding § 10113.5, recommendations to change the seven (7) day notice period prior to a resident's ISP review to fourteen (14) days or "advanced notice"– from an Individual Commenter and the District of Columbia Health Care Association, respectively. The Department did not adopt the recommendations. The Department declines to adopt an undefined period of advanced notice because a minimum standard is necessary to ensure residents are provided enough time to prepare to discuss their ISP. The Department adopted another commenter's recommendation, discussed *supra*, to provide residents an opportunity to reschedule the date and time of their ISP review after receiving the notice. As a result, the Department's position is that seven (7) days' notice is adequate time for residents to prepare for their ISP reviews or request a mutually agreeable appointment.

Regarding § 10113.6, recommendations to require ALRs receive resident approval of an ISP prior to its implementation; to add numerous rights regarding a resident's participation in the ISP update process; and to clarify that a resident's disagreement with an ISP update shall not, in and of itself, prevent an ALR from attempting to implement the ISP – from 5 Individual Commenters, the Long term Care Quality Alliance, AARP, and the District of Columbia Health Care Association. The Act provides great protection to a resident's right to initiate negotiations of an SRA for any disagreement as to lifestyle, personal behavior, safety, or the resident's ISP. (*See*, the Act, at D.C. Official Code § 44-106.05(a)). The Act and this rulemaking provide for SRA negotiations to be the mechanism for disputing and resolving services that an ALR attempts to provide a resident. As indicated by the numerous

comments received with respect to the ISP update process, the Department has been made aware that the Act and rulemaking's coverage of the ISP and SRA processes did not adequately inform and guide the public as intended. As discussed *supra*, the Department revised and added provisions to § 10113 to provide express, detailed rules for navigating a disagreement over proposed services during the ISP update process. The Department's revision makes unnecessary many of the rights requested by the commenters, while the Act already provides the remainder. The Department's revision also specifies the limited circumstances in which certain ISP services may be implemented without a resident's approval of the ISP, consistent with the Act: with consent, or in a health emergency. Therefore, the Department did not adopt the recommendations to add rights to the rulemaking, require a resident's approval for updated ISPs, or rephrase §10113.6 as suggested. (Note: § 10113.6 has been renumbered to § 1013.11 in this Second Proposed Rulemaking.)

Regarding § 10114, generally, a recommendation that the section requires more detail because it does not describe the purpose and contours of SRAs and what they add to the ISP process; and to incorporate a provision that protects the rights of residents through the execution of leasing agreements between the residents and ALRs setting forth the terms of residency including a breakdown of the monthly cost(s), time period, and rights and responsibilities of the residents and ALR operators – Disability Rights DC. The commenter is mistaken that the purpose and contours of SRAs and their place in the ISP are not described. The rulemaking's authority and purpose are to supplement the Act, not repeat its provisions; thus, the rulemaking did not repeat the Act's provisions describing the purpose and contours of SRAs and what they add to the ISP process. The Act describes the purpose and contours of SRAs numerous times in its "Definitions" and "Shared Responsibility Agreements" sections, and throughout the Act. The rulemaking sets forth numerous provisions establishing parameters for the proper and improper use of SRAs. Additionally, the Act does not require or prohibit the use of a lease between ALRs and a resident, and the rulemaking is consistent with the Act in this respect. The Department of Health Care Finance's regulations for EPD Waiver program participation, however, require a written lease or residency agreement between the ALR and a resident, and neither the Act nor the rulemaking conflict with or prevent an ALR from conforming to those requirements if the ALR elects to participate in the EPD waiver program.

Because the rulemaking and Act provide an adequate description of the purpose and contours of SRAs, and because the rulemaking and Act do not conflict with an ALR's decision to use a written lease or residency agreement, it is the Department's position not to adopt the recommendations at this time.

Regarding § 10114.2, recommendations to add language stating that paragraph (b) shall not be construed to infringe upon a resident's right to refuse treatment or medications – from the District of Columbia Health Care Association, the Long-Term Care Quality Alliance, and an Individual Commenter. The Department did not accept the recommendations as they were recommended. Instead, the Department revised § 10114.2(b) by clarifying its

meaning and intent in order to correct the implication that a resident's right to refuse treatment or medication was curtailed. The Department's revision achieved the desired effect of the recommendations although it did not incorporate the commenters' recommended language.

Regarding § 10114.5: A recommendation to remove the subsection or greatly limit the use of an SRA to very specific circumstances – for DC Long-Term Care Ombudsman. The Department did not accept this recommendation to restrict the use of SRA because it is not consistent with the intent and spirit of the Act. The ISP and SRA operate in tandem and, per the Act, SRAs shall be attempted whenever disagreements arise as to lifestyle, personal behavior, safety, and service plans. To remove or restrict the use of SRAs is contradictory to the Act. **A recommendation to require an ALR prove a resident's actions are harmful by objective or scientific methods before pursuing discharge for conduct that is harmful to self or others, and to prescribe by regulation a grievance mechanism for residents to disagree with an ALR's pursuit of discharge on the basis of conduct that is harmful to self or other – 2 Individual Commenters.** The Department did not adopt this recommendation because, as discussed earlier, ALRs are responsible for providing the grievance and complaint mechanisms through which residents can lodge their disagreements with the ALR's determinations. Furthermore, the recommendation to condition discharge based on objective or scientific proof of harmful conduct could restrict an ALR from taking protective action in time to maintain a safe environment for the residents or staff that are put in jeopardy by an affronting resident's harmful conduct.

Regarding § 10115, generally, a recommendation to require discharge plans be developed for all residents leaving the ALR – DC Long-Term Care Ombudsman. The Department did not accept this recommendation because it is not required by the Act; nor is it consistent with discharge planning requirements for other residential facilities within the agency's purview.

Regarding §10115, generally, and § 10115.5, recommendations that the rulemaking must be revised to comply with federal and District law for legally sufficient advance notice of discharge for the resident, including the stated basis for discharge, instructions for appealing the discharge, obtaining legal services, and how to keep services in place during the pendency of the discharge appeals – Disability Rights DC. The Department did not accept this recommendation because the commenter mistakes the Medicaid EPD Waiver program participation requirements as being compulsory across all ALRs, including those that do not participate in the Waiver program. The recommendation seeks to apply federal and District laws for public assistance participants to all ALRs in the District. The Department does not seek to hold ALRs who do not participate in Medicaid to specialized Medicaid standards for Waiver programs at this time. Instead, the Department is satisfied that the requirements established by the Act and bolstered by the rulemaking ensure that the ALRs not participating in the Waiver program maintain standards that protect the health and safety of the public and the rights of ALR residents throughout the District.

Additionally, the Department did not accept this recommendation because § 10115 is, in fact, compliant with federal and District law for advance notice and due process, including providing the stated basis for discharge, instructions for appealing the discharge, obtaining legal services, and how to keep services in place during the pendency of the discharge appeals. The notice language provided at § 10115.06 is fully compliant with the Act's directive to follow all notices for involuntary discharge provided in the Nursing Home and Community Residence Facility Resident's Protections Act of 1985, effective April 18, 1986 (D.C. Law 6-108; D.C. Official Code §§ 44-1001.01 *et seq*. (2012 Repl.)) which governs the transfer, discharge, and internal relocation of residents within residence facilities. D.C. Law 6-108 expressly provides the exact notice language required to be provided to a resident prior to all involuntary transfers, discharges, and internal relocations, including the detailed reason for discharge, instructions for requesting an appeals hearing, how to contact the DC Long-Term Care Ombudsman for legal service, and assurance that the ALR may not move the resident before a hearing decision is rendered (absent emergency or other compelling circumstances). § 10115.6 provides this statutorily-mandated notice language *verbatim* to reinforce the provision of legally-sufficient notice and process due to ALR residents. The Department will continue to adhere to DC Law 6-108 and its provisions, accordingly.

Finally, the comment appeared to be based on a misunderstanding that the rulemaking allows for discharge of a resident after only seven (7) days' notice. It is unknown how the commenter arrived at the conclusion that the rulemaking provides for discharge after seven (7) days, because the Act expressly states that an ALR must provide a thirty (30) day written notice prior to involuntary discharge at D.C. Official Code § 44-106.08(d).

Regarding § 10115.4: A recommendation to remove § 10115.4 entirely, in light of the grounds for discharge provided by D.C. Law 6-108 – from DC Long-Term Care Ombudsman. The Department did not accept the recommendation to remove § 10115.4 because, although D.C. Law 6-108 provides the notices and processes by which all ALRs must adhere to for involuntary discharge, D.C. Law 6-108 does not prescribe the bases for discharge at ALRs. Bases for discharge are covered by the Act at D.C. Official Code § 44-106.08, which provides two (2) examples of acceptable grounds for discharge. § 10115.4 is necessary to provide additional examples of discharges that are within the spirit and intent of the Act. **A recommendation to include a provision that penalizes discharges conducted for the purpose of retaliation – from an Individual Commenter.** The Department did not accept the recommendation because retaliation is already addressed by the Act and rulemaking: the Department and the Office of the Long-Term Care Ombudsman are authorized to investigate a resident's complaints of coercion or threats of retaliation, and the Department is authorized to impose sanctions and civil penalties in the manner provided by §§ 10127 and 10128, and D.C. Official Code §§ 44-104.01 and .02. **A recommendation to remove the reference to "every" effort from § 10115.4 since not all efforts are appropriate, and to provide additional**

grounds for discharge – from District of Columbia Health Care Association. The Department did not accept the recommendation because the recommendation is inconsistent with the Act, which expressly states, "an ALR shall make every effort to avoid discharge." Additionally, § 10115.4 does not indicate that it is, or intends to be, an exhaustive list of grounds for discharge. An ALR may arrange the terms for discharge in its resident agreement, per the Act at D.C. Official Code § 44-106.02(a)(6); provided that those grounds for discharge are not inconsistent with the Act or regulations issued thereto, and do not violate residents' rights or other applicable laws.

Regarding the enumerated examples of discharge in § 10115.4: Recommendations to remove "failure to pay all fees and costs" from the examples of grounds for involuntary discharge, at paragraph (a), due to vagueness in the rule; and to provide provisions that shield a resident from discharge when an ALR's accounting error precipitates the failure to pay, or the ALR curtails the resident's advanced notice of charges and due process – from Disability Rights DC and an Individual Commenter. The Department did not accept these recommendations because the Act expressly authorizes "failure to pay all fees and costs as specified in the contract" as a basis for discharge at D.C. Official Code § 44-106.08(e)(1). Furthermore, the Department does not endeavor to list the scenarios in which a clerical error or a violation of advanced notice and due process would shield a resident from discharge for failure to pay, as the Individual Commenter has requested. Instead, the rulemaking and Act provide for sufficient mechanisms through which a resident may challenge a discharge notice that results from an ALR's accounting error or curtailment of the resident's right to advanced notice of charges and due process, through the ALR's grievance mechanism or before the Office of Administrative Hearings. **Recommendation to remove "inability of the ALR to meet the care needs of the resident as provided in the ISP" from the examples of grounds for involuntary discharge, at paragraph (b), due to constituting disability-based discrimination – from Disability Rights DC.** The Department did not accept these recommendations because the Act expressly authorizes "inability of the ALR to meet the care needs of the resident as provided in the ISP" as an acceptable basis for discharge from an ALR at D.C. Official Code § 44-106.08(e)(2). The commenter does not support the allegation that § 10115.4(b) constitutes disability-based discrimination and fails to persuade the Department as to why the Act should not be enforced. Thus, the Department will continue to adhere to the Act's provisions and will not remove § 10115.4(b). **A recommendation to extend the reference to discharge for sexual harassment, exploitation, or degrading conduct to the detriment of another resident's dignity, at paragraph (c), to also include the detriment of ALR staff – from District of Columbia Health Care Association.** The Department did not adopt this recommendation because it is beyond the scope of this rulemaking's authority. The language of § 10115.4(c) is derived from the section of the Act entitled "Dignity" at D.C. Official Code § 44-105.03(11), which provides residents the right "To be free from mental, verbal, emotional, sexual and physical abuse, neglect, involuntary seclusion, and exploitation." ALR personnel are not provided these same resident rights under that cited authority. However, the rulemaking does

account for ALR personnel safety, as indicated by the example of proper discharge when a resident presents a risk of physical harm to staff presented by § 10115.4(d). **A recommendation to define "harm" in paragraph (d) to include physical and emotional harm – from District of Columbia Health Care Association.** The Department did not accept the recommendation. The recommendation seeks to add to the examples of bases for discharge the infliction of an emotional harm. The Department does not seek to use emotional harm as an example of a basis for discharge because emotional harms are complex, can be confusing to interpret, and ultimately make the section's list of examples less instructive to the public - thereby defeating the purpose of the examples. **A recommendation to remove paragraph (e) due to alleged inconsistency with the Act; and a recommendation to require residents to participate in ISP evaluations conducted for the purpose of determining a resident's need for assisted living services – from an Individual Commenter and the District of Columbia Health Care Association.** The Department did not agree with these recommendations. The Department, however, has removed 10115.4(e), *sua sponte*, in this Second Proposed Rulemaking because it became unnecessary after the Department revised admissions criteria in § 10108.2 to clarify that an ALR may not admit an individual who does not require at least the minimal level of assisted living services. **A recommendation to remove paragraphs (c) – (e) because they contain terms that are not defined, including "harm," "degrading conduct," "and "administrative needs" – an Individual Commenter.** The Department did not accept this recommendation because each paragraph provides a discernible and legally sufficient regulation that protects the rights of ALR residents while allowing ALRs to maintain a safe environment for all residents. The Department determined that there is not a need to remove the paragraphs. **A recommendation to remove paragraph (f) regarding discharge of a resident in order "to meet the ALR's reasonable administrative needs" because it is allegedly vague and broad – from Disability Rights DC.** The Department did not accept this recommendation because it presents a discernible and legally sufficient basis for discharge. The Nursing Home and Community Residence Facility Resident's Protections Act of 1985, effective April 18, 1986 (D.C. Law 6-108; D.C. Official Code § 44-1001.01 *et seq.*) expressly authorizes discharge from facilities under its jurisdiction, "If essential to meet the facility's reasonable administrative needs and no practicable alternative is available" at D.C. Official Code § 44-1003.01(a)(4). Although the bases for discharges under D.C. Law 6-108 do not apply to ALRs, they are instructive as to the types of scenarios a residence facility may encounter and have already been deemed legally-sufficient during the legislative drafting and review process. The Department does not intend to remove this example of a proper basis for discharge.

Regarding § 10115.4, a recommendation to remove "exploitation or other degrading conduct to the detriment of another resident's dignity," at paragraph (c), due to alleged vagueness; a recommendation to either remove paragraphs (c) – (f) due to absence of specific objective criteria or specific requirements for proof from the ALR, or to require that an ALR provide full documentation and evidence to support its stated basis for discharge; – from Disability Rights DC and an Individual Commenter. The Department did

not remove accept the recommendations to remove paragraphs (c) – (f) because each is a discernible and legally-sufficient regulation that protects the rights of ALR residents while allowing ALRs to maintain a safe environment for all residents. Although the Department did not accept this recommendation, this Second Proposed rulemaking has added a requirement for ALRs to document any relocation, transfer, or discharge of a resident, and the basis for the action, at a new § 10115.14 as part of the Department's adoption of an unrelated recommendation. (Note: §10115.4 has been renumbered as § 10115.5 for this Second Proposed Rulemaking.)

Regarding § 10115.5, a recommendation to add that an ALR must obtain a signed acknowledgment of having received all required notices of discharge prior to effectuating the involuntary discharge of a resident – from an Individual Commenter. The Department did not adopt this recommendation because it is not reasonable to condition an involuntary discharge on obtaining a resident's confirmation signature. A resident that disagrees with the involuntary discharge need only withhold his or her signature and the discharge would be delayed indefinitely. The recommendation is not consistent with the intent of the discharge statutes incorporated into the Act from subchapter 3 of Chapter 10 of Title 44 of the District of Columbia Official Code (D.C. Law 6-108; D.C. Official Code §§ 44-1003.01 – 1003.13).

Regarding § 10115.6: A recommendation to remove § 10115.6 entirely, in light of the advanced notice language provided by D.C. Law 6-108 that is already incorporated by reference in § 10115.5 – from the District of Columbia Health Care Association. The Department did not accept the recommendation to remove § 10115.6 because the advanced notice language from D.C. Law 6-108 that is restated in § 10115.6 is crucial to the delivery of legally sufficient notice to ALR residents. The advanced notice language warrants being presented *verbatim* in the rulemaking in order to facilitate the public's awareness of, and access to, it. **A recommendation to state the Act's requirement for thirty (30) day notice in the rulemaking – DC Long-Term Care Ombudsman.** The Department did not accept this recommendation because a notice requirement other than thirty (30) days could apply, depending on the circumstances identified by the Act or the Nursing Home and Community Residence Facility Resident's Protections Act of 1985, effective April 18, 1986 (D.C. Law 6-108, D.C. Official Code § 44-1001.01 *et seq.*), as incorporated into the Act. **A recommendation to incorporate a resident's right to appeal an ALR's discharge decision to the Office of Administrative Hearings, and state that a resident need not exhaust the District's administrative reconsideration processes in order to appeal to the Office of Administrative Hearings – from Disability Rights DC.** The Department did not accept these recommendations because the language stated in § 10115.06 is identical to the statutorily-mandated notice language for involuntary relocation, transfer, or discharge from residence facilities required by D.C. Law 6-108 (D.C. Official Code § 44-1003.02(d)). The notice language in § 10115.6 is clear that the only step to challenging an involuntary discharge is to complete the hearing request

form to OAH. Therefore, the Department finds that there is not a need to adopt the recommendation at this time.

Regarding § 10115.9, a recommendation to revise the subsection because it allegedly violates D.C. Official Code § 44-1003.02(b) – from DC Long-Term Care Ombudsman. The Department did not adopt this recommendation because § 10115.9 does not violate the requirements for emergency relocations provided in D.C. Official Code § 44-1003.02(b), as alleged by the comment. § 44-1003.02(b) pertains to emergency health circumstances that are documented in a resident's clinical record. § 10115.9, on the other hand, pertains to "an imminent and physical harm [that is] present in the living unit," such as black mold, that requires temporary evacuation of the living unit until the harm can be cured. The Department declines to remove § 10115.9; however, the Department has revised the language to use the term "relocation" rather than "temporary transfer" in order to be consistent with the terminology used in D.C. Law 6-108 (D.C. Official Code § 44-1001.01 *et seq.*).

Regarding § 10116, generally: A recommendation to require that all ALRs create and maintain an up-to-date photo directory of all employees, which shall contain current photographs, names, and titles, and a copy made available on each floor of the ALR – from an Individual Commenter. The Department did not adopt this recommendation because the agency determined that the rule is not necessary for the safe operation of ALRs, the protection of resident's rights, or the health and safety of the public. **A recommendation to create a minimum standard that requires ALRs to provide residents access to information and staff at all times, including "assur[ing] at least one staff member is present physically at all times at the ALR who has access to all areas of the ALR and resident records, assur[ing] at least one staff member is awake at all hours of the day and night, and assur[ing] that a written work schedule that reflects the ALR's twenty-four (24) hour staffing pattern is provided upon request to residents and surrogates" – from an Individual Commenter.** The Department did not adopt this recommendation because it is inconsistent with the operation of ALRs in the District. The recommendation seeks to impose a requirement that would impede the operation of the District's ALRs that are small or designed to be affordable and would frustrate development of affordable assisted living in the District, if adopted. Furthermore, expecting that each staff member have access to all resident information is not practical, as ALR confidentiality practices restrict staff from accessing records unless the resident is one for whom the staff member provides care. Additionally, the Department declined to impose a requirement for ALRs to provide their 24-hour staffing patterns to residents and surrogates because the Department did not determine such a provision to be necessary for the safe operation of ALRs, the protection of resident's rights, or the health and safety of the public. Therefore, the Department declined to adopt this recommendation as a standard across all ALRs in the District. **A recommendation to expand the availability of social work services referred to at D.C. Code § 44-106.07(b) by providing for a full-time social worker for an ALR with more than 120 beds, and a licensed independent clinical social worker for a minimum of twenty hours**

a week in an ALR with more than sixty (60) beds. The Department did not adopt this recommendation because the recommendation seeks to impose a standard that overreaches the Act's requirement that ALRs facilitate access to social work. The recommendation seeks to impose a requirement that would frustrate development of affordable assisted living in the District, if adopted.

Regarding § 10116.4, a recommendation to clarify why the rulemaking's age requirement for an ALA is different from the statute's requirement to be twenty-one (21) years old – from the DC Long-Term Care Ombudsman. The Department did not adopt this recommendation. The commenter mistakes eighteen (18) as the age requirement for ALAs in the rulemaking when eighteen (18) is, in fact, the age requirement for the Acting Administrator who temporarily replaces the ALA. ALAs are still required to be twenty-one (21) years of age by both the Act and the rulemaking.

Regarding §§ 10116.4 - 10116.12, a recommendation to replace the rules for ALR coverage by ALAs or the Acting Administrator with following standards: The Administrator shall be responsible for ensuring that the ALR is appropriately staffed, at all times and that another licensed Administrator or other qualified staff is physically present and authorized to act as Administrator in his or her absence; The Acting Administrator shall have the necessary authority to act in any absence of the Administrator so that each ALR has an authorized Administrator on duty during regular business hours; If the Administrator is absent for more than six (6) consecutive weeks the facility shall appoint a designee and shall notify the licensing agency; Each facility shall have written guidelines on the authority and responsibilities of the Administrator and the Acting Administrator. The Department did not adopt the recommendation to replace subsections 10116.4-10116.12 with the commenter's suggested language because the suggested language lacks critical protections that the Department intended to include in order to protect the public: The suggested replacement language lacks a requirement for either the ALA or acting administrator to be on-site after regular business hours; lacks a requirement for the ALA to be available and responsive to ALR when off-site; and allows operation of an ALR without a licensed ALA for an unreasonable amount of time and without alerting DC Health during periods of 3 weeks or more.

Regarding § 10116.13: A recommendation to provide an exception for "unforeseen communication emergencies" to the requirement that a registered nurse respond to the ALA or ALR staff members within 1 hour – from Hallkeen Assisted Living and Northbridge Advisory Services, jointly. The Department did not accept this recommendation. The Department deliberated greatly on the requirements for RNs and believes the rulemaking language is the best course to protect the public. **Recommendations to require a registered nurse on-site 24/7 – from 3 Individual Commenters.** DC Health did not adopt this recommendation because it would impose a requirement that would frustrate the operation of the District's ALRs that are small, designed to be affordable, or participate in Medicaid's Home and Community Based Services' EPD Waiver program. Furthermore, skilled nursing is not

constantly required by ALR residents and, in fact, the Act prohibits admission of a resident that requires constant skilled nursing care. ALRs are designed as social or residential models, as opposed to institutions, which typically maintain a nurse on-site at all times. **Recommendations to require that a registered nurse be on-site for a minimum of eight (8) hours per day on a scheduled basis between 6 a.m. and 8 p.m. – from 2 Individual Commenters and the Long Term Care Quality Alliance.** See above.

Regarding § 10116.14, a recommendation to require that the on-call registered nurse's name and contact information be posted in a prominent location at the entrance of the facility - from an Individual Commenter. The Department did not adopt this recommendation because the Department holds the position that the rulemaking is sufficient, as-is, requiring that the registered nurse's contact information be prominently and conspicuously posted for ALR staff to see.

Regarding § 10116.18, a recommendation to require ALR staff name tags display information in 48-point font, 74-point font, or other large font – from the Long-Term Care Quality Alliance and 4 Individual Commenters. The Department declined to adopt the recommendation to impose a font size standard at this time, but amended the language of the section to better convey the agency's intended name badge rule. The revision clarifies that name badges must be unobscured, and prominently and conspicuously display the employee's name and job title.

Regarding § 10117.1, a recommendation to include an explicit statement in the rulemaking that provisions requiring for ALAs to be licensed are not and will not be effective until the District's Board of Long-Term Care Administration promulgates licensure regulations into effect – from the District of Columbia Health Care Association. The Department did not adopt this recommendation. As stated in the preambles of both the initial Notice of Proposed Rulemaking and this Second Proposed Rulemaking, the Department will not enforce the portions of the rulemaking that require an individual to be licensed by the District of Columbia Board of Long-Term Care Administration or otherwise authorized by the Director to practice assisted living administration until rules have been promulgated, and become effective, to govern said licensure and authorization. The rulemaking preamble clearly and sufficiently indicates the Department's commitment to refraining from the enforcement of ALA licensing requirements until those licensing requirements are put into effect in a separate rulemaking to be promulgated by the DC Board of Long-Term Care. Furthermore, this rulemaking cannot "grandfather" in ALAs who are already practicing because the authorized practice of ALA's is not within the scope of the Act. Instead, the Board of Long-Term Care Administration governs the practice of assisted living administration and will develop rules in a separate rulemaking to address ALA licensure and authorized practice.

Regarding § 10118, generally, a recommendation to state that ALRs are not responsible for any personal care services contracted privately by the resident or their family members if

the services are not part of the service plan or if the resident contracts with a provider with no affiliation with the residence – from Disability Rights DC. The Department did not accept this recommendation. Pursuant to Section 701(a) of the Act (D.C. Official Code § 44-107.01(a)), an ALA shall be responsible for all personnel and services within the ALR. It is the Department's position that this includes private duty healthcare professionals that provide healthcare related services to residents on the ALR's premises. The Department does not seek to provide an exception to the requirements of § 10118 based on the type of health care services being provided because the intent of this section is to ensure that each ALR is actively keeping abreast of the health care services being provided on its premises. All private duty healthcare professionals who are contracted to perform services for the resident on a recurring basis must comply. Therefore, the recommendation is not adopted.

Regarding §10118.1: A recommendation to remove the requirement that ALRs be responsible for the private duty health care professionals practicing on its premises – from Hallkeen Assisted Living and Northbridge Advisory Services, jointly, and the District of Columbia Health Care Association. The Department declined to remove the requirement that ALRs maintain responsibility for supervising, monitoring, or otherwise ensuring the provision of adequate and appropriate care and services to its residents. Pursuant to Section 701(a) of the Act (D.C. Official Code § 44-107.01(a)), an ALA shall be responsible for all personnel and services within the ALR. It is the Department's position that this includes private duty healthcare professionals that provide healthcare related services to residents on the ALR's premises. However, in response to multiple comments indicating a misunderstanding of the extent of an ALR's responsibility for private duty healthcare professionals, the Department has revised § 10118.1 to simplify the rulemaking by holding ALRs responsible for private duty healthcare professionals to the extent of requiring and causing a private duty healthcare professional to comply with the provisions of § 10118 as a condition of providing service on the ALR's premises. **A recommendation to add a rule to the regulations that explicitly protects a resident's right to enter into a private employment contract and without undue interference by an ALR attempting to terminate private duty healthcare services – from an Individual Commenter and Disability Rights DC.** The Department did not adopt this recommendation. The comment from the Individual Commenter suggests that an issue exists of ALRs terminating residents' contracts with private duty healthcare professionals, but did not provide any support for the allegation that the terminations were abuses of power rather than based on legitimate reasons for the health and safety of the residents. Ultimately, the health and safety of residents is the responsibility of the ALR's. The ALR is in the best position to evaluate whether a private duty healthcare professional is negatively impacting a resident's health and should be prohibited from returning before (further) harm can occur. Therefore, it is the Department's position that there is not a need to adopt the recommendation at this time. Nonetheless, the Department has adopted the Individual Commenter's recommendation at § 10118.2(c) to hold ALRs accountable for documenting and alerting a resident as to the reason and duration of a private duty healthcare professional's removal from the premises.

Regarding § 10118.2, a recommendation to revise or remove the "unwieldy requirement" that the District license all privately-retained services, including those by residents' family members or friends because it will inevitably hamstring residents and subject them to discharge – from Disability Rights DC. The comment appears to misunderstand the rule as creating another licensing type to capture privately-retained services provided by family and friends at an ALR, rather than simply referring to the longstanding District law that any individual providing a healthcare service that requires authorization must be authorized to do so in accordance with the law; e.g., an individual seeking to perform occupational therapy services at an ALR must be licensed as an occupational therapist. All health professional licensing laws established by the District of Columbia Health Occupations Revision Act of 1985, effective March 25, 1986 (D.C. Law 6-99; D.C. Official Code §§ 3-1201.01 *et seq*. (2016 Repl.)), shall be enforced. The rulemaking does not intend to authorize unlicensed practice.

Regarding § 10119, generally: Recommendations that seek to exclude family members from the rules governing companions at an ALR – from 5 Individual Commenters and the Long Term Care Quality Alliance. The Department did not accept the recommendations because the comments appear to misunderstand the definition of companion and seek to exclude family members or unpaid companions from the provisions of this section, regardless of whether they meet the definition of a "companion" and are providing companion services. In response to the comments, the Department has revised the definition of Companion in § 10199 to more clearly convey that the rulemaking applies to companions who are employed, for pay or not-for-pay, to provide services to the resident at the discretion of the resident, the companion's client, or the companion's employer; thereby correcting misunderstandings about who is and is not a companion, and to whom companion rules and restrictions apply. The definition of companion may be inclusive of a resident's family member if that family member is employed to provide services in accordance to the definition provided in this Second Proposed Rulemaking. **A recommendation to remove the requirement for companions to undergo criminal background checks for unlicensed professionals, as it is "an unnecessarily burdensome and bureaucratic process" – from Disability Rights DC.** The Department did not adopt this recommendation because the commenter appears to contest background checks based on the misunderstanding that the definition of companion includes family and others who are not employed to provide companion services at the discretion of the resident, the companion's client, or the companion's employer. As discussed immediately above, companions are individuals who are employed, for pay or not-for-pay, to provide companion services to a resident at the discretion of someone other than the companion. A criminal background check is required for companions with direct resident access, as is consistent with ALR regulations in other jurisdictions. Therefore, an ALR, which is responsible for all of its residents and the services being provided within, must require companions to get criminal background checks in accordance with the Health-Care Facility Unlicensed Personnel Criminal Background Check Act.

Regarding § 10119.5, recommendations to remove the requirement that ALRs be responsible for the companions providing companion services on its premises – from Hallkeen Assisted Living and Northbridge Advisory Services, jointly, and Disability Rights DC. The Department did not accept this recommendation. Pursuant to Section 701(a) of the Act (D.C. Official Code § 44-107.01(a)), an ALA shall be responsible for all personnel and services within the ALR. It is the Department's position that this includes companions that provide companion services to residents on the ALR's premises. However, in response to multiple comments indicating a misunderstanding of the extent of an ALR's responsibility for companions, the Department has simplified § 10119.5 by holding ALRs responsible for companions to the extent of requiring and causing a companion to comply with the provisions of § 10119 as a condition of providing service on the ALR's premises. (Note: § 10119.5 has been renumbered to § 10119.1 for this Second Proposed Rulemaking.)

Regarding § 10120.1, a recommendation to remove the requirement for contract employees to be subject to the criminal background check for unlicensed personnel – from the District of Columbia Health Care Association. The Department did not adopt this recommendation because the Health-Care Facility Unlicensed Personnel Criminal Background Check Act of 1998, effective April 20, 1999 (D.C. Law 12-238; D.C. Official Code § 44-551 *et seq.*) clearly states "No facility shall employ or contract with any unlicensed person until a criminal background check has been conducted for that person."

Regarding § 10121, generally, a recommendation to remove the entire section because prospective residents would attest to their own capability or need for help with respect to medication management; and to require that an ALR must accommodate residents who need prompting for medications, or setup of medications in daily dosing containers, blister-packs, or prefilled syringes with the appropriate medications – from Disability Rights DC. The Department did not adopt this recommendation because the rulemaking and Act provide for accommodations at § 10124 and D.C. Official Code § 44-109.07, respectively and the Department has not determined a need to impose further requirements across all ALRs. The rulemaking dedicates several provisions to establishing regulations that provide for an ALR to assist a resident in administering his or her medication. Furthermore, the Act directs ALRs to develop and implement blister or bubble or unit dose package where feasible and the rulemaking does not interfere with the Act's instruction. Such devices require monitoring to ensure that residents safely use the device to properly administer their medication, and the ALR must determine if it is feasible for it to provide such monitoring to its residents, as some ALRs may not have the resources to do so. Therefore, the Department declines to adopt the recommendation to add any further requirements to § 10121.

Regarding § 10121.1, a recommendation to provide for timers and electronically-equipped medication dispensers and other technology to aid a resident who self-administers medication with the proper timing and dosing of their medication – from the Long Term Care Quality Alliance. The Department did not adopt this recommendation because the agency

determined that the requested provision did not belong in this section. The recommendation was incorporated into § 10124, instead.

Regarding § 10122, a recommendation to add language to state a requirement for the registered nurse to hold a consultation with the resident or surrogate at the time of each forty-five (45) day medication assessment. The Department did not adopt this recommendation because performance of the medication assessment necessitates that the registered nurse is present with the resident and, therefore, available to consult and answer questions at that time.

Regarding § 10123.2, a recommendation to remove the requirement for ALRs to record the lot numbers of prescription and non-prescription medication and dietary supplements stored by self-administering residents in their living units – from the District of Columbia Health Care Association. The Department did not adopt this recommendation because it is inconsistent with the Act, which requires that ALRs record the lot numbers for all prescription drugs it stores at § 44-109.04(e)(2). The Department's position is that the same safety considerations that warrant the recordation of lot numbers for prescription drugs should be extended to non-prescription drugs and dietary supplements (when applicable), as well, for the protection of all residents.

Regarding § 10123.3, a recommendation to require that <u>all</u> prescription medication be destroyed rather than attempting to return it to a resident's surrogate or caregiver – from the District of Columbia Health Care Association. The Department did not adopt this recommendation because the language of the rulemaking already accounts for the fact that some medications may be prohibited by law from being returned to anyone other than to whom they were prescribed. Therefore, the Department finds the existing language to be sufficient and does not intend to adopt the recommendation.

Regarding § 10124.1, a recommendation to permit residents who have been assessed as not capable of self-administering medication to move to self-administration through an SRA in cases where the ALR fails to consistently or accurately carry out its obligation to administer the resident's medication. The Department did not adopt this recommendation because it is unsafe to authorize residents who cannot self-administer to be in charge of administering their medications. The Department advises that a resident report an ALR that fails to administer medication consistently and accurately to the District of Columbia Office of the Long-Term Care Ombudsman or the Department of Health.

Regarding § 10124.2, a recommendation to clarify when residents are charged, what the charges cover, and how residents are informed of charges, at paragraph (b). The Department did not accept this recommendation because the information is already provided in paragraphs (c) and (d).

Regarding § 10124.3: A recommendation to add a provision requiring that a resident receive the ALR's approval prior to hiring a private duty healthcare professional to provide care services on the ALR's premises. The Department did not adopt this recommendation because the Act only requires ALR approval for coordination of third-party services when the ALR is determining whether it will accept resident for admission who requires care services that the ALR is not equipped to provide. There is no requirement in the Act for the ALR to approve for a third-party to provide care once a resident has been admitted and is aging in place. **Recommendations to explicitly allow for family members to provide full medication administration to a resident if a resident enters an SRA – from an Individual Commenter and the Long-Term Quality Care Alliance.** The Department did not adopt these recommendations because administration of medication by anyone other than a healthcare professional authorized to do so is inconsistent with the Act. For example, a resident who is assessed and determined not to be capable of self-administration "requires that medication be administered by a TME or licensed nurse." (*See* the Act, at D.C. Official Code § 44-109.01(3)). In contrast, administration of medication by an authorized healthcare professional is clearly stated by, and within the spirit of, the Act. *See* D.C. Official Code § 44-109.05(a) ("Licensed nurses, physicians, physician assistants, and TMEs may administer medications to residents or assist residents with taking their medications.")

Regarding § 10124.4, a recommendation to remove the rule ensuring that resident's provide informed consent to medication administration services provided by the ALR, at paragraph (d), because it is redundant – from the District of Columbia Health Care Association. The Department did not adopt this recommendation because the commenter is mistaken that the provision is redundant. The ISP does not ensure that a resident receives medication administration policy information and disclosure of the medication administration fees, as the commenter suggests. The Department determined that there is a need to emphasize disclosure protections with respect to medication administration, and the provisions of § 10124.4(d) is necessary to state those disclosure protections.

Regarding § 10124.9, a recommendation to permit an ALR's investigation of medication errors or adverse drug reactions to occur within the context of a confidential assurance process. The Department did not adopt this recommendation because the outcome would result in the findings of the medication error and adverse drug reactions being confidential and not subject to the rulemaking's recordkeeping and disclosure provisions. The Department's position is that the results of investigations into medication errors and adverse drug reactions should be made available to the affected resident and not restricted by ALR confidentiality processes.

Regarding § 10125, generally, a recommendation to mention staff training on person-centered planning and services, informed consent, maintaining resident confidentiality and privacy of protected health care information, de-escalation and mediation techniques, and disability rights, among other essential topics – from Disability Rights DC. The Department did not adopt this recommendation because the Act requires to the Department's satisfaction that

all staff shall be properly trained and be able to demonstrate proficiency in the skills required to effectively meet the all the requirements of the Act, which includes all the topics listed by the commenter.

Regarding § 10125.1, a recommendation to explicitly add causing "fear of retaliation" or "coercion" as a means of pressuring a resident to the list of "abuse" complaints that must immediately be reported to the Department for investigation – from an Individual Commenter. The Department did not adopt this recommendation because the Act and rulemaking adequately provide for the Department and the Office of the Long-Term Care Ombudsman to investigate a resident's complaints of coercion or threats of retaliation through their regular investigation mechanisms. Furthermore, the Act and rulemaking impose a series of prevention, reporting, and investigation requirements to stymie resident abuse, neglect, or exploitation. This heightened response protocol for abuse should not be conflated with fear of retaliation or pressuring a resident.

Regarding § 10125.3: A recommendation to expand the description of "Unusual Incidents" to include "any complaint of a violation of resident rights" and "food poisoning; water contamination; fire; contagion disease outbreak; partial or total emergency evacuation required by fire, plumbing failure, or prolonged mechanical system failure; water damage resulting in mold; elevator malfunction resulting in injury or entrapment; vermin infestation; an accident resulting in injury to a resident; death; theft of a resident's property or funds or financial information; or any occurrence requiring or resulting in intervention from law enforcement or emergency response personnel" – from 2 Individual Commenters. The Department did not adopt these recommendations because the Act already adequately provides for the Department and the Office of the Long-Term Care Ombudsman to investigate a complaint regarding violation of resident rights under its normal investigation mechanism. Furthermore, the Department declined to expand the definition of "Unusual Incidents;" however the Department revised the definition of "unusual incident" on its own volition to increase clarity with respect to the rulemaking's intended definition. The revision provides an improved description, which includes sustained utility outages and environmental hazards and addresses is responsive to the comment's request

Regarding § 10128, generally, a recommendation to revise the entire section because it is allegedly vague due to not indicating maximums for the fines, not describing the conduct that can be fined, and not stipulating the use of funds once collected – from District of Columbia Health Care Association. Commenter misunderstands the function of § 10128. This section serves as a cross-reference to the civil penalties available under the Act and is not intended to accommodate the recommendation because: 1) Regulations addressing civil infraction fine amounts per class of violation are in title 16, chapter 32 of the DCMR. They are promulgated by the District of Columbia Department of Consumer and Regulatory Affairs ("DCRA"), not the Department of Health; 2) A schedule of fines presently exists at 16 DCMR § 3663 for specific conduct that violates the Act. The Department may follow this rulemaking with

a separate rulemaking on civil fines to set fines for conduct prohibited by this rulemaking that is not already captured by the Act and fine-able under 16 DCMR § 3663; and 3) The Department is not required to stipulate the use of funds in this rulemaking.

Regarding § 10128.2: Recommendations to include in the rulemaking provisions for *per diem* civil penalties instead of "per instance" civil penalties – from the Long Term Care Quality Alliance and an Individual Commenter. The Department did not adopt this recommendation because regulations addressing civil infraction fine amounts per class of violation are in title 16, chapter 32 of the DCMR. They are promulgated by DCRA, not the Department of Health. Furthermore, 16 DCMR § 3201 provides for tiered penalties based on harm and, along with the Act at D.C. Official Code § 44-104.02(c), provides for escalated penalties for repeat infractions. Furthermore, 16 DCMR § 3201 provides for tiered penalties based on degree of harm, daily-repeated infractions, and escalated fines for repeat infractions, along with the Act at D.C. Official Code § 44-104.02(c). Thus, the Department did not determine that there is a need to adopt the recommendations at this time. **A recommendation to expand the range of civil penalties the Department is authorized to use; to provide for a $1000 per incident per day fine for violations; and to penalize all violations of resident rights in order to incentivize ALRs to treat all provisions of the law seriously – from the DC Long-Term Care Ombudsman and an Individual Commenter.** The Department did not adopt these recommendations because regulations addressing civil infraction fine amounts per class of violation are in title 16, chapter 32 of the DCMR. They are promulgated by DCRA, not the Department of Health. Furthermore, 16 DCMR § 3201 provides for tiered penalties based on harm and, along with the Act at D.C. Official Code § 44-104.02(c), provides for escalated penalties for repeat infractions. Last, a schedule of fines presently exists at 16 DCMR § 3663 for specific conduct that violates the Act. The Department may follow this rulemaking with a separate rulemaking on civil fines to set fines for conduct prohibited by this rulemaking that is not already captured by the Act and fine-able under 16 DCMR § 3663. **Recommendations to ensure that the Department is not limited to using sanctions only in instances of immediate or serious and continuing danger – from the DC Long-Term Care Ombudsman and an Individual Commenter.** The Department did not adopt these recommendations because § 10128.2(b) simply refers to the Act's corresponding provision for civil penalties in the Act, at D.C. Official Code § 44-104.02, which the rulemaking does not have the authority to change.

Regarding § 10130, recommendations to require compulsory referral to regulatory entities – from an Individual Commenter and the Long-Term Care Quality Alliance. The Department did not adopt the recommendations because the Department must retain the discretion to determine for itself whether allegations of prohibited conduct warrant referral for disciplinary action in order to prevent forwarding meritless claims. The Department rephrased the subsection, replacing "suspected" with "alleged" to clarify this matter and reduce confusion in the future.

Regarding § 10199.2: A recommendation to include a definition of "surrogate" – from an Individual Commenter. The Department did not adopt this recommendation because "surrogate" has been defined by the Act and the rulemaking, at § 10199.1, incorporates all definitions provided by the Act. To prescribe a second, different meaning to "surrogate" in the rulemaking could cause confusion. **A recommendation to add to the "Definitions" section numerous terms and their definitions as they were used in the commenter's numerous recommendations – from an Individual Commenter.** The Department did not adopt this recommendation. The Department believes the definitions it provided are adequate and accurate as they pertain to its use of the terms within the chapter.

The Department has also revised language in this Second Proposed Rulemaking, on its own volition, in order to adjust syntax for clarity and to correct apparent confusion and misinterpretations of the rulemaking's meaning or intent prior to republishing the rulemaking. The Department's *sua sponte* revisions to the following provisions were notable, or were greater than clerical adjustments and resulted in substantive change to the affected subsections and sections:

A new § 10100.4 – to clarify that ALRs must adhere to laws other than the Act when such laws are applicable.

§ 10101.1 – revised to more accurately reflect the purpose of the rulemaking.

§ 10107 "Licensure Inspections" - renamed "Inspections Before and After Licensure," and augmented with provisions on inspections and complaint investigations.

A new § 10109.04 – to require ALRs honor a disables resident's duly-executed supported decision-maker agreement, in accordance with Title III of the Disability Services Reform Amendment Act of 2018.

§ 10113 – revised to supplement the Act by instructing on the use of shared responsibility agreements as the mechanism to dispute and resolve any service an ALR attempts to provide a resident and provide express, detailed rules for navigating a disagreement during the ISP renewal process. As indicated by the numerous comments received with respect to the ISP renewal process, the Department has been made aware that the Act and rulemaking's treatment of the ISP and SRA processes did not adequately inform and guide the public as intended. As a result, the Department undertook a major revision of § 10113 to supplement the Act by providing the aforementioned aspects to the section in order to clarify the rulemaking's intent.

§ 10115 "Discharge and Transfer" – renamed "Transfer, Discharge, and Relocation" in order to reflect the content within.

§ 10126 "Inspections" – renamed "Denial, Restriction, Suspension, or Revocation of a License," and rewritten to cover administrative procedure for denials, restrictions, suspensions, and revocations; all inspection provisions previously in this section were relocated to § 10107.

As a result of the comments received and the Department's *sua sponte* revisions, the majority of sections in the initial proposed rulemaking have been revised to some degree. Therefore, the rulemaking is being republished for a second comment period.

The Department is aware that regulations governing the practice of assisted living administrators and the licensure of said practice have not yet been published. Consequently, the Department will not enforce the portions of the rulemaking that require an individual to be licensed by the District of Columbia Board of Long-Term Care Administration or otherwise authorized by the Director to practice assisted living administration until rules have been promulgated, and become effective, to govern said licensure and authorization.

The Director gives notice of her intent to adopt this rule as final in not less than thirty (30) days from the date of publication of this notice in the *D.C. Register*, and upon completion of the forty-five (45) day Council period of review if the Council of the District of Columbia does not act earlier to adopt the rules by resolution.

Chapter 101, ASSISTED LIVING RESIDENCES, of Title 22-B DCMR, PUBLIC HEALTH AND MEDICINE, is amended in its entirety to read as follows:

CHAPTER 101 ASSISTED LIVING RESIDENCES

Secs.

10100 GENERAL PROVISIONS

10100.1 These rules are implemented pursuant to and in accordance with the Assisted Living Residence Regulatory Act of 2000, effective June 24, 2000 (D.C. Law 13-127; D.C. Official Code §§ 44-101.01 *et seq*. (2012 Repl.), as amended from time to time (hereinafter, the Act).

10100.2 The provisions set forth in this chapter have been issued to supplement provisions of the Act. Accordingly, each assisted living residence ("ALR") licensed pursuant to the Act must comply with the Act and with this chapter, which together constitute standards for licensing and operation of ALRs within the District of Columbia.

10100.3 Nothing in this chapter shall be construed to violate the provisions of the Act or the residents' rights provided therein.

10100.4 Nothing in this chapter shall be construed to authorize conduct that is in violation of any other District or federal law or rules issued thereto, including, where applicable, the D.C. Human Rights Act of 1977 (D.C. Law 2-38; D.C. Official Code §§ 2-1401.01 *et seq.* (2016 Repl.)), the Americans With Disabilities Act of 1990 (42 USC §§ 12101 *et seq*.), the Fair Housing Act (42 USC §§ 3601 *et seq*.); and the Health Insurance Portability and Accountability Act of 1996 (42 USC §§ 1320d *et seq*.).

10100.5 An ALR that participates in the Medicaid Home Community-Based Services Waiver program for the Elderly and Persons with Physical Disabilities, as approved by the Council of the District of Columbia and the Centers for Medicare and Medicaid Services, shall maintain compliance with Chapter 42 (Home and Community-Based Services Waiver for Persons Who Are Elderly and Individuals with Physical Disabilities) of Title 29 of the District of Columbia Municipal Regulations (DCMR) in addition to the Act and this chapter.

10101 PURPOSE

10101.1 The purpose of this chapter is to supplement provisions of the Act, which sets

minimum, reasonable standards for licensure of ALRs in the District of Columbia. This chapter is intended to promote the principles of the Act, and establish additional minimum standards as necessary to protect assisted living residents' health, safety, and welfare.

10102 AUTHORITY TO OPERATE AN ASSISTED LIVING RESIDENCE (ALR) IN THE DISTRICT OF COLUMBIA

10102.1 A separate license shall be required to operate each ALR, regardless of whether multiple ALRs are operated by the same person, or whether the ALR is on premises shared with another ALR or facility. Each ALR license shall be specific to the location of the ALR.

10102.2 The provision of housing under a landlord-tenant arrangement does not, in and of itself, exclude a person from the requirements to be licensed and in compliance with the provisions of the Act and this chapter.

10102.3 An ALR shall post its license to operate on its premises in a manner conspicuous to residents and visitors.

10102.4 A Licensee shall be responsible for the health, safety, and welfare of the ALR's residents.

10102.5 A Licensee shall be responsible for the operation of the ALR, including personnel and the ALR's compliance with the Act, this chapter, or any other applicable District or federal laws or regulations.

10102.6 An ALR's failure to comply with the Act, this chapter, or any other applicable District or federal laws or regulations may be grounds for sanctions or penalties, including suspension or revocation of licensure, as specified in the Act and in § 10126 of this chapter.

10103 RESTRICTIONS

10103.1 An ALR shall not provide services beyond the scope of its license.

10103.2 An entity may not use the term "assisted living" to advertise its services unless the entity is licensed under the Act to operate as an ALR.

10103.3 A person may not advertise, represent, or imply to the public that an ALR is authorized to provide a service that the service provider is not licensed, certified, or otherwise authorized to provide.

10103.4 A person may not advertise the facilities or services provided by the ALR in a manner that is false, misleading, or fraudulent. Facilities or services that are

provided at an additional cost to an ALR resident shall be identified in a manner that indicates such.

10103.5 The Director shall issue each license only for the premises and person or persons named as applicants in the application. The license shall not be valid for use by any other person or persons or at any place other than that designated on the license. Any transfer as to person or place shall cause the immediate forfeiture of the license.

10103.6 Each license to operate an ALR that is in the Licensee's possession shall be the property of the District Government and shall be returned to the Director immediately upon any of the following events:

(a) Suspension, or revocation of the license;

(b) Denial of an application to renew the license;

(c) Forfeiture consistent with § 10103.5; or

(d) The ALR's operation is discontinued by voluntary action of the Licensee.

10104 QUALIFICATION AND ELIGIBILITY

10104.1 The Director may conduct background checks on an applicant for licensure or for renewal of licensure in order to determine the applicant's suitability or capability to operate or to continue operating an ALR. If applicant is a partnership or non-corporation business entity, the background checks may be conducted on the owners. If applicant is a corporation, the background checks may be conducted on the directors, officers, and any person owning or controlling ten percent (10%) or more of common stock in the corporation.

10104.2 Applicant background checks may consist of, but not be limited to, investigating the following:

(b) Applicant's history of compliance with the District of Columbia or any other jurisdiction's licensing requirements and with any federal certification requirements, including any license revocation or denial; and

(c) The arrest and criminal records of the applicant, including, but not limited to, the following:

(2) Crimes or acts related to the manufacture, distribution, prescription, use, or dispensing of a controlled substance;

(4) A conviction or pending criminal charge which substantially relates to the care of adults or minors, to the funds or property of adults or minors, or to the operation of a residential or health care facility; or

(5) Current investigations by enforcement agencies to include, but not be limited to, the District of Columbia Departments of Health, Health Care Finance, and Consumer and Regulatory Affairs, the Federal Bureau of Investigation, the Office of Inspector General of the United States Department of Health and Human Services, and law enforcement agencies.

10107.4 An ALR or prospective ALR that seeks to accept the Director's suggested remedy to a deficiency or propose its own remedy, pursuant to § 306(e) of the Act (D.C. Official Code § 44-103.06(e)), shall do so by submitting the remedy to the Director in a written, signed and dated plan of corrective action to abate the cited deficiencies. 10107.7 The Director shall, after having conducted any inspection under § 10107.1, deny, suspend, or revoke an ALR's licensure pursuant to § 10126 of this chapter if the ALR is found to have life threatening deficiencies or deficiencies which seriously endanger the public's health and safety, but which do not pose an immediate threat to warrant an emergency suspension described by § 404 of the Act (D.C. Official Code § 44-104.04).

10113 INDIVIDUALIZED SERVICE PLANS (ISPs)

10113. 1 An ISP shall be developed for each resident not more than thirty (30) days prior to admission.

10113.2 An ALR shall support the involvement of family and friends selected by the resident to participate in the development, review, and renegotiation of his or her ISP under the Act and this chapter, provided that the involvement of the selected family and friends is conducive to the resident's participation in the ISP development, review, or renegotiation. This subsection shall not apply to a resident's surrogate acting in his or her capacity as the resident's surrogate pursuant to law.

10113.3 An ALR shall ensure that the assessments conducted prior to a resident's admission, pursuant to §§ 802 and 803 of the Act (D.C. Official Code §§ 44-108.02 and 44-108.03), are performed by a registered nurse who is licensed to practice in the District, and any other healthcare professional necessary to perform the assessments as required who shall also be licensed or otherwise authorized to practice in the District.

10113.4 In accordance with § 604 of the Act (D.C. Official Code § 44-106.04), the ISP developed following the completion of the "post move-in" assessment shall be based on the following factors:

(a) The medical, rehabilitation, and psychosocial assessment of the resident, conducted by or on behalf of the ALR and in accordance with § 802 of the

Act (D.C. Official Code § 44-108.02);

(b) The functional assessment of the resident, conducted by or on behalf of the ALR and in accordance with § 803 of the Act (D.C. Official Code § 44-108.03); and

(c) The reasonable accommodation of the resident's (or surrogate's) preferences.

10113.5 A "post move-in" assessment required by § 604 of the Act (D.C. Official Code § 44-106.04) shall be conducted by or on behalf of the ALR within seventy-two (72) hours of a resident's admission.

10113.6 An ALR shall ensure that the update of a resident's ISP conducted pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)) shall include the involvement of the following personnel on its behalf:

(a) A registered nurse licensed to practice in the District of Columbia;

(b) The ALA or Acting Administrator responsible for the ALR, if the health or safety of the resident is at risk; and

(c) Any additional healthcare professional licensed in the District whose expertise is necessary for the ALR to perform a full and competent review of the services provided in the ISP prior.

10113.7 At or around the time of an ISP review conducted pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)), the ALR shall:

(a) Obtain from the resident (or surrogate) a signed statement confirming that the resident (or surrogate):

(1) Was invited to participate in the review of the ISP; and

(2) Did or did not participate in the review of the ISP; or,

(b) If the resident has refused to give signed confirmation regarding the same ISP review on two (2) separate occasions, document in the resident's record the date, time, and method of each attempt to obtain the resident's signed confirmations and the name of the ALR personnel who made each attempt.

10113.8 An ALR shall provide the resident (or surrogate) no less than seven (7) days' notice prior to the review of a resident's ISP conducted pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)), unless seven days' (7) notice is made impractical due to a significant change in the resident's condition that

necessitates review of the resident's ISP at a sooner date. The notice shall:

(a) Include the date, time, and location at which the ALR proposes to conduct the ISP review, and advise the resident (or surrogate) that he or she may request to reschedule the ISP review to another date or time that is mutually agreeable;

(b) Include an outline of the topics to be discussed during the ISP review and no less than a summary of the ALR's proposed changes to the ISP, if any, in order to facilitate the resident's (or surrogate's) informed decision-making;

(c) Encourage the resident (or surrogate) to participate in the ISP review with the involvement of family and friends of the resident's choice in accordance with § 10113.2;

(d) Be delivered to the resident (or surrogate) in writing; and

(e) Be followed by no less than one (1) written reminder encouraging the resident (or surrogate) to participate in the review.

10113.9 An ALR shall permit a resident (or surrogate) to reschedule the review of his or her ISP conducted pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)) to a date and time that is mutually agreeable.

10113.10 If a resident (or surrogate) disagrees with an ISP that is updated pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)), the ALR shall:

(a) Attempt to resolve the disagreement according to its written policy and procedure for addressing a resident's disagreement with his or her updated ISP, which shall be implemented consistent with this subsection and in accordance with all applicable provisions of the Act and this chapter;

(b) Indicate within the ISP the portions that are in dispute;

(c) Document the disagreement in the resident's record;

(d) Record in the resident's record the date, time, and summary of each effort by the parties to discuss and resolve the disputed portions of the ISP, including, if applicable, the resident's (or surrogate's) uncoerced, written, informed consent to implement the portions of the ISP that are not in dispute, pursuant to § 10113.11 and 10113.12; and

(e) If attempts to resolve the dispute pursuant to paragraph (a) are unsuccessful, attempt to negotiate a shared responsibility agreement ("SRA") with the resident (or surrogate) according to the ALR's written

policy and procedures, which shall be in accordance with § 605 of the Act (D.C. Official Code § 44-106.05) and § 10114 of this chapter.

10113.11 A resident's (or surrogate's) disagreement with an ISP that is updated pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)) and in accordance with the Act and this chapter shall not, in and of itself, prevent the ALR from attempting to implement the ISP, provided that the individuals charged with implementing the ISP do not administer medications or treatments to the resident's person without the resident's (or surrogate's) consent. This subsection shall not be construed to prevent a resident (or surrogate) from engaging in negotiations to reach a SRA in accordance with § 605 of the Act (D.C. Official Code § 44-106.05) and § 10114 of this chapter, for reasons including, but not limited to, resolving a disagreement with respect to that resident's ISP, or exercising that resident's right to refuse participation in a service as provided by § 504(5) of the Act (D.C. Official Code § 44-105.04(5)).

10113.12 Consistent with § 10113.11, an ALR shall be permitted to implement an ISP that has been disputed by the resident (or surrogate) as follows:

(a) Implementation is limited to the portions of the ISP that are not in dispute, and in accordance with the resident's (or surrogate's) uncoerced, written, informed consent. For the purposes of this paragraph, informed consent requires that, prior to giving consent, the resident (or surrogate) has been provided, in writing, the specific ISP services that will not be implemented at that time, and an opportunity to have the ALR explain the consequences of accepting and forgoing the disputed portions of the ISP;

(b) Implementation is in accordance with an SRA that has been reached in order to resolve the resident's (or surrogate's) disagreement with the ISP, pursuant to the ALR's written policy and procedures and in accordance with the Act and § 10114 of this chapter; or

(c) Implementation of a disputed portion of the ISP is necessitated by a health emergency or by the resident's urgent medical needs as explicitly delineated in the signed, written orders of an attending healthcare practitioner or registered nurse.

10113.13 The ALR shall periodically monitor a resident who foregoes an ISP service in order to ascertain whether the resident can continue to forego the service safely.

10113.14 Nothing in this section shall compel an ALR to enter into a SRA that is inconsistent with § 605 of the Act (D.C. Official Code § 44-106.05), § 10114 of this chapter, or other applicable District or federal requirement.

10114 SHARED RESPONSIBILITY AGREEMENTS (SRAs)

10114.1 Shared responsibility agreements (SRAs) may be developed and entered into between an ALR and a prospective or admitted resident (or surrogate), at any time prior to or subsequent to the resident's admittance to the ALR.

10114.2 An ALR shall not enter into a SRA with a prospective or admitted resident (or surrogate) that:

(a) Seeks to directly or indirectly waive the ALR's obligations to the resident, in whole or in part, beyond the scope necessary to accommodate the resident's (or surrogate's) reasonable, requested arrangement or course of action;

(b) Relieves the ALR of its obligation ensure that it makes available for a resident's use all prescription and non-prescription medications and dietary supplements required to be provided to that resident according to his or her ISP developed or updated pursuant to § 604(d) of the Act (D.C. Official Code § 44-106.04(d)), or applicable law;

(c) Violates any applicable District or federal criminal law; or

(d) Violates or will cause the violation of any provision of the Act or this chapter.

10114.3 An SRA shall not have the effect of absolving a party from responsibility for negligent conduct.

10114.4 An ALR may decline to enter into a SRA if satisfaction of the SRA will result in an adverse risk to the health, welfare, or safety of other residents or ALR staff. The ALR shall identify the adverse risks for which it declined to enter the SRA in writing to the resident (or surrogate), and include a copy of that correspondence in the resident's record.

10114.5 Attempts to develop a SRA shall be conducted in good-faith. For purposes of this section, a good-faith attempt to negotiate a SRA shall mean a two-way negotiation between the ALR and the resident (or surrogate), where both parties have equal opportunity to propose and decline terms of the SRA, and suggest reasonable alternatives to accommodate the course of action the resident wishes to pursue.

10114.6 In the event that a good-faith attempt to negotiate a SRA is unsuccessful, the ALR:

(a) Shall document in the resident record the ALR's consultations with the resident (or surrogate) to dissuade the course of action, including but not

limited to:

(1) The date and time each consultation was held;

(2) The content of the consultations;

(3) The alternative courses of action proposed by the resident (or surrogate) and ALR, and why the proposed alternatives were not acceptable to the resident (or surrogate) or ALR;

(b) Shall notify the resident (or surrogate) that harm to the resident's person or others as a result of the persisted course of action may result in discharge;

(c) Shall not obstruct the resident from pursuing the course of action sought after, provided that the course of action does not pose a clear and present risk of harm to the health, welfare, or safety of other residents or staff, or otherwise warrant intervention by the ALR in order to maintain an environment that is safe and compliant with the ALR's obligations under the Act and this chapter. This paragraph shall not be construed to authorize either party to violate the terms of the resident agreement entered into between the ALR and resident pursuant to §§ 602 and 603 of the Act (D.C. Official Code §§ 44-106.02 and 44-106.03) as it pertains to resident conduct, or to prohibit an ALR from enforcing the provisions of its resident agreement in accordance with the Act, this chapter, all applicable law; and

(d) Shall monitor the resident as necessary to ascertain whether the resident's chosen course of action places the resident or others in danger, or other conduct for which subsequent action by the ALR is necessary to maintain an environment that is safe and compliant with the ALR's obligations under the Act and this chapter.

10115 TRANSFER, DISCHARGE, AND RELOCATION

10115. 1 The ALA or Acting Administrator shall determine if the care needs of a resident exceed the resources that can be marshalled by the ALR or third-party services in order to safely support the resident, making transfer to another facility necessary. This determination shall only be made after having consulted with the resident (or surrogate) to identify if the ALR can continue to support the resident safely. An ISP review shall satisfy the requirement for this consultation.

10115.2 Except as provided in § 10115.13, an ALR shall conform to the notices and procedures applicable to involuntary relocation, transfer, or discharge provided by subchapter 3 of Chapter 10 of Title 44 of the District of Columbia Official Code (D.C. Official Code §§ 44-1003.02 – 1003.13), and shall conduct the involuntary relocation, transfer, or discharge in accordance with this chapter and § 608(d)-(f)

of the Act (D.C. Official Code § 44-106.08(d)-(f)).

10115.3 Prior to transferring a resident to another facility for reasons other than an emergency described in § 608(b) of the Act (D.C. Official Code § 44-106.08(b)), or prior to a discharge, the ALR shall complete and transmit to the receiving facility or, if no receiving facility has been identified, to the resident (or surrogate) any information related to the resident that is necessary to ensure continuity of care and services, including at a minimum, the:

(a) Contact information of the healthcare practitioner or practitioners responsible for the primary care of the resident;

(b) Current medication and treatment orders from the resident's healthcare practitioner or practitioners;

(c) Dosage and date of each medication last administered to the resident;

(e) Resident's name, date of birth, and a personal identifier number, such as a social security number or health insurance information, for purposes of continuing medical care services;

(f) Primary medical diagnoses and allergies;

(g) Name and contact information for the resident's surrogate, if applicable; and

(h) Resident's Advanced Directive information.

10115.4 An ALR shall not transmit the information prescribed in § 10115.3 to the receiving facility without the prior, written, uncoerced consent of the resident (or surrogate). In the event that consent is withheld, an ALR shall transmit the information prescribed in § 10115.3 directly to the resident (or surrogate) prior to transfer or discharge.

10115.5 Although an ALR shall make every effort to avoid discharge, grounds for involuntary discharge may include the following:

(a) Failure to pay all fees and costs as specified in the contract;

(b) Inability of the ALR to meet the care needs of the resident as provided in the ISP, as amended by an SRA when applicable;

(c) Engaging in sexual harassment, exploitation, or other degrading conduct

to the detriment of another residents' dignity, in violation of the victim's rights provided under the Act and this chapter;

(d) Resident presents a risk of physical self-harm, or harm to one or more other residents or staff, for which no other reasonable means of mitigation are available;

(e) Discharge is essential to meet the ALR's reasonable administrative needs and no practicable alternative is available;

(f) The ALR is ceasing to operate;

(g) The licensed capacity of the ALR is being reduced by the District; or

(h) The license to operate the ALR is suspended or revoked.

10115.6 A resident's return to an ALR after transfer to, and subsequent discharge from, an acute care facility pursuant to § 608 (c) of the Act (D.C. Official Code § 44-106.08(c)) shall be guided by the following provisions:

(a) Pursuant to § 608(c) of the Act (D.C. Official Code § 44-106.08(c)), a resident's return to his or her ALR from an acute care facility pursuant to an attending healthcare practitioner's written approval shall be a provisional return pending renegotiation of the resident's ISP and the ALA's determination concerning whether the resident can continue to reside safely at the ALR in accordance with § 10115.1;

(b) It shall be considered an involuntary discharge for the purposes of the Act and this chapter for an ALR to refuse or obstruct a resident's return to the ALR from an acute care facility pursuant to his or her attending healthcare practitioner's written approval. An involuntary discharge described in this paragraph shall be afforded the same notices, procedures, and provisions applicable to involuntary discharges described in the Act, this chapter, and D.C. Official Code §§ 44-1003.02- 44-1003.13;

(c) If the attending healthcare practitioner's written approval to return to an ALR indicates that the resident requires additional supports in order to do so safely, those additional supports shall be arranged consistent with the resident agreement's financial provisions for coordinating and contracting services not covered by the resident agreement;

(d) Except for under the circumstances set forth in D.C. Official Code § 44-1003.02(b)(1) and (2) or the occurrence of a separate event for which a resident may be lawfully discharged under the Act or this chapter, a resident who has returned to the ALR pursuant to an attending healthcare practitioner's written approval shall be permitted to remain in the ALR:

(1) Throughout the ISP renegotiation performed under § 608(c) of the Act (D.C. Official Code § 44-106.08(c));

(2) Throughout the ALA's determination of whether the resident can continue to safely reside in the ALR in accordance with § 10115.1; and

(3) If the ALA determines that the resident must be transferred or discharged because of the ALR's inability to continue supporting the resident safely, throughout the transfer or discharge notice period, and hearing period if applicable, provided by the Act, this chapter, and D.C. Official Code §§ 44-1003.02 and 44-1003.03.

10115.7 As provided for by D.C. Official Code § 44-1003.02(d), the written notice due to a resident prior to an involuntary discharge, transfer, or relocation shall be on a form prescribed by the Director and shall, at a minimum, contain:

(a) The specific reason(s), stated in detail and not in conclusory language, for the proposed discharge, transfer, or relocation;

(b) The proposed effective date of the discharge, transfer, or relocation;

(c) A statement in not less than twelve (12)-point type that reads:

If you are mailing the hearing request form from the facility, the day you place it in the facility's outgoing mail or give it to a member of the staff for mailing shall be considered the date of mailing for purposes of the time limit. In all other cases, the postmark date shall be considered the date of mailing. If, instead, the decision is to relocate you within the facility and you think you should not have to move to another room, you or your representative have only 5 days to do the above.

"If you or your representative request a hearing, it will be held no later than 5 days after the request is received in the mail, and, in the absence of emergency or other compelling circumstances, you will not be moved before a hearing decision is rendered. If the decision is against you, in the absence of an emergency or other compelling circumstances you will have at least 5 days to prepare for your move if you are being discharge or transferred to another facility, and at least 3 days to prepare for your move if you are being relocated to another room within the

facility.

"To help you in your move, you will be offered counseling services by the staff, assistance by the District government if you are being discharged or transferred from the facility, and, at your request, additional support from the Long-Term Care Ombudsman program. If you have any questions at all, please do not hesitate to call one of the phone numbers listed below for assistance.";

(d) A hearing request form, together with a postage paid envelope preaddressed to the appropriate District official or agency;

(e) The name, address, and telephone number of the person charged with the responsibility of supervising the discharge, transfer, or relocation;

(f) The names, addresses, and telephone numbers of the Long-Term Care Ombudsman program and local legal services organizations; and

(g) The location to which the resident will be transferred.

10115.8 If the tribunal adjudicating a contested transfer, discharge, or relocation finds that the existence of a ground for transfer, discharge, or relocation, respectively, has been proven at a hearing requested by the resident pursuant to D.C. Official Code § 44-1003.03, the resident shall not be:

(a) Discharged or transferred from the facility before the 31st calendar day following his or her receipt of the transfer or discharge notice required under the Act and § 10115.7, or the 5th calendar day following his or her notification of the hearing decision, whichever is later, unless a condition set forth in D.C. Official Code § 44-1003.02(b)(1) and (2) develops in the interim; or

(b) Relocated within the facility before the 8th calendar day following his or her receipt of the relocation notice required under the Act and § 10115.7, or the 3rd calendar day following his or her notification of the hearing decision, whichever is later, unless a condition set forth in D.C. Official Code § 44-1003.02(b)(1) and (2) develops in the interim.

10115.9 The involuntary transfer or discharge of a resident shall be canceled, and the resident shall be entitled to remain in the ALR, upon remediation of the ground or grounds for transfer or discharge. Remediation may be, when applicable, the payment of all monies owed at any time prior to discharge, or the negotiation of a new ISP, and SRA if applicable, that meets the care needs of the resident prior to transfer or discharge.

10115.10 The ALR shall return all funds and personal property that have been deposited with or managed by the ALR for the benefit of the resident no later than the time of discharge.

10115.11 Within thirty (30) days after the date of the discharge or death of a resident, the ALR shall:

(a) Provide a final accounting of funds and personal property that have been deposited with or managed by the ALR for the benefit of the resident, which shall be delivered to the resident (or surrogate) in the event of discharge, or to the resident's legal representative in the event of the resident's death; and

10115.12 An ALR may temporarily relocate a resident to another living unit within the ALR on an involuntary basis if:

(a) Temporary relocation is necessary to protect the resident from an imminent and physical harm present in, or threatening to enter, the living unit;

(b) The imminent and physical harm is due to a curable condition of the living unit; and

(c) The temporary relocation lasts no longer than necessary to cure the threat to physical harm posed by the condition and return the living unit to its habitable condition.

10115.13 An involuntary, temporary relocation that is necessitated by the conditions set forth in § 10115.12 shall conform to the notices and procedures for involuntary relocation provided by subchapter 3 of Chapter 10 of Title 44 of the District of Columbia Official Code (D.C. Official Code §§ 44-1003.02 – 1003.13), except when an exigent threat to the resident's physical safety demands an abbreviated notice period.

10115.14 An ALR shall document in the resident's records any relocation, transfer, or discharge of a resident, and the basis for the action taken.

10116 STAFFING STANDARDS

10116.1 An ALR shall be supervised by an assisted living administrator (ALA) who shall be responsible for all personnel and services within the ALR, including, but not limited to, resident care and services, personnel, finances, adherence to the ALR's

own policies and procedures, and the ALR's physical premises.

10116.2 A Licensee may designate a person to serve as ALA to supervise the ALR provided that the designee holds a current, valid license to practice assisted living administration issued by the District of Columbia's Board of Long-Term Care Administration. The Licensee shall submit the name of the person designated to be ALA to the Director on a form approved by the Director not more than ten (10) days after the designation is made or the designee has begun employment as the ALA, whichever occurs first.

10116.3 In addition to the staffing standards for ALAs set forth by § 701 of the Act (D.C. Official Code § 44-107.01), an ALA shall meet all requirements to practice assisted living administration prescribed by the District of Columbia Health Occupations Revision Act of 1985, effective March 25, 1986 (D.C. For purposes of this section, a "leave of absence" shall mean an ALA's scheduled or unscheduled absence from his or her supervision of the ALR for more than one (1) work day during which the ALA would normally have been expected to oversee the ALR's day-to-day operations.

10116.6 An ALA shall not be subject to § 10116.4(b) during a leave of absence described in § 10116.5.

10116.7 An Acting Administrator who is designated pursuant to § 10116.5 shall be held responsible for all duties prescribed to an ALA under the Act and this chapter for the duration of the ALA's leave of absence, or until relieved from duty as the Acting Administrator.

10116.8 An Acting Administrator who is designated pursuant to § 10116.5 shall, at all times one (1) or more residents are on the ALR's premises and he or she is not, comply with paragraphs (a) and (b) of § 10116.4.

10116.9 An ALR shall not be administrated by any person other than a licensed ALA for more than six (6) cumulative weeks in a twelve (12) month period without prior, written approval by the Director. A request for written authorization under this subsection shall be submitted to the Director in writing, and shall contain all information deemed necessary by the Director to determine the qualifications of the individual or individuals who will be serving as an Acting Administrator beyond the sixth (6^{th}) cumulative week of the ALA's leave of absence.

10116.10 An ALR shall not permit any person or persons, other than a licensed ALA, to administrate the ALR for more than a total of twelve (12) cumulative weeks in a twelve (12) month period.

Record of the ALA's leaves of absence shall be made available to the Director or the Director's designee upon request during an inspection of an ALR authorized by this chapter or the Act.

10116.13 An ALR shall cause no less than one (1) registered nurse to be available to the ALA and the ALR's staff members twenty-four (24) hours a day, seven (7) days a week. For the purpose of this subsection, "available" means the registered nurse is required to:

10116.17 All employees, including the ALA, shall be required on an annual basis to document freedom from tuberculosis in a communicable form. Documentation shall be provided by the employee's licensed healthcare practitioner.

10116.18 All employees shall wear identification badges on their persons, which shall not be obscured, but shall always remain visible while the employee is on the ALR premises. The identification badge shall prominently and conspicuously display the employee's full name and job title.

10116.19 The first name, last name, and job title of the ALA, or Acting Administrator, on duty shall be posted in a manner conspicuous to residents and visitors.

10117 ASSISTED LIVING ADMINISTRATORS (ALAs)

ZONING COMMISSION FOR THE DISTRICT OF COLUMBIA

NOTICE OF SECOND PROPOSED RULEMAKING
Z.C. Case No. 19-06
(Text Amendment – 11-X DCMR)
(To Clarify Voluntary Design Review FAR Aggregation)

The Zoning Commission for the District of Columbia (Commission), pursuant to its authority under § 1 of the Zoning Act of 1938, approved June 20, 1938 (52 Stat. 797, as amended; D.C. Official Code § 6-641.01 (2018 Rep1.)), hereby gives notice of its intent to amend the first Notice of Proposed Rulemaking (NOPR) in this case, which was published in the *D.C. Register* on July 5, 2019 at 66 DCR 7980, to propose additional changes to Subtitle X (General Procedures) of Title 11 (Zoning Regulations of 2016) of the District of Columbia Municipal Regulations (DCMR).

In response to public comments to the NOPR, the Commission proposes to amend the NOPR to revise § 601.4 of Subtitle X to clarify that a Voluntary Design Review (VDR) application cannot include a public street, but only an alley or other non-street right-of-way. This proposed revision of § 601.4 supersedes those proposed in the NOPR, which is otherwise retained. The Commission is publishing these changes in this Notice of Second Proposed Rulemaking pursuant to 1 DCMR §§ 309.7 and 310.5.

At its public meeting of September 9, 2019, upon the motion of Commissioner May, as seconded by Vice Chairman Miller, the Zoning Commission took **PROPOSED ACTION** to authorize the publication of a Notice of Second Proposed Rulemaking by a vote of **4-1-0** (Robert E. Miller, Peter A. Shapiro, Peter G. May, and Michael G. Turnbull to approve; Anthony J. Hood to deny).

Final rulemaking action on the NOPR, as modified by this Notice of Second Proposed Rulemaking, shall be taken not less than seven (7) days from the date of publication of this notice in the *D.C. Register*. As permitted under D.C. Official Code § 2-505(a), the Commission is providing a reduced comment period of seven (7) days for "good cause," namely that the public has already had the required thirty (30) days to comment on the underlying rulemaking so that this additional comment period is for the proposed change, which is very minor, affecting only one subsection, and which was proposed in response to some of the public comments filed on the underlying rulemaking.

The following amendments to Title 11 DCMR are proposed (additions are shown in **bold and underlined** text and deletions are shown in ~~**bold and strikethrough**~~ text; the proposed changes to the first Notice of Proposed Rulemaking text are shown in **CAPITALS**):

Subsection 601.4 of Section 601, APPLICABILITY, of Chapter 6, DESIGN REVIEW, of Subtitle X, GENERAL PROCEDURES, is proposed to be amended as follows:

601.4 All the property included in a design review application**, whether voluntary or ~~NON-VOLUNTARY~~ MANDATORY,** shall be contiguous, except that the

property may be separated only by a public ~~**STREET,**~~ alley~~,~~ or **PUBLIC** right-of-way **OTHER THAN A PUBLIC STREET**.

All persons desiring to comment on the subject matter of this proposed rulemaking action should file comments in writing no later than seven (7) days after the date of publication of this notice in the *D.C. Register*. Comments should be filed with Sharon Schellin, Secretary to the Zoning Commission, Office of Zoning, through the Interactive Zoning Information System (IZIS) at https://app.dcoz.dc.gov/Login.aspx; however, written statements may also be submitted by mail to 441 4th Street, N.W., Suite 200-S, Washington, D.C. 20001; by e-mail to zcsubmissions@dc.gov; or by fax to (202) 727-6072. Ms. Schellin may be contacted by telephone at (202) 727-6311 or by email at Sharon.Schellin@dc.gov. Copies of this proposed rulemaking action may be obtained at cost by writing to the above address.

DEPARTMENT OF HEALTH

NOTICE OF FOURTH EMERGENCY RULEMAKING

The Director of the Department of Health ("Department"), pursuant to the authority set forth in Section 1301 of the Assisted Living Residence Regulatory Act of 2000, effective June 24, 2000 (D.C. Law 13-127; D.C. Official Code §§ 44-101.01 *et seq*. (2012 Repl.)) (the "Act") and in accordance with Mayor's Order 2005-137, dated September 27, 2005, hereby gives notice of the adoption, on an emergency basis, of the following amendments to Chapter 101 (Assisted Living Residences) of Title 22 (Health), Subtitle B (Public Health and Medicine) of the District of Columbia Municipal Regulations ("DCMR").

The Department has determined that there are a number of gaps in the Act which put residents at risk of injury to their persons and to the rights granted to them under the Act. This rulemaking is necessary to preserve the health, safety, and welfare of District residents to address those gaps and immediately preserve and promote the health, safety, and welfare of the public by establishing emergency regulations for Assisted Living Residences ("ALRs") in order to set forth requirements to meet emergency preparedness and fire prevention guidelines, as well as clear and comprehensive requirements for operating an ALR in a manner that preserves the health, safety, and welfare of the residents within.

This emergency rulemaking is necessary to immediately implement ALR rules that: ensure all ALRs comply with fire prevention codes or emergency preparedness guidelines; ensure a background check of ALR license applicants; require all ALRs to investigate and report unusual incidents that jeopardize the health and safety of ALR residents; protect ALR residents from entering into agreements that would relieve ALRs from their duty to administer a medication to a resident; ensure that residents who are involuntarily discharged receive proper written notice of the resources and the rights to challenge the discharge that are due to them under D.C. Law 6-108; establish a standard for the types of health information that must accompany a resident who is discharged or transferred to another facility to ensure the receiving facility has an adequate medical history for the resident to immediately resume care upon receipt; ensure that each ALR has no less than one (1) registered nurse available to the ALR twenty-four (24) hours a day, seven (7) days a week; require all ALRs to implement policies and procedures to ensure the supervision of visitors who are likely to have access to resident living units; ensure that all ALRs maintain sufficient supervision of the healthcare professionals that are hired privately by ALR residents; establish a standard for medication self-administration assessments; ensure safe medication storage parameters; or require ALRs to document, investigate, and report all adverse drug reactions. This emergency action will supplement the provisions of the Act in order to ensure that the aforementioned provisions are in place to immediately preserve the health, safety, and welfare of ALR residents.

In addition to establishing the aforementioned provisions, this rulemaking action will also enhance and clarify the Act's existing provisions as necessary to address current industry practices and challenges while promoting and protecting ALR residents' rights, health, and safety. Lastly, this rulemaking relocates the section titled "Fees" from 22-B DCMR § 10101 to 22-B DCMR § 10105, but does not make any changes to the existing language in the section.

The Department is aware that regulations governing the practice of assisted living administrators and the licensure of said practice have not yet been published. Consequently, the Department will not enforce the portions of this rulemaking that require an individual to be licensed by the District of Columbia Board of Long-Term Care Administration or otherwise authorized by the Director to practice assisted living administration until rules have been promulgated to govern said licensure and authorization.

A Notice of Emergency and Proposed Rulemaking was published in the *D.C. Register* on August 24, 2018 at 65 DCR 8785 to immediately preserve and promote the health, safety and welfare of the public for the reasons addressed above. Those emergency regulations were adopted on August 16, 2018 and expired one hundred twenty (120) days from their date of adoption, *i.e.*, on December 14, 2018. A Notice of Second Emergency Rulemaking identical to the first was adopted by the Department on December 10, 2018, published in the *D.C. Register* on January 25, 2019 at 66 DCR 1222, and expired one hundred twenty (120) days from its date of adoption, *i.e.*, on April 9, 2019. The Notice of Second Emergency Rulemaking was adopted in order to sustain the District's sole body of regulations governing the operation and emergency preparedness of assisted living residences while the Department sought to incorporate comments it received from the proposed regulations published on August 24, 2018. A Notice of Third Emergency Rulemaking was adopted by the Department on April 2, 2019, published in the *D.C. Register* on June 21, 2019 at 66 DCR 7472, and expired one hundred twenty (120) days from its date of adoption, *i.e.*, on July 31, 2019. The Notice of Third Emergency Rulemaking was adopted in order to prevent any lapse in the District's assisted living residence emergency regulations while the Department sought publication of its Notice of Second Proposed Rulemaking.

This Notice of Fourth Emergency Rulemaking is identical to the Notice of Third Emergency Rulemaking published in the *D.C. Register* on June 21, 2019 at 66 DCR 7472, except that trained medication employees ("TMEs") have been removed from the list of permitted private duty healthcare professionals in §§ 10124.3 and 10124.7 so as to be in alignment with Board of Nursing regulations for TMEs. This Notice of Fourth Emergency Rulemaking is also necessary to prevent any lapse in the District's assisted living residence emergency regulations while the Department seeks publication of its Notice of Second Proposed Rulemaking. The emergency rules are the only municipal regulations governing the operation and emergency preparedness of assisted living residences in the District of Columbia. Therefore, this emergency rulemaking action is necessary to maintain the status quo and preserve the District's entire body of regulations governing the operation and emergency preparedness of assisted living residences after the expiration of the previous emergency rules on July 31, 2019.

This emergency rule was adopted on July 31, 2019, and became effective immediately on that date. The emergency rule will expire one hundred twenty (120) days from the date of adoption (*i.e.*, on November 28, 2019), or upon publication of a Notice of Final Rulemaking in the *D.C. Register*, whichever occurs first.

Chapter 101, ASSISTED LIVING RESIDENCES, of Title 22-B, PUBLIC HEALTH AND MEDICINE, is amended in its entirety to read as follows:

CHAPTER 101 ASSISTED LIVING RESIDENCES

Secs.

10100 GENERAL PROVISIONS

10100.1 These rules are implemented pursuant to and in accordance with the Assisted Living Residence Regulatory Act of 2000, effective June 24, 2000 (D.C. Law 13-

127, D.C. Official Code §§ 44-101.01 *et seq*.), as amended from time to time (hereinafter, "the Act").

10100.2 The provisions set forth in this chapter have been issued to supplement provisions of the Act. Accordingly, each assisted living residence ("ALR") licensed pursuant to the Act must comply with the Act and with this chapter, which together constitute standards for licensing and operation of assisted living residences within the District of Columbia.

10100.3 Nothing in this chapter shall be construed to contradict the provisions of the Act or abridge the residents' rights provided therein.

10100.4 An ALR that participates in the Medicaid Home Community-Based Services Waiver program for the Elderly and Persons with Physical Disabilities, as approved by the Council of the District of Columbia and the Centers for Medicare and Medicaid Services, shall maintain compliance with Chapter 42 (Home and Community-Based Services Waiver for Persons Who Are Elderly and Individuals with Physical Disabilities) of Title 29 of the District of Columbia Municipal Regulations ("DCMR").

10101 PURPOSE

10101.1 The purpose of this chapter is to supplement provisions of the Act, which sets minimum, reasonable standards for licensure of assisted living residences ("ALRs") in the District of Columbia. This chapter is intended to maximize independence and promote the principles of individuality, personal dignity, autonomy, freedom of choice, and fairness for all individuals residing in assisted living programs while establishing reasonable standards to protect the individuals' health and safety.

10102 AUTHORITY TO OPERATE AN ASSISTED LIVING RESIDENCE (ALR) IN THE DISTRICT OF COLUMBIA

10102.1 The provision of housing under a landlord-tenant arrangement does not, in and of itself, exclude a person from the requirements to be licensed and in compliance with the provisions of the Act and this chapter.

10102.2 A separate license shall be required to operate each ALR, regardless of whether multiple ALRs are operated by the same person, or whether the ALR is on premises shared with another ALR or facility. Each ALR license shall be specific to the location of the ALR.

10102.3 An ALR shall post its license to operate on its premises in a manner conspicuous to residents and visitors.

10102.4 A Licensee shall be responsible for the health and safety of the ALR's residents.

10102.5 A Licensee shall be responsible for the operation of the ALR, including the ALR's compliance with the Act, this chapter, or any other applicable District or federal laws or regulations.

10102.6 An ALR's failure to comply with the Act, this chapter, or any other applicable District or federal laws or regulations may be grounds for sanctions or penalties, including suspension or revocation of licensure, as specified in the Act and this chapter.

10103 RESTRICTIONS

10103.1 An ALR shall not provide services beyond the scope of its license.

10103.2 An entity may not use the term "assisted living" to advertise its services unless the entity is licensed under the Act to provide assisted living services.

10103.3 A person may not advertise, represent, or imply to the public that an ALR is authorized to provide a service that the service provider is not licensed, certified, or otherwise authorized to provide.

10103.4 A person may not advertise the facilities or services provided by the assisted living residence in a manner that is false, misleading, or fraudulent. Facilities or services that are provided at an additional cost shall be identified in a manner that indicates such.

10103.5 The Director shall issue each license only for the premises and person or persons named as applicants in the application and the license shall not be valid for use by any other person or persons or at any place other than that designated in the license. Any transfer as to person or place shall cause the immediate forfeiture of the license.

10103.6 Each license to operate an ALR that is in the Licensee's possession shall be the property of the District Government and shall be returned to the Director immediately upon any of the following events:

(a) Suspension or revocation of the license;

(b) Refusal to renew the license;

(c) Voluntary forfeiture of the license; or

(d) The ALR's operation is discontinued by voluntary action of the Licensee.

10104 QUALIFICATION AND ELIGIBILITY

10104.1 The Director may conduct background checks on an applicant for licensure or for renewal of licensure in order to determine the applicant's suitability or capability to operate or to continue operating an assisted living residence. If applicant is a partnership or non-corporation business entity, the background checks may be conducted on the owners. If applicant is a corporation, the background checks may be conducted on the directors, officers, and any person owning or controlling ten percent (10%) of common stock in the corporation.

10104.2 Background checks may consist of, but not be limited to, investigating the following:

(a) Whether the applicant, or the individual identified on the application to serve as assisted living administrator ("ALA") for the ALR, holds a current, valid license to practice assisted living administration in the District of Columbia;

(b) Applicant's history of compliance with the District of Columbia or any other state's licensing requirements and with any federal certification requirements, including any license revocation or denial; and

(c) The arrest and criminal records of the applicant, including but not limited to the following:

(1) Crimes or acts involving abuse, neglect or mistreatment of a person or misappropriation of property of the person;

(2) Crimes or acts related to the manufacture, distribution, prescription, use, or dispensing of a controlled substance;

(3) Fraud or substantial or repeated violations of applicable laws and rules in the operation of any health care facility or in the care of dependent persons;

(4) A conviction or pending criminal charge which substantially relates to the care of adults or minors, to the funds or property of adults or minors, or to the operation of a residential or health care facility; or

(5) Currently under investigation by Law Enforcement Agencies to include, but not limited to the FBI, Office of Inspector General, Department of Health, and Department of Health Care Finance.

10107.2 An ALR or prospective ALR that seeks to accept the Director's suggested remedy or propose its own remedy, pursuant to Section 306(e) of the Act (D.C. 10108 ADMISSIONS

10108.1 An ALR shall accept as residents only individuals for whom the ALR can provide appropriate services unless the ALR arranges for third party services or the

resident does so with the agreement of the ALR. No ALR may have more residents, including respite care residents, than the maximum bed capacity on its license.

10108.2 An ALR may deny admission to an individual if the individualized service plan ("ISP") that is developed prior to the applicant's admission, pursuant to Section 604(d) of the Act (D.C. Official Code § 44-106.04(d)), does not indicate that the applicant requires the minimal level of assisted living services provided by the ALR.

Official Code § 44-106.01(d)(1)), no individual may be admitted who at the time of initial admission, and as established by the initial assessment is dangerous to him or herself or others or exhibits behavior that significantly and negatively impacts the lives of others, to include physical or mental abuse of others or destruction of property, where the ALR would be unable to eliminate such danger or behavior through the use of appropriate treatment modalities.

10114.4 Attempts to develop a shared responsibility agreement shall be conducted in good-faith. For purposes of this section, a good-faith attempt to negotiate a SRA shall mean a two-way negotiation between the ALR and the resident (or surrogate), where both parties have equal opportunity to offer and reject terms of the SRA, and suggest reasonable alternatives to accommodate the course of action the resident wishes to pursue.

If you are mailing the hearing request form from the facility, the day you place it in the facility's outgoing mail or give it to a member of the staff for mailing shall be considered the date of mailing for purposes of the time limit. In all other cases, the postmark date shall be considered the date of mailing. If, instead, the decision is to relocate you within the facility and you think you should not have to move to another room, you or your representative have only 5 days to do the above.

"If you or your representative request a hearing, it will be held no later than 5 days after the request is received in the mail, and, in the absence of emergency or other compelling circumstances, you will not be moved before a hearing decision

If the decision is against you, in the absence of an emergency or other compelling circumstances you will have at least 5 days to prepare for your move if you are being discharge or transferred to another facility, and at least 3 days to prepare for your move if you are being relocated to another room within the facility.

"To help you in your move, you will be offered counseling services by the staff, assistance by the District government if you are being discharged or transferred from the facility, and, at your request, additional support from the Long-Term Care Ombudsman program. If you have any questions at all, please do not hesitate to call one of the phone numbers listed below for assistance.";

Rectification may be, if applicable, the payment of all monies owed at any time prior to discharge, or negotiation of a new ISP that meets the care needs of the resident.

10124.2 The initial assessment and periodic medication review performed pursuant to Sections 901 and 903 of the Act (D.C. Official Code §§ 44-109.01 and 44-109.03) for the purpose of determining whether a resident is capable of self-administering medication shall make one the following findings based on an assessment of the associated tasks below:

(a) A resident is capable of self-administering his or her own medication if the resident can:

(1) Correctly read the label on the medication's container;

(2) Correctly interpret the label;

(3) Correctly follow instructions as to route, dosage, and frequency of administration;

(4) Correctly ingest, inject, or otherwise apply the medication;

(5) Correctly measure or prepare the medication, including mixing, shaking, and filling syringes;

(6) Safely store the medication;

(7) Correctly follow instructions as to the time the medication must be administered; and

(8) Open the medication container, remove the medication from the container, and close the container;

(b) A resident is capable of self-administering his or her own medication, but requires a reminder to take medications or requires physical assistance with opening and removing medications from the container, or both, if the resident can:

(1) Correctly read the label on the medication's container;

(2) Correctly interpret the label;

(3) Correctly follow instructions as to route, dosage, and frequency of administration;

(4) Correctly ingest, inject, or otherwise apply the medication;

(5) Correctly measure or prepare the medication, including mixing, shaking, and filling syringes; and

(6) Safely store the medication; or

(c) A resident is not capable of self-administering his or her own medication if the resident needs assistance to properly carry out one or more of the tasks enumerated in paragraph (b) of this subsection.

10124.3 A resident who cannot, or chooses not to, self-administer medication without full or partial assistance may arrange with a third-party for a licensed practical nurse, registered nurse, advanced practice registered nurse, physician, physician assistant, or certified medication aide to administer medication to the resident or assist the resident with taking his or her medications to the extent of the healthcare professional's authority to do so under District and federal laws or regulations. A healthcare professional arranged to administer or assist in the administration of medication to a resident in accordance with this subsection shall be required to conform to the requirements of private duty healthcare professionals provided in Section 10118 of this chapter.

10124.4 An ALR may employ or arrange for a licensed practical nurse, registered nurse, advanced practice registered nurse, physician, physician assistant, trained medication employee ("TME"), or certified medication aide to administer, or assist in the administration of, medication to a resident, provided that:

(a) The healthcare professional holds the requisite certificate, registration, or license to practice issued by the District;

(b) The healthcare professional does not exceed his or her authority to administer or assist in the administration of medication to the resident under District and federal laws or regulations;

(c) The ALR discloses, orally and in writing, any fees, rates, or charges associated with providing assistance with or administration of medication that are additional to the resident's existing bill, in accordance with Section 10111 of this chapter;

(d) Prior to the provision of the medication administration or assistance, the resident provides in writing:

(1) Acceptance of the medication administration or assistance offered by the ALR; and

(2) Acknowledgment of receiving the ALR's medication administration policy and the disclosure of fees required in paragraph (c) of this subsection; and

(e) The ALR has in place education, remediation, and discipline procedures by which to address recurring medication errors perpetrated by the licensed practical nurse, registered nurse, advanced practice registered nurse, physician, physician assistant, TME, or medication aide.

10124.5 An ALR shall require that administration or assistance in the administration of medication to a resident by a healthcare professional pursuant to Subsections 10124.03 and 10124.04 be in accordance with the prevailing standard of acceptable medication administration rights in the healthcare professional's field.

10124.6 An ALR shall ensure that all medication administered to a resident by licensed practical nurse, registered nurse, advanced practice registered nurse, physician, physician assistant, TME, or certified medication aide on its premises shall be recorded on a written or electronic medication administration record that is kept as part of the resident's medical records.

10124.7 An ALR shall ensure that all employees and all licensed practical nurses, registered nurses, advanced practice registered nurses, physicians, physician assistants, or certified medication aides responsible for administering or assisting in the administration of medication to a resident while on the ALR's premises, immediately report any medication error or adverse drug reactions to the ALR's available registered nurse and ALA upon discovery. The ALR shall require the ALA or Acting Administrator to report the medication error or adverse drug reaction, to the resident's healthcare practitioner, prescriber, pharmacist, and the resident (or surrogate), as appropriate.

10124.8 An ALR shall require all medication errors and adverse drug reactions be documented in the resident's record.

10124.9 An ALR shall initiate an investigation of any reported medication error or adverse drug reaction within twenty-four (24) hours of discovery. Upon the completion of the investigation, the ALR shall compose a report documenting the findings and conclusion of the investigation, which shall be kept as part of the ALR's records for no less than five (5) years. A report required under this subsection shall also be made available to the Director or the Director's designee upon request during an inspection authorized by this chapter or the Act.

10124.10 An ALR shall submit to the Director a copy of any report of an adverse drug reaction required by Subsection 10124.09 within thirty (30) days of the discovery of the adverse drug reaction, in addition to the requirements of Subsection 10124.09 and the notification requirements of Subsection 10125.02.

10125 REPORTING ABUSE, NEGLECT, EXPLOITATION, AND UNUSUAL INCIDENTS

10125.1 The results of an ALR's investigation into allegations of abuse, neglect, or exploitation of a resident pursuant to Section 509(b)(3) of the Act (D.C. Official Code 44-105.09(b)(3)) shall be reported to the Director within thirty (30) days of the complaint or fifteen (15) days of the conclusion of the investigation, whichever occurs first.

10125.2 In addition to the requirements to report abuse, neglect, and exploitation of a resident provided in Section 509 of the Act (D.C. Official Code § 44-105.09), each ALR shall notify the Director of any unusual incident that substantially affects a resident. Notifications of unusual incidents shall be made by contacting the Department of Health by phone immediately, and shall be followed up by written notification to the same within twenty-four (24) hours or the next business day.

10125.3 For purposes of Subsection 10125.02, an "unusual incident that substantially affects a resident" shall mean any occurrence related to the operation of an assisted living residence or to the conduct of the ALR's personnel that results in significant harm, or the potential for significant harm, to any resident's health, welfare, or wellbeing. Unusual incidents include, but are not limited to: an accident resulting in injury to a resident, death, theft of a resident's property or funds, or any occurrence requiring or resulting in intervention from law enforcement or emergency response personnel.

10126 INSPECTIONS

10126.1 In addition to the inspections authorized by the Act, the Director may inspect an ALR at the Director's discretion to ensure compliance with this chapter.

10126.2 Inspections of an ALR for purposes of initial licensure or compliance with this chapter after license renewal shall be conducted by the Director following the procedures set forth in D.C. Official Code § 44-505 and the requirements of the Act and this chapter.

10127 SANCTIONS

10127.1 Failure of a Licensee to comply with the requirements of this chapter shall be grounds for sanctions, which shall be imposed in accordance with the Act and this

chapter.

10127.2 On determining that a Licensee has violated this chapter, the Director may impose, or cause to be imposed, the sanctions set forth in Section 401 of the Act (D.C. Official Code § 44-104.01).

10127.3 If the Director determines that the Licensee has violated a condition or requirement of a sanction imposed under the authority of this chapter, the Director may suspend or revoke the license.

10127.4 Appeals under this section may be taken pursuant to Section 1201 of the Act (D.C. Official Code § 44-1012.01).

10128 CIVIL PENALTIES

10128.1 The Director may impose, or cause to be imposed, one or more of the civil penalties authorized under Section 402 of the Act (D.C. Official Code § 44-104.02) against persons who:

(a) Maintain or operate an unlicensed ALR; or

(b) Otherwise violate provisions of this chapter.

10128.2 Notwithstanding any other provision of law, penalties authorized under Subsection 10128.01 shall not be imposed by the Director unless a violation cited during an inspection:

(a) Is within the control of the ALR; and

(b) Poses an immediate or serious and continuing danger to the health, safety, welfare, or rights of resident.

10128.3 If, during a follow-up inspection, the Director determines that violations of this chapter which are within the control of the facility and were cited in an immediately prior inspection have not been corrected or have recurred, the Director may impose the penalties authorized under Section 402 of the Act (D.C. Official Code § 44-104.02).

10128.4 Appeals under this section may be taken as provided by Section 402(d) of the Act (D.C. Official Code § 44-104.02(d).).

10129 CRIMINAL PENALTIES

10129.1 The criminal penalties authorized by Section 403 of the Act (D.C. Official Code § 44-104.03) of the Act shall apply to an ALR.

10130 REFERRALS TO REGULATORY ENTITIES

10130.1 The Director may refer an ALA suspected of conduct prohibited by the Act, this chapter, or other District or federal law to the District of Columbia Board of Long-Term Care Administration for review of the suspected conduct.

10130.2 The Director may refer any healthcare professional who practices his or her healthcare profession on the premises of an ALR and who suspected of conduct prohibited by the Act, this chapter, or other District of federal law to the appropriate regulatory entity with jurisdiction over the healthcare professional for review of the suspected conduct.

10130.3 Nothing in this section shall prohibit the Director from referring any individual suspected of conduct prohibited by District or federal law or regulation to the appropriate District or federal regulatory entity.

10131–10198 [RESERVED]

ADMINISTRATIVE ISSUANCE SYSTEM

Mayor's Order 2019-081
September 13, 2019

SUBJECT: CANNABIS POLICY, GUIDANCE AND PROCEDURES

ORIGINATING AGENCY: Office of the Mayor

By virtue of the authority vested in me as Mayor of the District of Columbia by section 422(2), (3), and (11) of the District of Columbia Home Rule Act, 87 Stat. 790, Pub. L. No. 93-198, D.C. Official Code § 1-204.22(2), (3), and (11) (2016 Repl.), it is hereby **ORDERED** that:

I. PURPOSES

The purposes of this Order are:

A. To update and clarify the responsibilities of District government agencies in conforming to laws, in setting rules, in communicating such rules and laws to their employees, and in establishing practices and appropriate discipline to enforce such laws and rules relating to cannabis use, while allowing employees maximum freedom to use cannabis in ways that are legal under District law so long as the use does not endanger themselves or others at work, impair their productivity or ability to effectively and efficiently perform their work, impair the productivity of District workplaces, or endanger members of the public or clients or customers entrusted to their care; and

B. To improve understanding on the part of District government employees, contractors, and grantees, regarding their ability to use cannabis under District law without jeopardizing their positions.

II. AFFECTED AGENCIES AND INDIVIDUALS

A. This Order shall apply to all District government agencies under the direct administrative authority of the Mayor, including agencies whose personnel authority does not report to the Department of Human Resources ("**DCHR**").

B. Agencies not under the direct administrative authority of the Mayor are encouraged to adopt regulations, policies, and procedures consistent with this Order, to ensure that its employees are given notice of agency policies and any designations relating to safety or testing regimes that apply to particular employees, and that any testing regimes are carried out fairly and transparently.

III. VALUES

A. Public service is a public trust, and the public must feel safe and secure when entrusting the District government to provide services. Such services must be delivered in a safe, effective, and efficient manner, and safety, effectiveness, and efficiency can be compromised if an employee is intoxicated or impaired.

B. The District government values its employees and understands that there is a large cost to employees and agencies when employees lose their jobs due to positive drug tests.

C. The District government believes in progressive discipline for all but the most serious offenses.

D. The District government does not endorse the use of cannabis as a healthful activity, any more than it endorses alcohol or tobacco use, but it recognizes that there is a sphere of personal freedom for adult employees, who are allowed under District law to possess and use cannabis.

E. The District government respects the recommendations of medical professionals who recommend the use of medical marijuana for the treatment of various conditions.

F. The District government has and maintains strong policies against being intoxicated at work, whether or not the intoxicant was recommended for a medical condition.

G. District government employees owe the District and its residents their best efforts at work, efforts that can be impaired by cannabis use, and such impairment may extend beyond the time of initial intoxication.

H. The District government provides leave to its employees; therefore, employees with medical conditions warranting the use of cannabis during the work day may take sick leave, or any other type of leave, with the approval of their supervisor, rather than being impaired by cannabis during a shift.

I. District government agencies and employees are obligated by the Code of Conduct to adhere to all applicable federal and District laws regarding employment.

J. Many District government employees hold positions of such sensitivity that any impairment could threaten the safety of themselves or others.

K. Similarly-situated employees across District government agencies should be treated in a similar manner.

IV. POLICIES AND PROCEDURES

A. Employment Categorizations.

1. Title 6-B of the District of Columbia Municipal Regulations ("**DCMR**") establishes an enhanced suitability tiered system of drug and alcohol testing based upon three (3) categories of employees: safety-sensitive, protection-sensitive, and security-sensitive.

2. Safety-sensitive positions are subject to heightened suitability standards, including pre-employment and random drug and alcohol testing, because employees occupying those positions could cause permanent physical injury or loss of life if under the influence of or impaired by drugs or alcohol.

3. Protection-sensitive positions are subject to heightened suitability standards, including pre-employment drug and alcohol testing, because employees occupying those positions carry out duties or responsibilities that involve caring for patients or other vulnerable persons.

4. Employees in security-sensitive positions and all other District employees are subject to drug and alcohol testing when there is a reasonable suspicion that the employee, while on duty, is impaired or otherwise under the influence of a drug or alcohol. Such employees are also subject to post-incident and post-accident drug and alcohol testing.

B. Designation of Safety-, Protection-, and Security-Sensitive Positions.

1. In order to properly implement the District's alcohol and drug testing requirements, agencies shall properly designate employment positions as safety-sensitive, protection-sensitive, and security-sensitive according to their job functions.

2. By October 30, 2019, and annually thereafter by September 30, each agency shall review and designate which positions in the agency are safety-sensitive, protection-sensitive, and security-sensitive consistent with Chapter 4 of Title 6-B of the DCMR. The roster of designations shall be approved by the agency's head of human resources, general counsel, and director. Thereafter, the roster shall be delivered to the agency's personnel authority for final approval.

3. An agency shall not automatically designate every position in the agency as safety-sensitive. Instead, the agency must consider individually each type of position at the agency and shall, when determining whether to designate the position as safety-sensitive, consider such factors as:

a. Whether the position requires or may involve carrying a firearm;

b. Whether the position involves direct contact with, is entrusted with the direct care and custody of, and may affect the health, welfare, or safety of children or youth, or of other vulnerable persons;

c. Whether the position involves work in a facility or residence where contraband including cannabis is strictly prohibited;

d. Whether the duties of the position require periods of such continuous and careful attention that any impairment caused by drugs or alcohol could lead to a lapse of attention that could cause actual, immediate, and permanent physical injury or loss of life to self or others;

e. Whether the position involves, but is not limited to, driving or operating large trucks, heavy or power machinery, or mass transit vehicles; and

f. Whether the employees or positions are required by law to undergo drug testing (a "legally regulated position"), including but not limited employees or positions required to undergo drug testing under the Comprehensive Drug Abuse Prevention and Control Act of 1970, approved October 27, 1970, Pub. L. 91-513, 84 Stat. 1236, 21 U.S.C. § 801 *et seq.*; commercial motor vehicle operators under 49 U.S.C. § 31306 *et seq.*; and air carrier employees under 49 U.S.C. § 45102.

C. **Notice and Acknowledgment.**

1. An employee in a position designated as safety-sensitive or in a legally regulated position shall be provided a notice stating that his or her position is safety-sensitive and/or a legally regulated position and he or she is subject to random drug testing, including for the presence of cannabinoids.

2. The notice required by this subsection shall be provided before or upon hiring and annually thereafter to each employee or applicant in a safety-sensitive designated position or in a position that is legally regulated. If such a notice has already been provided to the employee in Fiscal Year 2019, the agency is not required to provide an additional notice of the designation to the employee during Fiscal Year 2019.

3. Each notice provided to an employee under this subsection shall include an acknowledgement of receipt, which shall be signed by the employee.

D. **Grantee and Contractor Warrants.** Grantees and contractors receiving federal funds through District agencies and/or programs must warrant that they are in compliance with applicable federal laws relating to drugs, including cannabis. Agencies that receive federal funds must comply with the federal Drug-Free Workplace Act, 41 U.S.C. § 8101 *et seq*. While the Drug-Free Workplace Act does not require drug testing, agencies shall require their contractors and grantees to adhere to suspicion-based and post-accident and post-incident testing protocols established by the District.

E. **Pre-Employment Drug Testing.**

1. Applicants for safety-sensitive and protection-sensitive positions are subject to pre-employment drug testing. Applicants for safety-sensitive positions may be disqualified based on the presence of cannabinoids, even if the applicant possesses a medical card authorizing the use of medical marijuana. Applicants for protection-sensitive positions may not be disqualified based on the presence of cannabinoids, unless the applicant is in possession of, or impaired by, cannabis at the time of testing.

2. If an applicant for a safety-sensitive position fails the drug test based only on the presence of cannabinoids, the personnel authority or hiring agency shall provide a second opportunity to take a drug test at least two (2) weeks after the initial test results have been provided. Notwithstanding the foregoing, the hiring agency shall not be required to provide the applicant a second opportunity to take a drug test if the agency determines it is necessary to immediately fill the position for operational needs, and the determination is approved by the personnel authority, or the test results show that the level of cannabinoids detected in the initial drug test indicates impairment at the time of testing.

3. An applicant for a safety-sensitive position who fails a second drug test shall be barred from applying for another safety-sensitive position in District government for a year from the date of the applicant's second test. The applicant may also be subject to further disqualification from the position pursuant to federal law. However, the applicant may apply for a non-safety sensitive position in the District government at any time.

4. If an applicant discloses recent cannabis use, an agency director may, but is not required to, postpone when the drug test will take place.

5. Each vacancy announcement for a safety-sensitive position shall clearly articulate that the position is subject to pre-employment drug testing for cannabis and that failing the drug test could result in disqualification, even if the applicant possesses a medical card authorizing the use of medical marijuana.

F. **Drug Testing of Employees.**

1. Safety-sensitive employees are subject to drug testing on a random basis, upon reasonable suspicion, or after an accident or incident.

2. Employees who are not in a safety-sensitive position will be tested for drugs only upon reasonable suspicion, or after an accident or incident. Thus, those employees not in safety-sensitive positions may find that they can use cannabis, with or without a medical card authorizing the use of medical marijuana, so long as they are not impaired at work.

3. An employee subject to drug testing, whether the testing is random for a safety sensitive position, reasonable-suspicion-based, or post-accident or post-incident, must promptly provide a specimen upon referral for a drug test. As set forth in Chapter 4 of Title 6-B of the DCMR, specimens will be sent to qualified laboratories for analysis and certification of results. If a "higher-quality impairment test" is available, the employee may request that the higher-quality impairment test be conducted at the same time or immediately before he or she provides a specimen for review. (For example, if an employee has recently used cannabis for medical purposes or adult-use purposes, and the employee believes that the drug test may result in a positive result for cannabis but the employee believes he or she is not impaired, the employee may request the higher-quality impairment test.)

4. If any employee tests positive for an unlawful or unauthorized drug, including cannabis, the medical review officer (MRO) shall contact the employee to determine whether the employee has taken any medication that would explain the positive result. If the positive result is consistent with the employee's valid prescription or recommendation for cannabis products pursuant to a medical marijuana program in the District, or an out-of-state program with which the District has reciprocity and where the employee lives, the reporting agency may excuse the positive result if the level of THC metabolites is too low to indicate impairment or if the test results indicate that the employee has only used CBD.

5. If the test result is consistent with a valid prescription or recommendation for cannabis, but the level of cannabis use or timing of cannabis use under the prescription or recommendation may impair the employee physically or intellectually while at work, the employee shall be counseled regarding the options to take leave until the impairment-causing use is no longer necessary.

6. An employee who tests positive for cannabis, even with a prescription or recommendation through a medical marijuana program recognized under

paragraph 4, shall be presumed to be impaired by the use of cannabis if the test was a reasonable-suspicion-based or post-accident or post-incident test. That presumption may be overcome by the employee if the employee presents clear and convincing evidence that he or she was not impaired at the time of the test. Clear and convincing evidence may consist of passing a higher quality impairment test, if such a test is available and taken immediately before or after the employee provides a specimen for the District government's test, as provided in paragraph 3 of this section. An employee may also attempt to overcome this presumption by demonstrating that the medication the employee uses is limited to CBD with only trace amounts of THC, or that the employee's use was so remote in time from when the employee reported for duty as to not present a risk of impairment.

7. Safety-sensitive employees who test positive for cannabis will be presumed to be in violation of relevant District and/or federal laws and policies regarding employment and the use of drugs, including the Child and Youth, Safety and Health Omnibus Amendment Act of 2004 effective April 13, 2005, D.C. Law 15-353; D.C. Official Code § 4-1501.01 *et seq*., and/or other District or federal laws providing for a drug-free workplace or protecting safety and health. That presumption can be overcome through clear and convincing evidence as provided in paragraph 3 and 6 of this section but an initial positive test result is a violation of this Order. Clear and convincing evidence may not be sufficient to overcome the presumption of violating federal laws and regulations while employed in a legally regulated position.

8. No employee shall be forced to take a blood test for the presence of cannabis, except as may be required by law following an accident or incident.

G. **Progressive discipline.** As provided in Title 6-B of the DCMR, agencies shall adhere to principles of progressive discipline, unless otherwise negotiated in a collective bargaining agreement (or as otherwise provided in Title 6-B), as they strive to maintain drug-free workplaces, to ensure that employees are not impaired on the job, and to retain valuable workers who may use cannabis in their off-work hours. Reporting for duty while impaired by or testing positive for an illegal drug or unauthorized controlled substance currently subjects an employee to suspension or removal for a first offense, and to removal for a subsequent occurrence under Chapter 16 of Title 6-B of the DCMR, and specifically, the Table of Illustrative Actions in Section 1607 of Title 6-B of the DCMR. Those penalties apply to employees with and without medical cards authorizing the use of medical marijuana, including employees in positions that are not safety-sensitive positions.

H. **Agency Response to Employee Acknowledgment of Cannabis Dependence, Addiction, or Use.**

1. Although the use of cannabis may subject a safety-sensitive employee to separation from employment, the agency should consider alternatives to separation as in other situations of dependence or addiction. An employee may request assistance through the Employee Assistance Program or seek treatment for an addiction to or dependence upon cannabis. An employee in a safety-sensitive position may be authorized to use sick or annual leave or may, with the agency's approval, take leave without pay, temporarily relieved of his or her safety-sensitive functions, or reassigned to a non-safety-sensitive position, while the employee seeks assistance or undergoes treatment.

2. An employee not in a safety-sensitive position may be allowed, with supervisory approval and at the discretion of the agency, to use leave to attend addiction-assistance programs during the work day, if the employee affirms that he or she is not and will not be impaired by or use cannabis during the work day. The employee may use sick or annual leave, or, with the agency's approval, leave without pay, in order to obtain assistance or treatment for a cannabis addiction.

3. An employee may inform an agency that he or she uses cannabis when the employee has been notified of an upcoming random drug test or after a positive drug test result. The agency should provide similar opportunities for assistance or treatment to the employee as described in paragraphs 1 and 2 of this section.

4. Safety- or protection-sensitive employees on leave for the purpose of assistance or treatment for use of cannabis may be given a fitness for duty test before returning to work, including a drug test, and they may be required to submit evidence of successful completion of a program before returning to duty.

I. **Medical Marijuana Cards.** An agency shall not take adverse employment action against employees or disqualify applicants simply because the employee or applicant has a medical marijuana card. An applicant or employee may have never used the card or may have used cannabis only during a period of leave and never on the job. Thus, it would be unfair to deny employment to an applicant or discipline an employee simply for having a card.

J. **Hiring of Individuals Previously Removed or Denied Employment for Cannabis Use.** An applicant previously denied employment or an employee removed from his or her position due to a positive cannabis test result or on-duty impairment due to cannabis use is eligible to reapply for jobs in the District government, subject to any limits imposed by federal law. While a former

applicant or employee may be eligible for employment, the applicant is not entitled to be hired, nor entitled to any specific position, pay, or benefits. If an applicant is applying for a job in a safety-sensitive position, and was previously removed from his or her position due to a positive cannabis test result, he or she may be subject to a pre-employment drug test, and evidence of cannabis use shall be disqualifying. If an applicant is applying for a job in a protection-sensitive position, and was previously disqualified from employment due to a positive cannabis test result, he or she may be subject to a pre-employment drug test, and evidence of cannabis use shall be disqualifying unless the applicant provides a valid medical marijuana card.

K. **Relation to Application of Past Policies.** Applicants previously denied employment and employees subject to discipline or removal under previous District government policies are not provided any rights or entitlement to return to their previous positions, and any values, changes, or policies articulated in this Order may not be relied upon in a grievance or action against the District government as an admission of an error or illegality in a determination made or action taken prior to the effective date of this Order.

V. NEW TECHNOLOGIES IN TESTING

DCHR, in conjunction with the Department of Forensic Sciences, shall investigate whether existing or new technologies and methodologies for testing for the presence of cannabis may be accurately used to determine current impairment from cannabis, rather than simply past use of cannabis, and shall report on the efficacy, validation, and costs of such tests to the City Administrator. The City Administrator shall determine whether such technology is appropriate to implement for District government employees and DCHR shall in turn provide new directives to agencies with personnel authority and alert independent personnel authorities to consider the use of the tests. The duty to keep abreast of technological developments in technologies and methodologies for testing for cannabis impairment is a continuing obligation of DCHR.

VI. IMPLEMENTATION

A. The Department of Human Resources ("DCHR") shall amend the District's personnel regulations (Title 6-B of the DCMR) and its policies and procedures as necessary, to conform to the provisions of this Order in accordance with its delegated authority pursuant to Mayor's Order 2008-92, dated June 26, 2008.

B. Each agency subject to this Order shall implement policies and procedures consistent with this Order.

C. Each agency that receives a federal grant shall seek guidance from its grantor agency and implement any additional policies that may be mandated by federal law or the grantor agency. The additional policies shall be communicated to all affected employees and acknowledged by affected employees on an annual basis.

D. All agencies, including those with personnel authority independent of the Director of the Department of Human Resources, shall provide a copy of their policies and procedures related to drug use and drug testing to the Director of DCHR. DCHR shall report to the City Administrator on whether the policies and procedures of the agencies are in compliance with this Order.

E. DCHR shall continue to develop specialized training materials for managers on suspicion of intoxication or impairment at work, including impairment from cannabis, alcohol, prescription medications, and controlled substances, and the procedures for obtaining testing, and continue to provide such training on a regular basis, with updates as technology evolves.

VII. RESCISSION

Any prior personnel policies or Mayor's Orders inconsistent with this policy shall be rescinded upon implementation of policies that flow from this Order, and to the greatest possible extent, the policies articulated by this Order and notices required by it shall be adopted forthwith.

VIII. EFFECTIVE DATE:

A. This Order shall become effective immediately.

B. This Order shall not take effect for an employee under a collective bargaining agreement for at least ninety (90) days to allow for their exclusive representative to engage in impact and effects bargaining.

OFFICE OF THE STATE SUPERINTENDENT OF EDUCATION

NOTICE OF FUNDING AVAILABILITY

NATIONAL SCHOOL LUNCH PROGRAM

FY2020 EQUIPMENT ASSISTANCE GRANT

Request for Application Release Date: Monday, October 7, 2019, 3:00 p.m.

The Consolidated Appropriations Act of 2019 (Public Law 116-6) authorized grants to the Office of the State Superintendent of Education (OSSE), Division of Health and Wellness, for providing equipment assistance to School Food Authorities participating in the National School Lunch Program (NSLP). The District of Columbia has been selected to receive funding in the amount of $70,451.00.

The Healthy Schools Act (HSA) of 2010 (D.C. Law 18-209, as amended; D.C. Official Code § 38- 821.01 et seq.) allows OSSE to issue grants through a competitive process or a formula grants process to public schools, and public charter schools for the acquisition of school kitchen equipment. OSSE is adding an additional $29,549 of HSA funds to the FY 2020 NSLP Equipment Assistance Grant, for a total funding amount of $100,000.

Eligibility and Selection Criteria: These funds will be available through a competitive grant process to public schools (i.e., schools within the District of Columbia Public Schools), and public charter schools and participating private/non-public schools. Priority will be given to high need schools where 50% or more of the student population are eligible to receive free or reduced-price meals. Priority will also be given to schools that did not receive a previous NSLP Equipment Assistance Grant award under the American Recovery and Reinvestment Act of 2009 and the FY 2010, FY 2013, FY 2014, FY 2015, FY 2016 FY 2017 and FY 2018 Agriculture Appropriations Acts. Applications will be scored on the following selection criteria: project vision and implementation, project justification, sustainability, benefit to students with disabilities, and budget justification.

These funds will make a significant investment by allowing the purchase of capital equipment used to serve healthier meals, meet the nutritional standards with emphasis on more fresh fruits and vegetables in school meals, improve food safety and expand accessibility to food services.

In order to make the most effective use of these grant funds, equipment requests must address at least one of the following focus areas:

- Equipment that lends itself to improving the quality of school food service meals that meet the dietary guidelines (e.g., purchasing an equipment alternative to a deep fryer or steam ovens that improve quality of prepared fresh or fresh-frozen vegetables)
- Equipment that improves the safety of food served in the school meal programs (e.g., cold/hot holding bags/equipment, dish washing equipment, refrigeration, milk coolers, freezers, blast chillers, etc.)

- Equipment that improves the overall energy efficiency of the school food service operations (e.g. purchase of an energy-efficient walk in freezer replacing an outdated, energy-demanding freezer)
- Equipment that allows sponsors to support expanded participation in a school meal program (e.g., equipment for serving meals in a non-traditional setting or to better utilize cafeteria space)
- Equipment that aides in strategies for adopting smarter lunchrooms (e.g. lunchroom changes that appeals to student population; highlighting convenience, healthy choices, and supporting menu changes to healthier options)

Length of the Award: All funds must be expended by September 30, 2021.

Available Funding for Award: The District of Columbia has been selected to receive funding in the amount of $70,451.00. OSSE is adding an additional $29,549 of HSA funds to the FY 2020 NSLP Equipment Assistance Grant, for a total funding amount of $100,000. The estimated number of award ranges from 7 to 12 with the minimum award amount being $1,000 and the maximum award amount being $25,000. Determinations regarding the number of competitive grant awards will be based on the quality and number of applications received and available funding. Successful applicants may be awarded amounts less than requested. Grant funds shall only be used to support activities authorized by the relevant statues and included in the applicant's submission.

Application Process: An external review panel or panels will be convened to review, score, and rank each application for a competitive grant. The review panel(s) will be composed of external neutral, qualified, professional individuals selected for their expertise, knowledge or related experiences. Each application will be scored against a rubric and applications will have multiple reviewers to ensure accurate scoring. Upon completion of its review, the panel(s) shall make recommendations for awards based on the scoring rubric(s). The State Superintendent or her designee will make all final award decisions. Applications must be submitted by November 22, 2019 at 3:00 p.m. Awards will be announced by December 20, 2019.

Pre-Application Question Period: To ensure an equal opportunity for all applicants, OSSE requests that applicants submit questions regarding the RFA electronically to Elysia DiCamillo by 3 p.m. on October 22, 2019. To ensure a fair process, questions submitted after October 22, 2019 will not receive responses. Responses to questions will be published by October 31, 2019.

GOVERNMENT OF THE DISTRICT OF COLUMBIA
BOARD OF ZONING ADJUSTMENT

Appeal No. 19713 of Isabelle Thabault, pursuant to 11 DCMR Subtitle Y § 302, from the decision made on January 16, 2018, by the Zoning Administrator, Department of Consumer and Regulatory Affairs, to refuse to revoke Building Permit No. B1712578, to construct a front addition to an existing one-family dwelling in the R-2 Zone at premises 3840 Legation Street, N.W. (Square 1857, Lot 49).

HEARING DATES: April 4, 2018; May 16, 2018; and June 20, 2018
DECISION DATE: June 20, 2018

ORDER DENYING APPEAL

On January 17, 2018, Isabelle Thabault (the "**Appellant**") filed this appeal with the Board of Zoning Adjustment (the "**Board**") to challenge the decision of the Zoning Administrator ("**ZA**") of the Department of Consumer and Regulatory Affairs ("**DCRA**") not to revoke a building permit allowing the construction of an addition and interior alteration to a principal dwelling unit at 3340 Legation Street, N.W. (Square 1857, Lot 49) (the "**Subject Property**"). Following a public hearing, the Board voted to **DENY** the appeal and to **AFFIRM** the determination of the ZA.

PRELIMINARY MATTERS

Notice of Appeal and Notice of Hearing. By memorandum dated February 14, 2018, the Office of Zoning ("**OZ**") provided a Notice of Appeal and Public Hearing to DCRA, specifically to the ZA; the D.C. Office of Planning ("**OP**"); Advisory Neighborhood Commission ("**ANC**") 3G, the ANC within which the Subject Property is located; the Single Member District Commissioner for 3G06; the Councilmember for Ward 3; the Council Chair and At-Large Councilmembers; the owners of the Subject Property; and the Appellant. Notice was published in the *D.C. Register* on February 23, 2018. (65 DCR 1852.)

Party Status. Consistent with Subtitle Y § 501.1, the parties to this proceeding are the Appellant, DCRA, Daniel Liebman and Elisabeth Davis (the "**Property Owners**"), and ANC 3G. There were no requests for intervenor status.

Appellant's Case. Appellant challenged the refusal of the ZA to revoke Building Permit No. B1712578 (the "**Permit**") from the Property Owners. The Permit authorized the construction of an addition and interior alteration to the principal dwelling unit at 3340 Legation Street, N.W. (Square 1857, Lot 49). Appellant alleged that the Permit was issued in violation of Subtitle B § 315.1(c) of the Zoning Regulations of 2016 because the Subject Property is an interior lot, attached on one side to Appellant's dwelling, and the Permit would allow construction to extend the front façade of the Subject Property beyond the front façade of Appellant's dwelling. In

January 2018, after issuance of the Permit, the Zoning Commission ("**ZC**") approved a text amendment (the "**Text Amendment**") that clarified the language of Subtitle B § 315.1(c) to state that a proposed building façade or structure facing a street lot line shall, "in the case of an interior-lot attached or semi-detached building, not be further forward or further back than the building façade of one of the immediately adjoining buildings." (ZC Order No. 08-06N.) Appellant also contended that the ZA had knowledge that the original language of Subtitle B § 315.1(c) intended to reflect this amended language to include semi-detached buildings, supported the Text Amendment to clarify the language, and should have retroactively applied the amended regulation to revoke the Permit. (Exhibit 22.)

DCRA. DCRA urged the Board to deny the appeal, asserting that the ZA correctly reviewed the Permit using the definition of an "attached building" contained within Subtitle B § 100.2 of the Zoning Regulations, as required by Subtitle A § 301.4. DCRA also asserted that the ZA correctly determined that the Text Amendment did not apply retroactively to the Permit, which was issued a month before the technical correction of the language was introduced in ZC Case No. 08-06N. (Exhibit 25.)

The Property Owners. The Property Owners urged the Board to deny the appeal, asserting that the Appellant did not meet the burden of proof because the ZA's interpretation of Subtitle B § 315.1(c) was reasonable based on the definition of "attached building" as included in Subtitle B § 100.2 of the Zoning Regulations. The Property Owners also asserted that the subsequent Text Amendment to Subtitle B § 315.1(c) is evidence that the original language of Subtitle B § 315.1(c) did not include semi-detached buildings at the time the Permit was issued. They contended that even if the ZA knew or agreed that the regulation intended to include semi-detached buildings, the Permit should be subject only to the actual language of the regulation and cannot be subject to regulations adopted four months after the issuance of a permit. (Exhibit 24.)

ANC 3G. The affected ANC did not submit a report stating any issues or concerns or otherwise participate in the proceeding.

FINDINGS OF FACT

1. The Property that is the subject of this appeal is a principal dwelling unit located at 3840 Legation Street, N.W. in the R-2 Zone.

2. The Property is improved with a semi-detached building (the "**Building**"), attached on the east side to Appellant's residence at 3838 Legation Street, N.W. There is an alley on the west side of the Property, and the only building attached to the Building is on the east side.

3. On November 9, 2017, DCRA issued Building Permit No. B1712578 to the Property Owners, authorizing the construction of an addition and interior alteration to the Building. The project consists of a two-story addition on the front of the property that includes a covered front porch, which extends the same distance as the front porch of Appellant's house, and the extension of the second-story front wall above the front porch.

This second-story expansion will project approximately 12 feet further forward than the second-story front façade of Appellant's dwelling. (Exhibit 5.)

4. At the time the Permit was issued, Subtitle B § 315.1(c) of the Zoning Regulations required that "[t]he building façade of an interior lot attached building shall not be further forward or further back than the building façade of one of the immediately adjoining buildings."

5. At the time the Permit was issued, Subtitle B § 100.2 of the Zoning Regulations defined the term "attached building" as "a building that abuts or shares walls on both side lot lines with other buildings on adjoining lots."

6. The term "semi-detached" is defined in Subtitle B § 100.2 as "a building that abuts or shares one (1) wall, on a side lot line, with another building on an adjoining lot and where the remaining sides of the building are surrounded by open areas or street lot lines."

7. At the time the Permit was issued, Subtitle B § 315.1(c) included no reference to semi-detached buildings, as defined in Subtitle B § 100.2.

8. Subtitle B § 100.1(g) of the Zoning Regulations states that "[w]ords not defined in this section shall have the meanings given in Webster's Unabridged Dictionary."

9. Subtitle A § 301.4 states that "any construction authorized by a permit may be carried to completion pursuant to the provisions of this title in effect on the date that the permit is issued."

10. On November 27, 2017, the Property Owners began construction on the addition.

11. On November 28, 2017, Appellant contacted DCRA to ask the agency to revoke the Permit on the grounds that the addition would violate Subtitle B § 315.1(c) of the Zoning Regulations because the Permit authorized construction to extend the front façade of the Building beyond the front façade of Appellant's dwelling. (Exhibit 41A.)

12. On December 8, 2017, OP filed with the ZC a technical correction to amend Subtitle B § 315.1(c) to read, "The building façade of an interior lot attached *to another* building shall not be further forward or further back than the building façade of one of the immediately adjoining buildings." (*Emphasis added*). OP's request for technical correction also stated, "OP has coordinated with the Office of the Zoning Administrator on this issue and they have confirmed their support for this clarification of what is understood to be the intent of the front setback rule of measurement and regulation." (Exhibit 22.)

13. On December 22, 2017, the ZC published a Notice of Proposed Rulemaking in the D.C. Register for the Text Amendment. (ZC Order No. 08-06N.)

14. On January 16, 2018, the ZA responded to Appellant in an email stating that Subtitle B § 315.1(c) does not apply to the Subject Property as the Building is not an "attached building" as set forth in that section, and, as such, the Building Permit will not be revoked and construction will be allowed to continue. (Exhibit 5.)

15. On January 17, 2018, Appellant filed the instant appeal to the Board and served the appeal on the ZA and the Property Owners. (Exhibit 4.)

16. On January 29, 2018, the ZC took final action to approve the Text Amendment. The Notice of Final Rulemaking states that the amendments shall become final and effective upon publication in the *D.C. Register* on March 2, 2018. (ZC Order No. 08-06N.)

17. The Text Amendment contains no provision that would compel the ZA to apply the revised text to prior building permit applications.

CONCLUSIONS OF LAW AND OPINION

The Board is authorized by § 8 of the Zoning Act to "hear and decide appeals where it is alleged by the appellant that there is error in any order, requirement, decision, determination, or refusal" made by any administrative officer in the administration or enforcement of the Zoning Regulations. (D.C. Official Code § 6-641.07(g)(1) (2008 Repl.).)

The burden of proof is on the appellant to justify the granting of the appeal. (11-X DCMR § 1101.2.) In meeting its burden of proof, the appellant must show that the decision of the ZA was clearly erroneous or inconsistent with the Zoning Regulations. *See Sheridan-Kalorama Neighborhood Council v. D.C. Bd. of Zoning Adjustment*¸ 411 A.2d 959, 961 (D.C. 1979). The Board must give great deference to the decision of the ZA when the ZA acts reasonably in interpreting the Zoning Regulations. *See id.*

Decision on Appeal

The administrative decision in this case is the refusal of the ZA to revoke the Permit authorizing construction of an addition and interior alteration to a single family dwelling at 3340 Legation Street, N.W. Appellant brings this case on the grounds that the ZA erred in not revoking the Permit because the Permit allows the Building to extend past the façade of Appellant's dwelling.

The Property Owners oppose the appeal and argue that a decision to not revoke a building permit is not an appealable decision. (Exhibit 24.) The Board disagrees with this argument. According to Subtitle Y § 302.1, any person aggrieved or affected by "an order, requirement, decision, determination, or *refusal* made by an administrative officer or body. . . in the administration or enforcement of the Zoning Regulations may file a timely zoning appeal with the Board." (*Emphasis added*.) The building permit is ordinarily the document that reflects a zoning decision about whether a proposed structure, as described in the permit application, conforms to the zoning regulations. *See Appeal No. 18980 of Concerned Citizens of Argonne Place* (2016), quoting *Basken v. D.C. Bd. of Zoning Adjustment*, 946 A.2d 356, 364, 367 (D.C. 2008); *see also Schonberger v. D.C. Bd. of Zoning Adjustment*, 940 A.2d 159 (2008). However, in light of the

pending changes to the Zoning Regulations at issue in the Permit, the email from the ZA can be appealed because it made a new determination, in writing, that the Text Amendment will not apply to the Permit and the Permit will not be revoked. Further, the ZA's refusal to revoke the Permit in this case was not an exercise of the ZA's discretion in the enforcement of the regulations, but rather a determination that no error was committed. (*See Appeal No. 18256 of ANC 1C* (2012) (Board held that "enforcement of the Zoning Regulations is a discretionary function left to the discretion of the ZA" and dismissed appeal alleging failure by ZA to take enforcement action where appellant failed to show any error by the ZA in the administration of the Zoning Regulations).

Merits of the Appeal

There are two issues on appeal: first, whether the Building is an attached building and thus subject to the limitations of Subtitle B § 315.1(c), and second, whether the Text Amendment should have been applied retroactively to revoke the Permit.

On the first issue, Subtitle B § 315.1(c) states that the building façade of an interior lot attached building shall not be further forward or further back than the building façade of one of the immediately adjoining buildings. Appellant argues that the ZA's refusal to revoke the Building Permit is in violation of Subtitle B § 315.1(c) because the Building is an attached building, as it shares a party wall with Appellant's property. (Exhibit 22.)

The Property Owners and DCRA argue that the Building does not meet the definition of an attached building because it is not attached on both sides. (Exhibits 24 and 25.)

According to Subtitle B § 100.2, an "attached building" is a building that abuts or shares walls on both side lot lines with other buildings on adjoining lots. The Board agrees with the ZA that the Building does not meet the definition set forth in the section because it shares only one side lot line with an adjacent building, and therefore meets the definition of a semi-detached building. At the time the Permit was issued, the language of Subtitle B § 315.1 included only attached buildings, not semi-detached buildings.

The Board is not persuaded by Appellant's argument that the Building should be considered "attached" based on the dictionary definition of the word. Subtitle B § 100.1(g) of the Zoning Regulations states that only words not defined in the section shall have dictionary meanings. Here, where the term is defined in the Zoning Regulations, alternative methods of statutory construction are irrelevant. Thus, the Board concludes that the ZA's determination on this point was reasonable and should be sustained.

On the second issue, Appellant argues that the Text Amendment demonstrates the intent of the Zoning Commission to have originally included semi-detached buildings in the restrictions of Subtitle B § 315.1(c). Citing language in the petition for technical correction by OP, Appellant contends that the ZA supported the Text Amendment because it correctly reflected the intent of the regulation. Thus, Appellant argues that the decision not to revoke the Permit was erroneous and the Permit should be reviewed in light of the meaning of the provision advanced by the Text Amendment. (Exhibit 22.)

In response, the Property Owners and DCRA argue that a permit is subject only to the regulations in place at the time of issuance and cannot be retroactively reviewed in light of new or amended Zoning Regulations. (Exhibits 24 and 25.) The Board concurs and concludes that the ZA's decision to not revoke the Permit was reasonable on that basis. According to Subtitle A § 301.4, any construction authorized by a permit may be carried to completion pursuant to the provisions of this title in effect on the date the permit is issued. . .." The Permit was issued on November 7, 2017, and the revisions to the language of Subtitle B § 315.1(c) were not in effect until the Notice of Final Rulemaking for the Text Amendment was published in March 2018. Thus, the ZA acted reasonably in not retroactively revoking the permit based on changes to the Zoning Regulations.

The Board is not persuaded by Appellant's argument that, because the ZA had knowledge of the impending Text Amendment and agreed with OP that the intent of Subtitle B § 315.1(c) was to include both attached and semi-detached buildings, the ZA should have revoked the Permit for violation of the regulations. The Board concludes that it is within the province of the ZA to make a reasonable decision based on the language of the Zoning Regulations at the time of the decision, not based on the language that the ZA or Appellant believe should have been included in the Zoning Regulations.

DECISION

Based on the record before the Board, as well as the findings of fact and conclusions of law herein, the Board concludes that Appellant has not satisfied the burden of proof in her claims of error in the ZA's decision not to revoke Building Permit No. B1712578 allowing the construction of an addition to the semi-detached building at 3340 Legation Street, N.W. (Square 1857, Lot 49). Accordingly, it is therefore **ORDERED** that the **APPEAL** is **DENIED** and the ZA's determination is **SUSTAINED**.

VOTE: 4-0-1 (Carlton E. Hart, Lesylleé M. White, Lorna L. John, and Anthony J. Hood to DENY; Frederick L. Hill not participating).
